Mrs. Sherman described Mrs. Eyers, though not without imperfections, yet an excellent person; as a small woman, of a sweet and pleasant temper, and of the greatest propriety of manners, to use her expressions, very genteel and respectable, universally esteemed and beloved, never did anything wrong, but always with propriety and gracefulness, was much of a gentlewoman, neat, elegant, beautiful, comely and graceful, admired by all gentle of character, and her acquaintance from abroad, who coming to town, would get some of the genteelest people in town to go with them to pay her a visit—And every one, high or low, always profited by her, were improved, instructed, and edified by her conversation, and pleased when they could visit and spend an hour at her house.—That she was rather reduced the latter part of her life, yet had the richest of apparel and furniture. Used to keep shop, but left off several years.—That her intellectual powers were clear to the last—An excellent christian.—I use Mrs. Sherman's words in this description, writing them from her lips. She adds, that her father was Mr. Isaac Allerton, of Boston, a sea Captain, who came early and settled in New Haven, and built a grand house on the creek, with four porches, and this with Governor Eaton's, Mr. Davenport's, and Mr. Gregson's, were the grandest houses in town. The house highly finished: he had a fine garden with all sorts of flowers, and fruit trees, and in the best cultivation. Mr. Eyers was also a sea Captain, pursuing foreign voyages up the Mediterranean and to the wine islands, and always had his cellar stored with wines and good liquors, and used to bring home much produce and foreign manufactures, and elegant Nuns' work. Both went long voyages, and both died abroad at sea near together, leaving her a young widow, who never married again. She possessed her father's, brother's, and husband's estates. Its respecting Mrs. Eyers. It is the strong and concurrent tradition that the Judges were secreted at her house, some say in a chamber, some in a closet,—probably both true.

Captain Wilmot, aged 82, remembers the story of their being hid in Mrs. Eyers' house when the pursuivants came there. He remembers the old house, that it was grand, like Mr. Davenport's, which he also knew, and all of oak and the best of joiner's work. There was more work and better joiner-work in these houses, he says, than in any house now in town. He is a joiner, and helped to pull down Mrs Eyers' house.

Judge Bishop, now mayor of the city of New Haven, aged 70, tells me he received from his aged grandfather Bishop, with whom he lived from his youth up, son of the Governor, and who died 1748, aged 82, the tradition concerning the Judges being hid under the bridge, and that the pursuivants were those who were sent from England. The Judge remembers Mrs. Eyers. She was a small, plump, round woman, a worthy character. He remembers her old house, which he says was one of the grandest in town, like Mr. Davenport's, and fit for a nobleman. She left three children."

☞ About four years ago the house of the Perkins family at Milburn, Mass., was burnt at night, and all the family, including father and mother, grandmother and eight children, eleven in all, perished in the flames! A Scotchman, by the name of Walter Mitchell, who lived in the neighborhood at the time, and who had a dispute with Perkins as to the property, was suspected of the murder, but no proof could be found against him. He left soon after for the West. This Mitchell recently died in Illinois, and on his death bed confessed that he committed the horrible crime. He stated that he threw into the house a bottle of liquid, which set fire to it, and stupefied the inmates—that Mr. Perkins aroused himself and came to the door, when he knocked him back again, killing him. This is a most revolting story, disclosing a depravity which was too horrible to die with the murderer.

A NEW REBEL FLAG.—The Southern rebels have become dissatisfied with their flag of stars and bars. They propose to have a new one. Among the substitutes, is one with a blue field and a spread white eagle in the centre. Change as often as they may, they will never find a flag equal to the glorious old banner of the Union.

CHANCES FOR PROMOTION.—The chances for promotion in the army were never greater, especially from the ranks, than at the present time. As soon as this fact becomes generally known, it is expected that enlistments will be more numerous than ever, not only in this, but in every part of the loyal States.

☞ The Boston Post, speaking of Hollins steam ram, which ran afoul of the Richmond, and broke its nose, says "this iron-clad nondescript was constructed at a cost of over $100,000, and appears to be about as formidable as a dredging machine."

PROPOSALS

Will be received by the undersigned, at Augusta, Maine, until noon of November, 1861, for SUBSISTENCE STORES for the troops stationed at Fort Scammel, Portland harbor, Fort McClary, Kittery, and Fort Sullivan, Eastport. The following amount for each Fort will be required to be delivered as follows:

7 bbls Mess Pork; 12 bbls Mess Beef; 13 bushels Flour; 1800 lbs Hard Bread; 5 bbls Beans; 180 lbs Rice; 360 lbs Coffee; 540 lbs Sugar; 18 galls Vinegar; 38 lbs Adamant Candles; 143 lbs Soap; 2 bushels Salt; 25 bushels Potatoes.

The provisions to be of the best quality, and to be subjected to "Inspection;" the supplies for Forts Scammell and McClary to be delivered at the Forts by the 9th of November, 1861; and those for Fort Sullivan five or ten days later.

Bids can be made for the supplies for any one of the Forts, or for all of them. Inclose Proposals for Subsistence.

S. EASTMAN,
Major 5th Infantry, A. C. S.

Augusta, Maine, Oct. 30, 1861.

FORECLOSURE OF MORTGAGE.

Notice is hereby given that the undersigned, as Attorney for Hannah S. Kenney, of Eliot, Me., on the twenty-ninth day of May, A. D. 1861, made peaceable entry into and took possession of a certain lot of land and wharf situate in Portsmouth, in the County of Rockingham and State of New Hampshire, bounded westerly by Market street, thirty-one feet eight inches; northerly by wharf and land formerly of Thomas Haven, now owned by the heirs of the late Samuel Fray; easterly by Piscataqua River, and southerly by land formerly owned by the late Joseph W. Leighton, and now occupied by Thomas S. Gammon,—together with the buildings thereon, conveyed to said Hannah S. Kenney, by Elisha Tripp, late of said Portsmouth, by his deed dated July 1, 1856, recorded in Rockingham registry of deeds, Lib. 365, Fol. 356, for condition broken, and for the purpose of foreclosing the right in equity of said Elisha Tripp, or of John M. Davis, or of Samuel Jaquith, D. F. Hall and Samuel Andrews, or any, or all, or either of them, or of any other person or persons whomsoever, to redeem said mortgaged real estate, and at the same time publicly declare the purpose and object of said entry and possession. WILLIAM H. HACKETT, Atty. for HANNAH S. KENNEY, Mortgagee.

Portsmouth, N. H., November 2, 1861. 3t28

Special Notices.

WISTAR'S BALSAM

OF WILD CHERRY

For the cure of *Coughs, Colds, Hoarseness, Asthma, Influenza, Croup, Whooping Cough, Bronchitis, Predisposition to Consumption, &c., &c.*

This great remedy is too well known, and is performing too much good, to make it necessary to go into an elaborate discussion of its merits. Suffice it to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, seldom have occasion to resort to other appliances to insure a perfect restoration to health.

Letter from Elder H. L. Gilman, a Minister of the Gospel.

GLOVER, VT., June 20, 1859

Messrs. S. W. FOWLE & CO.,

Gents:—I hereby certify that I have been troubled for several years with a difficulty in the heart and lungs, and have applied to several physicians for help, and have tried almost every remedy of the numerous ones which have been recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of WISTAR'S BALSAM OF WILD CHERRY about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the *best* lung medicine before the public, and I most cheerfully and conscientiously recommend it to all persons suffering with pulmonary consumption.

H. L. GILMAN.

From the Editor of the "Rising Sun," Richmond, Me.

DR WISTAR'S BALSAM OF WILD CHERRY AND THE OXYGENATED BITTERS.—Our readers will pardon us for venturing an opinion of these *celebrated remedies*, which have been so long before, and have become so popular with, the public. They are often disposed to cry "humbug" against the greater number of Patent Medicines at the present day, and this, no doubt, to a certain extent, may be justifiable; but, convinced of the superior efficacy of the above articles as remedial agents, with the assurance of the eminent skill of the medical fraternity, we can cheerfully recommend them to the *Consumptive* or *Dyspeptic* sufferer as being every way worthy their confidence and a thorough trial.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; Frank T. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere. oct31

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its superiority by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. H. PRESTON and all druggists my28 4aw3m

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28aw3m

Sold by W. R. PRESTON and all druggists.

FLOWER POTS! FLOWER POTS!

Now is the season for potting Plants. You will find the best assortment of Glazed and Unglazed FLOWER POTS, at 44 MARKET SQUARE.

L. LAIGHTON.

Local.

☞ A party of gentlemen from Concord and Manchester, accompanied by Superintendent Gilmore, of the Concord Railroad, visited this city on Friday. They drove to Candia in private carriages, to examine the present condition of the new extension of the C. & P. R. R., and came thence in an extra train. The building of the new depot in this city, and the laying of the new track to Manchester, are to progress rapidly, and it is confidently expected that the road will be open for travel by the first of January. Good, so.

SUNDAY SERVICES.—Rev. Joseph H. Allen, of Jamaica Plain, is expected to preach at the Unitarian Church to morrow.

Rev. Mr. Sanborne will preach at the North Church.

THE LIGHT FANTASTIC. — Mr. Lamprey commences a short Fall Term of Dancing School this afternoon. See advertisement.

☞ We understand that the Hutchinson family intend to give one of their popular concerts in this city in a few days.

☞ People who read the theatre programme for Friday, wondered what "Je ne scai quoi" meant. Dot said *he* didn't know.

☞ Hon. John P. Hale, U. S. Senator from this State, was in this city, on Friday.

For the Chronicle.

☞ The unpardonable sin of Fremont, against slavery, was in his saying that slaves shall become free men. It will never be forgiven him in this administration, but in the one to come, when the people shall make up their jewels, it may be said to Fremont, "Well done, good and faithful servant; be thou not ruler of ten cities, but President of the United States."

A TRUE SOLDIER.—The Fort Pickens correspondent of the New York Tribune writes that a short time ago Col. Brown in command at Fort Pickens, wrote for the third time to Washington, asking to be released from instructions which keep him inactive.

NAVAL.—The steam frigate San Jacinto, from the Coast of Africa, bound to New York, was at Trinidad on the 24th of September.

The Navy Department has ordered an iron clad ship of war to be built at Philadelphia, to be ready for service in eight months.

A recent earthquake in the region of Lynn, Mass.,—"two perceptible shocks"—was caused by the firing of guns off the harbor for a pilot.

☞ John B. Gough lectured at the Tremont Temple in Boston on Thursday evening.

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

WINTER ARRANGEMENT.—On and after Monday next, the afternoon trains will leave Boston and Portland at 2.30, and meet each other in Portsmouth at 5 o'clock.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda. It is much better. Try it. Grocers and Druggists sell it. 3td

To Cure Dyspepsia, has long been a consummation devoutly to be wished," by the physician and the patient. The cures effected by the *Oxygenated Bitters*, should satisfy both classes, that under whichsoever of its Protean forms this disease appears, it readily succumbs to the above remedy.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sandwich Grapes for Speer's Wine. It is an admirable article, used in families and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

☞ **Volunteers for the War**
Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

MARRIED,

In Exeter, Oct. 29, Mr. GEO. H. REYNOLDS to Miss ANN ARNELIA ANDERSON.
In Saco, Mr. B. B. BABBITT, of Portland, to Miss SUSAN NOTONBY, of Saco.

DIED,

In Dover, Mr. ABEL KIMBALL, aged 73.
In Nottingham, Mr. AARON BRIDGE, aged 47.
In Newburyport, Mr. PATRICK CONNOR,—47.

Ship N Gouday, Henry, sld San Francisco 26th for London.

The Rev. J. C. Fletcher gave us last evening, a brilliant lecture on the religion, customs and people of Brazil. Seldom have we relished anything more than the picture he laid before his audience of that exuberant garden of the tropics laden with its strange variety of fruits and flowers, teeming with perpetual harvest for the hand of man. Surely that country must be the garden of the world, and if its people had the enterprise which moves this Yankee nation, imagination could not set a bound to the results they would produce there. As relevant to this comparison the Reverend gentleman stated that the best Remedies employed there for the diseases to which they are subject, are invented and supplied to them by our own well known countryman, Dr. J. C. Ayer of Lowell, Mass., and that not the people only, but the priesthood and the court of the Emperor down, have constant recourse in sickness to the Remedies of this widely celebrated American Chemist.—*Ledger, Boston.* 1t daw

NEW ENGLAND
Single Stitch Family Sewing Machine.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its use. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every family, than any other machine now offered to the public.

G. P. PUTNAM, Publisher,
532 Broadway, New York.

Drs Jackson, Herbert & Co.
15 Greatest Medical Circular Ever Published! 15
Fifteen cts large pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1850, for the cure of Private Diseases.**

Prof. Egbert Jackson, Dr. Robert Herbert and M. Volpeau, Therefore cures effected with the most incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diseases of Secession*, in short, every possible form and variety of Sexular Disease, and at the same time the *general health* of the patient improved; where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special system Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Room of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 3 P. M till 8 P. M.; at other hours either Dr. Herbert or M. Volpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantees of our skill, secrecy and fair dealing promptly given if desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long, and varied experience will admit. P. O. Box 486. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular, and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

"EVERYBODY"
WHO USES
HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE
Is convinced of the fact that
It Will Restore the Natural Color of the Hair,
Where age or sickness has turned it gray, and that it will render it soft and glossy.
"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

Messrs. W. E. Hagan & Co.—I hereby certify that my hair having become gray, and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four fold bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOMBAUGH.

Sold everywhere—price 50c., and $1 per bottle.

THERE IS NO USE
Introducing Testimonials,
Altho' we have very many of them,
—FOR THE—
MAGNOLIA BALM.

For when the face is covered with unsightly pimples or Blotches, the sufferer cares only to be directed to use some *safe and reliable remedy.*

THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A SINGLE WEEK.

It is so *safe* a remedy, that the contents of a bottle might be drank without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and cheap article ever put up, sells anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

ZOLLICKOFFER'S
NTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF
INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as RHEUMATISM in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, or other forms of acute disease.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided Inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all hope of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is alleged to be an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be safely inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely relieved, and to all appearances cured. As a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the incomparable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI RHEUMATIC CORDIAL." Prepared only by THEODORE MILLS, Chemist,

N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and languishing? Are you out of order, with your system disorganized, and your feelings miserable? These, and a thousand other symptoms, are often the prelude to serious illness. Some ill of disease is coming upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and invigorate the stomach and bowels, and restore health again. They stimulate the functions of the body into vigorous activity, purify the system from the corruptions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. Thus, if not relieved, it set upon themselves and the surrounding organs, producing general aggravation, suffering and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the lost health and feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and surely cured by these pills, when all else fails. Some who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1855.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we have yet met with. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Engel, Baltimore.

DEAR REG. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that is your best will a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLY, (Clerk of Steamer Clarion.)

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. I have now given them proved more efficacious for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

DR. AYER: I have used your Pills in my family and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quite marked, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disorder to which the mild but searching grip of them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Gross, of Chicago.

Your Pills have had a large trial in my practice, and I could form in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy for disease in which it is concerned, as Dysentery and Diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in Sickness. In regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

The words cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join in my unchecked lay to for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the parentage of others that are worse. Believe me sincere to originate in the liver, but your Pills affect that organ and cure the disease.

From Mr. E. Sherr, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the spasmodic fits when wholly or partially suppressed, and also very efficacious to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PULASKI HOTEL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were soon felt, but were. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease, from which I suffered for years. VINCENT SLADELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, but none the dreadful mineral whose effects frequently follow its incautious use. These pills no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

1861.

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in f ont of the fire, are obvious, viz.:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the fires of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz.:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The extension of external air between these plates, for the ventilation of the roasting oven, tends a so to the preservation of the plates most exposed to destruction.

3d. The durable damp grate, with the ash box of ample size to receive the ashes and coals, is an a tractive feature of the stove.

4th. The draft door, at each end of the fire box, is a great convenience, when a quick fire is wanted.

5th The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th The stove has but one damper, and but one division of fires at the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and air packets are provided for the back and bot ss plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TENNEY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of store patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to Messrs. J. M. Mathes, N. K. Walker, C. C. Jackson, C H Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—the fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Modal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVE,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN OLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c

4. Also, by the aid of the TOP COVER, a coal fire may be kept up through the night, and *break fast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being concentrated on it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas-burning arrangement," and application of the principle of the Bunsen burner, the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last;* and *will last.* The structural form is such that the frame-work of it cannot burn out.

All the plates constituting the original STEWART STOVE, which was brought out 15 years ago, are still made, and sent to different parts of the country on call.

The price of QUIETNESS, COMFORT and HEALTH secured to family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and NOT found wanting in any particular. Yet, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861 is as superior to that of 1841, as the Mowing Machine is to the Scythe.

And here we will venture to refer to, and explain if not refute, the statements of one of our city friends, in reflecting the Stewart Stove, in comparison to another almost-unknown Cook Stove. The gentleman the one named, as using and admiring the Stewart, never had one of the NEW, improved Stewart's, but did for a long time use one of the old pattern; and it gave such complete satisfaction that he have recently furnished three members of the same family, with the new improved Stewart;—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

Uriah Blaisdell.

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

C. E. MYERS. C. E. SIMPSON.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

Portsmouth, N. H.

MONDAY, NOVEMBER 4, 1861.

FREMONT ITEMS.—A Massachusetts volunteer writes from Washington, Oct. 27:—

It is singular fact, but nevertheless a fact, that the defeat at Edward's Ferry has put a stop to the proceedings against Fremont. The fact that the federal army in Missouri seems to be doing well, while that of the Potomac is doing nothing, or very badly, is too great a fact to get over, and Gen. Fremont, for the present, is untouched. It is quite likely that he will not be removed at all, though the President went so far a few days since as to give out that the matter was decided on. It is now decided that he shall have time to give Price a drubbing, and if he should win a great battle, he will remain.

It is stated by the N. Y. Tribune that the body guard of Fremont, which made so gallant a charge on a superior force of rebels at Springfield, includes the officers who were commissioned by Gen. Fremont without authority and whose pay is refused on that account. When Gen. Fremont called them together and told them the action of the government, they unanimously decided that, though the pay was needful to them, it was no mercenary or personal motive that brought them into the field, and, pay or no pay, commission or no commission, they would remain in it as long as the country needed their services. Major Szagonyi, (not Seagoyite) who led the gallant charge, is one of those who serve without pay.—He was formerly an officer under Garibaldi, and achieved many brave deeds in the Italian war. This body guard of Fremont has figured largely in the descriptions of his oriental display and ostentation, but it seems to have the genuine fighting qualities.

The commission consisting of Messrs. Davis, Holt and Campbell, sent to St. Louis, are not to look into Gen. Fremont's accounts, as at first reported, but in those which originated prior to his appointment. The Tribune states that one of the reasons why the president hesitates to issue an order superseding Gen. Fremont, is that it appears that on the whole, no other military department has been managed with such economy as his. This is amusing since the only charge against Fremont supposed to be sustained was that of extravagance.

☞ E. M. Davis, Asst. Quarter Master under Gen. Fremont, publishes a letter in the Philadelphia Bulletin, in relation to Adjt. Gen. Thomas' letter to Secretary Cameron. He exculpates Fremont from any connection with his purchase of blankets, and says that when the report of the Board reached Fremont, he expressed great displeasure and ordered the blankets to be returned. They were not returned as rotten and worthless, and the only fault that could be found with the purchase was the economy practiced in making it, the average price of the blankets being $1,40. They were part cotton. Mr. Davis says he made the purchase in his official capacity.

☞ From his Continental retreat, M. Kossuth has addressed an elaborate letter on the affairs of Hungary, to a friend in Glasgow. He expresses his approval of the attitude assumed by the dissolved Diet, and commends the policy of passive resistance to the Austrian government. He scouts the proposal of a compromise with the House of Hapsburg, but still advises his countrymen to bide their time. The present state of things is almost insupportable, and must soon come to an end; but he desires that Italy and Hungary should act together against their common enemy, and that, if possible, not a gun should be fired on the Danube, until the Italians are ready to march upon Venice.

☞ Recent letters from Mexico state that that Government is making strenuous efforts to raise funds, by a loan from our Government or otherwise, to build a navy and procure arms and ammunition in the United States, to protect itself against Spanish aggression. It was expected that orders and means would be sent by the next mail to a party in this country to carry out the design. This looks as if Mexico is not disposed to submit without a struggle to European interference.

☞ It is reported that Harry Addison, in Portland, made a run a short time since, on a carrom game with three balls, of 241 points; also last Saturday, in the presence of several gentlemen, he run 197. With four balls, in the regular game, he run over 400 points. He must be pretty handy with his cue.

☞ Gov. Andrew has appointed Thursday, the 21st of November, as a day of Thanksgiving in Massachusetts—being the anniversary of the day of signing the original compact of Government on board the May Flower.

☞ Maj. Gen. Dix has issued a proclamation at Baltimore, directing the arrest of all persons who, having acted in a treasonable manner towards the United States, attempt to vote at the coming State election in Maryland.

☞ Mr. Benjamin Bridges, of York, Me., has been appointed keeper of the Boon Island Light House, vice George B. Wallace, deceased.

NEW HAMPSHIRE ITEMS.

—— The Littleton Journal "learns with much pleasure, that the young ladies and gentlemen of that village are actively engaged in getting up a series of theatrical performances, the avails of which are to be appropriated exclusively, to providing necessaries and comforts for our brave brethren who have gone to the wars." And it adds:—"Here then we find pleasure, utility and patriotism all combined, a combination preponderating so largely for good, as to outweigh all objections which the most fastidious might have to this kind of amusement, when considered simply as an amusement."

—— Mr. George R. Holt, of Nashua, has been appointed Assistant Engineer in the U. S. Navy.

—— Fred. S. Manning, of Lyndeboro', private in the 5th regiment, was shot in the wrist in camp at Concord, on Monday afternoon. He was putting the pistol into his pocket, holding it by the muzzle, when by some means it was discharged, the ball entering at the wrist joint. The Nashua Telegraph says, he was carried to the surgeon's quarters, and *somebody* cut our great, ugly gashes in his arm at different points between the wrist and the elbow, without finding the ball. He then told him he had better go home, and sent a man to the depot with him. When he arrived at Nashua he was on the floor of the car, nearly insensible. Gov. Berry hearing of it, sent to Dr. James B. Greeley to attend to him. By inserting a probe the ball was found about three inches above the point of entering, and was easily removed. The gashes cut by the bungler in camp were left gaping open.

—— One Augustus Hudson has been hanging round Manchester, for a day or two, the Mirror says, with his right arm closely bandaged and in a sling, and his left hand and wrist also tied up. He claimed to have received his injuries at Bull Run. He excited the sympathy of many, and representing himself in need, he obtained several sums of money. He obtained $5 of one individual. But on Friday the curiosity of one of his listeners was so far excited that he ventured to remove the bandage; when lo! the wounded arm was made an "offensive weapon," and the would-be investigator received a cuff for his temerity. The hero of Bull Run was immediately taken to the City Marshal's office, where the bandage was removed, and an arm, which was as good as any, was displayed. To make the deception more complete he had dropped tincture of iodine upon the cloth, to represent blood. He said he was from Springfield, Mass., and that he had been practising this imposition upon the public for upwards of six weeks.

—— The Sixth Regiment will go into camp, at Keene, as soon as the tents, now making at Portland, are furnished, which will be in a week or two. Five hundred enlistments are reported, and recruiting still continues finely. The regiment is to be armed with Sharpe's Rifles.

—— The American says the Amoskeag Manufacturing Company of Manchester have just filled an order given by the Russian government for a first class fire steamer. The machine is completed and has been tried. It was ordered through Col. Romanoff of the Imperial Board of Engineers, and is to be forwarded to the city of Amoor, Siberia, on the Amoor River.

—— A party of five gentlemen went from Dover to Saco Pool and vicinity, on a gunning excursion. That locality was found to be abundant in wild duck and various other water fowl, and a very short space of time found the lucky men with 127 good, fat ducks, as ever adorned a table and satiated the appetite of hungry men.

—— The Cavalry Boys received their bounty Thursday. The men are all provided now with comfortable quarters at different boarding houses Mancheter, but it is probable that they will soon be ordered either into camp or barracks. The second company, under the command of S. R. Swett, of Andover, is nearly or quite full. And it is expected that two additional companies will be raised, the four companies forming a battalion to be commanded by some Major selected by Gov. Berry. As soon as they are all equipped, uniformed, and provided with horses, they will go to Providence into a camp already provided by Gov. Sprague, where a large portion of the second battalion of the Regiment is now stationed. The third battalion is to be raised by other New England States, and sent to Providence as fast as ready. No expense will be spared in furnishing this regiment with everything necessary to make it the crack cavalry regiment in the service.

—— The Laconia Democrat says Seth Tasker, Esq., a Douglas democrat, a thorough Union man, and a firm supporter of the administration in its constitutional efforts to restore the Union, has been appointed Postmaster at Centre Barnstead, vice S. F Merrill, resigned.

—— On Wednesday last, a gentleman in Concord received, by telegraph, an invitation to dine with his son-in-law in San Francisco.

—— A short time since a young man in Carroll County, under the age of twenty-one, but who had his time given him by his father, enlisted as a soldier in the 6th regiment without his father's consent. A writ of habeas corpus was taken out and the question of his discharge considered by Judge Bartlett, who decided that the enlistment was a legal civil contract; that the father had given the son authority to make it under the statute, and that it was binding.

—— The Granite State Free Press states that among the "recruits was Mr. John Corliss, of Grafton, who deserves special mention. He leaves behind him a wife and seven children. The neighborhood where he resides is strongly secesh, he being the only Union man in it, and among the worst of the rebel sympathizers is his own father, who has wished some pretty hard things in relation to our noble defenders. An army made up of such men as the sons would be hard to conquer."

THE REBELLION.

Lieut. Gen. Scott, after a long life spent in the service of his country, is compelled by physical infirmity to retire from the command of the army. In his letter to the Secretary of War he says:—

"For more than three years I have been unable, from a hurt, to mount a horse, or to walk more than a few paces at a time, and that with much pain. Other and new infirmities, dropsy and vertigo, admonish me that repose of mind and body, with the appliances of surgery and medicine are necessary to add a little more to a life already protracted much beyond the usual span of man. It is under such circumstances, made doubly painful by the unnatural and unjust rebellion now raging in the Southern States of our lately so prosperous and happy Union, that I am compelled to request that my name be place on the list of Army officers retired from active service."

At a special Cabinet Council on Friday morning, it was decided that Gen. Scott's request, under the circumstances of his advanced age and infirmities, could not be declined. Gen. McClellan was therefore, with the unanimous agreement of the Cabinet, notified that the command of the army would be devolved upon him.

The rebels are said to be collecting a large number of boats at three points on the Potomac.

The Government has now nearly fifty thousand cavalry in the field and under marching orders.

A considerable portion of the rebel force at Columbus, Ky., has been sent to Bowling Green, and it is expected that a great battle will soon take place in that region.

The various divisions of the army in Missouri are probably concentrated at Springfield. Col. Mulligan, the hero of Lexington, has been released or exchanged by Gen. Price, and is on his way home.

Gen. Harney and suite passed through Indianapolis on Tuesday last, en route for Missouri, where, it is said, a command has been assigned him.

EFFECT OF THE REBELLION.—A letter dated at Philadelphia, Oct. 16, says:—

"People are anxious about the future, but three things, already facts, rejoice me, and almost reconcile me to the dawdling way that events now go on. 1st—We are a nation as truly as England or France is, and not a mere aggregation of individuals ready to fly apart, as seemed to be the case seven months ago. That was a dark time. 2d—The Southern monopoly of Cotton is doomed. 3d—The hellish enchantment which the Southern character exercised over the Northern imagination is dispelled, and instead of being the crack gentlemen and ladies of the land, the Southerners are found to be the ruffians and savages of the nation. It is wonderful how every thing is adjusting itself to a new order of things. People are reconciling themselves to their losses—our streets are orderly and cheerful—the harvest abundant—money easy—and business goes on the *cash* principle, so much better than the excessive credit."

☞ The Boston Post says the rebels have an enemy in their midst which will soon prove more formidable and tend more certainly to inaugurate terror among them than Gen. McClellan's army or the secret naval expedition. It is the deplorable condition of their finances, and the great want of the "sinews of war." There is a reckoning day approaching on which shinplasters will be forced to show their value.

☞ In a recent case where one of the New York regiments took the fence rails belonging to a loyal Virginia woman, to use for firewood, Gen. Wadsworth issued an order requiring the regiment to go into the woods cut new rails, and rebuild the fence destroyed.

☞ The Louisville Courier of the 19th ult. had a report of the death of Ex-Governor Houston of Texas, which is said to have occurred October 6th. A letter, however, from Houston, dated the next day, states that he was still alive, and some hopes were entertained of his recovery.

☞ A dinner, celebrating Gen. McClellan's assumption of the command of the U. S. army, was given Friday night by the Secretary of State. The entire Cabinet was present. During the evening, Gen. McClellan was absorbed with his new duties. The President was with him for several hours.

NAVAL.—At the Brooklyn Navy Yard, about three thousand men are kept fully employed. This is the largest force at any of our Navy Yards. The new sloop-of-war Oneida is rapidly approaching completion, and the carpenters are already at work preparing the launching ways. The U. S. steam sloop Hartford, Com. Lowndes, from Hong Kong for Philadelphia, passed Anjier Aug. 23; and the U. S. steam sloop Dacota, Com. McKinstry, from Hong Kong for Boston, passed Anjier Aug. 28.

The Naval Department, says the New York Herald, having become convinced of the necessity of keeping peace with the great maritime powers of Europe, in the improvements which have lately taken place in shipbuilding, are now using every means to increase the number of iron-clad vessels and steam batteries. From present appearances we shall soon have a large number afloat, which will rival, if they do not surpass, the Warrior, Mercy and Gloire, recently launched from the dock yards at Woolwich and Cherbourg.

The first plates of a new iron clad steam battery were laid on Thursday last, by Mr. T. F. Rowland, at the Continental Works, Greenport, L. I. She is to be launched about the middle of December, and has one hundred and sixty men employed on her, night and day. Her dimensions are: length 175 feet, breath of beam 40, depth 12. Her hull, where protected by the water, will be formed of wrought iron plates five-eighths of an inch thick, and above the water mark the plates will be six inches thick. But very little wood is to be used, and the decks will be protected by plates of one inch thick. She will be fitted up with Ericsson's patent steam engines. She will carry two 12 or 15 inch Union or Rodman guns, mounted inside an iron fort twenty feet in diameter and ten feet high. The plates of the fort are to be eight inches thick. The guns can be brought to bear on any given point without changing the position of the vessel. This is accomplished by means of a turn-table, on which the fort will be turned by gearing connected with her machinery. The steersman will be placed inside the fort, and when in action all the crew will be protected. She is water-tight and fire-proof, and her deck, which is only eighteen inches above the water, may be swept from stem to stern without any damage being done, as nothing will be exposed either to the action of the waves or the shot of the enemy.

MARRIED,

In Newburyport, Rev. ALBERT B. PEABODY, of East Longmeadow, to Miss SARAH A. E. PINGRY, daughter of Mr. Daniel Pingrey, of Newburyport.

DIED,

In Greenland, Oct. 7, FRANK EDDY BALL, aged 14 months, son of the late George G. and Ellen M. Ball.

In Newburyport, Miss MARY GRIFFIN, aged 90.—Mrs. FANNY DISNEY, aged 55, wife of Capt. John Disney.

In Dover, Mrs. MARGARET P. RAND, aged 68, wife of Leonard S. Rand, Esq.

In Farmington, Jos. F. TWOMBLY, aged 25.

PROPOSALS

Will be received by the undersigned, at Augusta, Maine, until the 6th of November, 1861, for SUBSISTENCE STORES for the troops stationed at Fort Scammel, Portland harbor, Fort McClary, Kittery, and Fort Sullivan, Eastport. The following amount for each Fort will be required to be delivered as follows:

7 bbls Mess Pork; 12 bbls Mess Beef;
13 bbls Flour; 1800 lbs Hard Bread;
5 bushels Beans; 180 lbs Rice; 360 lbs Coffee;
540 lbs Sugar; 10 gals Vinegar;
38 lbs Adamant Candles; 143 lbs Soap;
2 bushels Salt; 25 bushels Potatoes.

The provisions to be of the best quality, and to be accepted to "Inspection," the supplies for Forts Scammell and McClary to be delivered at the Forts by the 9th of November, 1861; and those for Fort Sullivan five or ten days later.

Bids can be made for the supplies for any one of the Forts, or for all of them. Inclose Proposals for Subsistence
S. EASTMAN,
Major 5th Infantry, A. C. S.

Special Notices.

WISTAR'S BALSAM OF WILD CHERRY.
For the cure of *Coughs, Colds, Hoarseness, Asthma, Influenza, Croup, Whooping Cough, Bronchitis, Predisposition to Consumption, &c., &c.*
This great remedy is too well known, and is performing too much good, to make it necessary to go into an elaborate discussion of its merits. Suffice it to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, seldom have occasion to resort to other appliances to insure a perfect restoration to health.
Letter from Elder H. L. Gilman, a Minister of the Gospel in Vermont.
GLOVER, Vt., June 20, 1860
Messrs. S. W. FOWLE & CO.,
Gents:—I hereby certify that I have been troubled for several years with a difficulty of the heart and lungs, and have applied to several physicians for help, and have tried almost every remedy of the numerous ones which have been recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of WISTAR'S BALSAM OF WILD CHERRY about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public, and I most cheerfully and conscientiously recommend it to all persons suffering with pulmonary consumption.
H. L. GILMAN.
From the Editor of the "Rising Sun," Richmond, Me.
DR WISTAR'S BALSAM OF WILD CHERRY AND THE OXYGENATED BITTERS.—Our readers will pardon us for venturing an opinion of these *celebrated remedies*, which have been so long before, and have become so popular with the public. They are often displeased to cry "humbug" against the greater number of Patent Medicines at the present day, and this, no doubt, to a great extent, may be justifiable; but, convinced of the superior efficacy of the above articles as remedial agents, with the hearty endorsement of the medical fraternity, we are cheerfully recommend them to the *Consumptive* or *Dyspeptic sufferer* as being every way worthy their confidence and a thorough trial.
Prepared by SETH W. FOWLE & CO., Boston, and sold by
Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; Samuel Tucker, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B Sanford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere. oct31

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by
USING
Bryan's Pulmonic Wafers!
References can now be given to some of the principal physicians and clergymen, individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.
Price 25 cents per box. Sold by W. R. PRESTON and all druggists mw28 dawtu

American Women.
America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, palpitation of the Heart, Low state of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

Local.

☞ The Ladies of the Soldiers' Aid Society would give notice that their rooms in the Custom House will be opened from the 10th to the 15th of this month, for the purpose of packing Hospital stores for the Volunteers, and an opportunity will be offered for any contributions, either of Blankets, Bedding, good knit Socks or Clothing of any suitable kind. Stores for the sick, such as Farina, Cocoa, Dried Fruits, Jellies, Wines, Sago, &c. Also reading matter in the shape of Books, and Pamphlets, all of which continue to be much needed, and would be very acceptable. All articles will be carefully packed and forwarded to suit the wishes of the donors.

Messrs. Editors,—Sirs, I have frequently missed the Chronicle from my door step and this morning my wife caught a glimpse of the thief. A few minutes after the carrier left the paper we heard the foot steps of a man coming up the steps, upon which my wife raised the window and saw the *Umbra* with paper in hand marching off. Finding himself discovered, he immediately brought it back. He was a decent *looking man*, wearing a California hat, but he was a stranger to us. I wish you would caution him through your paper that for the future I shall keep a handfull of salt deposited in a double barrel gun, over so much powder, always in readiness for the benefit of newspaper thieves, and the next time one is caught in the like act round my premises he will require only a little *pepper* to keep his carcass well seasoned for the remainder of this *Season*.

J. M. H., 118 State Street.

Portsmouth, Nov. 2.

☞ A gentleman, who must be somewhat of a philosopher, a short time since arrived in this city from Norfolk, Va., whence he had managed to escape. For a time he was in great anxiety on account of his wife and children, whom he had been compelled to leave behind him. But within a few days they have joined him here; and he, learning that the rebels had confiscated his house, quietly remarked "I don't care about the coop, so long as I have got the chickens safe."

ACCIDENT.—On Saturday afternoon last, a caulker named Burnham, from Essex, Mass., employed on the Portsmouth Navy Yard, while endeavoring to reach a bundle of oakum, on a scaffold in the Ossipee shiphouse, lost his foothold on the staging upon which he was standing, and, falling a distance of twelve feet, broke his nose and collar-bone, dislocated his shoulder, and otherwise seriously injured him. He was insensible at last accounts, and it is feared he cannot recover. Dr. Dulany carefully attended him, after which he was conveyed to his boarding-place in Kittery.

☞ The alarm of fire, about half past 8 o'clock Saturday evening, was false.

THE STORM of Saturday night and Sunday morning was very severe; a large amount of rain fell, and the wind, varying from east to south, blew a gale. The tide at the wharves in this city was much higher than has been known for years. Quite a large quantity of wood lying upon different wharves was washed off and floated into the docks. Several small boats were stove in pieces, and others badly damaged at their moorings.

Much anxiety is expressed to hear from our fleets on the coast.

The Traveller extra of Saturday night contains a dispatch from Fortress Monroe, of Friday, which states that the ferry boat Ethan Allen, returned there on Thursday from the Naval Expedition, reports that she was left by the expedition off Hatteras, and that ferry boats Eagle and Commodore Perry had already been separated from the other vessels.

At Fort Monroe on Friday it was supposed that the fleet had already reached its destination.

Gen. Halleck is talked of as McClellan's successor in command of the Army of the Potomac.

It is said that the great naval expedition is not aimed at important cities on or near the coast, but that the troops will land at thinly settled places which have spacious harbors, and will open cotton ports and establish a basis of operations for additional forces now mustering.

Gen. McClellan has issued an order exonerating Gen. Stone from the responsibility of the disaster at Ball's Bluff, and stating that the blame belongs to a subordinate officer whose name he does not state.

The N. Y. Times' London letter says the Steamer Fingall with enormous quantities munitions of war for the rebels, had left the Clyde.

☞ Mr. Edward Babson, of Newburyport, has been appointed master's mate in the U. S. Navy, and will be attached to the gunboat Sagamore, now at Ossi Boston.

We reason a good deal as we eat, more from necessity than knowledge.

An honest man is not the worse because dog barks at him.

☞ Two women, Mrs. Marks and her sister Adelina Fraum, and other parties have been arrested in New York, for being implicated in the late murder of Sigismund Fellorer. Part of his money has been recovered. The women came in the same steamer with him from Europe. It is supposed that the principal in the murder was a man named Radetsky, who is still at large.

Adelina Fraum, one of the parties, committed suicide by hanging in the Station House, in New York, Saturday morning.

☞ The blanket mill and wool house and contents belonging to William Hill, in North Berwick, were burnt Saturday morning. Loss some $30,000; insured. He was making army blankets.

☞ It has been judicially decided in Boston, by Judge Dewey, in the case of one Finn, that a contract of enlistment does not bind a man if he was drunk when he entered into it.

☞ A petition is circulating in Washington appealing to the Government to furnish fuel to the people at reasonable rates.

☞ An English colony have settled on Mount Ararat, and actually established a newspaper called the Ararat Advertiser.

Many live miserably and meanly, just to die magnificently and rich.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

For Free Government.

This work will be published as heretofore—weekly, and monthly. Weekly Nos. at 10 cents; Monthly Parts, Illustrated, 50 cents. The Illustrations for the Weekly Nos. will be published in Two Nos., at 25 cents each, making the price of the weekly and monthly editions the same—viz., $3 for each vol. each six months.

G. P. PUTNAM, Publisher,

532 Broadway, New York.

FORECLOSURE OF MORTGAGE.

Notice is hereby given that the undersigned, as Attorney for Hannah S. Kenney, of Eliot, Me., on the twenty-ninth of May, A. D. 1861, made peaceable entry into and took possession of a certain lot of land and wharf situate in Portsmouth, in the County of Rockingham and State of New Hampshire, bounded westerly by Market street, thirty-one feet eight inches; northerly by wharf and land formerly of Thomas Haven, now owned by the heirs of the late Samuel Fray; easterly by Piscataqua River, and southerly by land formerly owned by the late Joseph W. Leighton, and now occupied by Thomas S. Gammon,—together with the buildings thereon, conveyed to said Hannah S. Kenney in mortgage by Elisha Tripp of said Portsmouth, by his deed dated July 1, 1858, recorded in Rockingham registry of deeds, Lib. 396, Fol. 396, for condition broken, and for the purpose of foreclosing the right in equity of said Elisha Tripp, or of John M. Davis, or of Samuel Jacquith, D. F. Hall and Samuel Andrews, or any, or all, or either of them, or of any other person or persons whomsoever, to redeem said mortgaged real estate, and at the same time publicly declare the purpose and object of said entry and possession. WILLIAM H. HACKETT,

Att'y for HANNAH S. KENNEY, Mortgagee.

Portsmouth, N. H., July 25, 1861. M

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair,

Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become gray, and my head partially bald, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BORNTHALL.

Sold everywhere—price 50c., and $1 per bottle.

THERE IS NO USE

Introducing Testimonials,

Altho' we have very many of them,

—FOR THE—

MAGNOLIA BALM.

For when the face is covered with unsightly pimples or Blotches, the sufferer cares only to be directed to the *safe and reliable remedy*.

THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A SINGLE WEEK.

It is so safe a remedy, that the contents of a bottle may be drunk without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury, to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and neatly put up article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every tissue, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every rapid case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of our climate; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,

N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is hovering upon you, and should be arrested by a timely use of the right remedy. Take Ayer's PILLS, and cleanse out the disordered humors—purify the blood, and let the functions of life be stimulated to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the long-named and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MONGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Pills better than to say *all that in our hands will a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

TUSCAROORA, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE,
Clerk of Steamer Corsica.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, combined with the fact that they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease in which I did not find a ready yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I add them to extoll as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. A. V. Homes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. TOWN, J. S. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1853.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountain of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming to the benefit of the multitude who are afflicted from that complaint, which, although bad enough in itself, is the propeditor of others that are worse. I believe our testimony throughout the Province, but your Pills effect that organ and cure the disease.

From Mrs. E. Smart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural work from trifling sickness or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hunter, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my bones and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SPRUCE CHANCEL, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Inveterate Gout*—a painful disease that had afflicted me for years.

VINCENT SIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These pills are free from mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

1861.

E. A. STEVENS'

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly SIX long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends also to the preservation of the plates most exposed to destruction.

3d. The durable dump grate, with the ash box of ample size to receive the ashes and coals, is an a tractive feature of the stove.

4th. The draft door, at each end of the fire box, is a great convenience, when a quick fire is wanted.

5th The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th The stove has but one damper, and but one division of flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and all jackets are provided for the back and bottom plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRENDY, ESQ., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to Messrs. J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Modal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVE,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which, the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the roll of the TOP COVER, a coal fire may be kept up through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the best being secured to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the full strength of the draft, the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last;* and *will last.* The structural form is such that the frame-work of it cannot burn out.

All the pieces constituting the original STEWART STOVE, which was brought out 15 years ago, are still made, and sent to different parts of the country on call.

The price of QUIETNESS, COMFORT and HEALTH secured to a family by the use of a cooking apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and now found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

And here we will venture to refer to, and explain if need be, the statements made by some of our Stove Dealers, respecting the Stewart Stove, in comparison to another almost-unknown Cook Stove. The gentlemen referred to, as using and discarding the Stewart, never had one of the NEW, improved Stewart's, but did for a long time use one of the old pattern; and if great and complete satisfaction that we have recently furnished three members of the same family, with the new improved stewart!—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. **MAGEE'S PATENT COOKING STOVE.** 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public, with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

FALL AND WINTER
CLOTHS AND CLOTHING.
C. E. MYERS & CO.

Have just completed their stock of Goods suitable for Fall and Winter use, consisting, in part, as follows:

OVERCOATINGS—Brown, Beaver, and Castor Cloths, (very heavy), Tricots, Petershams and Moscows.

PANTALOON STUFFS—Cassimeres, Doeskins, Satinetts of all styles and prices, Cotton ades, very cheap.

VESTINGS—Grenadines, Satins, Velvets and Valencias.

Which will be sold by the yard, or MADE TO ORDER, in good style and at low prices. We should also call attention to our large assortment of READY-MADE CLOTHING.

Of our own manufacture, warranted well made.

Also, FURNISHING GOODS, such as Shirts, Collars, Gloves and Stockings, Cravats or ties, Boots, Shoes, Trunks, Valises, Oil and Rubber Clothing of the best quality.

These Goods will be sold at extremely low prices for cash, to suit the times, at

No. 39 Market and 2 New Street.
C. E. MYERS. C. E. SIMPSON.

HUTCHINS' HAIR DYE,
THE VERY BEST NOW IN USE, as many thousands who have tried it well testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

TUESDAY, NOVEMBER 5, 1861.

A UNION PARTY.

The Laconia Democrat of Oct. 18 said:

From the tone of the three leading papers at Concord we conclude there is not to be a Union party in this State, as they are presumed to set the fashions. Well, the democratic party has the consolation of knowing that its principles are, and *always have been*, consistent with the Constitution, and adapted exactly to the preservation of the Union. Democratic principles will live as long as the Constitution endures, because they are founded upon the Constitution and are in unison with the very nature of our Government. So, we stand well either way.

Democratic principle is one thing; and the principle of a party called democratic may be and often is, quite another thing.

For example, there were two parties, only a year ago, both calling themselves The Democratic Party, both claiming to be National. One maintained the *principle* that slavery had the right to go anywhere over the country,—and the other, that the people, by unfriendly legislation might elbow it out, or almost out.

Here was a distinction, surely; and the two parties that fought each other so bitterly thought there was quite a *difference*.—They really had an idea *then*, that there was some principle on which they differed. Can they tell as *now* which of the two was right? They surely will not say they were *both* right: for that would be saying they defeated themselves for *nothing*, and threw away their power for the republicans to pick it up.

As to the principles of the democratic party having been *always* the same,—we will only say that within a few years, in New Hampshire, the party have at one time endorsed the Wilmot Proviso, and at another the Dred Scott decision;—that some of its conventions have resolved that they were unalterably determined to resist the extension of slavery into the territories now free,—and that other conventions have advocated concession and compromise and acquiescence.

We see no evidence that the democratic party have always had one set of principles, though they have adhered closely to their party and kept its name. And we do not believe that any parties, or any men, are either infallible or unchangeable.

The *only* democratic principle is, that the people shall govern,—and practically it comes to this, that a majority of the people shall decide how the whole shall be governed. This principle is generally admitted by all sects and parties in the Free States, and is scouted the peculiarity of the party called democratic, than of any other.

In the rebel Slave States the *democratic principle* has no quarter whatever; for the power today is in the hands of an Aristocracy, tending strongly toward despotism.—In South Carolina there is *nothing like* democratic *principle* in their Constitution, and never has been; yet that State has always been *sure* for the democratic *party*, from the day of Jackson and Calhoun's election, to the theft and rebellion of 1861.

The leading rebels, one and all, *now* scout the idea of any democracy at all.—They say, "All laborers should be slaves—mud-sills should not vote—Cotton is king!" and so on.

They need to pretend to be democrats, to get Northern votes: Now they throw off the mask.

It is highly probable that the rebellion, with the war we must wage, and with the peace that must follow, will destroy or transform *all* the parties of 1860,—though the old names may be preserved.

The parties are not yet dead, and it is not to be expected that any one of them will vote itself defunct.

A State Election occurs to-day in Massachusetts; and in one district, (late Burlingame's and Appleton's,) a Representative to Congress will be voted for.

Something of the history of parties will be written by this election.

Gov. Andrew had 40,000 majority last year.

IRON CLAD SHIPS.—The Paris Patrie says the English Admiralty has decided to iron-plate ships of war already built, and that if the experiment succeeds, England could have twenty iron-clad vessels in one year.

This reminds us that we have, in one of the Ship Houses at the Navy Yard, one fine large ship of war, the Franklin, which ought to be launched, and which could *easily* and *rapidly* be clad with iron.

We have also the Ship of Line Alabama, which would, being razeed, make another good vessel to cover with iron.

We hope the case of the Franklin will come before the Naval Committee as soon as Congress meets.

☞ Annual Elections will be held today, Tuesday, in seven states, viz.:—New York, New Jersey, Michigan, Wisconsin, Massachusetts, Illinois and Delaware.

NEW HAMPSHIRE ITEMS.

—— The mills of the Nashua Manufacturing Company, are doing a driving business under Government contracts. They employ 400 hands, in manufacturing cotton flannel, and 2100 in making drawers, and are now manufacturing them at the rate of 5500 a day.

—— The Boston Journal learns from a correspondent that Lieut. Joel McGregory died at Newport, Oct. 31, aged one hundred years eleven months and nine days. He volunteered in the army of the Revolution, was taken prisoner and was confined in the "Old Sugar House," New York, for eight months. In olden time he worked at nail making, by hand, and has made tacks so small that he could put one thousand of them in an eggshell. For many years he has received a pension. It is supposed that he is the last surviving Revolutionary soldier in New Hampshire.

—— The Woolen Factory of I. Wood & Son, in West Henniker, together with a grist mill belonging to Ammi Smith, and all their contents, were destroyed by fire on Saturday morning. The factory has been used the past year as a Knitting Factory by the Messrs. Holden of West Concord, and they had just returned their machinery to their own mill at West Concord. Total loss, $5000, on which there is a partial insurance. The cause of the fire is unknown.

—— A newspaper correspondent writing of a review over the Potomac, makes the following mention of General Fitz John Porter, formerly of, Exeter, this State:—It would be very naughty for me to inform what troops constitute the division of that gallant son of New Hampshire, Gen. Fitz John Porter, one of the best artillery tacticians on this continent. He won his captain's spurs at El Molino del Rey, was brevetted major for his bravery at Chepultepec, and bears the scar of a wound received while fighting his way into the city of Mexico, through the De Belen gate. Of course, an officer with such a record, is worthy to be entrusted with the command of a "Bully Division," and he has it.

—— The North Stratford Democrat states that in Pittsburg, on Tuesday morning of last week, at about six o'clock some persons were startled by a loud whizzing noise, resembling that of a body rushing through the air with immense velocity. It appeared to move nearly south, at a rate that seemed incalculable, and the noise was "six times louder" than that of a train of cars. After it had passed, the echo from the surrounding hills could be distinctly heard, and a perceptible motion was felt in the earth and air. There was no wind, but there was so dense a fog that nothing could be seen.

THE STORM.—The violent rain and gale which raged Saturday night, destroyed a vast amount of property. The ship Maritana, (of Providence, R.I.,) Capt. G. W. Williams, from Liverpool for Boston, came into the bay on Saturday P. M., and at 12:45 Sunday morning, when only three-quarters of a mile from Boston Light, she struck on Egg Rock, a barren ledge, scarcely above water at high tide. The ship held together till a little past 7 o'clock Sunday morning, when she broke in two amidships, and immediately went to pieces. When the vessel parted, Capt. Williams fell down between the two portions of the ship, and was instantly killed by the falling timbers. Several of the men succeeded, by means of the wreck, in reaching the shore in safety. A few swam ashore. Only two of the passengers were saved. Eleven of the crew and thirteen passengers perished!

Barque Nathaniel Cogswell, (of Boston,) Capt. Hamblin, from Malaga for Boston went ashore on the beach at Scituate. All hands were saved. The vessel afterwards bilged and commenced breaking up.

The Argus states that in Portland the tide was higher than has been known for thirty-one years.

The railroads have been much injured, by the washing away of tracks.

A dispatch from Newark says the rivers in that section of New Jersey overflowed to a greater extent than for twenty years.

The rain caused a tremendous rise in the Potomac. The rise at the Navy Yard was about seven feet. The roads in Virginia are almost impassable. Long Bridge was under water and many camps were flooded.

☞ As the engagement of Edwin Forrest, the eminent tragedian, in Boston is for a limited number of nights, he will appear four times a week for the present. His present engagement has been immensely successful. To morrow, Wednesday evening, he will appear in his great character of Spartacus.

☞ The French steamer Infernal was blown to atoms in the bay of Valparaiso, by the explosion of her magazine, the vessel having caught fire. No lives lost. The British storeship Nereus was injured by the explosion.

☞ Gen. Scott accompanied by his staff, the Secretary of War and others, including several ladies, left Washington on Saturday for New York.

THE REBELLION.

The Powhattan and other vessels ran past the rebel batteries on the Potomac, Friday night, in the darkness.

Thirty or forty shells were thrown over from the rebel batteries to our intrenchments on the Maryland shore, Saturday, but they did not impede the progress of the work. Some of our 32-pounders answered with three or four rounds.

It is now stated that Gen. McClellan will continue in actual command of the army of the Potomac.

On Friday night, our troops opposite Shipping Point, on the Potomac, shelled the rebel steamer Page. It is believed she suffered some damage. The rebels have been strongly reinforced at that Point.

One account from Missouri states that on Wednesday, Oct. 22, Price and McCulloch were at Neosho, with 30,000 rebels, and would make a stand there and give Gen. Fremont battle. Another report says Gen. Lane attacked a part of Price's army in Sarcoxie, Jasper Co., on Monday night. A scout reports that being six miles from Sarcoxie, he heard artillery firing from 3 o'clock until dark on Monday, and that the firing was rapid. He also heard firing on Tuesday morning. And another scout reports at Jefferson City, that on Sunday he left Price at Neosho, with 13,000 of his men and 5000 Indians. They had no intention of making a stand in Missouri. McCulloch had gone to Arkansas, to order the reinforcements to be sent to Camp Walker, where Price was to join him. Gen. Lane was south of Gen. Price, and had sent to Gen. Fremont for reinforcements, and a large mounted force had gone to his aid.—Gen. Lane had a skirmish with Price's rear guard, but with what result is not known.

A dispatch from Fortress Monroe, Saturday, says:—

"No intelligence of the great expedition has been yet received. It is supposed that it reached its destination yesterday. A terrific gale has prevailed since last evening, but no apprehension is felt for the safety of the fleet."

The Naval Expedition was spoken at 10 o'clock A. M. on Wednesday, in lat. 35.30, lon. 75, (about off Hatteras Inlet) by a schooner. The weather was fine at the time, and the schooner did not feel the gale until she arrived at Delaware breakwater.

A vessel arrived at Baltimore on Saturday, which passed the fleet on Wednesday night off Hatteras. The weather was remarkably fine at the time, and the vessels were moving finely. The storm commenced this side of Hatteras, and the captain of the vessel thinks the vessels attached to the great expedition have had a fine trip to the southward. He also thinks they escaped the storm.

☞ The Neptune House, Chelsea beach, Mass., was destroyed by fire, Sunday night with all the outbuildings. An attempt had been made early in the afternoon to set fire to the buildings, but it was discovered in season to be extinguished; but at half past six in the evening the flames burst forth, and as no adequate means of extinguishing them were at hand, the whole were consumed. The property was owned by Mr. Ephraim Hayes, and was valued at about $18,000.

☞ A Committee of the City Council of Philadelphia, on Friday evening, presented to Gen. McClellan a magnificent sword.—In the course of his reply, Gen. McClellan said he received the sword not for what he had done, but for what he hoped to do; and added:—"The war cannot be long; it may be desperate. I ask in the future, forbearance, patience and confidence.—With these we can accomplish all."

A FRIEND IN NEED.—Conductor Langley laid us under renewed obligations on Monday morning, by furnishing us with a copy of the Boston Journal, at a time when, owing to the delay of the mail, we were unable to obtain our usual supply of newspapers.

MARRIED,

In Rye, Oct. 21, by Rev. Mr. Otis, Mr. WILLIAM J. WALKER to Miss MARY A. ROBERTSON, both of Rye.

DIED,

WISTAR'S BALSAM OF WILD CHERRY

For the cure of *Coughs, Colds, Hoarseness, Asthma, Influenza, Croup, Whooping Cough, Bronchitis, Predisposition to Consumption, &c., &c.*

This great remedy is too well known, and is performing too much good, to make it necessary to go into an elaborate discussion of its merits. Suffice it to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, seldom have occasion to resort to other appliances to insure a perfect restoration to health.

Letter from Elder H. L. Gilman, a Minister of the Gospel in Vermont.

GLOVER, Vt., June 20, 1859

Messrs. S. W. Fowle & Co.,

Gents:—I hereby certify that I have been troubled for several years with a difficulty of the heart and lungs, and have applied to several physicians for help, and have tried almost every remedy of the numerous ones which have been recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of WISTAR'S BALSAM OF WILD CHERRY about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public, and I most cheerfully and conscientiously recommend it to all persons suffering with pulmonary consumption.

H. L. GILMAN.

From the Editor of the "Rising Sun," Richmond, Me.

DR. WISTAR'S BALSAM OF WILD CHERRY AND THE OXYGENATED BITTERS.—Our readers will pardon us for venturing an opinion of these *celebrated remedies*, which have been so long before, and have become so popular with the public. They are often disposed to cry "humbug" against the greater number of Patent Medicines at the present day, and this, no doubt, is a certain extent, may be justifiable; but, convinced of the superior efficacy of the above articles as remedial agents, with the hearty endorsement of the medical fraternity, we can cheerfully recommend them to the *Consumptive Dyspeptic*, feeling that every way worthy their confidence and a thorough trial.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. F. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere. oct31

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 dawâm

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. Such a remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*strengthening weakness and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dawâm

NOTICE

Is hereby given that the partnership formerly existing between AUGUSTUS WALDEN and W. H. HAYES, doing business under the firm of WALDEN & HAYES, in Portsmouth, N.H., was dissolved by mutual consent, on the 25th day of Oct. inst. The business of said firm will be adjusted by AUGUSTUS WALDEN.

Portsmouth, Oct. 29, 1861.

AUGUSTUS WALDEN.
W. H. HAYES.

Witness, JACOB WALDEN.

Local.

☞ The storm on Saturday night and Sunday morning was very severe, and the results in this vicinity and elsewhere more destructive than would appear from our item on Monday morning.

We learn from the Lower Harbor, that the wharf of Robert F. Gerrish, Esq., was carried away by the flood, with a stock of cord wood on the same: and all the other wharves on that shore were carried away or greatly injured. There were some thirty cords of hard wood on Mr. Gerrish's wharf, but nearly all of it was recovered. A schooner, lying at the wharf, was somewhat injured, and several boats were destroyed.

The water in the South pond was raised to such an unusual height that it flowed into Auburn street, covering that street to the depth of several inches.

Nearly all the wharves in this city were overflowed and many of them injured.—One at the North End, owned by William Sheafe, Esq., of Boston, and another, near the foot of Court street, owned by Mr. Jeremiah D. Goodrich, were the most severely injured. That occupied by the Portsmouth Aqueduct Company, at the South End, was overflowed, and the water flowed into their work-shop, covering the floor to the depth of six or eight inches. Many of the logs on the wharf were floated off, but most of them were subsequently recovered.

The water also flooded the lower part of Water street, near Newcastle bridge, and washed away the side-walk to some extent.

The tides on Sunday were unusually high, and the strong gale which raged increased them greatly. On Monday the water rose nearly as high, but no damage was occasioned thereby so far so we have been able to ascertain.

We understand that the wharves, roads, boats, etc., at Newcastle were damaged to the amount of a thousand dollars.

We are informed by a gentleman who was within hailing distance of Whale's Back Light House on Monday, that the boats were so badly stove as to be entirely unfit for service, and the light-house itself, as well as the shed attached to it, were badly damaged by the storm.

The track of the Eastern Railroad, which passes over the Hampton marshes, was so badly washed, for a distance of about four miles, that no trains could pass over the road during Monday; but Mr. Joseph D. Akerman, of the enterprising and wide-awake firm of Jackson & Co., of this city, managed to connect, by horse-express, with the Boston & Maine Railroad,—he having left this city at an early hour in the morning. He returned by the same route in the afternoon, and brought the mail from Boston with him. It was a great convenience to the public, and the advantages derived from the prompt delivery of the mail, especially, were appreciated by our business men.

The mail from Boston, due here at 10 o'clock in the forenoon, did not reach this city until 2 o'clock P. M.,—having been ferried across the break in a gondola.

Messrs. Editors:—It is but few weeks before our election of City officers again occurs, and yet but little is said concerning the next City Government. Though I did not vote for Mr. Simes, yet I believe he has made the best executive officer Portsmouth has yet had, notwithstanding he had several incompetent subordinates in connection with his administration, for whose incapacities and short-comings, his party, and not the Mayor, is responsible. I have witnessed his devotion to the city's interests, from the early dawn of day to midnight, and no man ever worked harder or longer for his private interests, than has Mayor Simes for the public good. Will our city be fortunate enough to secure his services for another term? It is said that the commendable reform in the purchase of teams for the city work, has, (notwithstanding it meets the universal approval of those who desire to see economy in our municipal affairs,) offended those who formerly made a good thing in the way of teaming for the city, and that the re-election of Mayor Simes will be opposed by certain members of his party, because he has dared to do right, untrammelled by those who have other purposes than the public good in view. Now is the time to forget politics. Mayor Simes cannot be spared in a time when above all others, economy and ability are needed in the administration of our city government. Let him be re-nominated and re-elected by a union of all men of our city, who regard the welfare of the town before the spoils of a party, and let him be surrounded by a city government composed of able men, regardless of former political proclivities, and let the subordinate city officers be men in whom the city government and the people have confidence. Shall we see such an era?

A YOUNG AMERICA DEMOCRAT.

☞ A man whose name is said to be Smith, belonging to Newmarket, was apparently drowned on Monday afternoon, his boat being upset by striking against Portsmouth Bridge. He was brought ashore near the Spring Market, where the means of recovery were promptly used, and crowned with success, in restoring the man to conscious life. The young man was in the water nearly a quarter of an hour, and was rescued by the crew of a vessel which was discharging.

S. J. COURT.—In the suit Mary E. Parry, vs. Parry & Plumer, brought to recover $1620 for services as saleswoman,—the jury returned a verdict of $1060 for the plaintiff.

The case of Wm. H. P. Wright, adm'r. of Nath'l Wright, of Lowell, Mass., vs. Eliphalet Case and Levi S. Bartlett, was on trial Monday. The action is upon promissory notes, signed by Eliphalet Case, upon whom no service has been had, and by deft. Bartlett. The suit is defended by Dr. Bartlett upon ground of discharge by extension of time to Case, without his knowledge and of usury, and statute of limitations. The case presents many legal questions.—The evidence was closed Monday evening. Perley for plf. Christie, Tuck and French for deft.

☞ Fire was discovered, about 1 o'clock on Monday night, in the Quartermaster's room in the Officers' quarters at Fort Constitution, New Castle, resulting in the total destruction of the building, with most of its contents—consisting of furniture, clothing, etc. The books of the Quartermaster's department were saved. It was a two-story building, the lower story being of brick and the second of wood. As it was old and somewhat out of repair, the loss cannot be very great, although it may cost the Government quite a sum to replace it with a new building.

The ordnance building, of wood, near by, was saved with great difficulty: a large quantity of valuable stores contained in it, were removed.

Engine companies, Numbers 1 and 2,—all that were permitted to go,—dragged their tubs over a long road that had been rendered, by the recent storm, almost impassible in many places, and did good service in subduing the flames. Our Portsmouth firemen are prompt.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair,

Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots of the hair, gives strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

Messrs. W. E. Hagan & Co.—I hereby certify that my hair having become *gray*, and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSWYNALL.

Sold everywhere—price 50c., and $1 per bottle.

THERE IS NO USE

Introducing Testimonials,

Altho' we have very many of them,

—FOR THE—

MAGNOLIA BALM.

For when the face is covered with unsightly pimples or blotches, the sufferer cares only to be directed to use some *safe and reliable remedy.*

THE MAGNOLIA BALM WILL CURE THE WORST CASE OF PIMPLES IN A SINGLE WEEK.

It is so *safe* a remedy, that the contents of a bottle might be drank without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and healthy pure article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as RHEUMATISM in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c; and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes in most cases a chronic affection, wasting every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeking to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of external applications, such as embrocations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an internal remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of the old complaint, a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and respectable citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist.

N. E. cor. Fifth and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S CATHARTIC PILLS.

Are put up in a compact form, and will keep in any climate. They are sugar-coated, so that the most sensitive can take them easily, and they are the most agreeable cathartic medicine in the market. Being purely vegetable, they are free from any injurious quality.

Their extraordinary virtues have made them known throughout the civilized world. Their power to cure the various complaints they are recommended for is well known to many in every town and city in the country. Their effects are salutary on the entire system, and a dose or two will generally remove the disorders which make disease. A cold settles somewhere in the body, and obstructs the natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opportunity lays the foundation for more serious disease. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. These Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the human frame on made excellent in health again. They stimulate the functions of the body into vigorous action, modify the character of the obstructions which make disease. A cold settles somewhere in the body, and obstructs the natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opportunity lays the foundation for more serious disease. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. These Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the human frame on made excellent in health again. They stimulate the functions of the body into vigorous action, modify the character of the obstructions which make disease.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Powerding Merchant of St. Louis, Feb. 4, 1856.

DEAR SIR: Your Pills are the paragon of all that is great in medicine. They have cured my wife of a long list of ailments more upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and is her best. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have used with your Pills better than to say of that in my best and a purgative medicine. I place great dependence on an efficient cathartic in my family practice, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1854.

DR. J. C. AYER. Sir: I have been entirely cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. FREDLY,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills cathartic, but they purge as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely believe that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

Sir: I have used your Pills in my general and hospital practice since you made them, and found them to be as they are the best cathartic we employ. Their regulating action on the liver is quick and decided, cause quantity they are an admirable remedy for derangements of that organ. Indeed, I have added to a dose of Calomel sufficient to obviate that it did not readily yield to them. Historically yours, ALONZO CLARK, M. D.,
Physician of the Marine Hospital.

Dyspepsia, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I could point to cures so numerous, that the best testimony I have even found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DEAR SIR: I have used your Pills with extraordinary success in my family and among those to whom I have recommended them. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 21, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gravel, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

This much cannot be said of your Pills for the cure of costiveness. If others of our profession have as much success as I have, they should join me in producing the benefit of the multitudes who suffer from this complaint, which, though bad enough in itself, is the precursor of others that are worse. I believe our remedy is eligible in the liver, but your Pills affect that organ and cure the disease.

From Rev. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the natural sore throat which usually or partially suppressed, and also very efficacious to cleanse the stomach and regulate the bowels. They are much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hendee, of the Methodist Episc. Church

PICKAWAY HOUSE, Savannah, Ga., Jan. 5, 1856.

Honored Sir: I should be ungrateful if the relief your Pills has brought me if I did not report my case to you. I was settled in my limbs and brought on severe rolling or cramp pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the pain grew more and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the dose, I am now entirely well.

SYDNEY CRAWFORD, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured of my Fits, of Epileptic Fits—a painful disease that had afflicted me for years.

VINCENT SLIDELL.

☞ None of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that have frequently follow its incautious use. They contain no mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

1861.

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire, so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 30 in. long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the times of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet, when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this store, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the store more durable.

2d. The adhesion of external air between these plates, for the ventilation of the roasting oven, tends so to the preservation of the plates most exposed to destructive heat.

3d. The durable damp grate, with the ash box of ample size to receive the ashes and coals, is an attractive feature of the store.

4th. The draft door, at each end of the fire box, is a great convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division of flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and the jackets are provided for the back and bottom plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRUNDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to Messrs. J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Bennett, John Harrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l T. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have sought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range,

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVE,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and smoulder and burn, upon the grate, after the manner of a coal pit. Or, if the stove be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which most the heat of the stove may be locked within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attending upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c

4. Among the valuable TOP COVERS, a coal fire may be kept up through the night, and *break fast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUROX prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with a decrease of combustion.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the full summer fires, the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last*; and *will last*. The structural form is such that the frame-work of it *cannot warp or crack.*

All the plates constituting the original STEWART STOVE, which was brought out 19 years ago, are still made, and sent to different parts of the country on call.

The price of COMFORTS, CONVENIENCE and HEALTH secured to a family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail the excellencies of THE STEWART STOVE. It is no experimental or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and not found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for twenty years; but the improvements has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

And here we will venture to refer to, and explain if necessary, the statements made by our city Stove Dealers, respecting the Stewart Stove, in comparison to another almost-unknown Cook Stove. The statements therein made, as using and discarding the Stewart, never had one of the saw, improved Stewart's, but did for a long time use one of the plates of a quarter part of it, and discarding the Stewart, never had one of the saw, improved Stewart's, but did for a long time use one of the plates of a quarter part of it. Sufficient satisfaction that we have recently furnished three members of the same family, with the new improved Stewart;—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. **MAGEE'S PATENT COOKING STOVE.** 1861.

THE GREATEST INVENTION OF THE AGE

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO ELDER,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIUETIC it imparts a healthy action to the Stomach, Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Elder, grown in New Jersey, recommended by Chemists and Physicians as possessing medicinal properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Houses and Lands.

OFFICE TO RENT.

The large Chamber on the second floor of the Chronicle Building, known as EXCHANGE HALL, will be let on reasonable terms. The location is one of the best in the city, being opposite the Post Office; and the room is spacious, light and airy, very warm in winter; and supplied with gas fixtures. Apply at the Chronicle Counting Room.

Desirable Residence for Sale.

The subscriber offers for sale his convenient and pleasantly located estate on Middle Road, formerly owned by the late Abel Harris, Esq.

The HOUSE contains Parlors, Dining Room, with ample sleeping apartments, and kitchen with water conveniently introduced. A well cemented Cellar extends under the whole house. The stable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.

In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a very high state of cultivation, upon which are the choicest fruit trees of all kinds.

On the east side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY BARN, fronting on Park Street, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.

Terms liberal. Apply at 31 MARKET ST.

Drs Jackson, Herbert & Co.,
15 Greatest Medical Circular Ever Published! 15
☞ Fifteen ¢2 large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the National Dispensary No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof. Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhœa, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Secular Disease, and at the same time the general *health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 pages 8 in. by 11 in. letter pages, with full and special written reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 8 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting medical book on the subject ever issued of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOVEMBER 6, 1861.

KANSAS.—Some interesting items are given in the Boston Journal from a resident of Kansas, who says the crops of this year exceed in quantity those of any two years previous since the opening of the Territory. Next year we cannot expect farming to such an extent as this year, as Kansas has been drawn on for volunteers, beyond her own interest. In part, this is remedied by large numbers of fugitives from Missouri.—A thousand more can be employed in Kansas, beneficially to themselves and to their employers. They are daily arriving in small numbers. Some of them are being formed into companies and drilled. Slavery is fast disappearing from Missouri, and in six months, if matters go on as they have, slavery will be virtually abolished. But a cold winter is upon the fugitives, and many will want clothing. The want of clothing for the poor in Kansas will be more felt this winter than the last. Food is in great abundance, and the poorest and meanest cannot want for that.

☞ Steamship Jura brings news from Liverpool of Oct. 24th, and Londonderry Oct. 25th.

Capt. Semmes, of the privateer Sumter, reached Liverpool in the steamship Edinburg.

The competitive trials of rifled 32-pounder service guns of different inventors were brought to a close without any very satisfactory results. The Whitworth and Armstrong guns appear alone calculated to meet the requirement of the navy.

It is reported that Sir George Corawall Lewis has suspended the manufacture, for the present, of 100-pounder Armstrong guns, and directed that such experiments be made as shall bring this new ordnance to decisive proof.

The *Moniteur* contains the following:—"Judicial investigation has established the fact that the congregation of Ladies of St. Unione, at Donar, have voluntarily abetted the abduction of Jewess girls. These facts would have justified the Government in revoking the authorization of the Society of St. Unione, but it has confined itself to the withdrawing the acknowledgment of its legal existence. This measure will remind religious congregations, that neither their character, object nor rules, excuse them from obeying the laws of the country."

It is the general impression that the recognition of the Kingdom of Italy will be the basis of a reconstruction of the French Cabinet.

☞ Late news from Europe shows that the rebel emissaries in London and Paris are very confident that the necessities of the manufacturing interests will lead to an interference in our contest, for the purpose of breaking up the blockade, but it is evident that their cause is losing ground both with the people and the press. Much gratification is afforded by the London Post, the organ of Lord Palmerston, which has a strong article against any interference. It argues that a recognition of the Rebel States would only increase the vigor of the blockade, and that interference with the blockade would be an act of war, embroiling England at once with the United States.

☞ The New York Commercial Advertiser compiles a list of all the losses on both sides since the outbreak of the rebellion, commencing with the attack on the Massachusetts troops in Baltimore and embracing the numerous fights and skirmishes that have since occurred, and the result is as follows:—Federals— killed, 969; wounded 2041; prisoners, 2874. Rebels—killed, 4049; wounded, 1604; prisoners, 2088.—These figures, however, do not include the killed and wounded of scouting parties, of which there is no official record.

M. E. CHURCH.—The anniversary of the oldest Methodist Society in this country, that of the John Street Society, New York, was held on Sunday last: it was the ninety-third year of its existence. From a historical discourse preached on the occasion it appears that there are two millions of Methodist communicants in the country, and it is estimated that eight millions of persons are collected weekly into the churches as hearers.

☞ It is stated that Thurlow Weed and Archbishop Hughes are about to start for Europe, probably by the Africa, which sails to-day, Wednesday, to endeavor to counteract the operations of the Southern confederacy, and prevent any recognition of the Southern Confederacy by either France or England. General Scott, it is understood, goes in the same steamer.

☞ It is expected that the new steam sloop-of-war Ossipee, now building at the Portsmouth Navy Yard, will be launched on Saturday, Nov. 16th. Orders were received at the Navy Yard on Saturday last to build another large steam sloop-of-war.—This will be good news to our mechanics, and we doubt not their usual success will attend them in the construction of the vessel.

LETTER FROM CALIFORNIA.

KNIGHT'S FERRY, CALIFORNIA, Oct. 8, 1861.

Messrs. Editors:—A brief period of time has flown, filled with any amount of historical events, and withal has reminded me of my annual correspondence. Many and great have been the changes in our country and God only knows where and when they will end. The most gratifying feature to me and our State has been the change in political circles. The democrats have caved and in their stead is placed the dominant republican party. Thus our ship of State has for its officers, a gallant Captain and crew, and we hope, under their sailing orders, we shall glide through the next biennial term safely and triumphantly, with the stars and stripes at our masthead.

It is with grief we allude to the prevailing rebellion at the South, and I hope ere long to hear that the strong arm of the Government has purged the rebel States of traitors, and secured harmony and concord in the unhappy South. We have confidence in the President and his advisers, that with the present organization of the Army they will soon have effectual control of the rebels and thus allow the disaffected States once more to assume a loyal government and come in under the good old Flag of the Union. We are pleased to learn that some license has been taken in the way of confiscation by J. C. Fremont, and hope the President will not be too technical in reference to slave property. Nothing will bring the rebels to their senses quicker, than to confiscate property in their niggers. Let loose the bands to servile property and when the planter beholds his *personal* property walking off at double quick time, he will gladly cry "hold on, I'll take the oath of allegiance."

In our far off State, there are sympathizers with rebellion, who are pained to see the cause of the Union so strongly maintained, and hope by every "*Pony*" to hear of the success of the rebels. This will be rectified in due time by the course of events.

The New Hampshire Volunteers have earned for themselves great, honors and it is hoped that when next they meet the foe in battle, the rebels will get a taste of pluck that none but the Granite State boys know how to give an enemy.

California is coming up to the work bravely. The requisition for 5000 infantry and 2500 cavalry will soon be made out, as the recruiting goes on rapidly. The volunteers are pouring down from the mountains, with the stars and stripes flying on coach and wagon, accompanied with wild enthusiastic cheers for the Union, as they pass through towns and villages along their route to their various military camps, at Stockton and San Francisco.

The surrender of United States forces at Fort Fillmore at Arizona, to 280 confederate Texans, was a cowardly act, no doubt, though their excuse is that they retreated beyond water and were obliged to capitulate. They were brave men to allow a handful of men to drive four times their number, and force them to unconditional surrender. Traitors are not all dead yet. We don't apprehend this advantage will be of any service to the enemy in making any advance this way, for Gen. Sumner has already dispatched several companies of troops to Los Angeles, which will form a nucleus for the Union loving patriots to rally around, and thus put a check to Southern favoritism in that quarter.

The rebels expected, through the election, to get control of the State offices, and then by secret organization to rise and overpower the Unionists, and take possession of the State in the name of Jeff. Davis. But they reckoned without their host; for the election, though somewhat divided by rival candidates for Governor, has given over 20,000 plurality of pure Republican votes,—thus, through the Douglas Union ticket, effectually drowning the old Breckinridge party in the sea of oblivion, by nearly three times their number, though they made every exertion within their power. You have learned, ere this, of our triumph; and we feel here as though our State had been saved from the grasp of secession, and that we have come up to the help of old Uncle Abe Lincoln, to enable him to repress in other States any tendency to secede, and to bring back the erring ones into the Union. J. E. W. C.

☞ The papers of Prescott, (C. W.) have been considerably exercised of late about a society which is said to exist in Canada, known to outsiders as the "Dark Lantern Society," and to insiders as the "Canadian Brotherhood." The Messenger charges that there is a lodge in Prescott, that at least one of the publishers of the Telegraph belongs to it, and that its objects are treasonable, its members desiring separation from England and the formation of an independant government or annexation to the United States.

☞ Four individuals, three saddlers and an osterman, were recently sentenced to six months in the workhouse, at New Orleans, by the Mayor, because they were "politically if not morally dangerous and suspicious."

THE REBELLION.

On Friday morning last the rebels under Floyd opened fire upon Gen. Rosecrans's division with two guns opposite Gauly Ferry and Camp Tompkins, and a noisy fire of musketry. Their object was evidently to cut off the supply train. They succeeded in sinking the ferry boat. No one of our men was killed, and only about half a dozen wounded. The ferry boat was again raised on Friday night, and communication across the river restored. There was no firing on Saturday on either side. Floyd's force is believed to be about 7000. A later report states that on Saturday Floyd had cut a road around the hill where Gen. Rosecrans was encamped, and was shelling his camp. Gen. Rosecrans was returning the fire, and had silenced two batteries. He had sent a force up a new made road to attack Floyd in the rear, and would have him completely surrounded.

A messenger reports that Gen. Nelson took Prestonburg, Va., on Saturday morning without resistance. Williams fell back six miles, where he was expected to make a stand.

The Washington letter of the N. Y. Commercial says all the regiments of the army of the Potomac have their camp equipage, wagons, ambulances, horses or mules, and other appliances ready for taking the field at an hour's notice. The organization of the wagon trains was one of the most difficult tasks, but it has been accomplished.

There was a skirmish on Saturday, six miles east of Leavenworth, between a smal force of the Missouri militia, under Maj. Josephs, and 150 rebels. The latter were scattered with small loss.

Portions of Linn county, Kansas, have recently been pillaged by marauding thieves from Missouri.

Gen. Price has left Sarcoxie, Mo., and has moved via Neosho toward Capirilla, Barry county. Opinions differ as to whether he will march north from that point on Springfield, or continue his retreat into Arkansas. Gen. Prentis broke up a rebel camp in Boone county. Some losses are reported on both sides, but no particulars have been received.

A WEDDING TRIP.—Previous to the meeting of the American Board in Cleveland, O., arrangements were made for accommodating strangers at private houses, and a gentleman and lady were sent to the residence of a hospitable citizen. They were welcomed and entertained until the hour for dining. At the table the gentleman was requested to ask a blessing, which he declined to do. The time for the Board's afternoon session came and went, but the gentleman and lady started out for a stroll, and returned, blissfully unconcerned about either missionaries or benighted heathen. The next morning, in the course of conversation, the lady of the house inquired of her female visitant if she ever kept house, and a negative reply was returned. "How long have you been married?" she asked. "Since yesterday morning." It seems the couple lived in a country town, and had been informed by their minister that the meeting was to be held in Cleveland, and that strangers would be provided for, and passed at half fare over the roads. This was too good an opportunity to be neglected, and the worthy pair were forthwith united, and started out on their bridal tour.

☞ A dispatch was shown the head of the Navy Department on Sunday, from a person who professed to know the exact point where the great naval expedition had gone, and asked the department whether it would be proper for him to state its destination. He was at once informed that no human being knew where it was going, and therefore it was not at all probable that the said individual could communicate the important fact.

☞ A dispatch to the Philadelphia Press states that Gen. McClellan, has, through means not made public, informed himself very minutely, of the movements of the enemy, and the number and strength of their batteries at and in the vicinity of Manassas Junction. He is guided in his operations by a full knowledge of all their important movements.

☞ The Count De Sayre, lineal descendant of Count Rochambeau, of American Revolutionary fame, has tendered his military services to the President, and has been assured that they will be accepted.—The same answer has been given to the Baron De Schonen, descendant of Gen. Lafayette.

☞ Mrs. Marks, another of the women, implicated in the Fellner murder, attempted to commit suicide in New York on Sunday night, by cutting one of her arms with a dull pen knife; but a timely discovery prevented her from carrying her object into effect.

☞ On Sunday evening the dwelling houses of John N. Stinson and widow Farnham, with the town house and school house, situated in Alfred, Me., were destroyed by fire. Loss $10,000; insured $6800.

☞ Two persons, recently employed as penny post in Lowell post office, were arrested on suspicion of purloining valuable letters. During the last two years, Dr. J. C. Ayer, of Lowell, has lost about one hundred and fifty valuable letters, containing various sums of money, amounting in all to about $2200. The matter was several months since placed in the hands of a special agent for investigation.

☞ The Pension Bureau has issued a notice that no applications for bounty lands for service in the present war will be considered, there being no law providing for such bounty for military service rendered since March, 1855.

☞ The General Hospital on Judiciary Square, Washington, took fire at one o'clock Monday morning, and the combustible portion of the right wing and roof was destroyed. The sick and wounded soldiers, about fifty in number, were removed safely.

MARRIED,

In this city, Nov. 2nd, by Rev. Mr. Pratt, Mr. FRANK DEMA to Miss LUCRETIA W. BROOKS, both of this city.

In Hampton, Mr. GEORGE W. DUNBAR to Miss MARY K. PALMER.

WISTAR'S BALSAM OF WILD CHERRY

For the cure of *Coughs, Colds, Hoarseness, Asthma, Influenza, Croup, Whooping Cough, Bronchitis, Predisposition to Consumption, &c., &c.*

This great remedy is too well known, and is performing too much good, to make it necessary to go into an elaborate discussion of its merits. Suffice it to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, seldom have occasion to resort to other appliances to insure a perfect restoration to health.

Letter from Elder H. L. Gilman, a Minister of the Gospel in Vermont.

GLOVER, VT., June 20, 1859

Messrs. S. W. FOWLE & Co.,

Gents:—I hereby certify that I have been troubled for several years with a difficulty of the heart and lungs, and have applied to several physicians for help, and have tried almost every remedy of the numerous ones which have been recommended, without receiving any assistance; but had the growing weaker and weaker, until, hearing of WISTAR'S BALSAM OF WILD CHERRY about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the *best* lung medicine before the public, and I most cheerfully and conscientiously recommend it to all persons suffering with pulmonary consumption.

H. L. GILMAN.

From the Editor of the "Rising Sun," Richmond, Me.

DR WISTAR'S BALSAM OF WILD CHERRY AND THE UNADULTERATED BITTERS.—Our readers will pardon us for venturing an opinion of these *celebrated remedies*, which have been so long before, and have become so popular with the public. They are often disposed to cry "humbug" against the greater number of Patent Medicines at the present day, and this, no doubt, is a certain extent, may be justifiable; but, convinced of the superior efficacy of the above articles as remedial agents, with the hearty endorsement of the medical fraternity, we can cheerfully recommend them to the *Consumptive* or *Dyspeptic* sufferer as being every way worthy their confidence and a thorough trial.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere. oct31

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 dawsm

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more miserably from spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent will insure a bottle, containing over 50 Pills, by return mail. my28dawsm

Sold by W. R. PRESTON and all druggists.

Portsmouth, Oct. 29, 1861.

AUGUSTUS WALDEN.
W. H. HAYES.

Witness, JACOB WALDEN.

Local.

S. J. COURT—TUESDAY, Nov. 5.

In the case of Wm. H. C. Wright, Admr. vs. Eliphalet Case and Levi S. Bartlett, a verdict was ordered for plf. for $3939.88. The case of Olive M. Dame vs. Thomas F. Foye, administrator of the estate of Henry Foye, was then taken up and a verdict was rendered for the plf. for $50 and, interest from the date of the writ.

The case of Oliver F. Gerrish vs. John Grogan, another action on a promissory note, was disposed of by a verdict for the plf. for the amount of the note and interest.

ITALIAN OPERA.—Our readers will learn with great pleasure that on Thursday evening of next week, the following artistes of the Italian Opera, from the New York Academy of Music, will visit this city;—Miss Isabella Hinkley, the celebrated prima donna; Signor Brignoli, Signor Mancusi, Signor Susini, Herr Mollenhauer, and Carl Auschutz, musical director and conductor of the New York Academy of Music. The performances, undoubtedly, will be among the most attractive ever offered in our city. The programme will consist of a Grand Concert, in which all the artistes will render choicest musical morceaux, and acts of Italian Opera, in costume. The appearance of these celebrated artistes in our city cannot fail to prove attractive to our citizens. The entertainment will be of the very highest order, and we learn the price of admission will be fixed at a reasonable rate.

☞ A criminal case of wanton mischief occurred on Monday evening, about 9 o'clock, when some rowdies broke the front windows of house Nos. 1 and 2 Howard street, occupied by Mr. George Totherly. Mr. T. is well known as an honest and peaceful man, now aged and infirm, who cannot have an enemy. The perpetrators of the act, therefore, if they see this item, may reflect that in the exercise of their clubs, with a flourish of which they sportively dashed in the windows of a quiet old man, they have disturbed his rest, and put him to expense which he can ill afford. If they have and soul, they should show it by sending the old man a tendollar bill.

☞ The valuable Mill with the water Privilege in this city, lately occupied by William Rand, Esq., was sold at auction on Saturday last by Henry F. Wendell, Esq., for $7850. As it was a cash sale, this would tend to show that real estate in this city has by no means depreciated in value.

POLICE COURT, Tuesday, Nov. 5.—Lory Odell presiding.—Wm. Reding, for being drunk on Market street, was fined $3 and costs, $2.92.

William Paul, for being drunk on Deer street, was fined $3.00, and costs $2.92.

CLOTHING was stolen from the clothes lines in several localities in this city, on Monday night, by some poor wretch, who, probably, has not yet fallen too low to appreciate the "luxury of a clean shirt."

The steamer Belvidere, of the Naval Expedition, loaded with horses and stores, returned to Old Point Monday noon. She was separated from the fleet in the storm of Friday, and a portion of her upper works were stove. Twelve of the horses were killed.

Monday afternoon the steamer Monticello, from the blockading fleet off Savannah, arrived at Fortress Monroe, and reported the whole fleet, moving along finely, on Saturday night, within 30 miles of Bull Bay. The storm had nearly abated, and her officers have no doubt the fleet entered Bull Bay early Sunday morning and landed within 25 miles of Charleston. This point of the coast was but slightly fortified.

The Norfolk Daybook mentions a rumor that Beauregard had resigned, and also publishes a dispatch from Richmond mentioning a similar rumor there.

The Herald's dispatch says official dispatches have been received at the War Department from Gen. Rosecranz announcing that Floyd had made an attack upon him, but that he had repulsed Floyd with great loss; also that one of Rosecranz's officers with a large force had got to the rear of Floyd's forces, and that the capture of the rebel chief with all his army was almost certain.

Notwithstanding the late terrific rain storm, the roads in Virginia are found to be in excellent condition. Government stores lying in the warehouses on the wharves at Washington suffered a good deal from being submerged.

The largest review of infantry that has ever taken place in the army will be had on Wednesday.

Accounts from Kentucky speak of a number of rebel defeats, and not one rebel victory.

From Richmond, accounts have been received of the desperate condition of the rebel Gen. Lee, of Western Virginia. His troops are in a disorganized condition, and are suffering terrible privations. It is thought that he will not be able to reach Kentucky, for which poi t he is now pressing.

MASSACHUSETTS ELECTION.—The vote in the State has been light—perhaps one-third less than usual. In Boston, at 2 o'clock, Tuesday. Andrew had 3026 votes, and Davis 2354; Hooper, 1290, and Upton 1118. In Newburyport at 1 o'clock, Andrew had 341; Davis 323; the Dem. candidate for Representative was running ahead of his regular ticket. Cambridge gives Hooper 614; Upton 467.

☞ The crew of ship Gov. Langdon mutinied while going down Boston harbor, Monday evening, and hoisted a flag union down. The vessel was boarded by the Harbor Police, who persuaded the crew to return to duty. The ship then proceeded on its voyage.

☞ It is reported that the Government has stopped the salary of Judge Merrick, of the Circuit Court in Washington, in consequence of his recent rebellious performances in relation to the writ of habeas corpus.

☞ It is stated that Gov. Berry, of this State, is in Washington to confer with the Government on the state of the coast fortifications.

☞ The Pony Express ceased running October 27th.

Maj. Gen. Halleck, of California, has arrived at Washington.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

PROPOSALS

Will be received by the undersigned, at Augusta, Maine, until the fifth of November, 1861, for SUBSISTENCE STORES for the troops stationed at Fort Scammell, Portland harbor, Fort McClary, Kittery, and Fort Sullivan, Eastport. The following articles each Fort will be required to be delivered as follows:

7 bbls Mess Pork; 12 bbls Mess Beef; 8 bbls Flour; 1800 lbs Hard Bread; 5 bushels Beans; 180 lbs Rice; 200 lbs Coffee; 540 lbs Sugar; 16 galls Vinegar; 38 lbs Adamant Candles; 140 lbs Soap; 2 bushels Salt; 25 bushels Potatoes.

The provisions to be of the best quality, and to be subjected to "Inspection;" the supplies for Forts Scammell and McClary to be delivered at the Forts by the 9th of November, 1861; and those for Fort Sullivan five or ten days later.

Bids can be made for the supplies for any one of the Forts, or for all of them. Inclose Proposals for Subsistence. S. EASTMAN,

Major 5th Infantry, A. C. S.

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair.

Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

Messrs. W. E. Hagan & Co.:—I hereby certify that my hair having become gray, and my hand partially bald, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. ROBINSON.

Sold everywhere—price 50c., and $1 per bottle.

THERE IS NO USE

Introducing Testimonials,

Altho' we have very many of them,

—FOR THE—

MAGNOLIA BALM.

For when the face is covered with unsightly pimples or Blotches, the sufferer cares only to be directed to use some *safe and reliable remedy.*

THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A SINGLE WEEK.

It is so safe a remedy, that the contents of a bottle might be drunk without harm. Physicians look with wonder upon its speedy cures, for if has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and neatly put up article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and yet that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c; and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the sufferer to most painful distress at every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The most exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the remedy has hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; yet when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various forms, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,

N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the Bowels move on unobstructed in health again. They stimulate the functions of the body into vigorous action, purify the system from the disorders which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, feed upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cannot by similar obstructions and derangements of the natural functions of the body, they are equally, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Testimonials from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had plagued her for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her head. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Gurtwright, New Orleans.

Your Pills are the prince of purges. Their excelling qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that no case tried with a purgative medicine.* I also prescribe them daily for an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

DUNBARTON, Pa., Mar. 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache by your Cathartic Pills, by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

DR. AYER: I have used your Pills in my family and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quite equal to dobell, cures speedily they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Respectfully yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Grant, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent cathartic for those subject to bilious *Dysentery and Diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in the town. To regulate the stomach, correct dyspepsia and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 22, 1854.

DEAR SIR: I am using your Cathartic Pills in my practice, and feel them an excellent purgative to cleanse the system and purify the fountain of life.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Fisher, of Hartford, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the parent of others that are worse. I believe it to commence to originate in the liver, but your Pills affect that organ and cure the disease.

From Rev. E. Hazard, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural movements, whether of purifying purposes, and also very efficacious to cleanse the stomach and expel worms. They are much the best physic we have that I recommend to other to my patients.

From the Rev. Dr. Hendee, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your pills have brought me if I did not report my case to you. A cold settled in my limbs and brought on acute rheumatism, neuralgic pains, which ended in chronic rheumatism, with confirmed dyspepsia. I took the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your pills. Their effect was magical. I took but one box. By persevering in the use of them, I am now entirely well.

SYDNEY DUNCAN, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of Rheumatism—a painful disease which I had suffered for years.

VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill. From the dreadful consequences that frequently follow its incautious use, I offer a pill free from mercury or mineral substance whatever.

PRICE, 25 cents per Box, or 5 Boxes for $1.

HOUSE FURNISHING ESTABLISHMENT,

No. 16 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven with, in the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long, or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove cools no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends a so to the preservation of the plates most exposed to destruction.

3d. The durable dump grate, with the ash box of ample size to receive the ashes and coals, is an attractive feature of the stove.

4th. The draft door, at such end of the fire box, is a great convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a bearth for the fire, need not be moved every time or once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division of flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and jackets are provided for the back and side plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "correct in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRUNDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to MESSRS. J. M. Mathes, J. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shurtes, Geo. Whitehouse, Joseph E. Case, Nathaniel Shurtes, John Barrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found a fuel saver, for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Modal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family

EZRA A. STEVENS,

No. 16 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVE,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char,* upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The store is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin lining,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the aid of the TOP COVER, a cool fire may be kept up through the night, and *bread, flat and dinner prepared the next day with no additional fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DRYING OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the oven, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of heat may be confined in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the full summer dress, the various culinary processes can be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to last; and *will last.* The structural form is such that the frame-work of it *cannot* burn out.

All the pieces constituting the original STEWART STOVE, which was brought out 15 years ago, are still made, and sent to different parts of the country for sale.

The price of QUIETNESS, COMFORT and HEALTH secured to a family by the use of a culinary apparatus superior to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and NOT found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

In conclusion, we will venture to refer to, and explain if not refute, the statements of one of our city Stove Dealers, respecting the Stewart Stove, in comparison with the so-called almost-unknown Cook Stove. The gentleman the cin named, as using and discarding the Stewart, never had one of the new, improved Stewarts, but did for a long time use one of the old pattern; and it gave such complete satisfaction that we have recently furnished three members of the same family, with the new improved Stewart;—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than fifteen years in this business is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be secured by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquor and Wine* for medicinal and other purposes, we have for many years paid special attention to filling orders for PRIVATE USE; and Customers have found it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, price, &c.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physician's Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Dispepsia, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Nutritive, highly recommended by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or unauthorized article, but is prepared from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and as a reliable article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is unrivaled for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine:

Gen. W. Scott, U.S.A. Dr. Ward, Newark,

Drs Jackson, Herbert & Co.
15 Greatest Medical Circular Ever Published! 15
Fifteen cts. large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphillis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Health," or Nature's Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and upwards, or 8 cts. for each and nine cents in stamps This book is fully described in our Circulars. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all discoveries of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 9 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guaranties of our ability and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience will admit. P. O. Box 456. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

THURSDAY, NOVEMBER 7, 1861.

THE REBELLION.

Gen. Fremont was removed on Saturday from the command of the Department of the West. The news came while he was on the march to meet the enemy, who were within twelve miles of him. The news caused the greatest excitement and indignation among both officers and men; many officers resolved to resign, and whole companies laid down their arms. Fremont used all his personal influence to induce them to return to duty, urging them, by their patriotism and by their personal regard for him, not to abandon their posts. He issued the following farewell address to the troops:—

Soldiers of the Mississippi army: Agreeably to the orders recived this day, I take leave of you. Although our army has been of sodden growth, we have grown up together, and I have become familiar with the brave and generous spirits which you bring to the defence of your country, and which make me anticipate for you a brilliant career. Continue as you have begun and give to my successor the same cordial and enthusiastic support with which you have encouraged me. Emulate the splendid example which you have already before you, and let me remain as I am proud of the noble army I have thus far labored to bring together. Soldiers, I regret to leave you most sincerely. I thank you for the regard and confidence you have invariably shown me. I deeply regret that I shall not have the honor to lead you to the victory which you are about to win, but I shall claim the right to share with you in the joy of every triumph, and trust always to be personally remembered by my companions in arms.

JOHN C. FREMONT, Maj. Gen.

The body guard, who could not be induced to remain, will now disband, as the terms of their enlistment permit, and will accompany Gen. Fremont, as also his entire staff, including Gen. Ashboth, commander of the 1st division. Gen. Fremont will permit no demonstration from the troops on his departure. Gen. Pope will take command until Gen. Hunter arrives.

Southern papers say that the loss of the rebels at the Leesburg fight was 300 killed and wounded. Richmond papers say that Gen. Evans fought at Leesburg contrary to orders and is to be court-martialed.

Beauregard's official report of the battle of Manassas says 389 rebels were killed and 1200 wounded, and that the Federals lost 4500 killed, wounded and prisoners.—He says his entire force there was 58,000, of which one-fourth only were engaged.

The Richmond Examiner states that the work on the Merrimac is incomplete, and that there are great complaints of slowness and imperfections in the iron work.

A report of Capt. Hunter, of the rebel steamer Curlew, dated off North Carolina coast, Oct. 30, states that, they having approached Hatteras Inlet on the 29th, our forces opened fire upon them from the fort and two or three steamers, without doing them any injury. The rebels replied and then withdrew.

The Tribune's Washington dispatch says: "we learn on good authority that Gen. Wool has tendered his resignation."

Gen. Heintzleman has declined hunting for stray negroes.

Provost Judge Freeze, having been appointed agent to manage the estate of the late John A. Washington, at Mount Vernon, Gen. McClellan ordered the case to be dismissed and the agent removed.

There is a considerable rebel force at Fairfax Court House, and the rebel troops are being thrown west to the vicinity of Leesburg. It is understood that the government is determined that the Potomac shall be opened within a few days, and the rebels be dislodged from their batteries.

A Fortress Monroe dispatch says the steamer Cambridge has been forty miles up the Rappahannock, which is as far as she can go. It is said that the entire negro population in that part of Virginia is on the move.

The signal corps of Gen. Banks' division is fast becoming indispensable in military arrangements. Sunday, division signals were read at a distance of forty miles in an air line.

The steamship Africa, for Liverpool, took forty passengers. Archbishop Hughes and Thurlow Weed were among them.—Gen. Scott goes in Saturday's steamer.

The storm was very severe at Hatteras Inlet, and as a new channel was forming between the forts, by the rising of the tide, it was feared that they might become untenable. About a quarter of the much-needed clothing had been landed from the steamer Spalding on Friday night, when the storm came, and it was washed away; other stores were also lost.

A dispatch to the St. Louis Republican from Springfield, Nov. 2, says Gen. Price was at Cassville, Mo., on Thursday, with 25,000 rebels, and McCulloch ten miles distant with 10,000. They intended to march on Springfield.

☞ Returns from 215 towns in Massachusetts give Andrews 51,000, Davis, 26,600: Representatives, Rep 136; Union 59; Dem. 15,—Senators, 28 Rep.; 3 Dem.—Council, 8 Rep.—County officers, all Rep.

NEW HAMPSHIRE ITEMS.

—— Big potatoes having had their day, the farmers are now boasting of their huge pumpkins. Mr. Robert Sanborn, of Sandown, says he raised in his garden, of spontaneous growth, 14 pumpkins on one vine, ripe, sound, and weighing 403 pounds. The vine ran out to a length of 688 feet in its several branches. On the farm of Mrs. Aaron Prescott, in Hampton Falls, there grew from one seed eleven pumpkins, weighing in all 317 pounds. From a cartload of the same materials for Yankee pies, raised among his corn by Mr. Stephen B. Brown of Holderness, four were taken which weighed 200 pounds.

—— The Episcopalians of Epping have now regular religious services every Sabbath, in Pawtuckaway Hall. Mr. Wm. H. Taylor acts as Lay-reader, whenever there is no minister. The Exeter News Letter says, "Bishop Chase has made arrangements for a liberal supply of gratuitory preaching, by some of the best talent of the Mass. and N. H. Dioceses."

—— The Seventh Regiment, raised in this State by Gen. Joseph C. Abbott, under authority from the U. S. Government, is now full, and nearly all will be in Camp by the close of the week. Two companies have already been mustered into the service of the Government.

—— One span of the new bridge for a branch of the Candia Railroad, building at Hooksett, was carried away Sunday night by a sudden rise of the river. The loss was about $1000. It was intended to lay the track over this portion during this week, but considerable delay and inconvenience will be experienced on account of the accident.

☞ The superseding of Gen. Fremont, from his command in Missouri, will doubtless give great satisfaction to the rebels, and to the slave power and its friends, in general: for though his removal does not purport to be on account of his proclamation of freedom,—yet they will rejoice at his removal, because they hate him most intensely, and were dreadfully afraid of him besides.

The removal of Fremont, must place his successor in trying circumstances;—because Gen. F. was a favorite with his men: and if Gen. Hunter is the successor, the fact, or the statement, that he pronounced Fremont incompetent, will induce the whole public to keep a sharp lookout on Hunter's movements, and to judge him severely, in case he should meet disaster or defeat.

It is to be hoped, however, that the work which Fremont has begun, may be successfully carried on by his successor, until the rebels in Missouri and on its borders, may be thoroughly crushed. The contest is not for *men*, but for *the country*:—and we are sorry that the country is to lose the services of a soldier so brave, on the eve of a battle, especially when his removal carries with it his body guard, who have so recently won the most brilliant victory achieved by our arms against the rebels.

☞ The New York correspondent of the Philadelphia Inquirer states that Rev. Henry Ward Beecher purposes to sail for England in the course of a few weeks, for the purpose of delivering a series of discourses in London, Liverpool, Glasgow, and other cities, on the origin and progress of the American war, in the hope of imparting to John Bull such ideas of the struggle as will be likely to restrain him from bestowing his sympathies on the rebels.

☞ During the storm of Sunday, Caleb L. Howard, while sailing in the river near Salisbury Point, was drowned by the swamping of his boat, and his body floated out to sea. Mr. Albert Greenleaf put off to attempt to save him, but was obliged to beach his boat on Plum Island for his own preservation. Mr. Howard was 33 years of age, and leaves a wife and three children. On Monday the body was found on Salisbury beach.

BURLEIGH'S ITEMS.—Every body knows or might know, that Burleigh, the New York gossip writer for the Boston Journal, is Matthew Hale Smith. His letter of Nov. 1, says:—

Matthew Hale Smith has been tendered the position of Lieutenant Colonel in one of the now forming regiments in this State.—As near as I can learn, he yet holds the matter under advisement.

The same letter has the following item about Fremont, &c.:—

Gerritt Smith gave an address in Dr. Cheever's church, on Wednesday night, to a crowded house. He was not at all severe on the administration. But his allusion to Fremont brought the house down, and showed most unmistakably how the wind sets in New York. He was, of course, anti-slavery up to the hub.

THE NOVEMBER METEORS.—Star gazers say the period from the 11th to the 14th of November will probably be distinguished by remarkable numbers and displays of those brilliant and erratic visitants, called meteors. November is the time when they are most abundant.

☞ A branch of the Eastern Railroad has been extended to Rockport, Mass.

LETTER FROM CALIFORNIA.

KNIGHL'S FERRY, CALIFORNIA, Oct. 8, 1861.

California is intensely mineral, the placer mines still hold on and give good returns for labor, while new mineral discoveries are being made almost daily, and opening a new era in mining. The new copper discoveries now extend over an area of 25 square miles, running through the counties of Amador, Calavaras, San Joaquin, Stanislaus and Tuolumne. This is a very large district, and from a personal knowledge of specimens of ore, procured in different localities, I can safely say there is room for ten thousand claims, and one hundred thousand men to work them. Interspersed through this same region is rock containing silver and gold, some with silver alone, while others have found auriferous Tellurium, a white rock containing seventy per cent. of silver and gold with ten per cent. of copper to the ton. The copper mines average per ton some $60, $80 and $90,—while there are some that have that percentage of copper and have in addition some $30 and $60 per ton of silver and gold. There has been trouble in getting this kind of ore smelted, and after spending several months in trying to get it done in the States, the miners have at last shipped it direct to Swanzea, England, from whose furnaces they expect to derive better and quicker returns.

A friend writing from Nevada Territory, says that in 1862 their mineral resources will enable them to send to the seaboard over 15,000,000, and within three years its yield will be greater than that of California in precious metals. There are over fifty mills in operation, soon there will be as many more, and there is rock enough to keep 300 mills in constant employ within eight miles of Virginia City alone. If we allow each mill ten tons per day, we have 3000 tons in every twenty-four hours, yielding, say $40 per ton upon an average, which gives $120,000 per day, or $37,000,000 per year. This estimate would seem extravagant did we not know that flanked on each side of the Sierra Nevada Mountains, are a series of of foot hills, whose bases are composed of the various mineral rock, and cover a distance of 200 miles. This is truly a mineral age, for this is the most expensive kind of mining, requiring crushing and smelting, and these agencies require vast amounts of labor to reduce them to a marketable state.

Our agricultural prospects continue improving, as the results of our autumn fairs will amply show. The fruit deserves especial mention, for never did a country seem to yield it so bountifully as California.—Trees soon mature if cared for, and in two, three and four years produce luscious peaches, apples, pears, apricots, nectarines and plums, to say nothing of any quantity of figs and grapes. I planted a slip of a fig tree, about four inches in length, and now it has a strong root, and stands 30 inches high, and has five figs upon it, all grown in five months. I have trees of two years growth that will furnish all the peaches we shall need another year for our little circle.—Tropical plants and greenhouse flowers bloom in our gardens, among which are monthly roses, flowering verbenas, purple, pink and red, which are perennial, while for annual we have white and red roses, prairie flowers, honeysuckle, pinks, dahlias, Giant of Battle, Lorraine, and a host of other flowering shrubs that go to make up a cheerful scene, enlivened by its pleasant odors.

J. E. W. C.

KENNEBUNK, ME., Nov. 2.

There have already been sent from this town, for the use of our brave volunteers at the seat of war, the following articles:—51 pillows; 320 pillow-cases; 228 sheets; 23 blankets; 53 quilts; 13 comforters; 178 shirts; 141 towels; 250 handkerchiefs; 115 pairs of drawers; 200 pairs socks; 10 pairs gloves; 10 pairs of feet soles; 1 lot of old cloth for bandages; 50 pin-flats, with pins; 100 bags, containing yarn, thread, buttons, tape, buckles, etc.; 19 leather and knit cots; a lot of dippers, spoons, etc.; 19 pairs slippers.

Yet our town is not weary in the good work,—and preparations are being made to send another lot soon. *

☞ Gen. McClellan has been occupied in ascertaining the strength, condition and disposition of the army of the United States, and systematizing matters so that the burthen of the management of military affairs may be safely confided to the Adjutant General's office, and afford Gen. McClellan opportunity to devote his attention especially to the army of the Potomac.

☞ At the election on Tuesday, in New York, the People's Union ticket for State officers (which is the same as the Republican ticket, with one exception,) is reported to have been elected by a large majority.—The Attorney General chosen is Daniel S. Dickinson.

☞ Bishop Timon, of Buffalo, has issued a letter prohibiting Catholic ladies from wearing low necked dresses.

Fish fell in considerable numbers on the plain Tecouan, Aguascalientes, in a rain storm on the first of August.—*Post.*

☞ The "Lee's Mill Bridge," over the Great Works river in South Berwick, is now being rebuilt. The Selectmen advertised for proposals for doing the job and finding material for the same, and the contract was given to John Hanscom, Esq. He commenced the job in Sept. last and now it is well advanced. A portion of the distance of the original bridge span has at this time been filled with earth at each end, and three heavy rock abutments put in the stream, on which to rest the timbers of the bridge. With good weather the bridge will soon be completed. This bridge, being on the main road from So. Berwick to this city is much travelled, and the want of it occasions considerable extra travel.

MECHANIC ASSOCIATION.—At the annual meeting held on Tuesday evening, E. M. Brown was chosen Moderator.—The President, before retiring, made a report, stating that he had been obliged to draw heavily on the Treasurer, on account of sickness and death. The Association had been called upon to bury four members during the past year, and had furnished watchers for the sick one hundred and nineteen nights. The Committee of Relief have made it their especial duty to visit every member reported sick, as often as once a week. The President had drawn on the Treasurer for the Committee of Condolence, $140; and for the Committee of Relief, $228.75; amounting to $368.75 for charitable purposes,—all of which has been judiciously expended and gratefully received.

After the report had been read and accepted, the following officers were chosen for the ensuing year:

Marcellus Bufford, *President.*
Henry S. Rand, *Vice President.*
Alfred T. Joy, *Treasurer.*
Joseph Whidden, Benjamin Weeks,—*Trustees.*
John Knowlton, 2d, *Secretary.*
Benjamin M. Parker, *Deputy Sec.*
Wm. C. Hatch, *Marshal.*
John T. Larrabee, *Deputy Marshal.*
George T. Wildes, *Standard Bearer.*
Chas. W. Brewster, Edmund M. Brown, Samuel W. Moses,—*Auditors.*

MASSACHUSETTS ELECTION took place on Tuesday, and the Republican State ticket was elected by a large majority, in a light vote. In Boston Gov. Andrew had 5707; Davis, 5176. In 54 towns, Andrew had 25,782; Davis 15,519. Representatives: 63 Republicans, 11 Democrats, 10 Union.

The Boston Courier of Wednesday "particularly regrets the defeat of Mr. Hillard and ex-Gov. Wells of Maine;"—the Post says "a more spiritless contest was never known;"—the Herald speaks of "apathy," and says:

"Except in a few contested districts, there was neither interest during the canvass nor after the result was known. The Republican State ticket was elected, of course."

In the 5th District, late Burlingame's and Appleton's, Mr. Hooper, the Republican candidate for Representative, received 4875 votes; and Mr. Upton, the nominee of the Democratic party, had 3802; Hooper's plurality, 1073; there were 11 scattering.

Mr. Upton had the support of the three papers above named, and a day or two before the election, the Courier remarked:

"There is evidently no doubt that Mr. Upton has the popular voice with him."

Both Hooper and Upton were formerly Webster Whigs, but they differed considerably in this election; for Mr. Hooper, in his acceptance letter, distinctly pledges himself "to the support of the government and a vigorous prosecution of the war;" and says that his whole efforts, if elected, shall tend to rescue the country from a "wicked conspiracy against everything dear to us as freemen and Christians."

On the the other hand, in Mr. Upton's letter, he does not explicitly say that he is for a vigorous prosecution of the war. But "he had always considered the Democratic party as the most loyal to the Union, and had for a number of years been in correspondence with many of its leading members. He was opposed to secession, and very much opposed to abolition."

Judge Wells, who presided over the convention that nominated Mr. Upton, recommends a "peace convention,"—and a meeting of his friends in Charlestown called themselves "the citizens of Charlestown, opposed to emancipation and in favor of the National Government."

☞ A distinguished physician, who died some years since in Paris, declared: "I believe that during the twenty-six years I have practiced my profession in this city, 20,000 children have been carried to the cemeteries, a sacrifice to the absurd custom of exposing their arms and necks."

☞ Mr. Luther Stover, formerly of York, Maine, and another man, name unknown, in attempting to land on the Outer Brewster in Boston harbor, were drowned, on Monday, their boat being capsized in the heavy surf.

☞ On Tuesday elections were held in New York, New Jersey, Michigan, Wisconsin, Massachusetts, Illinois and Delaware.

☞ Philip Augustus Embury, son of Mr. Augustus Embury, President of the Brooklyn, N. Y., Bank, was killed on Saturday evening, at Fishkill landing, by an unknown assassin.

☞ The Treasury, in defining the operation of the new tariff act, has made no discrimination against green teas. Black and green teas will be admitted under similar duties.

☞ At South Danvers, Mass., a man named Enoch Poor, who left his house on Saturday evening, was found dead in a field near Tremont street, Sunday morning. He was an intemperate man.

☞ It is stated that seventeen mills, employed by Government in the manufacture of army cloth and blankets, have been destroyed by fire since July 1.

Returned Volunteer—Well, after he'd burnt two railroad bridges and informed the rebels of all our movements, we caught him, and, by Jove, we just took him and—

Excited Listener—What? What?

Returned Volunteer—(with dreadful emphasis)—"Made him take the oath of allegiance!"

A Catalogue, containing all the books in the Library, up to the 1st of October, furnished gratis on application.

Crockery, Glass and China Ware.

Just received, a lot of the above goods, all of which will be sold lower than elsewhere.—at No. 2 Market street. ALFRED STAVERS.

☞ A letter received by a citizen of Newburyport, from a relative in Richmond, Va.,—who is a warm Union man, and a native of Massachusetts,—states that the large body of Federal private soldiers who are confined as prisoners in the tobacco warehouse, in the room immediately over Mr. Ely's, recently planned a scheme for breaking prison and making their escape. But a few of the more timid feared for the result, and, finding that their comrades were desperate and would not be persuaded to desist from their attempt, divulged the scheme, thereby to save *bloodshed*. The prisoners were at first allowed to range about the city—under guard, but now have no such privileges.

S. J. COURT—WEDNESDAY, Nov. 6.

The case of John W. Drew vs. Amos Kimball, occupied the attention of the Court during most of the day; it is an action of replevin for cattle taken by a Deputy Sheriff. The present term of the Court, of which this is the fourth week, will probably be concluded this afternoon.

☞ Through the energy of Mr. Superintendent Prescott, all the breaks upon the Eastern Railroad have been repaired and through trains run as usual on Tuesday.

"EVERYBODY"
WHO USES
HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE
Is convinced of the fact that
It Will Restore the Natural Color of the Hair,
Where age or sickness has turned it gray, and that it will render it soft and glossy.
"ANYBODY"
Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

MESSRS. W. R. Hagan & Co.,—I hereby certify that my hair having become *gray*, and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, stretched its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSWORTH.

Sold everywhere—price 50c. and 81per bottle.
W. E. HAGAN & CO., Proprietors, Troy, N. Y.
THACHER Agent for Portsmouth. aul

THERE IS NO USE
Introducing Testimonials,
Altho' we have very many of them,
—FOR THE—
MAGNOLIA BALM,
For when the face is covered with unsightly pimples and blotches, the sufferer cares only to be relected to use some *safe and reliable remedy*.

THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A REASONABLE WEEK.

It is so *safe* a remedy, that the contents of a bottle might be drank without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and easy to put up article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

ZOLLICKOFFER'S
ANTI-RHEUMATIC CORDIAL
A PREPARATION FOR THE CURE OF
INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and scarifying, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the vatscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afficted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the incalculable efficacy of this invaluable compound, and who have felt that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various stages, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by DR. THEODORE DIDES, Chemist,
N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by
JAMES F. SHORES, JR.,

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, and do your system derranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the functions move on much relieved in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by these means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Testimonials from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ABA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellence qualities surpass any cathartic we possess. They are mild but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR AYER: I cannot answer your whole complaint: I have cured with your Pills better than to say *all that mortal can treat with a purgative medicine.* I place great dependence on an efficient cathartic in my daily practice with all diseases, and believing as I do that your Pills afford us the best we have, I of course value them highly.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirable purgatives, but their purgative is an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more efficacious for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DISPENSARY OF THE INVALIDS,
Washington, D. C., 7th Feb., 1856.

I have used your Pills in my general and hospital practice ever since you first gave them, and cannot hesitate to say, they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom failed a case of bilious disease so obstinate that it did not readily yield to them. Yours, ALONZO CLARK, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I speak them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and should feel an call to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WILLIAM, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Inflammation, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

You much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have been as successful as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although had enough in itself, is the generator of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural sensations when wholly or partially suppressed, and also very efficacious to cleanse the stomach and expel worms. They are my touch the best physic we have that I recommend to other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PLEASANT HILL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be unpardonable for the relief your skill has brought me if I did not report my case to you. A mild settled in my limbs and brought on excru ciating neuralgic pains, which defied all other remedies. Nor withstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been suffering for years from a *Pulmonary Cough*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful cases of salivation frequently follow its incautious use. These pills are entirely free from mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

1861.

E. A. STEVENS'

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 22 long by large enough to take six large plates on the bottom, every part of which will take evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz.:

1st. This permanent extension of the stove cools no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the floor of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz.:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends a so to the preservation of the plates most exposed to destruction.

3d. The durable cast iron grate, with the ash box of simple size to receive the ashes and coals, is an attractive feature of the stove.

4th. The draft door at the front end of the fire box, is a great convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division of flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and air jackets are provided for the back and bottom plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a lifetime, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRUNDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years being one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to Messrs. J M Mathes, N. K. Walker, C. C. Jackson, C H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Phinehas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nathl F. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range,

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVE,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal fire. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

4. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

5. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

6. Also, by the aid of the TOP COVER, a coal fire may be kept up through the night, and breakfast and dinner prepared the next day with no additional fuel.

7. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being advantageously thrown both sides of the fire-box; and the fumes, the meanwhile, passing into the draft.

8. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no loss of economy.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the full summer draft, the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last;* and *will last.* The structural form is such that the frame-work of it cannot burn out.

All the plates constituting the original STEWART STOVE, which was brought out 18 years ago, are still made, and sent to different parts of the country on call.

The price of QUALITIES, COMFORT and HEALTH secured to a family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and NOT found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the Inventor has kept pace with the times, and adopted made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Back Scythe.

And here we will venture to refer to, and explain if not refute, the statements made of our City Dealers respecting the Stewart Stove, in comparison to another almost-unknown Cook Stove. The gentleman the six named, as selling and discarding the Stewart, never had one of the NEW, improved Stewarts, but did for a long time use one of the old pattern; and it gave such complete satisfaction that we have recently furnished three members of the same family, with the new improved Stewart;—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE O PORTO FRUIT,
For Physicians' Use.
FEMALES, WEEKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

MAJOR HOOPER & SON,
july29 10 & 12 Water Street.

Houses and Lands.

FOR SALE,
At a price to suit the times, the two-story DWELLING HOUSE and BARN, together with about 2½ acres of good land, on which the buildings now stand, and occupied by Capt. JOSEPH G. CHAMBERS, situated in Kittery, Me., on the road leading from Kittery Point to Portsmouth, N. H., about one-quarter of a mile from Pepperell Cove, and about two miles from the Navy Yard. The buildings have been erected within a few years, and are in good condition. For further particulars enquire of
GEORGE LITTLEFIELD,
nov7 Ogunquit, York, Me.

Desirable Residence for Sale.
The subscriber offers for sale his convenient and pleasantly located estate in Middle Street, formerly owned by the late Abel Harris, Esq.
The HOUSE contains Parlors, Dining Room, with ample sleeping apartments and kitchen with water conveniently introduced. A well cemented Cellar extends under the whole house. The stable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.
In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a very high state of cultivation, upon which are the usual fruit trees of all kinds.
On the east side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY BARN, fronting on Park place, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.
Terms liberal. Apply at 91 MARKET ST.
A. W. SIMPSON.
Portsmouth, Oct. 15, 1861.

NEW ENGLAND
Single Stitch Family Sewing Machine.
This little Machine stands confessedly at the head of everything now offered to the public.
In Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!
There is no complicated machinery to get out of order or perplex the operator.
It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every FAMILY than any other machine now offered to the public.
Price only $12,
Table $6.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, NOVEMBER 8, 1861.

LETTER FROM NEW YORK.

NEW YORK, Nov. 1.

Dear Chronicle:—"Right up Sixth Avenue" sounded merrily in my ears, as, with a party of eight, I stood on the line of the horse railroad; and merrily, too, sounded the chink of nine fares to the ears of the driver, as they fell into the money box, while the rat-tat of the horse's hoofs on the pave, and the burr-r-r of the wheels in the iron-grooved rail, proclaimed our onward progress to inspect Central Park by moonlight. Place a lighted candle on the garden fence for the moon, kind reader, and, nestling in the shade of some domestic apple-tree, imagine yourself in company, as we strode through paths winding and almost interminable, one hardly being aware where the old one ends and a new one commences.

The moonlight streamed through the *trees*, casting shadows of every length on the grass; and the forms of the bushes on the edges of the ponds were reflected in the water, on which rested motionless the white swans, like marble statues on the surface of a mirror; and down into the cave, thirty feet below the ground level, the silver rays streamed through the crevice in the top, as the echo of our merry laughter struggled up through the entrance into the air above.—Up after it we mounted; then a walk over the iron bridge, with its arch of 80 feet spanning the pond, and vases along the rail, entwined with jessamine, clematis and myrtle vines; then a race up the mall with the girls, followed by a mount up the tower, which commands a splendid view of the city proper, Hoboken on the right, and Brooklyn Heights in the far distance,—over all of which the myriad lights sparkled like a second firmament, or a crystal mirror extending on every side, reflecting with additional brilliancy the stars of heaven.

While admiring this grand panorama of beauty, the chimes of the evening bells warned us that a longer stay would be a trespass on the Park regulations, and we reluctantly turned homeward. Meeting on the way one of the gentlemanly policemen who have charge of the grounds, he led us to the leaf-embowered temple, the home of a fine specimen of the national bird of America.

The mount-top cycle his home no more,
No longer his the broad blue sky to soar.

Perhaps he is contented to perch on the branches of the trees within his limit, and gaze with curious eye on the crowds of Gothamites who flock to see him. Perhaps he isn't. I didn't ask him.—Were the columns of your paper more elastic, I could write you many more incidents of this moonlight excursion; but so much must suffice. Snuff out the candle, reader, and retire; while we speed city-ward in a two-horse car.

Military men are abundant. The 45th New York and 1500 cavalry passed down Broadway yesterday, followed by the New Hampshire Battery and the 25th Massachusetts this morning. The troops all looked finely, and praise sufficient to fill a hundred "sticks" could be written of the New Hampshire boys; but my letter is too long already. NEWINGTON.

THE ELECTIONS.—In *New Jersey*, the State election gives the democratic party a majority in both houses of legislature.—They had a majority in the House, and in joint ballot, last year. The republicans had 1 majority in the Senate, last year; this year the democrats have one. There was no State ticket this year.

In *Maryland*, in Baltimore, the election was very quiet: Gen. Dix issued instructions to the judges of elections to allow no man to vote who took part or bore arms in the April riot, or who refused when challenged to take an oath of fidelity to the Government. The whole vote of the city was about 20,000; Bradford's majority will probably reach 16,000. He is the Union candidate for Governor, and his majority in the State will be large.

In *Wisconsin*, the returns so far indicate the election of Harvey (Republican) by a large majority. It is thought the whole Republican ticket is elected.

In *New York*.—The Tribune claims that the People's Ticket was carried in that State by over 100,000. It is probable, not certain, that Wright Democrat, has been elected Canal Commissioner. The Legislature will be almost unanimously in favor of sustaining the Government.

☞ Wm. B. Gibson, of Boston, and John H. Clark, of Amherst, N. H., have been appointed Assistant Engineers in the navy. Both of these gentlemen were recently attached to the Massachusetts General Hospital in Boston, and are spoken of as very promising young men.

☞ The appointment of Chas. A. Austin, seaman, as Acting Master in the Navy, is the first instance of such an appointment, and was made as an acknowledgement of merit. Austin was shipped at Boston.

NEW HAMPSHIRE ITEMS.

—Hooker's Division, composed of Cowdin's and Sickles' Brigades, is now the left wing of the army of the Potomac.—The N. H. Second is on the extreme left, and the advance guard of the grand army in that direction, thus bearing the stars and stripes further south than any other portion of the army of the Potomac. This Division is placed in the lower counties of Maryland to prevent the rebels from crossing the Potomac. The rebels have heavy batteries opposite our forces and our position in this direction is one of great importance.

—— The Coos Republican, speaking of the Second Regiment, says:—"Gen. McClellan, it is said, ranks this regiment as *second* in point of drill and soldierly bearing among all the regiments of the army of the Potomac. The Rhode Island Second is considered the first and the New Hampshire Second, the second."

—— Mrs. Michael Hanly went into a neighbor's house in Manchester, on Monday night, in an intoxicated state, and on coming out fell down stairs, breaking her neck and killing her instantly. Mrs. Harens, who was assisting her, was dragged down with her and severely bruised. The American says: "Mrs. Hanly leaves a husband and six children. The family are respectable people, although the mother unfortunately indulges sometimes in the use of liquor."

—— Mr. Nathaniel White, of the firm of Cheney & Co.'s Express, celebrated the twenty-fifth anniversary of his wedding-day in Concord last Friday. His doors were thrown open from 8 o'clock in the morning to a late hour in the evening, and a large number of gentlemen and ladies paid him and his wife their respects, leaving their autographs in a book kept for that purpose.

—— Capt. A. W. Rollins, with about sixty recruits for the 7th Regiment, left Dover for Manchester, on Wednesday.

—— A new and improved rifled cannon has been made in Nashua under the immediate supervision of Gen. John H. Gage, by the firm of Gage, Warren &Co. The gun is made from the best material, and has been rifled with the greatest accuracy. The length of the bore is five feet and a half, and the calibre is that of a six pounder—three and sixty-seven one-hundredths inches. The ball used is the Schenkel, and is shaped somewhat like an acorn, weighing 11 pounds, and requiring about 1 1-4 pounds of powder to propel it, with effect. The weight of the gun is 1000 lbs. Experiments have been made at a distance of 1,650 yards at a target 24 by 12 feet. Of the first 31 shots 19 hit the target, at an elevation of 4 1-2 degrees.

—— Dr. E P. Cummings of Exeter has received an appointment as Assistant Surgeon in the navy, and has been ordered into immediate service.

A NEW CHURCH.—The Congregational Journal says:—

"The old Methodist meeting-house in Northfield, near Sanbornton Bridge, has been purchased and fitted up by the Episcopalians—i. e., those who have recently assumed this denominational name in that vicinity. Last week on Wednesday, the house was consecrated as a place of worship by the usages of the Episcopal church, under the name of the Trinity church of Sanbornton Bridge."

A friend of the church, writing in the Concord Patriot, gives this account of its origin:

"The rise and progress of this new Parish is quite remarkable. Less than a year ago there was a spontaneous movement amongst the people of that neighborhood, arising from the want of some religious services in which there should not be mingled political and other topics repugnant to the true worship of God. In looking about them, they fixed upon the services of the Episcopal Church."

REV. Mr. Herrick is the rector.

AN IMPORTANT ARREST was made on Tuesday at Branford, Conn., of one Parker H. French, a secession agent who was at once brought to Boston. This French has been engaged in forming lodges of Knights of the Golden Circle, and has done considerable of that work in Connecticut, and claims to have important information implicating persons in Boston, which will lead to speedy investigation. French is the fellow who obtained a thousand dollars from Amos A. Lawrence, on a forged letter, for the support of Parson Brownlow's paper. He has been known for years as an accomplished scoundrel. He has figured largely in villainy in California, was one of Walker's men in Central America, and has fought three duels, by one of which he lost an arm. He adds one to the number at Fort Warren.

☞ The prosecution against Mr. Arthur Rankin of Toronto, arrested for enlisting men for the United States army, has been abandoned, upon the ground that the offence being against an Imperial statute and committed in a foreign country, could be tried only in the Queen's Bench in England.

☞ General Totten, (who entered the army in 1805), will this week report on the fortifications of the Northern States, having visited the Atlantic coast and the lakes to ascertain their exact condition.

THE REBELLION.

Gov. Gamble, of Missouri, has arranged with the Government, that the United States shall arm, equip, clothe, transport and pay the Missouri State militia, who may volunteer for service within the State or in its immediate defence, during the war.

A St. Louis dispatch, Nov. 6, says:—"It is rumored that the order for Gen. Fremont's removal is suspended for the present by Gen. McClellan, with the President's sanction."

The Baltimore Sun says Gen. Beauregard was at Gordonville, Va., on Monday, bound to Charleston. The News Sheet has a statement from Annapolis that 11,000 troops had gathered there, to be sent South, when the transports of the expedition return.

A dispatch from Savannah, Ga., of the 2d says:—a Federal frigate attempted to burn a vessel aground on Warsaw Beach, but failed.

The reported resignation of Gen. Wool does not seem to be well founded, as the latest dispatches from him at the War Department, make no mention of such intention.

The Herald's dispatch says Quartermaster Gen. Meigs is being urged by influential parties as successor to Gen. Fremont, while it is thought Gen. Halleck will be sent to Kentucky. The Times' dispatch says that Gen. Halleck or Gen. Buel will succeed Gen. Fremont.

The Tribune's dispatch says all Northern Governors have promised to thoroughly fortify the sea and lake coasts. The committee who have urged the Government to strengthen the defences of Maine harbors have been completely successful.

Gen. Hooker, commander of our troops on the lower Potomac, made a reconnoisance along the coast on Monday. There is great activity throughout his division. The rebels on the opposite shore continue active, and it is believed they have between 30,000 and 40,000 troops near Shipping Point.

The N. Y. Herald has a Springfield, Mo., dispatch of the 4th inst., which says the Legislature, under the control of Jackson, is in session at Cassville, and that a portion of the army remains there as a guard.—Four days ago Gen. McCulloch issued ten days' rations to his men, and informed them that they would fight before those rations were exhausted.

Advices from Gen. Rosecranz's army, up to 8 o'clock Tuesday morning, have been received. The battle was yet undecided. The rebel batteries commanded the road used by Gen. Rosecranz's supply trains.—They were, therefore, run only in the night. The rebels' fire was sharp on Monday morning, but very slow in the afternoon,—and it was thought they were short of ammunition. Nothing definite is known as to their numbers, but their operations indicate desperation or great confidence. Gen. R. had just received a battery of ten Parrott 40 pounders.

Gov. Andrew, of Massachusetts, Thursday forenoon received intelligence from Washington that the Great Naval Expedition weathered the storm, and has made a successful landing—where is not stated.

The N. Y. World of Thursday morning, says, "on the best authority" that the real destination of the fleet is Beaufort, S. C.

☞ A little fellow once brought his slate to his mother, and begged her to "draw him a house." She took his pencil, and began by first drawing the roof: but was quickly interrupted by Young Hopeful's exclaiming; "Oh, Mamma, 'on shou'dn't make it so: it 'll all fall down: begin at the bottom."

We were reminded of the above interesting story in reading the Portland Advertiser's account of the "Great Storm," when "the wind, the waves, the sky, made up a grand picture of wild and terrible sublimity, well worth seeing" though the writer confesses, that when he attempted to get a view of the sea, "the wind swept with such irresistible force, that it was impossible to face it, and at the same time keep the eyes open." However, that slight inconvenience might not prevent his seeing the wind, which helped make up the "picture of wild and terrible sublimity." The writer, like his waves, "seems to gather power as he advances," and reaches the grand climax in the following astounding statement:—The building occupied as a slip and office by the Ferry Company was completely gutted—the *whole structure* of the lower story being blown out and scattered around the wharf, and the floor dropped into the dock, *leaving* the upper story whole."

☞ Col. John Goddard, of the Maine Cavalry Regiment, has received orders to *march* his regiment from Augusta to New York. The regiment, twelve hundred strong, will extend over a mile when on the march; and its passage through New England will doubtless be most imposing.

NAVAL.—The Singapore Times of August 24, says:

"The United States steamer Dacotah, now at Batavia, will probably return to these waters, instead of proceeding at once to America, as anticipated, and with the United States steam gun boat Saginaw, will look out for pirates in the China seas."

A SEA-SIDE PICTURE.

BY T. B. ALDRICH.

Spotted belts of cedar-wood
Partly clasp'd the widening flood;
Like a knot of daisies lay
The hamlets on the hill;
In the ancient town below,
Sparks of light would come and go,
And faint voices, strangely low,
From the garrulous old mill.

Here the land, in grassy swells,
Gently rose; there, sunk in dells
With wide mouths of crimson moss,
And teeth of rock and peat;
And, in statue-like repose,
An old wrinkled mountain rose,
With its hoary head in snows,
And musk-roses at its feet.

While the silver-sounding bells,
That came trembling through the dells,
Like rich swells of music broke,
On the enchanted ear;
There was something in their chimes,
That called up the minstrel times,
Olden poets, and their rhymes,
Like touchy cymbals fine and clear.

BOSTON ACADEMY OF MUSIC.—The attractions at this splendid place of entertainment and amusement, at the present time, under the charge of Mr. Nixon, are varied and excellent. Forrest appears again this (Friday) evening; and there are entertainments of the highest order on Saturday afternoon and evening; and also a sacred concert on Sunday evening—in which some of the most celebrated artists will appear. Watch the advertisements of the Academy, in the Chronicle;—and you will find it well worth your while to "tarry but a night" in Boston, and see and hear what you will not often have opportunities of enjoying.

☞ The Boston Post, on Thursday, contained quite a readable account of "matters at Fort Warren." The writer says:

"The most noticeable prisoner at the fort is Marshal Kane, of Baltimore. He affects singularity, and is airy and arrogant. He is a good looking man, physically; tall, and of fine proportions, and is quite vain in consequence. With his Scotch cap, and pants tucked within his boots, he looks very like a freebooter."

But what does the Post mean by the following:

"The boat yesterday took down quantities of bedding, chairs, &c., and also not a little of a supposed *imbibatory* nature, *including* cigars, tobacco, snuff, etc."

☞ The New York Herald says the report of Capt. Hunter, of the rebel steamer Curlew, of the engagement between himself and the Union batteries at Hatteras, reminds us of the famous report of Capt. Hollins, and is equally true. He states that he sighted his rifled cannon at the Harriet Lane. The Harriet Lane is the present flag ship of the Potomac flotilla. Again he says he came within easy range. A person who was present at the time informs us that the Curlew did not venture within four miles of the batteries, and her shot fell short about one mile and a half.

☞ St. Thomas dates are to the 25th ult. Six rebel commissioners from Europe for Cuba had passed through that place Four Federal steamers were cruising in the Caribbean sea. It is stated that the reports of pirates being seen, are started by British captains, to influence freights.

POTATO ROT.—Over three hundred bushels of potatoes belonging to the city of Newburyport, were taken out of the cellar at the almshouse a few days since, completely decayed.

☞ Washington dispatches state that Jeff. Davis has appointed the 15th of November as a day of fasting and prayer.

The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its success by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my25 daw3m

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heariness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

Sold by W. R. PRESTON and all druggists.

CITY GOVERNMENT.

Messrs. Editors:—We ought to be very much obliged to your correspondent "A Young America Democrat," who says he did not vote for Mayor Simes: he has waked us up to remember that our city election occurs a fortnight from next Tuesday, viz: November 26th.

I did vote for Mayor Simes, and expect to vote for him again, when the time comes: and I agree with your young correspondent in his estimate of Mr. Simes's industry and economy in office. But I have not been troubled with incompetent subordinates; nor do I believe that the executive boards fall below a fair average of their predecessors.

If a union ticket of able and loyal men could be agreed upon and elected, I should for one be greatly rejoiced; but on looking out of doors I "don't see it," nor much prospect of it.

Therefore, let each party pick out its best men in each ward, so that whichever party prevails, the city shall suffer no detriment. AN OLD REPUBLICAN.

THE FIRE AT FORT CONSTITUTION.—*Messrs. Editors*:—Ever since the fire of Monday night, I have been engaged in taking care of the property and putting out the fire. Now, having an opportunity, I will give you a candid statement in relation to it. The building destroyed has been commonly called "Commanding Officer's Quarters," and at the time was occupied by Capt. Gillis and Lieut. Durkie, of the New Hampshire Volunteers, and two waiters. I have had a fair investigation as to the origin of the fire; there seems to have been little fire used in the three rooms occupied, as no cooking was done in the building. The fire probably originated inside the plastering, between the rooms of Lieut. Durkie and the waiters; from all appearances it must have been caused by sparks or soot passing through the chimnies, they being old and defective.

Great praise is due the officers and men of Engine Companies Nos. 1 and 2, of Portsmouth, for their prompt and timely appearance at the fire, and for their united exertions in subduing the fire. Their timely arrival saved much property. Seven guns and carriages would have been destroyed if it had not been for their effective assistance. They have the thanks of every officer and soldier at this post, and should also have the thanks of all good Union men. For my part, if an old soldier's good wishes will be of any use, they freely have them. JAMES DAVIDSON,

Orderly Sergt., U.S.A., in charge of post.
Fort Constitution, Nov. 6.

☞ During the great storm of Saturday night and Sunday morning—the most severe that that the oldest persons in town can remember—many of the fish-houses on Rye Beach were stove to pieces, and the fields near the shore nearly covered with rocks and sand thrown up by the force of the tide; hundreds of rods of wall were demolished, and "the bridge at Rye harbor is reported missing."

☞ As the recruiting officers of the New Hampshire Fourth Regiment were not employed to any great extent in this portion of the State, there are but three natives of Portsmouth in that regiment, and they are all in Company B. They are John W. Brewster, Seth Huntress, and Luther Harmon.

S. J. COURT—THURSDAY, Nov. 7.

Mrs. Eckhardt, for keeping a disorderly house, was sentenced to pay a fine of $25, and costs, taxed at $25.

In the case of Drew vs. Kimball, a verdict was rendered for the plf.; damages assessed at $311.74.

The case of John O. Wiggin et al. vs Nathan Adams, was on trial in the afternoon.

The business of the term not having been completed, the session will not be closed until Friday afternoon.

☞ In the Police Court, on Monday, a young man, for making a brawl and tumult in the Temple, was fined $3 and costs,—amounting to $7.90.

☞ We are informed that General Fitz John Porter, of the United States army, is a native of this city, and not of Exeter, as has been reported.

☞ The morning train for Boston, on the Eastern Railroad, leaves Portsmouth at 5 minutes before 7 o'clock.

MONSTER COON.—The largest coon we have seen in this region was killed on Tuesday at Sabbath-day Pond by Mr. Brown, the proprietor of the hotel at that place. It was a monster, and weighed when dressed *thirty-one pounds*—resembling the carcass of a sheep more than that of a coon.—*Portland Argus.*

☞ De Sauty, of Atlantic cable celebrity, is chief electrician to the submarine telegraph, now nearly completed, from Alexandria in Egypt, to Malta, south of Sicily.

FOREIGN.—The steamer Persia, at New York from Liverpool, brings advices from Europe to the 27th ult., two days later.—The Paris papers announce that the terms of a convention in relation to Mexican affairs had been agreed upon by England, France and Spain; the combined expedition against Mexico was to start some time about the begining of November. Sir James Graham died on the 25th ult.

The Liverpool Post says Capt. Semmes, of the privateer Sumter, arrived at Liverpool in the steamer Edinburg, having shipped at New York as Captain Burmeister, of the Royal Navy.

The ordinance for dividing the old Commonwealth of Virginia, and erecting a new State of the counties west of the Alleghany Mountains, has been adopted by the voters by a majority of nearly, if not quite, one hundred to one, and a new Convention, the members of which have just been chosen, will assemble at Wheeling on the 26th inst. to ratify the action of the people. The new State will be called Kanawha, and will contain a population of two hundred and eighty-two thousand, including about eight thousand slaves.—*Post.*

"EVERYBODY"
WHO USES
HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE
Is convinced of the fact that
It Will Restore the Natural Color of the Hair.
Where age or sickness has turned it gray, and that it will render it soft and glossy!
"ANYBODY"
Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the hair, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.
☞ Read this letter:
ST. LOUIS, MO., June 1, 1859.
Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become *gray*, and my head partially *bald*. I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, *glossy* appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the decided and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSWORTH.
Sold everywhere—price 50c., and $1 per bottle.

THACHER Agent for Portsmouth, sn1

THERE IS NO USE
Introducing Testimonials,
Altho' we have very many of them,
—FOR THE—
MAGNOLIA BALM.
For when the face is covered with unsightly pimples or blotches, the sufferer cares only to be directed to use some *safe and reliable remedy.*
THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A SINGLE WEEK.
It is so safe a remedy, that the counts of a lady could be drank without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure it immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and nicest toilet article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.
☞ Price 50 cts. a bottle.

ZOLLICKOFFER'S
ANTI-RHEUMATIC CORDIAL
A PREPARATION FOR THE CURE OF
INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.
Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.
Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.
Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.
The almost exclusive and indiscriminate use of external applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an internal remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.
It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and persevering-ly adhered to, both as to the time of taking it, and the quantity used.
It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty years, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.
The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,
N. E. cor. Pine and Sixth sts., Philadelphia

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cannot by similar electrical flows and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1858.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and to her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Outerbridge, New Orleans.

Your Pills are the prince of purgatives. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR REV. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all. *Not a case treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. *Sir:* I have been repeatedly cured of the worst headache any body ever had by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Cleveland.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their action so effectual upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I am acquainted with. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1857.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom failed to cure a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Gwyn, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the system makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 21, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in bringing it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prolific cause of others that are worse. I believe costiveness originates in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PLEASANT HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be unpardonable for the relief your pill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1854.

DR. AYER: I have been annoyed for years with your pill, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass.

Price, 25 cents per Box, or 5 Boxes for $1.

1861.

E. A. STEVENS'

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 2 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the face of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking over.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz.:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends also to the preservation of the plates most exposed to destruction.

3d. The durable dump grate, with the ash box of ample size to receive the ashes and coals, is an attractive feature of the stove.

4th. The draft door, at each end of the fire box, is a convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division of flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and jackets are provided for the back and both side plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a lifetime, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRUNDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to Messrs. J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Phinehas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have sought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE is the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the aid of the TOP COVER, a coal fire may be kept up throughout the night, and *fresh and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the full summer dress, the various cooking processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last*; and will *last*. The structural form is such that the frame-work of it *cannot* burn out.

All the pieces constituting the original STEWART STOVE, which was brought out 18 years ago, are still made, and sent to different parts of the country on order.

The price of QUIETNESS, COMFORT and HEALTH secured to a family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and now found wanting in any particular. Yet, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to the Scythe.

And here we will venture to refer to, and explain if not refute, the statements of one of our city Stove Dealers, who says that the Stewart Stove, in comparison to another almost unknown Cook Stove. The gentleman the can named, as using and recommending the latter, never had one of the new, improved Stewart's, but did for a long time use one of the old pattern; and it gave such complete satisfaction, that he has recently furnished three members of the same family, with the new improved Stewart!—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the MOST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FIFTEEN YEARS in business, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be supplied by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines for medicinal and other purposes,* we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.
"SAMBUCUS TREE, OF PORTUGAL,"

Every family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy action to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

NEW ENGLAND
Single Stitch Family Sewing Machine.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it pronounce it better adapted to meet the wants of EVERY FAMILY than any other machine now offered to the public.

Price only $12.

Table $8.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, NOVEMBER 9, 1861.

LETTER FROM BOSTON.

BOSTON, Nov. 5, 1861.

As I write, the election of State officers is going on, but with an almost entire absence of the customary scenes of such a day. So spiritless a canvass and so quiet an election was never known, and the only contest which excites any interest whatever is that between Hon. Samuel Hooper, the Republican, and Hon. Geo. B. Upton, the Democratic nominee for Congressman in the Fifth District.

The eight hundred prisoners at Fort Warren are tolerably comfortable, and their condition is being improved as rapidly as possible. They give their keepers no trouble whatever, and yet, owing to a variety of circumstances, which it would be exceedingly unwise to publish, it has been deemed necessary to strengthen the garrison to the number of 400. The most strenuous and persistent efforts are made by hundreds daily to obtain passes to the institution—the Boston Bastile—but the government officers abide strictly by the regulations issued from Washington and refuse all applicants "irrespective of party." If any one is *determined* to make the visit, let him utter a few secession sentiments publicly and he will soon find himself provided with not only a free but a *season* admission.

The places of public amusement are doing a business entirely inconsistent with the popular cry of "hard times." The Academy of Music, where the greatest of living tragedians, Mr. Edwin Forrest, is playing a farewell engagement, is filled by the most brilliant and enthusiastic audiences. The distinguished actor never exhibited finer or more artistic powers, while it is certainly the case that his popularity—even in its palmiest days—was never so extensive.—The railroads run extra trains almost daily to accommodate people living at a distance, and the management, I understand, is in constant receipt of applications for tickets from parties living even sixty, seventy and eighty miles away. For the accommodation of such he secures seats *one week in advance*. His liberality in this respect is rewarded as it deserves to be. On the off nights of the Forrest season—or in other words, on Tuesday evenings and Wednesday and Saturday afternoons—entertainments of concert, ballet and drama are given, forming a combination of attractions hitherto unequalled.—Carlotta Patti and other famous artists from the Italian opera provide the music, the beautiful Cubas, aided by Ximenez and a full *corps de ballet*, the dancing, and an excellent company, with that most superb actor Mr. Mark Smith, the dramatic portions. Mr. Nixon is one of the most energetic managers that ever visited us, and we are sorry that his lease of the theatre must soon close.

STAR.

THE FLEET.—A letter was received in this city yesterday from a naval officer of high rank in active service, which says:—"Before this reaches you we shall have landed our men within twenty five miles of Charleston, and hope to march thence upon the city."—*Boston Journal, Thursday.*

The officer of high rank, who writes thus, deserves the severest censure for his folly!—He ought to know that the winds and waves are uncertain;—and that, consequently, the troops might not be landed so soon as he expected. He ought also to know, that it is not wise to tell an opponent what we mean to do.

☞ The Washington correspondent of the Philadelphia Inquirer states that at a recent dinner given by Gen. McClellan, he remarked to a guest that there was no power on earth, neither that of the press or of politicians, that should cause him to swerve a hair's breadth from the policy which he had adopted in relation to the present war. Availing himself of all the military wisdom that is in possession of all the officers around him, together with his own experience, he has, to the best of his own ability, adopted a plan of warfare to which he intends to adhere most rigidly.

☞ The "Union and Army Reporter" is the title of a newspaper, to be published on the first of every month, at Washington, D. C., at 25 cents per year. The first number has been issued, and is finely printed, on good paper. It will publish lists of the dead of the army, giving the name of the soldier, his company and regiment; also of the sick and wounded. A large space will be devoted to the laws which grant pensions, bounty land or money, &c., and the method to be pursued in prosecuting claims against the government. It must be a useful paper to all having friends in the army.

THE PLANTERS.—The Vicksburg Whig exhorts the planters of the South to prepare for the coming year by raising pork, beef, mutton, etc., such things as will sell and enable planters to pay taxes. It says it can see no prospect that the blockade will be opened, and thinks there will be no peace until the South shall invade the North, which must be done next year.

Recollections of Old Acquaintance.

BY UNCLE TOBY.

JARVIS WILSON.—A little more than fifty years ago, on the easterly side of Bridge street, in the town of Portsmouth, stood the Morocco Manufactory of Messrs. John and Butler Abbott, two smart mechanics, and enterprising young men, brothers, who built and occupied the double three-story dwelling-house on Islington street, now occupied by Dea. Knight and Mr. Marden, and numbered 28 and 30.

Bridge street then deserved the name more than it does now; the northern half of it was a mud-hole, or rather a succession of mud-holes, each worse than the other, until the team stuck fast. On each side was water, fresh or salt, or mixed. Crossing this beautiful street, were several little plank or log bridges, which have now disappeared.

The Morocco Factory of the Messrs. Abbott fronted the tannery of Toppin Maxwell, and like that celebrated building, stood on amphibious or debateable ground; not on dry land, by a long chalk, nor yet clear water, but on mud always, and in the water often.

One day, late in the Fall, almost Winter, the old North School House was emptied of its 120 schoolboys in double-quick time, by the cry of "Fire," in the middle of the forenoon, and in the midst of a heavy fall of damp snow, almost rain.

The engine in the school yard, of course, went down hill toward the fire at a good fast rate, with a full body guard of boys, yelling at the top of their voices. It was no false alarm, but a real fire, blazing out of the left of the morocco manufactory, accompanied by an immense column of smoke, which seemed to *stand* on the building rather than to go up.

The result of the fire was, that the roof of the building burnt entirely off, and the whole upper story, with the contents, of morocco and other skins, was destroyed; but the floor remained unharmed, being covered with a heavy coat of pulled wool—all but one place,—in which place only, the fire descended to the lower story and did some injury.

The origin of the fire was so easily discovered, and so frankly confessed, as to leave no room for doubt or unjust suspicion. Our hero, Jarvis Wilson, an apprentice and kinsman of Butler Abbott, was an honest, well-meaning and faithful boy, and as such, was entrusted with the care of the premises while both partners were absent from town. One of them had charged him, when he left, among other things, not to make any fire in the stove, which stood on the lower floor, while they were gone: but did not tell him the reason for this injunction, viz. that the funnel in the loft had been taken down and not replaced!

In the exercise of a wise but unfortunate discretion, Jarvis reasoned thus:—Here is this stove, and plenty of dry stuff and shavings; it is very cold, wet, and unwholesome here without a fire: and I can't see any reason why there should not be a fire.—Suiting the action to the word, he soon kindled a lively blaze in the stove, and in less time than it takes to tell the story, the loft was on fire from end to end.

The Messrs. Abbott were not coward's nor hard masters; so, finding their loss not total, they pocketed it, as nobody insured then; picked up their scorched wool,—moved the remains of their building across the street, on the S. E. corner of Parker street, repaired and enlarged it, where it now stands as a dwelling house,—and forgave Jarvis Wilson. Indeed, they never blamed him much,—as he was, in their view, less blameworthy than unlucky.

This latter word perhaps, or unfortunate, describes his career as an apprentice, for no one imputed to him any intended wrong.

Not very far from the time of this fire, Jarvis was sent to deliver several articles at different houses; and while he went into one dwelling, some watchful thief took away a fine bear-skin, (of which a muff and tippet were to be made,) which he had left outside the door: by this theft his masters were the losers of $40.

And not long from this time, to close this odd old chapter of accidents, Jarvis went with a valuable horse and cart down on one of the wharves near the Spring Market, and by some small mismanagement but large misfortune, backed the team overboard, killing the horse instanter by a fall, and saving the cart only by the help of the bystanders.

Jarvis and his kinsman left Portsmouth almost half a century since; both the partners have been numbered with the dead many years; and the slight events we have mentioned have mostly been blotted from the memories of those who knew the actors: but when any one is disposed to say there is no such thing as "bad luck," aside from carelessness or willful neglect, we always think of Jarvis Wilson—and if "convinced, are of the same opinion still," viz., that he meant well, but had bad luck.

That life is the sweetest which is passed in extracting honey even from the bitterest adversities; and he is the wisest man who can most heartily confide in the rectitude of Providence, and in the final supremacy of truth and right.

THE REBELLION.

Col. Hawkins, commander at Fort Hatteras, has arrived at Washington. He represents that the exposed position of the fort renders it almost untenable during such storms as that which recently swept the coast. He asks that the troops may be sent back to Fortress Monroe, or the works be put in a condition to afford safety from the overflows upon such occasions. A large amount of stores were destroyed, and the whole place was submerged to such an extent that the troops were compelled to abandon the fort and retire two miles up the beach.

The rebels are strengthening their position on the upper Potomac, sending reinforcements to Winchester. Their force there now is estimated at 15,000; but the Potomac is so high at present that there is little danger of either army's attempting to cross.

Late Southern papers state that the steamer Theodora had arrived at Savannah with a valuable cargo of coffee, ammunition, saltpetre, sulphur and small arms. Also that an armed rebel steamer has brought into Charleston the brig Betsey Ames, of Wells, Me., and eight others. The privateer Sumter is said to have been captured to the leeward of Barbadoes. The rebels stated in Richmond that 516 vessels have run the blockade since the 15th of May.

Gov. Morgan, of New York, and Senator Harris have sent a dispatch to Gen. Wool, asking him to delay his contemplated resignation and continue in his present position.

One hundred and twenty federal troops, under Capt. Shields, were captured by five hundred rebels, Nov. 6th, near Santa Fe, Mo. They were on their way to join Gen. Fremont's army.

Dispatches from the camp at Springfield, Mo., report that the army was "quiet," and that there was no prospect of a battle at present, the advance of the enemy having retreated from their positon at Wilson's Creek.

A Federal force, under Col. Dodge, took possession of Houston, Texas Co., Mo., Nov. 5th, and captured a large amount of rebel property and several prominent secessionists, including some officers of the rebel army. A large mail for the rebel army was also captured, containing information of the position of the rebel force in Missouri.

Dispatches from Chicago say that the capture of Columbus is expected, by an expedition from Cairo.

The expedition from Cairo landed at Belmont, Mo., 3 miles above Columbus, at 8 o'clock Thursday morning. The Federal troops numbering 3500, engaged the rebels, 7000 strong, at 11 o'clock. The battle lasted until sundown. The rebels were driven from their entrenchments, across the the river, with great loss; their camp was burnt, and their stores, with all their baggage, cannon, horses and mules captured, and 100 prisoners taken. The Federal troops then retired, the rebels having received reinforcements from Columbus.—Both Generals had their horses shot under them. Col. Dougherty, of Illinois, was wounded and taken prisoner. The rebel loss is unknown. The Federal loss is believed to be from 300 to 500.

There is a rumor at Alexandria that the nearest rebel pickets, which two days ago were 14 miles distant, are now but 8 miles from the city.

A dispatch has been received at headquarters at Washington, from Gen. Curtis, at St. Louis, which says there is no excitement there either in the camp or city.

A rebel report of the Naval Expedition has been received at Fortress Monroe by a flag of truce from Norfolk, but it is very meagre. Two transports were cast away on the North Carolina coast in the gale, and the crews, 73 in number, are prisoners at Raleigh. The troops landed at Beaufort, but the rebels met them warmly, they having been preparing for some time. The fleet was bombarding Port Royal, which was said to be in a critical condition and just ready to surrender.

☞ The Richmond correspondent of the Charleston Mercury, of a recent date says: "Among the *on dits* and floating rumors I mention the following: General Toombs is said to have said there will be no fight at Manassas until next spring; there is enough tobacco in England to last two years; ten thousand bales of cotton are at a certain point in Florida waiting for the Yankees."

There are reported to be 14,000 voters in the rebel army from New England. *Newburyport Herald.*

We suppose no one will trouble himself to ask what party ticket those 14,000 rebels used to carry: they must have a warm attachment to the slave power, and deserve to be slaves themselves.—The end is not yet.

☞ Wigfall has turned up. The Richmond Examiner is "much gratified by hearing that Lewis T. Wigfall, late Senator from Texas, has been promoted to the rank of Brigadier General of the Confederate army."

Men of heedless charity make more beggars than usurers do.

PROGRESS OF JAMAICA.—The statements of Governor Darling in regard to the colored people indicate, in fact, that the crisis even in Jamaica is gradually passing by, and that they are by no means retrograding into barbarism, as has been not unfrequently alleged against them. The disinclination to estate work, too often set down to idleness, is in the majority of cases really attributable to the desire to possess and cultivate holdings of their own. Three fifths of the cultivated land of Jamaica is said to be the *bona fide* property of colored people, of which 100,000 acres were purchased within ten years after emancipation. The negro population is about 80,000 families, and the amount of deposit in the savings banks is some £50,000. They occupy every department of trade, commercial handicraft, and otherwise; and are to be found not only in the subordinate offices of the state, such as the police force, but also in the magistracy and even in the legislative assembly. In fact, their indications of progress are visible, not merely in a few isolated cases, but generally throughout the colony. It is unreasonable to expect that, by any amount of moral culture, we could eradicate in a few years evils which the old state of things had ingrained for generations into the negro character, among the chief of which was a habit of petty deceit, and the absence of a moral sentiment in favor of marriage.

AT THE TEMPLE.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 daw3m

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 60 Pills, by return mail. my28daw3m

Sold by W. R. PRESTON and all druggists.

BUCKWHEAT FLOUR.

200 BAGS for sale by R. F. GERRISH,
Nov 6. 14 Market Square.

Local.

S. J. COURT, FRIDAY, Nov. 8.

The case of John O. Wiggin and Andrew Wiggin vs. Nathan Adams was concluded, a verdict being returned for the dft. The plf. moved to set aside the verdict.

The juries were discharged in the afternoon, and the Court rose.

☞ A day or two since, a farmer's team was standing in front of a store in Congress street, and as a boy passed with a basket on his arm, a dog sprung from the wagon, and bit the boy so severely on his leg, as to cause him to cry out lustily, and fall on his knees. The cur held on for several seconds, and then returned to his wagon; and as another boy with a basket, was passing, in a minute or two after, the brute jumped out and bit him similarly. The bystanders here interfered, and stoned the dog—but if he lived till sundown of that day, somebody was to blame. A gentleman who witnessed the whole, tells us these assaults were entirely unprovoked; and that one of the most indignant of the spectators, was a man who has loudly defended the keeping of dogs in this city.—We know there is great difference in dogs, as in men—and we love a "good dog;" but how the cost, trouble and danger of keeping most dogs, in the city or country, is justified, excused or repaid, we can't see. At all events, they have no business in our streets, loose and unmuzzled.

GRAND ORPEAATIC CONCERT.—The musical people of this vicinity are promised one of the rarest musical treats ever offered in Portsmouth, on Wednesday evening next and not on Tuesday as first intended. Isabella Hinkley, Briguoli, Mancusi, Susini and Herr Mollenhauer, artists of the Italian Opera from the New York Academy of Music, are to appear in six concert pieces, and in the most celebrated scenes, (in costume,) of Lucrezia Borgia and Lucia di Lammermoor. Such a combination of talent seldom visits our city, and the people will doubtless improve the opportunity.

SUNDAY SERVICES.—Rev. Samuel B. Cruft, of Boston, will preach at the Unitarian Church, to-morrow.

Rev. Joshua R. Peirce will officiate at the St. John's church.

PEWS—THEIR HISTORY.—In Anglo-Saxon and some Norman churches of early date, a stone bench was made to project within the wall, running around the whole interior, except the east end.

In 1319 they are represented as sitting on the ground or standing. About this time the people introduced low, rude, three legged stools promiscuously over the church.

Wooden seats were introduced soon after the Norman Conquest. In 1327 a decree was issued in regard to the wrangling for seats so common that none should call any seat his own except noblemen and patrons, each entering and holding the one he first entered.

As we approach the reformation, 1530 to 1540, seats were more appropriated, the entrance being guarded by cross bars and the initial letters engraved on them.

Immediately after the reformation the pew system prevailed, as we learn from a complaint of the poor Commons addressed to Henry VII, in 1540, in reference to his decree that a Bible should be in every church at liberty for all to read, because they feared it might be taken into the "*quyre*," or "*pue*." In 1608, galleries were introduced.

As early as 1611, pews were arranged to afford comfort by being baized or cushioned; while the sides around were so high as to hide those within—(a device of the Puritans to avoid being seen by the officers, who reported those who did not stand when the name of Jesus was mentioned.—The services were often greatly protracted, so that many would fall asleep. Hence Swift's pithy allusion:

A bedstead of the antique mode,
Compact, of timber many a load,
Such as our ancestors did use,
Was metamorphosed into pews,
Which still their ancient nature keep,
By lodging folks disposed to sleep.

With the reign of Charles I., the reasons for heightening the sides disappeared; and from the civil war they gradually declined to their present height.

☞ Townsend Harris has sent home his resignation as Minister in Japan, and that he desires to return to the United States by the 1st of January. Hon. R. H. Pruyn, of Albany, has been appointed to succeed him, and will speedily take his departure.

COMPOUND INTEREST.—A broker, not long ago, when escorting a fair damsel home, asked her what kind of money she liked best. Of course the blushing beauty instantly suggested "Matrimony." "What rate of interest does it bring?" inquired the man of current funds and wildcat documents.—"If properly invested"—lisped the fair charmer—"if properly invested, it will double the original stock every two years." —*Springfield Republican.*

Mr. Philbrick of Haverhill, Mass., has raised a carrot this year so nearly resembling the human figure that he has named it Jeff. Davis. Mr. Moody, of Atkinson, N. H., has one that looks not unlike a family of children with their arms entwined. Great country for carrots, New England.—*Boston Post.*

You may gather a rich harvest of knowledge by reading; but thought is the winnowing machine.

Dr. Chalmers' recipe for filling a church is, to fill the pulpit well.

FROM KANSAS.—The election Nov. 6, for county and State ticket passed off quietly in Leavenworth county. The offices are about equally divided between Republicans and Democrats. There was but one State ticket in the field.

We have accounts of a devastating fire in the western part of the State, sweeping over a great part of Davis and Dickinson counties, involving the destruction of fences, grain, hay, utensils, stock, &c. The fire was kept away from the junction of Leaven worth only by the greatest exertions of the citizens. There are rumors of the loss of human life.

PATTI MATINEE.—The Patti matinee, at the Boston Academy of Music, this (Saturday) afternoon, might repay one for a special visit. Carlotta Patti, Mad. Strakosch, Mad. Von Berkel, Signor Scola, Mr. Sanderson, the pianist, and others, will appear in a splendid programme of music—Carl Zerrahn leading the largely augmented orchestra—and the beautiful Cubas, with Senor Ximenes and the full *corps de ballet*, will execute several new dances.

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

☞ See a woman, in another column, picking Sambuel Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair.

Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become gray, and fresh, partially *bald*, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSSWALL.

Sold everywhere—price 50c. and $1 per bottle.

From the Journal

CITY ELECTION.

By the warrants published to-day we are reminded that the municipal election is near at hand, and the public will soon be called upon to cast their votes for City Officers for another year.

It has been a happy circumstance for our city, that in all the excitement growing out of our national troubles the past year, the harmony of our city government has been uniformly maintained, and that every important matter which has required municipal attention has been acted upon in a manly, prompt and satisfactory manner by the City Government.

Mayor Simes has done nothing for the purpose of courting popularity or obtaining popular praise. Like a true business man, he has sought what the wants of the city required, and has supplied them in the best and most economical manner, with no regard to party or personal feeling. There is too much transparency in his character for any one who knows him to suspect him of being swayed by a wrong motive. As devoted to the business of the City as though it had been his personal affairs, he has been early and late on his post of duty.

A writer in the Chronicle, who signs himself a "Democrat," highly commends the course of the Mayor, and strongly urges his re-election, but rather ingeniously endeavors to make a division among those who elected him last year, and thereby aid in the election of *their* candidate, by saying—

"The re-election of Mayor Simes will be opposed by certain members of his party, because he has dared to do right, untramelled by those who have other purposes than the public good in view."

Now this is wholly gratuitous—there is no feeling of opposition to Mr. Simes among his old friends who elected him last year, as will readily be seen if he will allow his name to be used again this year for the Mayoralty.

CITY COUNCIL.

In Board of Aldermen, on Thursday evening, a hearing was had on the utility of Snow Plows for clearing the public walks. After discussion, it was unanimously voted to give the plows a trial on the first suitable fall of snow.

After attending to considerable unimportant business, the Board went into executive session.

GOOD OFFICERS.—Some complaints have been made of our Volunteer Officers, but we think the soldiers of Company D, of the Fifth New Hampshire Regiment, Col. Cross, which left Concord last week for the seat of War, are fortunate in having such a Captain as JOHN MURRAY, whose name we notice on the list of Officers. Capt. Murray has lived for several years in Newcastle, and is well known in this city. He enlisted in the army as a private at the time of the Mexican War; fought bravely in many battles, distinguished himself at the battle of Chapultepec, was promoted to First Sergeant, and finally, after seven years' service, obtained his discharge and settled in Newcastle. He was offered and accepted the command of the Company raised in Strafford County for the Fifth Regiment, and has now gone to fight for the old flag under which he served so long. May he return victorious.

A NEW ANNUAL FOR THE HOLIDAYS.

We understand that Messrs. Crosby and Nichols of Boston are about publishing an elegant work for the holidays, entitled as follows:

Jewels from the Quarry of the Mind—Pearls, gathered from the Shores of Life—Buds and Blossoms that make glad the Garden of the Heart—Chimes that ring out sweet Melodies and find an echo in the Chambers of the Soul."

The work is edited and compiled by Mr. J. H. Head of this city, author of "Home Pastimes."—The selections are from the most eminent authors, among which Portsmouth talent has not been overlooked. The work will contain three hundred and fifty pages, is to be printed on English tinted paper and bound in blue and gold. The design for the frontispiece, dies for the covers, ornamental embellishments and initial letters, are unique in style and are all original with the compiler, who has been engaged the past year preparing the manuscript which is now in the hands of the printer, and the work will probably be issued by the first of December.

FLORAL ARCHITECTURE.—Mr. Head has also nearly ready for the press a work of 500 pages on Ornamental and Floral Architecture, which is embellished with 300 beautifully colored plans and engravings of his own drafting. Three years have been spent in perfecting this work which is to be brought out at an early day by the Messrs. Appleton of New York.

SOLDIERS' AID.—Rooms in the Custom House will be opened from the 11th to the 16th of this month, for the purpose of packing Hospital stores for the Volunteers, collected by the Ladies of the Soldiers' Aid Society of this city. On our first page will be found an article on "Little Comforts" which affords some hints of what is needed.

ARTICLES FOR HOSPITAL USE.—The following list of articles, needed for hospital use, has been prepared by a lady who is serving as nurse, in one of the hospitals at Washington:

No bed gowns and cotton vests are needed.—Double calico wrappers made like home dressing gowns and coming only to the knees, not very large, but moderate in size, are much needed.—The Government supplies all that is *furniture*, such as pillows, bedticks, sheets, pillow cases, &c., but nothing *personal*, as clothing. Woollen socks are much needed, and for hospital use, where there is neither marching nor long standing, *woollen* ones will do. We have *great need* of woollen shirts and drawers.

Collector's Notice,

TWO PER CENT. DISCOUNT.

THE time allowed for Two Per Cent. Discount on Taxes in this city the current year, will expire on TUESDAY, Nov. 12th. Collector's office, No. 74 State street, up stairs. E. LEAVOUR, Collector.

Portsmouth, Oct. 19, 1861.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some 50 of sickness is creeping upon you, and should be averted by timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the functions move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and you have directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and head, which had become incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Gritten, of New York City.

Your Pills are the perfection of purges. Their excellent qualities surpass any cathartic we have known. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR: AYER: I cannot answer you *what* complaint I have cured with your Pills better than to say *all that is cured with a purgative medicine.* I have used your Pills in my daily contest with disease on an effectual cathartic in my daily contest with disease, and believing as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache, any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE, *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Thomkins Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

DR.: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quite remarkable, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Comstock, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in charity. To regulate the stomach and digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARREN, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Hitherto of our fraternity have found them so ineffectual as I have, they have ceased to prescribe them in the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prolific parent of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sturtt, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, an excellent promotive of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOTEL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent father in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Do., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years.

VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These Pills are mercurial or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

1861.

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long: or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking over.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other rooms is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends also to the preservation of the plates most exposed to destruction.

3d. The durable dump grate, with the ash box of ample size to receive the ashes and coals, is an effective feature of the stove.

4th. The draft door, at each end of the fire box, is a great convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division and one flue, in the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and *4 jackets* are provided for the back and hot plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRUNDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to MESSRS. J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport; and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe *this is the best stove that can be found in the world;* and what is more, we think *others will agree with us* after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Modal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

2. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c

4. Also, by the aid of the TOP COVER, a coal fire may be kept up through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to engineer the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the fire, to the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8 In regard to DURABILITY, the Stewart Stove is made to *last;* and *will last.* The structural form is such that the frame-work of it *cannot* burn out.

All the plates constituting the original STEWART STOVE, which was brought out 15 years ago, are still made, and sent to different parts of the country on call.

The price of QUIETNESS, COMFORT and HEALTH secured to a family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and NOT found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to the Scythe.

And here we will venture to refer to, and explain if not refute, the statements of one of our city Stove Dealers, representing the Stewart Stove in comparison to another almost-unknown Cook Stove. The gentleman therein named, as using and describing the Stewart, never saw one of the new, improved Stewart's, but did for a long time use one of the old pattern; and it gave such complete satisfaction that he have recently furnished three members of the same family, with the new improved Stewart!—which we do say

IS NOT SEEN EXCELLED,

yet, as a family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee of the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, for the last many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to anyother Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADY'S WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, NOVEMBER 11, 1861.

CONFISCATE THEIR PROPERTY.

The confiscation act passed by Congress, after being toned down to suit Kentucky Unionists, is found to amount to nothing practically. The rebel property confiscated under it will not pay the expenses of the legal proceedings. The Kentucky Unionists, now that the rebels are ruthlessly pillaging their State, are the first to find fault with this halfway measure and to demand something more effective.

Congress will have to pass a better law.

Let the property of all rebels be declared forfeit, whether it consists in land, money or negroes.

In a late letter of a Kentucky clergyman, chaplain to one of the national regiments at Washington, he endeavors to show that the government and the people of the free States still underrate the power of the rebels, and that the vague hope that the rebellion will die out of itself—which still paralyzes exertion, is doomed to be disappointed.

The writer proceeds to argue that the North is still more radically mistaken in considering slavery an element of weakness in the South. He says on this point:

"Slavery has been regarded, and is generally regarded, in this city and the North, as an element of weakness in this war. This is the greatest of all mistakes made. It is an element of strength. It gives the South a great advantage over the North.—There is no danger from insurrection. The slaves out of the vicinity of the federal army, are working better than formerly. The women are the managers of them, and successful managers, better than the men, because more moral, being continually with them, and using kindness more and severity less. The slaves are also more healthy under their management. It is a well known fact that the women-planters of the South have always been the most successful. The slaves are the sappers and miners of the army. They are the producers for the army, no less essential for war than they who fight. Slavery is the element of strength in this war. The sooner this fact is realized the better—that the slaves are the producers—the women are the superintendents of these producers, and the whole male force can thus constitute their grand army, and that the whole South is now under drill.

"Friends of the Union, Liberty and the Constitution, look these facts fully in the face. Reason upon them, and do right. *Slaves must, in this war, be regarded as property. The property of all rebels must be confiscated. Let this edict go forth, and the doom of the rebels is sealed.* Protect all property of Union men, especially the slave property of the South, of Union men. No abolition war, but a just war: a war to maintain the Union, but a sensible war; a war neither pro-slavery nor abolition, but an effective and conclusive war. Let us look this whole matter in the face, and act before it is too late."

It is true that while the rebels fight *for* slavery and we do not fight *against* it,—they turn it to their advantage.

It would be useless for the President to proclaim freedom to slaves whom he cannot reach. But it was not useless for Gen. Butler to receive the contrabands,—nor would it have been useless for Fremont to have freed the slaves of every rebel and traitor, as he proclaimed.

If our fleets and expeditions on the southern coast would encourage, as they might lawfully, the emigration of *free negroes* to Hayti and Jamaica, in families,—they might easily and cheaply draw off the surplus population, and hurt nobody.

The officers need not trouble themselves to ask the negroes how they came to be free;—nor need our national ships spend their time and force in the matter;—but just open a good port where the merchant vessels of Hayti and Jamaica could get emigrants, and the black stream would flow at once.

The measure is feasible; it would not bring glory to the army or navy; it would cause no insurrection; it would make no show;—but it would weaken the slave power, exactly as drawing blood weakens the human frame.

The people of the North, very many of them, have yet to learn that the negroes and mulattoes at the South, both free and slave, have no little craft and cunning; and though it may shock some persons to hear it, we may truly say the slaves are *too wise now* to engage in hopeless insurrections.

They know that this war is *on their account*; some of them at least understand that the institution is doomed; and the whole mass of the slave population have vague ideas and hopes of freedom—as indeed this idea of freedom is an universal instinct, not only of men, but of all animals.

Our Union friend from Kentucky exhibits the weak side of slavery, where he says that the slaves, out of the way of our army, are working better than common, under the women's management.

In this view, the Southern white men are the *drones* of the hive, the women are the *queens*, and the negroes are the *workers*.

These drones, let us say to our fellow-workers of the north, are the men who assume to rule you, because their wives and their negroes maintain them in idleness.—And they, and their echoing lackeys at the north, have told you, once and again, that the negroes could not take care of themselves; and some of you have believed them.

But to-day they tell you the negroes feed and clothe them, and build their forts; and the same negroes, when they see a fair chance to *take care of themselves*, in freedom, will doubtless improve it.

They can wait, better than their masters can; and the action of the slaves in Virginia, Missouri, &c., where our armies have moved at all, shows that emancipation is their desire—not insurrection! The American negro is not commonly a bloody-minded man—but like all other men and animals, he prefers to toil for his own pleasure and profit, and not for somebody else.

UP THE HUDSON.

NEW YORK, Nov. 7.

Dear Chronicle:—A few mornings since, as the rising sun was tipping with gold the retreating clouds which the storm of the day before had swept up, in one of the cosy little conveyances which ply between the city and its surburban retreats, two of us steamed up the Hudson, the grandest of all the rivers of America, as beautiful as when the adventurous prow of the "Half Moon" was first turned up its unknown waters.

Poetry and romance, and the record of great achievements in alternate season of war and peace, have wove around its receding bays, and rocky jutting points a tale of special interest, while the out-reaching pulse of the great city has touched river and shore, and both alike resound with the hum of busy life.

It was a grand sight which opened to our view, as we shot out from the noisy pier, with its towering network of masts and spars. On one side the smoke-shrouded city and on the other the suburban villages and villas of New Jersey, crowning some rocky mount, or nestling by the river's undulating shore.

The trees had not lost their foliage, but were resplendent with the most beautiful of autumnal colors, and the right bank seemed like a limitless mosaic terrace inlaid with the richest shades of crimson, scarlet, orange and purple, while the wall-like Palisades, four hundred feet high, forming the right bank, were studded with bright hued leaves of the vines, which in spring and summer time had clambered venturously over its towering gray front. Along the banks many pretty towns and villages have clustered together, but the dearest of all is the spot which was for many years the "Home of Irving."

Landing from the boat a short distance below the point, and approaching it by the path winding along the river side, a sweet scene of rural simplicity is disclosed to us; unfolding to view one spot after another like the pages of some glorious romance.

With just such an enchanting appearance as a reader of Irving's "Rambles" written in his peculiar serio-comic style, would imagine, stands the cottage with its minaret, and quaint old weathercocks, its gables overrun with ivy, which the first frost had crimsoned beautifully, just as Mr. Irving describes it in one of his legends, "a little, old fashioned, stone mansion, all made up of gable ends, and as full of angles and corners as an old cocked hat," full of nooks and crooks of all sorts and sizes, buried among willows, and elms and cherry trees, and surrounded with roses and hollyhocks, with honey suckle and sweet briar, clambering about every window.—Amid these surroundings, Sunnyside, by name and nature, crossed and recrossed by grassy, winding paths, and babbling brooks, chasing each other with sportive gambol over their pebbled beds, lived the most beloved and illustrious of our authors, and from here, ripe in years and crowned with honors, he passed upward to the Sunnyside above.

Thus I have given you a picture of "Sunnyside," a name familiar to us all.—The grounds are open to visitors, and the very atmosphere seems to inspire one with a feeling of reverence and admiration. But as much as we may be tempted to linger in the whispering shades of his home, it is still beyond that we must turn for the scenes of Mr. Irving's happiest imaginings to the opposite side of Tarrytown, where our feet may enter the classic glens of "Sleepy Hollow."

Gathering a few mementoes, and dipping them in the brooklet, so frequently and so touchingly alluded to in his writings, we turned our steps thitherward, and the impressions received I will, with your permission, readers, make the subject of another letter from NEWINGTON.

☞ The bitter gall of secessionism sometimes drops from the tongue of woman; yet in some colloquies the quick wit of the Union ladies has silenced, if not convinced.—In Louisville, Ky., at a morning call, a secesh lady said:—"I am astonished, Mrs. G——, that you will make it necessary for your friends to pass under that flag (the stars and stripes) as they enter your door." To which the Union lady quickly remarked, "Madam, *I can't see the necessity for your passing under the flag.*"

THE REBELLION.

At *Washington*, Nov. 8, Sec. Welles received a dispatch from Com. Craven of the Potomac flotilla, stating that the rebels at and below Shipping Point were on the move, apparently going southward, and that the rebel steamer George Page had managed to get out of Quantico Creek and creep along the shore, down the stream.

Information is received from the lower Potomac, that the enemy's retrograde movement of yesterday afternoon was continued all night and this afternoon. "Contrabands" and others state that the removed troops are destined for points south of Virginia.

The rebels, it is believed, have erected a battery on the Potomac, between Pohick Creek and Hallowing Point, where the channel runs near the Virginia shore, about twelve miles from Alexandria.

On Wednesday, fifty rebel cavalry made their appearance at Burk's Station, on the Orange and Alexandria Railroad, 14 miles from Alexandria. Upon our forces advancing, the enemy retreated.

Two privates belonging to a Pennsylvania regiment, and attached to Gen. Heintzelman's division, were accidentally shot on Wednesday night, and mortally wounded, by their own comrades, while on picket duty near Pohick Creek.

A St. Louis dispatch of Nov. 8, says Gen. Fremont arrived there in a special train, Thursday evening, and was met at the depot by an immense and enthusiastic crowd of citizens. Large delegations of Germans, from the various wards in the city, escorted the General to his quarters by a torchlight procession.

A Springfield, Mo., dispatch of Nov. 6, says, Gen. Hunter is told that Gen. Price has no intention of attacking us, and if pursued still further by us, he will scatter his army or return to Fort Smith and await development on the Potomac and in Kentucky. It is doubtful whether any advance of our main army will be made, but intelligence of the numbers and position of the rebels may change this policy. General Hunter's position on the "contraband" question is understood to be as follows: All negroes coming into camp will be retained, and such of them as are proved to be the property of Union men will be appraised and receipted for, to be paid when and how Congress may see fit.

The steamer S. R. Spaulding left Fort Monroe for Hatteras Wednesday evening with a cargo of commissary stores. It is probable some of the troops will return in her. It is understood at Fort Monroe that Hatteras Inlet is a place of too much importance to be abandoned. Should the 20th Indiana regiment return to Old Point, its place will be immediately supplied by a larger force.

The reported resignation of General Wool is news at Fort Monroe.

At Belmont, Mo., 300 rebels are known to be killed: 250 of them are prisoners.

The Herald's dispatch says it is reported that Gen. Beauregard has been relieved of his command of the rebels on the Potomac. It seems well founded.

A letter from Richmond states that a strong effort had for some days been made on the part of the people of South Carolina and Georgia to induce Jeff. Davis to detail Beauregard to the command of the fortifications at Bull Bay or Port Royal. It was reported that the request had been granted, and that Gen. Beauregard had some ten days ago gone to Charleston to watch the movements and operations of the fleet.

The U. S. gunboat Rescue went up the Rappahannock river as far as Urbana creek on Friday. Off the mouth of the creek she captured a large schooner, took off all her stores and movable property, and burnt her to the water's edge. The Rescue was fired upon by a masked battery on shore. The fire was returned and the rebels completely shelled out. The commander of the Resolute occupied the entire day in shelling every spot where there were indications of the presence of the rebel troops.

A private of the 2d Michigan, wounded and captured at Bull Run, and returned because of permanent disability, says that there was a fortification on the north side of Richmond when he left, that was more than three-quarters of a mile in length.

A flag of truce was sent from Fortress Monroe to Norfolk, on Friday, but brought back no passengers, and no news whatever of the fleet.

Our victory at Belmont, Mo., was complete. We captured 200 rebels, spiked two of their guns, and brought away two. We were obliged to leave part of the guns behind for want of horses. The rebels acknowledge 350 killed. Our loss is stated at 300. It is rumored that Col. Ogilvie's command has encountered Jeff. Thompson's forces, killing 300, and losing 50.

The intelligence from the army in Missouri is, that the news of Fremont's removal was received with indignation, and but for his wise and prudent course, trouble might have occurred. As the enemy were at hand, he promised, if Gen. Hunter did not arrive, he would lead them at once to battle. This announcement was received with the wildest enthusiasm; a dozen bands serenaded the General, and the whole camp prepared to start for the enemy at daylight—but at 10 o'clock that night Gen. Hunter arrived: and the next morning, Gen. Fremont, instead of going to battle, left for St. Louis with his staff.

☞ The New York correspondent of the Philadelphia Enquirer writes that there is every reason to believe that Captain Semmes, late of the pirate Sumter, was in New York a whole week previous to his departure for Liverpool, and did not fail to employ the time in acting the part of a spy. Americans in Liverpool, he says, write that he was about to give a course of lectures there, narrating his experience on the ocean, and advocating the cause of the C. S. A. The fellow, it is said, has the gift of gab, and if anything can be gained for the rebel cause by downright hard lying, he will, no doubt, accomplish something. But the principal question now to be decided is—has he really gone to Liverpool?

PORTLAND KEROSENE OIL.

This OIL, being so well known, scarcely needs a comment. It is manufactured from the Albert Coal, of New Brunswick, of which mines the Portland and Downer Companies have the entire control.

Persons wishing for a SUPERIOR ARTICLE will find it, with a good supply of

G. P. PUTNAM, Publisher,

532 Broadway, New York.

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair,

Where age or sickness has turned it gray, and that it will render it soft and glossy!

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, Mo., June 1, 1859.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become gray, and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will reply to any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSBYHALL.

Sold everywhere—price 50c., and $1 per bottle.

FORECLOSURE OF MORTGAGE.

Notice is hereby given that the undersigned, as Attorney for Hannah S. Kenney, of Eliot, Me., on the Twenty-ninth of May, A. D. 1861, made peaceable entry into and took possession of a certain lot of land and wharf situate in Portsmouth, in the County of Rockingham and State of New Hampshire, bounded westerly by Market street, thirty-one feet eight inches; northerly by wharf and land formerly of Thomas Haven, now owned by the heirs of the late Samuel Pray; easterly by Piscataqua River, and southerly by land formerly owned by the late Joseph W. Leighton, and now occupied by Thomas S. Gammon,—together with the buildings thereon, conveyed to said Hannah S. Kenney in mortgage by Elisha Tripp of said Portsmouth, by his deed dated July 1, 1856, recorded in Rockingham registry of deeds, Lib. 366, Fol. 306, for condition broken, and for the purpose of foreclosing the right to equity of said Elisha Tripp, or of John M. Davis, or of Samuel Jacquith, D. F. Hall and Samuel Andrews, or any, or all, or either of them, or of any other person or persons whomsoever; to redeem said mortgaged real estate, and at the same time publicly declare the purpose and object of said entry and possession. WILLIAM H. HACKETT,

Att'y for HANNAH S. KENNEY, Mortgagee.

Portsmouth, N. H., July 25, 1861. M

LOST,—Thursday morning, in Congress or Middle streets, a small BREAST PIN. The finder will be liberally rewarded on leaving it at the Chronicle Office.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Coldness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excitcies and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail.

Sold by W. E. PRESTON and all druggists.

HAM & CO., 9 Congress St.

PHILADELPHIA SHELLBARKS

For sale by L. LAIGHTON.

Local.

☞ It will be seen by the advertisement of the grand Concert for Wednesday evening next, that tickets may already be secured at Mr. Cobb's or Mr. Preston's; and we advise all to get reserved seats at once. Although this concert does not come to us with so much preliminary flourish of trumpets as some—yet from our personal knowledge of the performers, and far more from their unquestioned, exalted and world-wide fame, we have no hesitation in guaranteeing our readers, one of the best concerts ever given in Portsmouth, or indeed almost any other place.

☞ Mr. John M. Brown, of Portland, Me., is in this city, intending to remain for a few days for the purpose of gathering materials for a history of the town of Kittery, which he is preparing for the Maine Historical Society, and at their request.—He has already bestowed much attention to the early history of that ancient town, and having had the use of the late Mr. Fogg's MSS., will undoubtedly be enabled to produce a work which will not only meet the wishes of the Society, but also be extremely valuable to many of the citizens of Kittery and of this city.

NEW HAMPSHIRE ITEMS.

The ladies of Laconia village have instituted a series of weekly meetings for the purpose of knitting mittens and preparing other clothing for the soldiers.

—— The freshet of Sunday, carried away a large part of the dam belonging to Brown's cotton factory, in New Ipswich.—It also did considerable damage to roads and bridges in Keene and Mason.

—— The Columbian Mills at New Ipswich and Mason Village have stopped.—These mills have run on three-fourths time for a year. Many of the young men who have been employed about these mills, have lately enlisted for the war.

—— Henry F. Hall, son of Dr. J. F. Hall of Wolfboro', has enlisted in the regular army, as hospital steward, and is stationed at Fort Preble, Portland.

—— On Tuesday the patriotic town of Hollis sent thirty-six of the flower of her sons into camp at Manchester, to fight for the perpetuity of our government.

—— Rev. B. F. Parsons, formerly of Dover, has been installed over the Pearl Street Church in Nashua. Sermon by Rev. A. Tobey of Durham.

—— The annual meeting of the N. H. State Teachers' Association is to be held in Concord on Tuesday and Wednesday, Nov. 19th and 20th. Papers are to be read by a number of prominent teachers, and the following topics are announced for discussion: "Is it desirable to introduce gymnastic exercises into our common schools?" "Has our Legislature done well in abolishing Teachers' Institutes?" "Is it desirable to educate the sexes together in our high schools, Academies and Colleges?" "The best method of teaching the English language." Rev. B. G. Northrop, agent of the Mass. Board of Education, is announced to lecture on Tuesday evening, and Prof. Aiken of Dartmouth College, on Wednesday evening.—Prof. Aiken's subject is "Scholarship and Patriotism." Lady teachers attending the meeting will be entertained gratuitously during the session.

—— Mr. Augustus Berry, late Principal of the Mount Vernon Academy, was ordained pastor of the Congregational church in Pelham, on the 30th ult. Sermon by Rev. J. G. Davis, of Amherst.

—— The Coos Republican, Nov. 5, says:—"B. F. Whidden, Esq., of Lancaster, has in his garden a common summer rose bush, on which is now a rose in full bloom, being the second "instalment" of the season." Mr. Marston, at Milan, has raised two perfect crops of peas from the *same seed* and the *third*, the *grand children* of the first, is fast reaching perfection."

—— A Levee was held in Henniker, on Wednesday evening, and $135.00 was raised, which is to be donated to the N. H. Second Regiment, to be presented by Rev. Dr. Parker, Chaplain of the Regiment.—The sum raised speaks finely for the patriotism of the people.

PERSONAL.—The Boston Saturday Gazette says that the public's old acquaintance, "Porte Crayon," who was supposed to have gone over to Dixie because he married a wife down by Tar river,—is in Gen. Banks' Division, being attached to the engineer corps.

Fitz James O'Brien, the well-known writer, and now Captain in the McClellan Rifles, has been arrested for shooting drill sergeant Davenport. Another account says that Capt. O'Brien is not under arrest as stated. He acted in self-defence.

☞ Robert Elliot, of Freedom, Me., who has been detained at Fort Lafayette and Fort Warren, was released on Tuesday by order of Government.

☞ In Maine, the 12th and 13th Regiments, Cols. Shepley's and Dow's, are filling up with wonderful rapidity. The former rendezvous at Portland; the latter at Augusta.

☞ Gen. Scott sailed from New York for Europe on Saturday in the steamship Arago. Col. H. L. Scott and Thurlow Weed went in the same vessel.

☞ The unrivalled Forrest, and the Beautiful Cubas, are announced to continue at the Boston Academy of Music this week. See advertisement.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction 1y

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

DIED,

In this city, Nov. 9th, of hemorrhage from the lungs—Mrs. FRANCES M. WOOD, aged 28 years 10 months, wife of Mr. T. E. Wood. She was formerly widely known as the "Lady Magician," in "Prof. Wood's" Magic Entertainments.

In Dover, at the residence of her son, Dr. Henry Smith, Mrs. BETSEY SMITH, aged 81, widow of the late Dr. Daniel Smith, of Waterborough, Me.

—FOR THE—

MAGNOLIA BALM.

For when the face is covered with unsightly pimples or Blotches, the sufferer cares only to be directed to use some *safe and reliable remedy*.

THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A SINGLE WEEK.

It is so *safe* a remedy, that the contents of a bottle might be drank without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and neatly put up article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

W. E. HAGAN & CO., Proprietors, Troy, N.Y.

THACHER Agent for Portsmouth. aul

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexualar Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Replies sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medica Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular*.

Dr. Jackson's Female Pills, $1—*send for Circular*.

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 6 P. M till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience will admit. P. O. Box 485. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

Book, Job and Card Printing,

as heretofore, and solicits their orders.

All indebted are requested to settle at once.

SAMUEL GRAY.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense *suffering* and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form or what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c, and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of the character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory nature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who have been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a soverign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,

N. E. cor. Fine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the fire of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking over.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz.:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends also to the preservation of the plates most exposed to destruction.

3d. The durable dump grate, with the ash box of ample size to receive the ashes and coals, is an a tractive feature of the stove.

4th. The dump at each end of the fire box, is a great convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division of flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and jackets are provided for the back and hot plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRUNDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, [for economy, convenience and dispatch.

Reference can also be made to Messrs. J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Bennett, John Harrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Exeter, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and *looks* cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN OVEN, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the aid of the TOP COVER, a cool fire may be kept up through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas-burning arrangement," and application of the top covers and boxes, the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last;* and *will last.* The structural form is such that the frame-work of it cannot burn out.

All the plates constituting the original STEWART STOVE, which was brought out 15 years ago, are still made, and sent to different parts of the country on call.

The price of QUIETNESS, COMFORT and HEALTH secured to a family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and now found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to the Scythe.

And here we will venture to refer to, and explain if not refute, the statements of one of our city Stove Dealers, respecting the Stewart Stove, in comparison to another almost-unknown Cook Stove. The gentleman therein named, as using and recommending the Stewart, never had one of the new, improved Stewart's, but did for a long time use one of the old pattern; and it gave such complete satisfaction that we have recently furnished three members of the same family, with the new improved Stewart!—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING

STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hond many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

"THE HAMMOND LINIMENT"

IS A SAFE, SURE and SPEEDY REMEDY,

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, INGRAIN, SORE THROAT, CHILBLAINS, HEADACHE, SORES, PILES, PAIN IN BACK, SIDE, LIMBS & CHEST

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT" has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to be what the proprietors claim.

Rev. Perez Mason, City Missionary, Boston;—Franklin Smith & Son, Undertakers, Tremont st.; Mrs. A. M. Smith, Main street, Charlestown; Frank Plaisted, corner of Fifth and D street, South Boston; A. Adams, Exeter, N.H.; Edward Prescott, Charlestown; F. F. Farwell, 112 Washington street; C. H. Cook, Gardiner, Me.; J. G. Case, (Silsby, Case & Co.,) Washington st.; A. W. Palmer, with S. N. PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that the experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and economizing the profits of middle men, we propose to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who prefer to purchase *Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our store will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogues, price lists, &c.

Boston, April 6, 1861. ap9eoD 1yr

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation; it also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. ap24

Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF ONE HOUSE OF PORTUGAL.
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Urinary Kidneys and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medicinal properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

Gen. W. Scott, U.S.A. Dr. Ward, Newark,
Gov. Morgan, N.Y. State Dr. Wilson, 11th St. N.Y

NEW ENGLAND
Single Stitch Family Sewing Machine.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,

IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every family than any other machine now offered to the public.

Price only $12,

Table $6.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, NOVEMBER 12, 1861.

☞ The full returns of the Maryland election show that but one secession Senator and six secession Delegates are elected. The House stands 68 Union, and 6 secession; the Senate stands 13 Union and 8 secession. Seven of the latter are of the number who hold over, and six of them represent strong Union counties. Bradford's majority for Governor is about 30,000. A special session of the Legislature is to be called by Gov. Hicks, to undo the disloyal legislation of last spring, to enact a new police law, and to put the State full and square on the Union platform. The seats of the Baltimore Senator, (Yellott,) and those under arrest, will be declared vacant, and a new election ordered.

This does not, of course, show all the *traitor* votes that would have been given, if no U. S. soldiers had been in the State,—but it *does* show that the Union men there are the *great majority* of the whole people! No one was obliged or urged to vote. But had the rebel army been there, and had the traitors of Baltimore been in power, no Union votes would have been allowed to be thrown.

The slave power feels this to be terrible oppression, that their oligarchy cannot rule in Maryland!

☞ Wm. T. Spear, an intelligent Tennessean, says:

"If the blockade is rendered effectual, and kept up, a hundred Manassas victories would fail to establish the Southern Confederacy. The blockade is literally ruining the South,—ruining it in its tenderest point—slavery. If it could be maintained for seven years, I venture to say no man would consent to own, or buy, or accept as a free gift, a single nigger south of the Tennessee line.—Even at the present price of niggers there, masters cannot afford to raise negro children. 'It is worth a nigger to raise one,' is a Southern proverb even in flush times. It will soon be worth three niggers to raise one."

☞ No details of the battle said to have taken place on the Gauley river, in Western Virginia, a week ago, have been received, and it is presumed it was nothing more than a lively skirmish. Dispatches from Gen. Rosecrans make no mention of any engagement or immediate prospect of an engagement with the rebels. The General and his command are reported to be in fine condition and prepared to receive the enemy from any quarter, and the commander is confident of success.

☞ A poor teamster at Neponset, Mass., having broken his leg by falling against the horse cars, was supplied by his poor neighbors with coal and flour last week, by the ingenious device of an Irish ball. Tho' he was neither of their religion nor nation, and though they all depended upon their day's labor for their day's bread, they could not let him suffer. How noble, often, the virtues of the poor, whose charity always implies self-denial and self conquest.

☞ Our information in regard to the battle of Belmont is yet imperfect. Gen. Grant telegraphs to St. Louis, that the victory of the Federal troops was complete. A despatch from Washington says that "under all the circumstances the late action at Belmont, Mo., is considered in the highest degree creditable to all our troops concerned in it, and the credit of the brilliant movement is due to Gen. Grant."

THE STORM which the Southern journals thought would scatter our fleet seems to have caused more anxiety at the South than at the North. It blew down the telegraph poles between Charleston and Savannah, and the rest of the South, thus leaving the people and Generals in doubt as to where the blow was to be struck.

TALES OF THE DAY.—The November number of this attractive monthly, concluding the first volume, is just published by Wm. Carter & Brothers, Boston. It contains continuations of "For Better for Worse," "Can Wrong be Right," and "The Seven Sons of Mammon," together with numerous short stories, and "The Victories of Love," the new poem by Coventry Patmore.

☞ Advices received in Washington from St. Louis, state that Major Finney who left Springfield with Gen. Fremont, brought away the army chest containing about $300,000, having failed to pay the troops. The money has been secured, and the Major arrested and returned to Springfield, under a strong guard.

☞ Rev. Rufus Childs, Congregational preacher at Berlin, Vt., has eloped with Miss Bosworth, a daughter of Judge Bosworth, of that town, leaving a wife and three small children in destitute circumstances.

☞ It is reported that the Canadian Steamship North Britain is ashore on Mingan Island. A boat, with 17 of the crew and 1 passenger, has been picked up.

THE REBELLION.

Prizes.—The storeship Nightingale, at New York, 10 days from the Southwest Pass, has on board the cargoes of five vessels captured by the steamer South Carolina, off New Orleans. Two of the captures had entire cargoes of munitions of war, including a large quantity of powder and 10,000 stand of arms, intended for the rebel army.

Naval Expedition.—News from the South leaves little room for doubt that the naval expedition has been successful in accomplishing the object of the enterprise. No direct information has been received from the fleet, and the only intelligence of its operations is gathered from persons who came down to Fortress Monroe with a flag of truce from Norfolk. The officers with the rebel flag of truce refused to give any information, but the wheelsman told a sailor that Beaufort was in the possession of the Federal troops, and that the U. S. flag was flying from the court house.

The Richmond Enquirer of Friday contains a dispatch, dated "Charleston, Wednesday," simply announcing that the Federal troops had landed at two points and were marching inland. It does not say what two points.

The ferry-boat Com. Perry, considerably damaged, has returned from the South to Fortress Monroe. She lost sight of the fleet Friday evening, about 30 miles off Bull's Bay, the fleet bearing towards Port Royal. The captain knows nothing about the reported loss of the Union and another transport. The Com. Perry lay several hours near Cape Fear and finally made Hatteras Inlet. The 20th Indiana Regiment stationed there will return to Old Point.

Missouri.—A Rolla, Mo., dispatch of Nov. 9, says a portion of the force sent into Texas county to chastise the rebels who have infested that section, returned yesterday, bringing 9 prisoners, 500 head of cattle, and 40 horses and mules, the property of armed rebels. Col. Greele hoisted the U. S. Flag on Houston Court House, and proclaimed:—If taken down by rebel bands, I will return here and pillage every house in the town owned by Secessionists or those who sympathise with the rebels, and any outrages hereafter committed upon Union men or their families will be returned upon the secessionists twofold.

Washington Items.—The rebels keep a regiment in ambush near Hunter's Mills, seven miles beyond Vienna, to capture stragglers, etc.

The Government has decided to hold Hatteras, and that position will be immediately reinforced.

The officers of the Navy Yard deny that the rebels have erected a new battery, 12 miles below Alexandria.

There is information from rebel sources that 30,000 troops have been sent from North Carolina and Virginia to repel the landing of federal troops at Beaufort, S.C.

The President has commenced preparing his annual message.

Long Bridge is being reconstructed.

The New York Herald's special Washington dispatch says that the non-reception of news from the naval expedition, through rebel sources, is considered as evidence of satisfactory results having been attained.

An official dispatch from Chincoteague Inlet, Va., shows that the U. S. steamer Louisiana has been actively at work. A party from that vessel, together with five volunteers from the Island, went on an expedition up the creek, and discovered and burnt one schooner and two sloops. The party left the Louisiana in three boats, at 10 o'clock on the night of the 27th of October, and returned at 3 o'clock next morning, all well. The whole affair was conducted with so much discretion, that the enemy, said to be 300 strong, in and about the town, were unconscious of the expedition.

The contracts which our government has endeavored to make for arms in Europe have mostly failed thus far, and it is reliably ascertained that the reason is, that the workshops are busy filling secession contracts, and others for their own governments.

A dispatch to the N. Y. Tribune says Three forts near Beaufort had been silenced by the naval expedition, the town occupied, and that our troops were marching to take possession of the railroad. This comes through rebel sources. A deserter brings "a rumor that the railroad above Beaufort has fallen into the possession of our troops, with an immense quantity of stores. Another improbable rumor is that our troops had advanced up the railroad as far as Charleston. It is reported that in taking Beaufort a large part of the town was burnt.

The gunboat Union was run ashore in a sinking condition on the 1st inst. The crew, 73 in number, and fifteen horses were saved. The men are prisoners at Fort Macon and Raleigh, N. C.

The steamer Winfield Scott was in company with the Union, and it is thought was lost, she having suddenly disappeared.

The Herald dispatch says Maj. Gen. Halleck has been assigned to the command of the department of the West, and Gen. Buel to Kentucky.

NEW HAMPSHIRE ITEMS.

—— A letter from Washington states the business of Gov. Berry in that city to be consultation with Government in regard to the collection of the national tax in this State, and erecting some fortifications on our Northern frontier, in accordance with the suggestions of Mr. Seward's circular.—It appears from the News-Letter that Gov. Berry went over into Virginia on the 5th of November, got beyond our pickets, and was in danger of being made prisoner by the rebels,—when an officer sent some one after him.

—— The Second New Hampshire Regiment is now in Maryland, near the Potomac, opposite the rebel batteries near Quantico creek. It is there to resist any attempt to cross in force from Virginia.—The Third and Fourth are at ——, South Carolina, on the most sacred of sacred soil. Letters and packages for them should be sent to the care of D. D. Tompkins, 6 State Street, New York, freight or postage paid. The Fifth is encamped at Bladensburg, on the ground formerly occupied by the Second. The Seventh at Manchester is said to be nearly full. The general government supplies this regiment with a complete outfit of the most substantial character. The Sixth has seven hundred men enlisted, and the Eighth somewhat less than that number.

—— The Rockingham Quarterly Meeting of Freewill Baptists at Raymond, was well attended. That denomination reports its members in New Hampshire, at 9934, a gain of 180 for the year. In the United States they have 58,000 members.

—— Gardner Heeper, of Fremont, has sent the News Letter a trace of 12-rowed Indian Corn; the ears measuring 12 inches in length, each holding about 600 kernels

—— James Proscott, formerly a Stage Driver from Portsmouth to Concord *via* Dover, has been a partner with Benj. Grover of Concord for 30 years, in the livery stable business,—and the partnership is still extant and harmonious.

—— Capt. Jas. Hall, one of the oldest native farmers of Concord died last week in the house of his birth, aged 80.

PUTNAM'S "REBELLION RECORD."—During the trial, in the United States Circuit Court, which terminated yesterday, in the conviction of William Smith for piracy, as one of the crew of the *Jeff. Davis*, a great deal of documentary evidence, to show the reality of Secession, was offered in evidence by counsel for the defence—avowedly taken from Frank Moore's "Rebellion Record," and received by Judges Grier and Cadwalader, who presided. This is a remarkable compliment to the work in question—but not higher than it merits—from the fulness and fairness of its varied information respecting the origin and progress of the Rebellion. It is the first time, in legal and literary history, that a book not yet completed has been so stamped with authenticity as to be admitted as evidence in a Court of Law, and on a trial for a capital offence.—*Philadelphia Press, Oct. 26, 1861.*

Mr. C. J. Fox, a gentleman who once had a consulate under Mr. Buchanan's administration, had the misfortune to be reported in our list of hotel arrivals yesterday as Mr. Fox, the Assistant Secretary of the Navy. His acperience for the twenty-four hours succeeding has been of a character to make him aware of the amount of work which the principal officers of the present administration have to go through. Another day of the same sort, we fear, would make him leave the country, or destroy his peace of mind and confirm him in his Democracy for life. We therefore make the necessary correction at once, and hope to save him to his friends by the statement that the Assistant Secretary of the Navy is not to-day in the city.—*N. Y. World.*

"Her success is truly wonderful, eclipsing in this respect even the triumphs of Lind and Sontag. When we consider her youth and brief experience, and, above all, that three years since she scarcely knew a note of music or a word of Italian, and see with what purity she sings it now, sustaining the most difficult *roles* in a manner winning the admiration of those familiar with the highest efforts—when we think of the difficulties that this young American girl has overcome in this incredible short space of time, we can but consider it the most wonderful achievement upon the stage of our Academy."

The increase of the regular army from 17,000 to 40,000 has proved a most signal failure, as well as a most expensive one.—Some five hundred commissioned officers were long ago appointed to command the new regiments, which have now only recruited about four thousand men. It is not merely the pay of these officers, heavy as that is, which is lost, but their services.

A contraband, describing the stampede of the secesh from Warsaw, Mo., when Fremont's advance was about entering the place, said: "Why, massa, an hour after they heard you gemmen was comin', all the hills 'round here was *rattlin'*."

A lady in Rhode Island, who has a brother who was in the battle at Bull Run, on being asked what position he occupied in the army at that trying time, replied, with a proud nod of the head, that he was the driver of an *avalanche*.

☞ The French frigate Calabria was burnt to the water's edge on Friday night off Hatteras. All hands were saved.

To avoid being dunned. Never run in debt.

The government hereafter will take possession of all arms arriving in the country. The government has contracted for the manufacture of a large number of Springfield rifles and breech-loading arms. The supply of sabres is also ample.

Gen. Heintzleman confirms the reported commencement of the evacuation of the lower Potomac by the rebels.

The boat from Old Point to Baltimore reports that a steamer came in the Capes on Sunday evening and continued up the Bay without stopping. She was thought to be the Vanderbuilt with dispatches from the great fleet.

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 daw3m

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loneness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

Sold by W. R. PRESTON and all druggists.

Local.

ITALIAN OPERATIC CONCERT. — This entertainment cannot but be a complete success. The combination of talent, including Miss Hinkley, Brignoli, Susini, among others, is strong beyond precedent here. We advise our readers to secure their seats early.

Miss Hinkley is a beautiful young American prima donna, who has become in a short time one of the very first favorites of the admirers of lyric artists. Her impersonations of the most difficult *roles* have received the highest commendations of operatic connoisseurs. Her Lucrezia Borgia is pronounced by critics the highest achievement in lyric tragedy ever evidenced on the American operatic stage — says the late lyric critic of a New York daily journal.

ITALIAN OPERATIC CONCERT. — Miss Hinkley, the charming prima donna, makes her first appearance in Boston this evening, since her marriage with Signor Susini. The great basso, himself, will sustain her. The sweet voiced Brignoli will sing some of the choicest *morceaux* from the operas in which he has become justly famous; and the new baritone, Mancusi, is spoken of as an artist of real merit. The concert is one of rare attraction in all its elements; and, notwithstanding the inclemency of the weather, the demand for tickets continued unabated this morning. The house will be crowded with a critical and fashionable audience.—*Boston Transcript, 9th.*

POLICE COURT, Monday.—James Bright and James Bogle for playing cards on Sunday evening in house number 23 Hanover Street, were each fined $1 and costs $2.50.

Thomas Taylor, for entering the house of Mr. William H. Fernald on Market Street, and stealing sundry articles therefrom, was sentenced to pay a fine of $1 and to pay costs and three times the amount stolen—in all $7.40. Committed to jail.

WINTER SPORTS.—The best, most profitable, and most healthy gymnasium for the winter, is the snow plough, as it works in the open air. It might be for the *vital* interest of the scholars if every boys' school was provided with a plough of moderate size. B.

☞ South Hampton, though one of the smallest towns in Rockingham county, is alive to the needs of the war, and doing her share in the contribution and comfortable maintenance of soldiers. The ladies of the town have within the last three weeks made up and forwarded to the army 27 shirts, 11 pairs of stockings, 16 pairs of drawers, 2 bundles of bandages and a coverlid and blanket. The town will take a patriotic action with regard to the encouragement of volunteers.

☞ It will be seen by our advertising columns, that Mr. Wm. Downie, late of the firm of Moses & Downie, has located himself with Messrs. Archibald & Mullen, in Daniel street, where he is ready to meet his old friends and all customers in the clothing line.

☞ Dr. H. M. Wells, late Assistant Surgeon of the U. S. Naval Hospital in Chelsea, Mass., has been detached from service there, and ordered to join the sloop-of-war Portsmouth, now lying at the Portsmouth Navy Yard.

☞ The workmen at the Chronicle office are under great obligations to Mr. Tibbetts for the bivalvular testimonial of his regard for them, a day or two since, on the arrival of a new cargo. His advertisement in the Chronicle announces to everybody, that he supplies Oysters in any quantity,—and everybody knows they are served up in excellent style there.

☞ Mr. James Hall, formerly of this city, and recently a Railroad Commissioner for the State of Maine, has been appointed Superintendent of the Logansport, Peoria and Burlington Railroad in Illinois.

☞ Messrs. Jackson & Co. have put in their Express Office a new Regulator, which gives the exact Boston time, a convenient thing to know, when the first train now starts before breakfast.

☞ The unrivalled Forrest, and the Beautiful Cubas, are announced to continue at the Boston Academy of Music this week. See advertisement.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

—FOR THE—

MAGNOLIA BALM.

For when the face is covered with unsightly pimples or Blotches, the sufferer cares only to be directed to use some *safe and reliable remedy.*

THE MAGNOLIA BALM WILL CURE
THE WORST CASE OF PIMPLES
IN A SINGLE WEEK.

It is so *safe* a remedy, that the contents of a bottle might be drank without harm. Physicians look with wonder upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and neatly put up article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods dealers.

☞ Price 50 cts. a bottle.

W. E. HAGAN & CO., Proprietors, Troy, N.Y.

THACHER Agent for Portsmouth. aul

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair,

Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and brings back its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—its composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, MO., June 1, 1859.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become *gray*, and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who will speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSBYHALL.

Sold everywhere—price 50c., and $1 per bottle.

W. E. HAGAN & CO., Proprietors, Troy, N.Y.

THACHER Agent for Portsmouth aul

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Vulpean. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medical Preceptor," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former years were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

Book, Job and Card Printing,

as heretofore, and solicits their orders.

All indebted are requested to settle at once.

SAMUEL GRAY

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as embrocations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and persevieingly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their name should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,

N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections: such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Tetters, and all Skin Diseases.

OXFORD, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in ulcers on my hands and arms, sometimes it turned inward and obstructed one of my lungs. Two years ago it broke out on my head and covered my skull and ears with one sore, which was painful for a long time beyond description. I tried many medicines and many physicians, but without much relief from any. At last, by the advice of a friend, I began to use your Sarsaparilla, and it healed up rapidly. I continued it until it cured me. I have had no return of the disease since, which is now two years. I believe your Sarsaparilla to be the best blood purifier you make, and I shall always recommend it to my friends and get it, and used it till it cured me. I believe it, as you advise, to small doses of a teaspoonful every morning, and I used almost three bottles before my skin began to form under the sore, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the saviors of the age, and remain ever gratefully, Yours, ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the perseverance use of your Sarsaparilla. He also cured a *Malignant Erysipelas* by large doses of the same, and he cures the common *Erysipelas* by it constantly.

Bronchocele, Goiter or Swelled Neck.

Zebulon Stone of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goiter—a full one coming on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent, in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in the female diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the womb, the ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Morrell, of Newark, N. J., writes: "A large gross cancerous tumor on one of the females in my family, which had defied all the remedies we could employ, for at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation would afford relief, but he advised the trial of your Sarsaparilla as the last resort before consenting to the proved effectual. After taking our remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease, Secondary Symptoms, Old Sores.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects more decidedly beneficial than any other alterative *curing disease.* One of my patients had Syphilitic sores in his throat, which were consuming his palate and the top of his mouth. Mercury had salivated him, but caused him to fall to pieces. Another was attacked by secondary symptoms in his nose, and the alteration has caused very a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. This yielded to my administration of your Sarsaparilla; the ulcers healed, and he is now in good health, without even some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. Your Sarsaparilla was effective to the weather that on a damp day she suffered excruciating pain in her joints and bones. Yet, too, you cured entirely by your Sarsaparilla. In a few weeks, I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, I have used it in numerous cases with it have not surprised me. Yours, G. V. LORIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Independence, Trimble Co., Ky., 6th July, 1859.

Dr. J. C. AYER: Sir, I believe I have received benefit from your Sarsaparilla for a long time, which baffled the skill of physicians, and I feel it my duty to express all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in few weeks, and restored my general health so much that I am fully better than I was before attacked. I think it a wonderful medicine. J. FREAM.

John F. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health, I regret to say, and could not be relieved by your Sarsaparilla, and I have been a broken-down man for some years from no other cause than *derangement of the Liver.* My beloved pastor, the Rev. Mr. Depy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and I am in positive duty bound to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Scirrhus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this powerful alterative, which we will not attempt here. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the extraordinary power of this medicine. It restores to the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the physicians of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This has so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized world, and there is hardly a family in the community, or even families, among them who not some personal experience of its effects—some living trophy in their behalf of its victory over the subtle and dangerous disorders of the throat and lungs. It is from the beneficial effect of these disorders, and as they know, too, the effects of this remedy, we need pay no more than to assure them that it has now all the virtues it did have before making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street, Portsmouth.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

In introducing a new Cook Stove, of singularly novel construction and arrangement, it is proper that we speak of its merits.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attended to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove; while, at the same time, the stove occupies no more room on the floor.

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves, but will barely allude to them, viz:

1st. The double plates each side of the fire prevent any leak of ashes into the oven and make the stove more durable.

2d. The admission of external air between these plates, for the ventilation of the roasting oven, tends also to the preservation of the plates most exposed to destruction.

3d. The durable dump grate, with the ash box of ample size to receive the ashes and coals, is an attractive feature of the stove.

4th. The draft door, at each end of the fire box, is a great convenience, when a quick fire is wanted.

5th. The movable ash pan, which, tho' it forms a hearth to the stove, need not be used except once or twice a day for taking up and carrying away the ashes.

6th. The stove has but one damper, and but one division in the flues on the back of and under the oven, ensuring a very quick bake.

7th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and jackets are provided for the back and hot plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a lifetime, and we know it to be "perfect in its operation."

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

JOHN TRENDY, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch.

Reference can also be made to Messrs. J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert E. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be the stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite every one to examine the Stove, whether they wish to purchase or not.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

The Best COOK STOVE In the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable cover-plate, which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any heat going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN OVEN, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. A Door, in the side of the TOP COVER, a coal fire may be kept up through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUPLEX OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

7. By the aid of the perforated metallic linings, or "gas burning arrangement," and application of the "Patent Gridiron," the various culinary processes may be carried forward successfully with a single stick of wood at a time.

8. In regard to DURABILITY, the Stewart Stove is made to *last*; and *will last.* The structural form is such that the frame-work of it cannot be warped out.

All the plates constituting the original STEWART STOVE, which was brought out 18 years ago, are still made, and sent to different parts of the country on call.

The price of QUIETNESS, COMFORT and HEALTH secured to a family by the use of a culinary apparatus perfectly adapted to their wants, cannot be reckoned in dollars and cents.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and nor found wanting in any particular. Yes, the Stewart Stove has been manufactured and sold for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

And here we will venture to refer to, and explain if any one desires, the opinions of our city Stove Dealers, respecting the Stewart Stove, in comparison to another almost-unknown Cook Stove. It gentlemen will call on them, and, after and discarding the Stewart, never had one of the NEW, improved Stewart's, but did for a long time use the other, and if they can honestly and in perfect satisfaction that we have recently furnished three members of the same family, with the new improved Stewart—which we do say

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and, to see the best Stove in the market, please call on

STOVES.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

THE MAGEE PARLOR VENTILATING AND GAS-CONSUMING STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE AND ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

We have on hond many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

"THE HAMMOND LINIMENT"

IS A SAFE, SURE and SPEEDY REMEDY,

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, BRUISES, SORE THROAT, CHILBLAINS, HEADACHE, SORES, PAIN IN BACK, SIDE, LIMBS & CHEST

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT" has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to be what the proprietors claim.

Rev. Perez Mason, City Missionary, Boston;—Franklin Smith & Son, Undertakers, Tremont st. Mrs. A. M. Smith, Main street, Charlestown; Frank Plaisted, corner of Fifth and D street South Boston; A. Adams, Exeter, N. H.; Edward Prescott, Charlestown; F. F. Farwell, 112 Washington street; C. H. Cook, Gardiner, Me.; J. G. Cass, (Silsby, Case & Co.,) Washington st.; A. W. Palmer, with S. N. PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and we feel confident that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling agents to canvass the whole country. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper thereto."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

SPECIAL NOTICE.

Our terms for Subscription, Advertising and Job Work, except where accounts are open, are, invariably and exclusively, *cash in advance* of doing the work.

$5 Reward,

We will pay, for evidence to convict any person of taking a copy of the Chronicle from the door of a subscriber. No one has any right (legal or moral) to take papers from such situation, *even for an instant;* and we are determined to stop this trouble to ourselves and our patrons, if possible. FRANK W. MILLER.

Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS FREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, and is a valuable substitute of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the wine.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOVEMBER 13, 1861.

ONLY ONE PARTY!

The Dover Gazette advocates the idea of only one party; and says:—

"When we use the phase 'But One Party,' we mean to say there is but one set of principles, and those principles such as have constituted the essence of the Democratic creed, and which *they* uniformly advocated and supported, viz., the maintenance of the Constitution, giving to each and all the States equal rights under it—the preservation of the Union, as our fathers gave it to us—the cordial and earnest support of the Government in the time of war, when its safety or honor was endangered, and the enforcement of the laws on all occasions and for all occasions, and for all purposes."

As there is no *noun* in the sentence or in the whole piece, for the pronoun *they* to refer to, we must guess that the writer means either the Democratic *party*, or the Democratic *administrations*, at Washington, or in the several States.

If he means the party,—we would respectfully ask him to what party Messrs. Floyd, Davis, Mason, and Breckinridge, the most noted secessionists, belonged, before all the parties were smashed by war? also, which of the two Democratic parties of the *last year* had the exclusive right to that name?

If the national administrations are meant, was not the Buchanan and Breckinridge Cabinet a Democratic administration, chosen by that party? and were they not, with one or two honorable exceptions, a cabal of traitors plotting this rebellion?

If he means the State administrations,—then let us ask, was not that of South Carolina the most decided and permanent Democratic State Government, that never swerved nor varied? And did she ever advocate *any* equality, except that the negro slave power should always be *a little more than equal* to every thing else?

These questions are capable of an easy answer. The Dover Gazette says further:

"Now, all who maintain or defend these principles, we claim to belong to the glorious *old Democratic party*, and we recognize them as such, believing that principles more than men distinguish and characterize a party. We are happy to include in this number the *Administration* itself, as well as many of its ablest journals and most prominent men, so long as they adhere to the platform of principles above stated, being identical with those uniformly maintained and advocated by the Democratic party. And we think it is of but little consequence whether or not they discard the name Democratic, provided they adopt and maintain the principles.

In this light then, there is but one party, and that the Democratic."

Well, well! says Uncle Toby,—if Lincoln and Hamlin, Seward and Chase, Welles and Cameron, Blair and Bates,—all belong to the "glorious old Democratic party,"—it is a great surprise party to every body, especially to themselves!

But is it not a mere confounding of terms, and ideas, to talk in this fashion?

In the same paper, the same editor says:

"It is the Democrats who have been supporting this war in the field, and they most, in the very nature of things, are long come to control and direct in the Cabinet and Congress."

If the reader will just go back a few lines he will see that President Lincoln's Cabinet are already claimed as belonging to the *glorious old* Democratic party.—Who, then, so fit to keep on, another four years, as the very administration we have now?—as they "maintain the principles," and they are in the party!

WINTER QUARTERS.—The Washington letter of the New York Commercial says that 20,000 Sibley tents, capable of holding twenty men each, have been ordered at Philadelphia, at a cost of $400,000, and also that 6000 light sheet iron tubes have been contracted for, for warming the tents.

Only the companies garrisoning the fortifications around Washington have been ordered to build log huts for winter quarters.

CURIOUS EXTRACT.—A friend hands us the following item, which he has just cut from a paper ten years old. It reads strangely now, coming from such a source:

A Noble Sentiment.—Teach your children the elements of Christian Philosophy, the Bible, lessons of Love, and Temperance, and Knowledge, and Virtue, and Faith, and Hope and Charity, and you may turn them out into the world without a doubt of distrust or fear; they will never injure the state.—*Henry A. Wise.*

☞ A Baltimore despatch says:—"Gov. Hicks is in town, and will call an early session of the new Legislature. An army of 10,000 Marylanders will be organized under the authority of the State, and other preparations made in the shape of artillery, cavalry and infantry, to place the State in a condition to repel foes either within her borders or beyond them."

☞ The gunboat Aroostook, built for the U. S. Government by Capt. N. L. Thompson, was launched at Kennebunk on Friday, the 8th inst. A large number of people assembled on the occasion.

N. H. SECOND REGIMENT.

CAMP BAKER, Hill Top, Charles Co., Md.

Messrs. Editors:—I suppose you have heard before this that we have removed our camp a little nearer the enemy. We are encamped on the top of a high hill situated on the banks of the Potomac, about sixty miles from Washington, and opposite the rebel batteries on the Virginia side of the river. Our camping ground is a very good one, but rather gloomy, being surrounded by woods on all sides.

We have music enough in the shape of cannonading, for the rebels quite often send their compliments across the river. A few days since they threw a shell into the camp of the 1st Mass. Regiment, which did not burst. It was picked up and found to weigh sixty-four pounds, showing pretty plainly that they have some large guns.

Our Regiment is a portion of a full Division which is encamped along the shores of the river, and numbers from 12,000 to 15,000 men under the command of Maj. Gen. Hooker. The Division struck their tents on Thursday morning, Oct. 24th, and after a hard and fatiguing march with knapsacks on their backs, our Regiment arrived at their present camping ground on Saturday evening. It was very hard marching, the roads being very muddy. With a knapsack weighing from fifteen to twenty pounds, your haversack full of hard bread, forty rounds of ammunition, and a musket on your shoulder, it was slow and tiresome marching. But we have got settled once more for a little while,—I can't say how long,—and the boys are busy in putting up log huts, for which the heavy wooded country round our camp is very favorable. We shall have quite a village if they let us remain long enough.

Everything that can be found around the camps, in the shape of live stock, hay and grain, is seized and appropriated to the use of the Regiments; and if the owner says anything, all the satisfaction he gets, is that Government is good for it. If he is a Union man he will be paid, and if not he will have to lose it. We can't get quite as good living here as when nearer Washington, as we have not quite so large a market to send to. But we shall soon get used to it.

C. E. P.

P. S.—All letters for the Regiment must be directed to Washington, as before.

SOLDIER'S TRACT-MEETING.—A crowded public meeting was held by the American Tract Society on Sabbath evening, Nov. 3, in Dr. Rice's Church, Fifth-avenue, New York, with special reference to supplying the army and navy with religious reading.

It was stated by the Secretary that the Society had published 1,000 sets of the "Soldier's Camp Library," and 700 sets of the "Soldier's Pocket Library," comprising 42,500 volumes, nearly all of which were in the hands of the soldiers or on board ships of war.

Besides these libraries, the army and navy have been supplied with other books, tracts, handbills, and periodicals to the amount of about 5,000,000 pages; making the whole amount supplied to them by the Society nearly 14,000,000 pages, at an expense of $9,000, which is double the amount contributed by the churches for this purpose.

☞ The Sixtieth N. Y. Regiment, while crossing the river and entering the cars at Jersey City, each member of the regiment, numbering in all nearly one thousand men, received from the American Tract Society an envelope containing the "Orders of Washington and McClellan" on the observance of the Sabbath and against profane swearing, the "Gambler's Balance-Sheet," and an appropriate tract.

NEW HAMPSHIRE ITEMS.

—— A man giving his name as Charles Forbes, was arrested at Nashua, for passing twelve counterfeit $3 notes, on the Cambridge City and Danvers Banks. Fourteen bills of indictment were found against him, and he was committed to jail.

—— A patriotic man, John S. Corbis, of Grafton, who has enlisted for the war, has a wife and seven children.

—— The N. H. Battery arrived in Washington on Sunday, Nov. 3. About $200 worth of pistols were stolen from the officers, while the battery was being transferred from the boat at South Amboy, N. J., it being quite dark at the time.

—— Owen Donnelly, for the past ten years overseer on the Manchester Mills, died on Monday morning, of apoplexy, at Manchester.

—— Mr. John Simons, resident of Manchester for about 24 years, died there on Sunday. He was a native of Lebanon. He has been connected with the mechanical operations there from their earliest start, and has always sustained the reputation of being an excellent citizen.

—— The funeral obsequies of Lieut. Israel L. Drew, of the Fourth New Hampshire Regiment, were attended in the City Hall at Lawrence, Mass., last Sunday. Serv by Rev. Mr. Weaver, of the Universalist Church.

THE REBELLION.

South Carolina.—The landing of the United States forces at Beaufort, South Carolina, is fully confirmed.

A dispatch from Cairo, Illinois, Nov. 11, says:—

"Memphis papers received Monday, contain dispatches from Savannah, fully confirming the landing of the Naval expedition at Beaufort, and the capture of three forts at Port Royal, Hilton Head, and Bay Point. The Federal forces had possession of the town of Beaufort. The rebels acknowledge that their loss is very large.

New Orleans papers received Monday speak of an immense fleet off Ship Island."

A dispatch from Louisville, dated the 10th of Nov., states that a gentleman had just arrived there and reported that Beaufort, S. C., was captured by the U. S. Naval Expedition last Tuesday.

An intelligent and loyal citizen of North Carolina paddled over to Fort Hatteras and told our troops that the people of North Carolina had received tidings of the great Naval Expedition, and that it had succeeded in effecting landings at Port Royal and Beaufort. At the first named place they experienced no difficulty in landing, as there was but a small settlement on the coast, but at Beaufort a considerable fight took place, which lasted for nearly two days.

There is nothing but outside report to warrant the statement that at least another force has advanced to within 12 miles of Charleston.

Fortress Monroe and Vicinity.—On the 10th the steamship S. R. Spaulding arrived from Hatteras Inlet, with the 20th Indiana regiment. The same day two fishing smacks took refuge under the guns of the Cumberland. The captains are Baltimoreans, who reported that they had been fishing on James River, supplying the rebel troops. When they left, a report was current that Charleston had been attacked, and they state that on Friday last several rebel regiments were sent from James and York rivers. The embarkation took place in great haste. The shores of James River are almost deserted.

Western Virginia.—It appears by a dispatch from Gallipolis, Ohio, of Nov. 11, that an attack was made, in the night before, by 800 rebel cavalry, "headed by the notorious Jenkins," on 150 U. S. volunteers who were encamped at the town of Guyandotte, Va., at the junction of the Guyandotte and Ohio rivers, 30 miles below Gallipolis. Eight of our men were killed and a considerable number taken prisoners. About 50 escaped, and some were scattered. The secession portion of the inhabitants of Guyandotte were looking for the attack, and had supper prepared for the rebel cavalry. The rebels, both male and female, fired from their houses on our men. Three steamers, which passed down that night, were compelled to put back. These steamers went back to Guyandotte at 10 o'clock next morning, with 400 Federal troops from Point Pleasant, viz: part of Col. Zeigler's 5th Virginia regiment, who on their arrival fired the town, and the principal part of it is now in ashes. The rebels left about an hour before the arrival of Col. Zeigler, leaving the town empty of people. The rebel loss of life is not known,—but their town is gone. Served them right.

Missouri.—Near Kansas City, Nov. 11, Col. Anthony, with 150 mounted men, was attacked on an open prairie, about ten miles from this place, by 600 rebels under command of Upton Hayes, and after a desperate struggle the rebels retreated, seeking shelter in the woods, from which they were again routed. Col. Anthony then fell back about six miles to await reinforcements which will be speedily forwarded to him. It is said there are upwards of 1000 rebels in this county.

Gen. Hunter's forces are about to go back from Springfield to St. Louis.

The rebel Price had fallen back 8 miles from Cassville, near the State line, and was moving South. It was believed to be reliably ascertained that his policy was to lead our army, but not to fight it, simply to keep a large force there, so as to draw troops from the Mississippi valley. The general belief in his camp was that St. Louis would soon be in the hands of the rebels from Columbus, Ky.

There had been trouble about slaves who had escaped into Gen. Lane's and other camps, and Gen. Hunter had given the owners permission to search our camps and reclaim them, if they could find them.

Ten missing men of Gen. Fremont's body guard had returned to Springfield from Cassville. They report Price's forces to be about 30,000 strong, with thirty pieces of artillery, twelve pieces of which had recently been received from Memphis, whence other supplies were being received.

It seems very difficult to decide in regard to some men whether they are secessionists with Union proclivities or Unionists with secession proclivities.

To what class of politicians or men do those persons belong who are in favor of the Union and against the adoption of the necessary means to maintain it?—*Louisville Journal.*

☞ The Custom House in Norfolk is reported to have been burnt on Sunday night, with a large amount of stores.

WASHINGTON ITEMS,—by Tuesday evening's mails.

The gunboat Dawn passed down the river Saturday night without being fired into.

A new rebel battery has been erected opposite Maryland Point, at Aquia Creek, compelling our flotilla to move farther down.

The Tribune's dispatch says that several rebel batteries on the Lower Potomac have been withdrawn.

Reconnoitering parties sent out during the past thirty-six hours report that the rebels are rapidly retreating.

The World's dispatch says that the President will not pardon Capt. Gordon, the slaver.

Gen McClellan has reorganized the spy department, and now regularly receives reliable information of the enemy's strength and movements.

The ten missing men from the Mozart regiment returned well laden with forage.

The Times' dispatch says a reconnoissance to Peacock's Hill, five miles beyond Lewinsville, found no trace of recent presence of rebel pickets.

The rebel Gen. Ewell is at Fairfax Station with five regiments, and has thrown up two field works.

Pirate Sumter Captured.—At Washington, a family letter has been received, dated Oct. 25, on board frigate Santee, off Galveston, confirming the report of the capture of the pirate Sumter. The writer says she was caught in her own trap, having, it seems, mistook one of our gunboats for a merchant vessel, and started in pursuit. When the gunboat had drawn her out far enough, she turned and run her ashore.—Her officers and crew are prisoners on board the Niagara.

LALEST.

Another rebel account says:—On Tuesday, the U. S. fleet of 42 vessels, approached the mouth of Port Royal, and opened a continuous fire on the forts. The result is eminently satisfactory. It is stated a Union gunboat was burned, and three steamers disabled. The rebel fleet, of small vessels under Tatnall, were either driven ashore, or far up in the inlets. The rebel loss of life was doubtless very great, as our fire is mentioned as very effective. Evidently the rebels, particularly at Charleston, are terribly excited.

The Union men of East Tennessee have burned many railroad bridges and pulled down the telegraph wires, to prevent the transportation of rebel troops.

Gen. Nelson met the rebels under Williams at Pikeville, Pike Co., Ky., on Friday last, and gained a glorious victory. The fight lasted two days; it is stated the rebels lost 400 killed and 1000 prisoners.

A dispatch from Philadelphia says "the steamer Bermuda ran the blockade at Savannah on the night of the 2d, with 2000 bales of cotton for Liverpool, being towed out by steamer Huntress." Another states that "a privateer and two schooners were burned on the night of the 4th, by boats from the gunboat Tuscarora, stationed at Chincoteague."

GEORGE W. WARREN & CO.,

242 & 244 Washington St., Boston,

Respectfully invite the attention of all to their NEW STOCK of

FALL AND WINTER GOODS,

mostly received from the great AUCTION SALES IN NEW YORK, and now offered at a great reduction from the cost of importation.

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, tho' though only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 daw3m

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They are a powerful excitant and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

Sold by W. R. PRESTON and all druggists.

COW FOR SALE.

A first rate COW, 6 years old, of the Durham and Ayrshire breeds, will be sold at a bargain. Inquire at the Chronicle Office.

Local.

☞ Gov. Berry was in town on Tuesday, and, visiting the Portsmouth Navy Yard, was received with the customary salute. He was the guest of Hon. Thomas L. Tullock, Navy Agent.

☞ Rev. Henry W. Foote, of Salem, Mass., who has received a call from the Unitarian Church in this city, and from King's Chapel in Boston, has been preaching during the past month in Cincinnati to great acceptance.

POLICE COURT, Tuesday.—John Livingstone pleaded guilty to the charge of being drunk on Congress Street, and was fined $3 and costs taxed at $2.90.

John Black also pleaded guilty to the same charge and received the same sentence.

Messrs. Editors :—Permit me to call the attention of your readers again to the fact that the ladies of the Soldiers' Aid Society are now receiving (at the Custom House) and packing Hospital stores, for the army in the West and on the Potomac. Every family ought to furnish something to this end: and every contribution, however small, will be carefully attended to. Old cotton and linen, dressing gowns and slippers, blankets and small pillows for wounded limbs, besides delicacies for the sick and convalescent: sago, oat-meal, dried fruits, jellies, &c.; such things will add much to the comfort of those who are suffering pain and deprivation for the sake of our country. No one should miss this opportunity to contribute their mite. The rooms are open from the 12th to the 18th. *

ITALIAN OPERA.—The concert to-night will be one of the rarest treats we ever had in Portsmouth. Miss Isabella Hinkley, the young and beautiful prima donna, who has been so highly spoken of by the New York, Boston and Philadelphia press, that we hardly need to say anything except to advise all to go and see her on this, the only opportunity,—now appearing for the first time in this city. Brignoli, the great and fashionable tenor, the deliciousness of whose voice, conjoined to the most pleasing and sweet expression, always captivates his auditors to the pitch of a great enthusiasm, will take an important part in the entertainment. He will be heard to advantage, and cannot but delight every one who listens to him. Mancusi, the baritone, is also a great vocalist, and will win his way by the grace of his style and excellence of his voice, while Susini will add the deep notes of his rich basso voice to the great scenes which are to be given. Herr Mollenhauer, who is a violincellist without a rival, will perform during the concert, and will not be the least attractive part of the festival. The musical conductor, Carl Anshutz, who has a wide-spread reputation will leave nothing wanting in his department. Altogether, we may anticipate a great treat, and there can be no doubt that musical enthusiasm will be at its highest pitch. We need something of this kind to break the present monotony of life and society.

The able critic of the Boston Courier, in speaking of the concert given by these artists in Boston on, Saturday evening, says:

Mr. Grau's company of artists from New York gave a most delightful concert on Saturday evening, to an audience much larger than could have been reasonably anticipated, considering the inclemency of the weather, and as fashionable and critical as any we have seen gathered in the Music Hall. We have not space to criticise in detail; and, indeed, there is hardly any necessity for so doing, since the efforts of each of the artists were equal if not superior to any exhibition of talent they have ever offered in Boston. Signor Brignoli, especially, is deserving of superlative praise for the vigor and unequalled beauty of his performances. His sweet voice never rang out more clearly and more sweetly, and his manner to the audience was gentleman-like, amiable and obliging. Indeed, he was pushed too hard, for, if we remember rightly, each of his performances was encored. He repeated with a good grace, and created the enthusiasm of the evening.

Miss Hinkley has gained much in style since she was last here. Her voice also seems fresher and sounder. The music she sang on Saturday is precisely that which lies in her best vein, and her performances satisfied her warmest admirers, even though she labored under the disadvantage of a severe cold. Susini, the ponderous, was what he usually is, effective and excellent in his vocalization. Sig. Mancusi, the baritone, produced a favorable impression upon the audience. His voice will not suffer by comparison with those of his predecessors, who have presented their claims for Boston suffrages. He was well received, and frequently elicited flattering applause. Herr Mollenhauer and his violincello were regarded, to a great extent, as the stars of the evening. Neither failed in what they undertook, and both sustained their high reputation for skill and power. It is too late in the day to think of criticizing Carl Anschutz as an accompanist on the piano. His merits are known and acknowledged here.

It will be seen by the advertisement that tickets can be procured at the door this evening.

☞ The Ex-6's will commence their series of social parties at Washington Hall, this (Wednesday) evening. Music by Lamprey's Quadrille Band.

☞ Barque Seraphim, of Baltimore, from Rio Janeiro, with coffee, was wrecked off Cape Henry. All hands saved. The cargo fell into the hands of the rebels.

NAVAL.—Capt. John Pope of Steamer Richmond is invalided and will return home. Com. Robt. Handy, of Sloop Vincennes, is ordered home.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE

Is convinced of the fact that
It Will Restore the Natural Color of the Hair,
Where age or sickness has TURNED it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the nutritive functions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water on the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, Mo., June 1, 1859.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become *gray*, and my head partially bald, I procured from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Mr. Reynolds Druggist, for the truth of my statements. WM. BOSWYHALL.

Sold everywhere—price 50c., and $1 per bottle.

Book, Job and Card Printing,
as heretofore, and solicits their orders.

All indebted are requested to settle at once.
SAMUEL GRAY.

ZOLLICKOFFER'S
ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF
INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sure remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,
N.E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by
JAMES F. SHORES, JR.,
No. 1 Congress Block,
Agent for the State of N. H.
PORTSMOUTH, N. H., Sept. 17.

AYER'S
Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Tetter, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and cheeks with sores, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any things. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared a preparation (Sarsaparilla), for I knew from your reputation that if it was anything you made it good. I met it accordingly and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin then began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I look you to be one of the apostles of the age, and remain your gratefully. ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Scurfy and Itch.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas*, which threatened to terminate fatally, by the exclusive use of our Sarsaparilla, and adds, "I have also *Malignant Erysipelas* by large doses of the same; says he owes the quickness of *Erysipelas* to it constantly.

Bronchocele, Goiter or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goiter—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and none where the complaint was caused by ulceration of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had baffled all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation would afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Tertiary and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the lip of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, midway. I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not disfigured without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Personally yours, O. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

HARRISONBURG, Preston Co., Va., 4th July, 1859.

Dr. J. C. AYER: Sir, I have long been a victim to the relentless *Rheumatism* for a long time, which baffled the skill of physicians, very much. In me, in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than I ever was attacked. I think it a wonderful medicine. SEKAH.

Julius T. Gotchell, of St. Louis, writes: "I have been afflicted for years with an affection of the *Liver*, which impaired my health. I tried every thing that promised to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Depp, advised me to try your Sarsaparilla, because he said he knew you, and say anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best thing you do is said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It strengthens the vital functions into vigorous action, and thus overpowers the disease which would be surpassed beyond its reach, if a remedy had long been employed by the multitude of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is needless here to adduce the evidence of its virtues. It is recommended with confidence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it famous throughout the civilized nations of the earth. For sale by all druggists, and in every town and village in the world, and there are few persons, even in families, among them who have not some personal experience of its effects—or their friends, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won it its enviable reputation, on the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

The Best COOK STOVE in the Market, after all said, is

STEWART'S
NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,
For Wood or Coal,
IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *burn*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The copper lining of the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, breakfast toast, fruit dried, &c

4. Also, by the aid of the TOP COVER, a cool fire may be kept up through the night, and *break fast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire-box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two hens or joints of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested

FOR TWENTY YEARS,

and NOT found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Store of 1861, is as superior to that of 1841, as the Mowing Machine is to a Brush Scythe.

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

THE MAGEE PARLOR

VENTILATING AND GAS-CONSUMING STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,

For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

JONES & BOLLES, 61 Market St.

E. A. STEVENS' HOUSE FURNISHING ESTABLISHMENT,
No. 46 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,
Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

6th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and the jackets are provided for the back and both sides plated. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

We might make extended notice of some other things peculiar to this store, as compared with other high priced Air Tight Cook Stoves,

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

Reference is made to Messrs. J. Trundy, J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Harrett, Rhinehas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

Also, James P. Bartlett, Thos. Murphy, George Rice, Benj. F. Canney, Jos. B. Upham, John Sexter, Wm. C. Newton, Cyrus Plummer, Wm. Bell, Capt. James Salter, Capt. Wm. Lambert, Horton D. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Fernald, Benj. Cheever, John Marden, John H. Slater, of Portsmouth; H. L. Pollard, of Raymond, &c., &c.

The cut above shows the two views, and illustrates the plan for ventilating the Roasting Oven, which is both simple and effective. It also shows the manner of connecting the ovens. The cold air is admitted through the opening A, in the side, into a chamber formed by a double plate front of the fire. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and thence passes through two holes in the top of the oven, into the heated chamber over the fire, thus insuring at all times, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,
No. 46 Market Street.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than THIRTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper thereto."

Will our patrons remember this, and when they have occasion to do business at the Probate Office, it agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

SPECIAL NOTICE.

Our terms for Subscription, Advertising and Job Work, except where accounts are open, are, invariably and exclusively, *cash in advance* of doing the work.

$5 Reward,

We will pay, for evidence to convict any person of taking a copy of the Chronicle from the door of a subscriber. No one has any right (legal or moral) to take papers from such situation, *even for an instant;* and we are determined to stop this trouble to ourselves and our patrons, if possible.
FRANK W. MILLER.
Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Sambucus, cultivated on our risk.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Sambucus, cultivated on our risk, by Speer, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine in use, and as a valuable article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is highly esteemed for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine:
Gen. W. Scott, U.S.A. Dr. Ward, Newark, N.J.
Gov. Morgan, N.Y. State Dr. Wilson, 11th St., N.Y.
Dr. Parker, N.Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " Dr. Parish, Phila.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, NOVEMBER 14, 1861.

PORT ROYAL—BEAUFORT.

The place where our fleet and army have gone, Port Royal Entrance, is an inlet from the Atlantic, in lat. 32 deg. 8 min. N., fifty miles south-west of Charleston, and fifteen miles north-east of Tybee Inlet, the entrance of Savannah River. The entrance from the Atlantic is between Edding Island and Hilton Head, and at that point is about three miles wide. The prolongation inward of Port Royal Entrance is called Broad River and Port Royal River. Running up this about twenty-five miles, bending off eastward through the Coosaw River and coming out to the Atlantic again through St. Helena Sound, we have an irregular area of about twenty five miles by fifteen.

This region is cut up by numerous rivers, creeks and inlets into a great many islands (Sea Islands) of various sizes, the chief of which are "Port Royal," "St. Helena," "Paris," "Ladies," "Coosaw," "Morgan," "Dathaw," "Edding," "Chaplin," "Prenties," and "Hunting."

The entrance to the harbor is one of the best below Norfolk. The harbor itself is capacious, with a good depth of water.—Port Royal Island, the chief of the group above mentioned, is surrounded by the Broad, Port Royal, Coosaw and Beaufort rivers, and is about twelve miles long and six wide.

On the east side of the island, and about midway, stands the town of Beaufort, on Beaufort River, the approach of which does not admit vessels of over eleven feet draft. Beaufort is about ten miles from the sea, and sixteen miles from the Charleston and Savannah Railroad, and this important line is itself directly approachable by water through the Broad River and St. Helena Sound and Combahee River.

Beaufort has been described as "a picturesque town, composed of an assemblage of villas, the summer residences of numerous planters who retire here during the hot season, when the interior of South Carolina is unhealthy for the whites. Each villa is shaded by a verandah, surrounded by live oaks and orange trees." The population of the town is about 1000.

Beaufort District, or County, in which this sea island region is included, is the south-eastern district of South Carolina, and contains an area of 1540 square miles. It is separated from Georgia by the Savannah River, and is bounded on the north-east by the Combahee River, and intersected by the Coosawhatchie. The surface is low and level, the soil sandy and alluvial, producing cotton, rice, Indian corn and potatoes in great abundance.

It is one of the most thickly settled districts in the State, the population in 1850 being 38,805, of whom no less than 32,279 were negroe slaves. The amount of rice alone produced in this district is not far from 50,000,000 pounds; of cotton, about 15,000 bales; corn 500,000 bushels.

The region around Port Royal Entrance and Island has an eventful and romantic history. It was, in fact, the first settled spot on the coast of North America. The first settlers were a French Protestant colony, sent out by Admiral Coligny in 1562. The colony did not flourish, and was soon abandoned.

ANIMALS BURNT.—In Boston, Tuesday night, about 11 o'clock, fire broke out at Goodwin's Menagerie, a two story wooden building, in Portland street; and before any of the animals or property could be removed the building was all in flames.—The fire originated on the lower floor of the building, where the wagons, &c., connected with the menagerie, were stored. The animals, numbering about one hundred, were mostly in the second story. They were suffocated with the smoke before the flames reached them. In the collection there were three lions four leopards, one Bengal tiger (the only one in the country), two African lions, two bears, one large boa constrictor, thirty or forty monkeys, one hyena, and three trick ponies. A collection of wax figures was also destroyed. The horses were fortunately removed Tuesday afternoon from the building. Seven watch dogs connected with the establishment were burned to death. The menagerie was opened at the place about a week ago. It is stated that within a few days it has passed out of the possession of Mr. George K. Goodwin. The loss will probably amount to $10,000. About half insured: origin of the fire not known, but supposed to be the work of an incendiary.

The British schooner Adelso, which brought a cargo of naval stores out of Wilmington, N. C., and put into Newport, R. I., in stress of weather, has been condemned, together with her cargo, in the U. S. Court at Providence.

An order from the State department at Washington forbids all persons passing the lines of the U. S. army without a permit from the Sec. of State. Such passes will only be granted to persons on business for the U. S. government.

Advices from the frigate Niagara to the 24th say nothing about prisoners from the privateer Sumter. Her reported capture, it is likely, is untrue.

THE REBELLION.

Washington dispatches of the 12th say that U.S. troops have been sent to Matthias Point to clear it of woods and bushes, and to make a reconnoissance.

Chief Justice Taney has postponed the Baltimore treason cases until April. He intimates that the question will be fully considered by the Supreme Court this winter. [Uncle Toby suggests that a portion of the Court might justly be sent to Fort Lafayette, for treason and judicial lying.]

The official advices from Europe just received show a strengthening of the belief in the restoration of the Union, and increased confidence that the administration will be able to re-establish its authority,—and especially gratifying in these respects is the news from England.

Accounts continue to be received from government officers and others at the North, of the confidence of the manufacturers and capitalists in the administration.

The release of Lieut. Albert Kautz, on his parole, for a limited period, has been reciprocated on our part by the release of a rebel prisoner.

There is still a prospect of a general exchange of prisoners, although there is as yet no definite arrangement on the subject.

The Boston Post remarks,

"The circle of the war is gradually widening so as to embrace a number of separate wars, each of which would have been accounted, a few years ago, as wars of considerable magnitude. War is to be brought into Texas by the California volunteers under Gen. Denver and other leaders. The coast war, just begun, will be prosecuted with all the power the Government can command. The war on the Potomac will soon become more active. Besides these, we have the Kentucky and Missouri wars, and the Western Virginia war. In fact, the war spirit rages through the land, and were a peace concluded by the two hostile federations, the war would probably be continued in several States."

The conflict is irrepressible—the slave power wars against liberty, law, and order—and freemen must either submit or fight.

Five lieutenants formerly of the United States navy, were last week conveyed from Fort Warren to the receiving ship North Carolina, to be transferred to steamer Connecticut and carried to Hampton Roads, to be delivered to flag officer Goldsborough, who will exchange them for an equal number of Federal officers in the hands of the rebels.

DIRECT NEWS FROM THE FLEET.

The steamship Bienville arrived at Fortress Monroe on Tuesday, from Port Royal Sunday, with intelligence of the complete success of the naval expedition.

The fleet arrived at Port Royal on Monday, the 4th inst., and on Thursday morning, the men-of-war and the gunboats advanced to the attack.

The attack commenced at 10 A. M., and was hotly maintained for about four hours, at the end of which time the rebels were compelled by the shower of shells to abandon their works and beat a hasty retreat. Our loss was eight men and one officer killed, and about 20 men wounded. The rebel loss is not known. Fifty-bodies were found by our men and buried. All their wounded except two were carried off.—Two forts were captured, Fort Walker, on Hilton's Head, mounting 23 guns, and Fort Beauregard, on Bay Point, mounting 19 guns. The guns were of heavy calibre.—The forts were both new and splendid.—Earthworks of great strength, constructed in the highest style of military science, and pronounced by our own engineers as impregnable against any assault by land forces, had been erected.

The final retreat of the rebels was a perfect rout. They left everything—arms and equipments of all kinds, even to the officers' swords and commissions. Among the papers was a dispatch from Jeff. Davis to the commander of the post, stating that the fleet had sailed and that he knew their destination to be Port Royal.

The whole surrounding country was seized with a perfect panic.

The day after the fight, the Seneca and two other gunboats under the command of Lieut. Ammen, proceeded up to Beaufort, and found but one white man in the town, and he was drunk.

All the plantations up the river seemed to be deserted except by the negroes, who came down to shore in great numbers, with bundles in their hands, expecting to be taken off.

After the capture of the forts, the whole army, about 15,000 men, were safely landed and established on shore.

The force of the enemy was from 3000 to 4000 men, under Gen. Drayton of S. C.

Our victory is complete, the rebels leaving everything but their lives, which they saved by running.

It is understood that Gen. Sherman will improve the defenses of his position before making a forward movement.

In the fort there was a large supply of ammunition, and stores of the best description.

Com. Dupont will immediately survey the harbor, and place buoys and erect lights, and the position will be made a permanent base of operations.

The rebels retired across Skull Creek, to a village 25 miles in the interior, where it is supposed they intend to make a stand. The negroes had already begun to pillage and destroy Beaufort. The white population had fled to Charleston by small steamers, by an inside route. Gen. Sherman has hundreds, perhaps thousands, of negro laborers.

Our troops had not occupied Beaufort when the steamers left, they being engaged in strengthening their position.

Orders were received at New York, Wednesday, for the immediate shipment of ordnance and ordnance stores to Port Royal.

The Navy Department, on the reception of the official dispatches, issued a general order announcing to the Navy and to the country its high gratification at the brilliant success of the combined navy and army forces, and ordering that a National salute, to commemorate this signal victory, be fired from each Navy Yard, at meridian, on the day after the reception of the order.

"SOUTH PARISH LADIES' MISSIONARY SOCIETY."—The annual meeting of this Society was held at the Chapel in Court street, Portsmouth, on Wednesday evening, Nov. 6th. From the report then read, it appears that a good amount of work has been accomplished during the year, though in a quiet and unostentatious manner. The annual subscriptions, amounting to $50.00 and upwards, since the formation of the Society in 1825, during the ministry of Rev. Dr. Parker,—have been forwarded to the "Massachusetts Evangelical Missionary Society,"—the funds of which are employed in the support of destitute churches, chiefly, if not wholly, in New England. During several years a portion of this fund was appropriated to churches in our own neighborhood, at the Isle of Shoals, Hampton, &c. Often such little aid rendered in time of need, will enable a church to continue its public religious services until it sees more prosperous days and can support itself,—as has frequently been the case with societies which have derived aid from this source.—The appropriation of the subscriptions, however, are *now* subject to the vote of the society, at their annual meeting, as is also the amount derived from the sale of work during the year. The meetings are held once a month, and the net proceeds of the sales during the past year have amounted to $122. Of this sum $72 were appropriated to the mission at the Shoals, an important field of labor under the faithful charge of Mr. and Mrs. Bebee, and $50 to our own City Mission, of whose value under the efficient and faithful conduct of Rev. Mr. Medbury, we need not here speak.

An earliest appeal was made for new subscribers, to fill the vacancies occasioned by the removal of many of the older members by death, and also to excite a deeper interest among the young in behalf of this old and useful organization. The Society is under the care of four Directresses,—who attend to preparing the work,—and a Secretary and Treasurer, chosen at the annual meeting.

In the words of the Report,—"During the past season, we all have felt, and shall feel yet more deeply the coming winter, the necessity of aiding our soldiers in their patriotic and self-sacrificing work; but none the less are there imperative calls to assist those immediately around us, and to aid our City Missionary in his devoted and faithful labors. Ever is it "more blessed to *give* than to receive," and to the christian heart, new calls for usefulness are only new means of a true self-denial, new incentives to a higher exertion to follow Him who "went about doing good." If in any way direct or indirect, we can lead the poor and ignorant to a higher life, to assist *themselves*, rather than to be mere recipients of charity, we shall be accomplishing a true and *durable* good. The mere giving of alms, or relieving physical necessities, may be easier or pleasanter at the moment, but a true charity looks deeper, and seeks the permanent good of the individual, by leading him to a just self-respect and self-dependence.—This Society, indirectly, has always sought these means of action,—by contributing to the support of public worship, which has an elevating influence on every community,—by aiding in sustaining the City Missionary, who labors to advance the moral and spiritual welfare of the poor and ignorant in our own midst,—by aiding the mission at the Shoals,—and in former years contributing to the Seaman's Home, and to the support of worship in the Old South Church, or any worthy object of benevolence in our city.

It is a tried means of usefulness, though an humble one; and the seeds now sown in trust and faith, will not fail of their full fruition, in that day when results shall be measured by *motives*, and not by mere present appearances."

Nov. 6th, 1861.

About half way between Portsmouth and Greenland depot, there is an unattractive spring of water by the roadside, which is said to be so palatable to horses, that, after they have once tasted it, they never pass without drinking, except by compulsion, even if they have just watered at some other source.—*Concord Statesman.*

It is the old watering place at the curve of the road through Great Swamp. The water is sweetish, which flavor was supposed to arise from the sweet roots of trees and plants, in the swamp, but quite as likely belonged to the soil, as to the roots.

☞ The large and splendid steamer (facetiously called gunboat,) Ossipee, will be launched from her ways in the ship-house at the Portsmouth Navy Yard, on Saturday forenoon next, about 11 o'clock.

We learn that orders to build two more steamers, have also been received at this Yard. All right—for nowhere do they build better.

☞ Mr. Thomas B. Gammon, of this city, has been appointed Acting Master's Mate in the U. S. Navy, and ordered to the sloop-of-war Portsmouth, at the Portsmouth Navy Yard.

☞ We have a few men on our books that have one admirable qualification for good soldiers. They will *stand a charge* never flinching a hair. Some of them have stood it over six years.

NEW HAMPSHIRE ITEMS.

—— Mr. Charles Batchelder of Bethlehem, on Saturday, took by mistake (supposing it to be cough medicine) part of a teaspoonful of Oil Vitrol. Upon ascertaining his mistake he ran for something to counteract the effects of the vitrol, and finding some gunpowder he put a large quantity into some milk and drank it. His mother had in the meantime procured the cough drops, a large dose of which she gave him immediately; the result was he vomited powerfully. Medical aid soon arrived, and at last accounts the patient was doing well.

—— There are in New Hampshire 71 Lodges of Free and Accepted Masons with an aggregate number of 2,591 members.—During the past year 278 have been initiated into the mysteries of the order.

—— On board the ship Maritana, which was wrecked near Hull, on Saturday night last, was a son of Mr. Reuel West, of Concord, who was drowned. He was a skillful seaman, and his next voyage was to have been an officer of a fine ship.

—— The Great Falls Manufacturing Co. have about completed an extension of sixty or eighty feet in length to their mill No. 7; also a building adjoining about as long, to be used as a "picker." Both buildings are of brick, and four stories in height. None of the Mills of that Company are running at the present time.

—— The seventh N. H. regiment will be ready to move in a fortnight, but may not be required to leave at so early a day.

—— The Manchester American says, Capt. Ephraim Weston, of Hancock, is now quite low with consumption, contracted in the barracks at Portsmouth and the camp at Washington.

NAVY YARD, Nov. 13.

The Committee appointed to expend the Navy Yard funds raised for the comfort of the Maine and New Hampshire soldiers, met at the Navy Yard on Tuesday last, and chose Gov. Berry, of New Hampshire, President; Gowen Wilson, Esq., of Kittery, Vice President; Francis Bacon, Esq., of Kittery, Secretary and Treasurer; Messrs. Gowen Wilson, Ephraim Otis and Francis Bacon, Executive Committee for Maine; and Messrs. John E. Salter, Charles W. Stimpson and Samuel Rowell, Executive Committee for New Hampshire.

Gov. Washburn, of Maine, being unable, by reason of other engagements, to attend to the duties of the Commission, has authorized Mr. Bacon to act in his stead.

A letter from Provost Judge Freese, of Alexandria, says if government will allow him to follow out his course, he will undertake to collect one-third of the one hundred and fifty millions due us from the South, without doing injustice in a single instance.

SAN FRANCISCO, Nov. 10.—Benj. Stark has been appointed U. S. Senator for Oregon. He is a native of Connecticut. Politics, peace Democrat.

A miserable successor of the patriot Baker.

For the Chronicle.

TABLEAUX VIVANTS.

Respectfully Dedicated to J. H. H.

BOSTON, Nov. 12th.

Tableaux First.—Dark, rainy night—corner of Washington and School streets—time, 11 1-2 o'clock P. M. Little boy, looking not more than five years old, with dirty face and sleepy look, shivering and apparently half frozen, crying, "Ere's last 'dition of Herald and Transcript." Comfortably clad stranger, going to his hotel, after looking about the city through the evening, sees the little fellow, and thinking that he has "got stuck," concludes, in the generosity of his soul, that he will invest three cents in a Transcript. Newsboy, being an honest little fellow, positively refuses more than two cents for the paper.—Stranger leaves, and as he turns away, mutters to himself that he hopes *his* little boy will never have to stand in a rain storm to sell papers, at that hour of the night.

Tableaux Second.—Scene, reading room of the Marlborough Hotel. Gentleman enters, takes the Evening Transcript from his pocket, and sits down by the glowing fire to look up the latest news before retiring. Reads the Postscript; thinks the news rather singular; turns to the editorial, and reads a column and a half on a subject which he thought the papers had done discussing two months ago; thinks it rather a bore to have it brought up again; turns the paper, and happens to look at the date—Sept. 17th! *Sold.* Bed-time. Exit. Guess that boy is in good hands.

AMICUS.

None but a physician knows how much a reliable *alterative* is needed by the people. On all sides of us, in all communities everywhere there are multitudes that suffer from complaints that nothing but an *alterative* cures. Hence a great many of them have been made and put abroad with the assurance of being effectual. But they fail to accomplish the cures they promise because they have not the intrinsic virtues they claim. In this state of the case, Dr. J. C. Ayer & Co., of Lowell, have supplied us with a compound Extract of Sarsaparilla, which does prove to be the long desired remedy. Its peculiar difference from other kindred preparations in market is that it *cures* the diseases for which it is recommended, while they do not. We are assured of this fact by more than one of our intelligent Physicians in this neighborhood and have the further evidence of our own experience of its truth.—*Tennessee Farmer, Nashville, Tenn.*

THE WEYMOUTH POISONING CASE.—In the Supreme Court, Boston, in the case of Geo. C. Hersey, convicted of the murder of one of the Tirrel girls, at Weymouth, the Court overruled the exceptions taken at the time of the trial. The case was remanded for sentence to the next term of the Supreme Court for Norfolk county, to be held at Dedham on the 3d Tuesday of February next. Hersey will probably be hung: and certainly if any man ever deserved it he does,—for besides murdering Betsey Francis Tirrel, who loved him fondly, he appears also to be under strong suspicion of murdering her sister; and also his wife. He is a most atrocious criminal.—"He shall fine to the pit: let no man stay him."

☞ The beautiful new Heading under which "The New Hampshire Gazette" appears to-day for the first time, is from the well-known and extensive type foundry of John K. Rogers & Co., Boston,—from which, as from various other foundries, we are constantly receiving new and elegant types, &c., for card and fancy printing, as well as for newspaper use.

☞ Any Son of Portsmouth, resident abroad, who receives a copy of this week's New Hampshire Gazette, can judge whether it would be worth his while to invest one dollar a year therefor or not.

SPECIAL NOTICES.

Subscribers to the old N. H. Gazette, who wish the paper continued to them, *will please notify us* at the Chronicle Counting Room. Those who had paid in advance, may receive our paper for the amount due them, by leaving their order with us, or with the late publisher. While we never wish to send a Daily or Weekly paper which we print, where it is not wanted or will not be paid for, we are very desirous to send them where they *are* wanted and paid for.

The Advertisements for which yearly contracts were made in the old Gazette, have been continued in our paper, and we shall be pleased to retain them at the same rates, and shall do so until requested to discontinue the same. We shall also send a copy of our Weekly paper regularly to those who have advertisements in it—for which there will be no extra charge to those who also take the Daily; and although the Gazette may not be especially interesting to those who read the Daily Chronicle, yet the Weekly will be found of much value to send to friends abroad.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or Engraved in the best manner.

WORK ON TABLEAUX.

Home Pastimes, or Tableaux Vivants, Containing descriptions for grouping and arranging 100 elegant Tableaux. By JAS. H. HEAD.

OPINIONS OF THE PRESS.

The author gives ample directions for the conducting a very fascinating amusement, and should not fail to be consulted by all who would understand the details of the management.—*N. Y. Tribune.*

The Home Pastimes, published by J. E. Tilton & Co., Boston, is a book which we can not only safely, but strongly, recommend as suitable for adoption in the family circle.—*Philadelphia Press.*

The author of this very beautiful work will receive the gratitude of very many families. Its descriptions of the Tableaux are so skilful and minute as to render the getting them up a very easy task. His book supplies a want that has long existed.—*Sat. Eve. Gaz.*

The Home Pastimes will be found useful and entertaining to persons arranging affairs of the kind. The author appears to have studied the subject thoroughly.—*Boston Journal.*

We are much pleased with Home Pastimes, and we hope the work will be as popular as it deserves; the representations are excellent and well-selected.—*Lawrence American.*

RICHARD C. YEATON.

Portsmouth, Nov. 12, 1861.

MANHOOD:

HOW LOST! HOW RESTORED

Just Published in a Sealed Envelope: Price 6 cts:

A Lecture on the Nature, Treatment and Radical Cure of Spermatorrhœa or Seminal Weakness, Involuntary Emissions, Sexual Debility and Impediments to Marriage generally, Nervousness, Consumption, Epilepsy and Fits, Mental and Physical Incapacity, resulting from Self Abuse, &c:—By ROBERT J. CULVERWELL, M. D., Author of the Green Book, &c.

"A Boon to Thousands of Sufferers."

Sent under seal, in a plain envelope, to any address, *post paid*, on receipt of six cents, or two postage stamps, by DR. CH. J. C. ELLING,

127 Bowery, New York, Post Office Box 4586.

sp not 8m daw sept6

THE CONCERT of last evening, of course passed off with the utmost *eclat*. The Temple was well filled with a select and appreciative audience: and the performers did all that was expected or could be desired. Madame Susini, the charming *prima donna*, sang even better than Miss Hinkley used to do—which everybody then thought was good enough; and Brignoli's delightful tenor, with Susini's majestic bass; and Mancusi, neither one nor the other, but between the two, and perhaps as highly to be regarded as either—in fact, each and all made up an entertainment which can't fail to *fill* anybody who loves and can appreciate their high order of music.

☞ The New York *Post* says an expedition is prepared, if it has not already sailed, which will seal up the harbors of Savannah and Charleston against the exit or entrance of any future Theodora or Nashville. In addition, a flotilla of 30 vessels is now in the port of New York, armed, manned and ready to sail for the Gulf of Mexico. The vessels are peculiarly fitted by size, draft, and armament for harassing the coasts of Louisiana and Alabama.

Messrs. Editors:—Permit me to call the attention of your readers again to the fact that the ladies of the Soldiers' Aid Society are now receiving (at the Custom House) and packing Hospital stores, for the army in the West and on the Potomac. Every family ought to furnish something to this end: and every contribution, however small, will be carefully attended to. Old cotton and linen, dressing gowns and slippers, blankets and small pillows for wounded limbs, besides delicacies for the sick and convalescent: sago, oatmeal, dried fruits, jellies, &c.; such things will add much to the comfort of those who are suffering pain and deprivation for the sake of our country. No one should miss this opportunity to contribute their mite. The rooms are open from the 12th to the 18th.

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done

☞ See a woman, in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction 1y

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER

Book, Job and Card Printing,

as heretofore, and solicits their orders.

All indebted are requested to settle at once.

SAMUEL GRAY.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decidedly inflammatory character, and then often gives rise to a constitutional affection, permeating every muscle, and exposing the surface to a most painful condition, to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, blistering, cupping, and bleeding, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify, every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then fairly be inferred that a cure will be effected, providing the directions be steadily and persevering-ly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,

N. E. cor. Fine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

JAMES F. SHORES, JR.,

A complete assortment of all sizes, just received from the manufacturers, and for sale cheaper than ever before, by JONES & MENDUM

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as **Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

DALTON, MASS., June 4, 1853.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in blotches on my hands and arms; sometimes it formed inward and ulcerated on the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to try your Sarsaparilla. Perhaps that method proved an alterative (Sarsaparilla), for I know from your reputation that any thing you made must be good. I said to myself and family, and we tried it in good faith. It was six months, in small doses of a teaspoonful over a month, and used about three bottles. Now and healthy skin once again is fair and whole, and has remained so a whole fifteen. My skin is now clear, and I know by my feelings that the disease has gone from my system. You are welcome to this if it will do any good; when I tell you, that I held you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED D. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Reed, of Pekin, writes from Salem, N. Y., 12th Sept., 1853, that he has used your Sarsaparilla in his *Dropsy*, which threatened to terminate fatally, by the permanent use of your Sarsaparilla, and in a dangerous *Malignant Erysipelas* by large doses of the cordial; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Johnson Sloan of Newark, Wayne Co., writes: "Three bottles of your Sarsaparilla cured his female child of a hideous swelling on the neck, which I had suffered from ever two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most powerful alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cited many interesting cases of Leucorrhea by it, and none where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my medical edge equals it for these female derangements."

Edward R. Morse, of Newberry, Ohio, writes: "A dangerous scrofulous sore on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but amputation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1853.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks, and restored him to general health, so much that I am far better than before I was salivated, which its wonderful medicine. J. PREAM.

Judge T. Goodwin, of St. Louis, Mo., writes us that he suffered for years with an affection of the Liver, which destroyed his health. I tried every thing, and every thing failed to relieve him; and I have been informed he has been for many years free from his other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Depy, advised me to try your Sarsaparilla, because it was a tonic, and was doing you much good in the cure of dyspepsia. I took it, and it cured me, and has so purified my blood as to make a new man of me. I am well, and restored to general health, so much that I am far better than before I was salivated, which its wonderful medicine. J. PREAM.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 5th July, 1853.

DR. J. C. AYER: Sir, I have been afflicted with a painful rheumatic disease in my hip joint, which defied the skill of physicians, and stuck to me in spite of all the remedies I could find, until I used your Sarsaparilla. One bottle cured me in two weeks, and restored me to general health, so much that I am far better than before I was afflicted, which its wonderful medicine. J. PREAM.

Scirrhous Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these inveterate complaints have resulted from the use of this remedy, but our space here will not admit them. Some of these may be found in our American Almanac, which the agents below named are pleased to give gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus removes disorders which would be supposed incurable. Such a remedy has long been required by the medical world, and we are confident that this will fully fill the bill, and be a blessing to the afflicted.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is needless to publish the evidence of its virtues. Its unrivalled power of curing coughs and its kindred affections of pulmonary disease, have made it known to the civilized nations of the earth. Few are the families in this country, or even in these parts, who have not some personal experience of its efficacy—some friend to tell of the relief of its victory over the direst and dangerous disorders of the throat and lungs. All must know the wonderful fatality of these disorders, and as they know it, the offers of this remedy, we need not detain them to assure them that it has now all the virtues that it ever had to when making the cures which have made it so well known upon the confidence of mankind.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

The Best COOK STOVE
in the Market,
after all said,
is
STEWART'S
NEW, LARGE OVEN, AIR TIGHT,
SUMMER AND WINTER
COOKING STOVES,
For Wood or Coal,
IMPROVED IN 1859.

The peculiarities of the
STEWART COOK STOVE,
Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any opening over the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accompanied by the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the stove heat, in roasting oil, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN OVEN, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the aid of the TOP COVER, a coal fire may be kept up through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUPLEX OVEN designed for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no loss of ventilation.

But we cannot, and need not, enumerate in detail the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, but a stove which we put in your attention; but

THE STANDARD COOK STOVE.

Now in use, and has been widely tested

FOR TWENTY YEARS,

and not found wanting in any particular. Yes, the Stewart Stove has been manufactured and sold for a score of years, but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

HAS NOT BEEN EXCELLED,

yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

Every variety of Tin, Sheet Iron and Copper Work done neatly, cheaply, and with dispatch.

☞ Particular attention given to REPAIRING.

STOVES.

THE MAGEE PARLOR
VENTILATING AND GAS-CONSUMING
STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,
For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

JONES & BOLLES, 61 Market St.

E. A. STEVENS' HOUSE FURNISHING ESTABLISHMENT,
No. 46 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.

MADE BY
THE BARSTOW STOVE COMPANY,
Of Providence, R. I.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove, and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long, or large enough to take six loaves plain on the bottom, every part of which will bake evenly at the same time. The advantage of this arrangement over that adopted for roasting in the Stewart and other stoves, by *extending the oven with a tin roaster in front of the fire*, are obvious, viz:

1st. The great extension of the stove cooking no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and simply heated than any roaster, which involves no heat except what it borrows from the baking over.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being fetc mingled.

4th. By this arrangement the roasting oven can be attended to the baking oven in a single moment of time, when occasion requires, or is can be used for a bed closet when not required for baking or roasting.

5th. By the extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

6th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and jackets are provided for the back and bottom plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves,

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be the stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

Reference is made to Messrs. J. Trundy, J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Menum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Bennett, John Barrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nathl F. Berry, Gosport, and many others who are using the Stove.

Also, James P. Bartlett, Thos. Murphy, George Rice, Benj. F. Canney, Jos. R. Upham, John Seutter, Wm. C. Newton, Cyrus Plumer, Wm. Boil, Capt. James Seiter, Capt Wm Lambert, Horton D. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Fernald, Benj. Chesley, John Marden, John D. Sisters, of Portsmouth; H. L. Pollard, of Raymond, &c., &c.

The cut above shows the two views, and illustrates the plan for ventilating the Roasting Oven, which is both simple and effective. It also shows the manner of connecting the oven. The cold air is admitted through the opening A, in the *side*, into a chamber formed by a double plate front of the oven. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and thence egress through two holes in the top of the oven, into the heated chamber over the fire, thus insuring at all times, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,
No. 46 Market Street

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE.

MAGEE'S
PATENT COOKING STOVE
For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it their popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would call that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE, and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

SPECIAL NOTICE.

Our terms for Subscription, Advertising and Job Work, except where accounts are open, are, invariably and exclusively, *cash in advance* of doing the work.

$5 Reward,

We will pay, for evidence to convict any person of taking a copy of the Chronicle from the door of a subscriber. No one has any right (legal or moral) to take papers from such situations, *even for an instant;* and we are determined to stop this trouble to ourselves and our patrons, if possible. FRANK W. MILLER.
Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Fruit of the Plants, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits or other liquor, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine:
Gen. W. Scott, U.S.A. Dr. Ward, Newark,
Gov. Morgan, N.Y. State Dr. Wilson, 11th St. N.Y
Dr. Parker, N.Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " Dr. Parish, Phila.
Drs Darcy and Nicholl, Dr. Davis, Chicago, Ill.
Newark, N.J.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, NOVEMBER 15, 1861.

THE REBELLION.

South Carolina.—The victory of the U. S. forces at Port Royal, is a naval victory, only, and the killed and wounded, very few in number, all belong to that arm of the service.

Brig. Gen. Sherman, having landed, has his headquarters at Port Royal, and has issued a very fair proclamation, of which the following paragraph is the close.

"Carolinians—We have come among you as loyal men, fully impressed with our constitutional obligations to the citizens of your State. Those obligations shall be performed as far as in our power. But be not deceived; the obligation of suppressing armed combinations against constitutional authorities is paramount to *all others*. If, in the performance of this duty, other minor but important obligations should be in any way *neglected*, it must be attributed to the necessities of the case, because rights dependent on the laws of the *State* must be necessarily subordinate to *military* exigencies created by insurrection and *rebellion*."

This looks exactly as if Gen. S. meant to look after the rebels, and not trouble himself with the minor obligations to be a slave driver or kidnapper.

The following is an extract from a private letter from one of the officers engaged in the bombardment:—

"I am sure our success will rejoice our hearts. It has been complete and terror runs over the whole country. The negroes are wild and plundering their masters' houses. The whites have been driving the negroes away by force, and shooting them down, but they still come to the gunboats. The moment Gen. Drayton took to his horse in the panic of the 7th, his 200 servants went directly to the Wabash. This is worthy of notice, as putting down the nonsense that the slaves were ready to fight for their masters. They surrounded Captain Ammen in crowds, at Beaufort, one of them calling out in the joy of his heart, "I didn't think you could do it, Massa."

Com. Dupont, in his letter to the Assistant Secretary of the Navy, says:—"Beaufort is deserted. The negroes are wild with delight and revenge. They have been shot down, they say, like dogs because they would not go off with their masters."

The ship Wabash, being large and deep, could barely go over Port Royal bar, which is two miles wide, and ten miles out to sea. Moreover the rebels kept no light-houses, and they had removed all the buoys, and every other landmark which they could remove.

The fleet encountered severe gales, and lost a great many of the surf boats, with which they were to land troops.

If the squadron had been fitted out on an economical or rather niggardly scale, the losses of guns, ammunition, boats, &c., would have been fatal to its success. But thanks to a lavish expenditure and to a heavy outfit, under a favoring divine providence, the victory is ours, and our soldiers and sailors are safe.

Hilton Head is on South Island. The New York 79th Regiment has possession of Bay Point. The rest of the troops, with all the Generals, are on Hilton Head.

Five of the twenty guns of the fort were dismounted. There were 1800 rebels on Hilton Head and 1500 on Bay Point. We have captured 43 cannon, 500 muskets, and any quantity of ammunition. The road by which the rebels escaped was covered with rifle muskets, knapsacks, &c. We have taken at least 2500 blankets, and tents for 3000 men. The rebel guns were all 32-pounders, four being rifled, cast this year at Richmond. Others were from Norfolk, including an English gun, captured in the last war. The musket ammunition is English; the fort ammunition was from Richmond.

The Chief Engineer of the Susquehannah was killed. Thirty dead rebels have been found, and more are being found, having been hastily buried in the sand.—The Georgia troops ran first, and the South Carolina troops last. A German artillery company, who served the guns, stayed till the last. The causes on both points were given up to plunder by the marines, who reaped a rich harvest.

It is generally admitted that Beaufort had better beneceforth be the capital of South Carolina. Charleston is too pestilential altogether—besides possessing an inferior harbor.

[South Carolina, what we hold of it, must be governed at present by military law, and soon, as a territory of the United States. There is no *loyal State* there now, and of course no State at all, except nominally. There is certainly no government there, with which the U. S. government can act. But the people must not be *lawless*; and therefore the Sea Islands are U. S. territory, as really as Pike's Peak is.]

Western Affairs.—Brig. Gen. Nelson, who gained the brilliant federal victory at Piketown, Ky., holds a commission as Lieutenant in the Navy, his military service being permitted by the government. He entered the service in 1849, from Kentucky. The latest accounts report that the fight lasted two days, and the rebel loss was 400, and 2000 prisoners. The capture of Gens. Williams and Howes is confirmed.

The Southern papers are making frantic appeals to the rebel leaders to reinforce General Zollicoffer, so that the federal armies may be checked in their march Southward.

Virginia and Washington.—There is a sad state of affairs in parts of Western Virginia, according to the Wheeling Intelligencer. In Lewis and the adjoining counties, during the past week, no less than five Union men have been shot by roving guerilla bands. In Gilmer county the assassinations became so frequent, that on the 3d, Henry H. Withers, a member of the last Wheeling convention, gathered together 75 citizens, and marching upon Glenville, the headquarters of one of the bands, routed the rebels, killing their leader and his son.

The Richmond papers give an account of the battle of Romney, in Western Virginia. They acknowledge a defeat, but state that they had only five hundred against five thousand Yankees. The reason they give for the loss of so many taken prisoners is that their wagons blocked up the road so that they could not run away.

Col. John Cochrane, of New York, has just made an address to his regiment. He said we should use every means in our power to subdue the rebellion; that we should take the rebels' cotton and sell, or burn it, as might be best; seize their arms and munitions of war, confiscate their property, and, when necessary, take their lives; and as their slaves were used as an element of strength against us, we should not hesitate to take them, and if necessary, place arms in their hands that they might assist in establishing the rights of a common humanity. This sentiment was cheered by the soldiers with unbounded enthusiasm.

The rebel forces on the lower Potomac have not been diminished.

More bridges have been burned by the Unionists in East Tennessee, causing great alarm in the rebel camp at Bowling Green.

A dispatch from Augusta, Ga., published in a Norfolk paper says:—"A report has been current for the past day or two that black flags have been hoisted at Savannah, Charleston, and other points on the coast, which indicate that no quarter will be given to the invaders and none be asked."

A dispatch from Richmond to the Norfolk Day Book says: Col, Corcoran, 3 captains and 18 lieutenants, taken at Bull Run have been selected by lot, to be hung, in case of the hanging of the captain and crew of the pirate Savannah. Southern chivalry!

The Charleston Mercury says the Federals would capture an immense amount of cotton at Port Royal, of the best quality.

MURDER AND RETRIBUTION.

A Cincinnati dispatch of the 12th gives the following particulars of treachery and murder at Guyandotte, Va.:

"The defeat of the Union forces at Guyandotte was accomplished by treachery on the part of the inhabitants. It seems that a force of rebel cavalry, variously estimated at from 500 to 1000, had concentrated in the country back of the town. These proposed, with the assistance of the rebel inhabitants of Guyandotte, to annihilate the federal troops in the town. This force consisted of 250 men of a Virginia regiment and a few of Col. Zeigler's Virginia cavalry. It was arranged between the rebel cavalry and the rebel citizens to massacre our troops in cold blood. Accordingly the rebel citizens were very kind to our troops last Sunday evening, and invited them to their houses on various pretexts, and all who were off duty accepted the invitation.

"While the soldiers were being entertained, at half-past 8 o'clock at night, the rebel cavalry entered the town. Signals were displayed from every house where our men were, and into these the rebels rushed, murdering the unarmed soldiers in cold blood. The rebel citizens, men, women and children, rushed to arms and aided the cavalry in the slaughter. The federal troops in the camp prepared as soon as possible for defence, but were overpowered and had to break. Very few of our men were killed in the engagement with the cavalry, nearly all being murdered in the houses. When Colonel Zeigler arrived, on learning the particulars of the affair, he ordered the destruction of the town. The buildings were immediately fired and the whole town reduced to ashes."

This is the enemy whom we are invited to treat tenderly, of whose property we must take care, and especially be careful not to let slaves run away from masters and mistresses so humane!

☞ Spencer, Mass., has 100 volunteers at the seat of war, whose comfort the citizens have paid every attention to. The town has given them clothing, money, &c., amounting to upwards of $4000, and is now aiding the relatives left at home to the amount of $11 a day, or upwards of $300 per month. Last week they sent each volunteer a stout pair of winter boots, a blanket, and a pair of socks and gloves.

☞ A national salute was fired on Thursday in Wilmington, Del., in honor of Com. Dupont's victory over the incorrigible and pestilent traitors of South Carolina."

☞ Isaac Smith, a farmer of intemperate habits, was taken from the gutter in Pawtucket, R. I., a few nights since, and shortly after died from the effects of his drunkenness.

☞ "Great oaks from little acorns grow," says the school boy's well worn declamation. The Kansas Nebraska bill, and Brooks' assault on Sumner, both instigated by the slave power, came very near upsetting that power at Washington,—but Mr. Buchanan was elected;—and that election convinced the oligarchy of South Carolina that it could control all future elections; the same power was made to believe that it had an ally in the North, capable at least of holding in check the will of the Northern people; in conscious pride and strength that power threw off the mask and showed its design to press forward its own interests regardless of all impediments within or without the Constitution. But when the people heard the "Dred Scott decision" pronounced the law of the land, and enlarged by Mr. Buchanan; when they heard the "Lecompton policy" pronounced the policy of the Government, they said among themselves, "We will arise in our might and overrule this wicked decision, overthrow this despotic policy, and, come what will, cut off the head of the king that has been sent to rule over us." The Democratic party at Charleston refused to let King Cotton brand them as his slaves.

Full of rage he "smashed" the party, meaning to rule the country through Jo Lane; and the moment that hope was gone he began to "smash" the country.

There is really some danger now, that if the war holds on a year or two, King Cotton and Prince Slavery may get smashed themselves.

Hence, some Northern friends of these two potentates, who by their croaking and voting tend to weaken the Northern freemen and prolong the war,—are really damaging the objects of their homage.

☞ Hon. Henry Wilson, in a letter to the Boston Journal, contradicts in the most explicit manner the story which some malicious persons have invented and put in circulation, that he has a contract for the supply of shoes to the Government. He has not now and has not had any contract directly or indirectly with the government, for shoes or anything else. Nor does he receive any personal benefit for any military service. His pay as Colonel of the 22d regiment he has caused to be paid to the regimental hospital for the benefit of the sick, and as a member of Gen. McClellan's staff he receives neither pay nor rations.

A PAIR OF PEARS.—The editor of the Sacramento Union says he has received a pear of the 'Duchess d'Angouleme' variety, the weight of which was 35 1-2 ounces.—The tree that bore it is a dwarf, three years from the seed, and has matured, in all, the present season, 32 pears, the 12 largest of which weighed 18 pounds, 10 ounces; the remaining 20 weighed 27 1-4 pounds.

There is a 'Bell' pear on exhibition at the stall in the south end of the Pacific Fruit Market, which beats anything we have yet seen, says the San Francisco Evening Bulletin. It is from the garden of Gen. W. S. Jacks, Lower Napa, and weighs 4 1-4 pounds. The General stood guard over it night and day, bound that it should not be stolen. Can't California beat the world in apples, pears, peaches, plums and people!

☞ No. 66, of Leavitt's Farmer's Almanack, for 1862, (being the 86th year of Independence of the United States,) is just published by Edson C. Eastman, Concord, and sold by J. H. Foster, Portsmouth. It is a double almanac, very neatly printed and covered, and it is *the* New Hampshire Almanac. The Calendar pages are in plain type, of good size, easily read.

☞ Godey's Lady's Book, for December, contains a Winter Scene frontispiece, a Bridal Fashion plate, elegantly engraved and colored, with many other attractions. Vol. 64 is to begin with January, 1862.

☞ Peterson's Magazine for December is a beautiful number—the engravings alone, worth a year's subscription. Peterson closes the year as well as he begins.

☞ Hon. Nathan Dane Appleton, late Attorney General of Maine, died suddenly at his residence in Alfred, Tuesday morning, of heart disease. His age was 67.—His death was wholly unexpected, and almost without a moment's warning.

☞ Thirty-seven contraband negroes came to Philapelphia during Tuesday night, having walked northward from Accomac county, Virginia. They were supplied with money by Wisconsin troops. Numbers of these people are constantly arriving, which has stimulated a public meeting, to be held in Philadelphia, next week, to assist them.

☞ The London Times declares that while steam navigation has been a scientific success, it has been a pecuniary failure, inasmuch as all the lines of ocean steamers require enormous appropriations from the government to keep them afloat.

Physical troubles have their compensations. A war correspondent of a Western paper writes thus: "Did you ever have the yaller jaunders? I've got a few, and could spare an assorted stock to a small dealer.—Better get some, for a dime looks like a quarter-eagle, which is a pleasant delusion."

NEW HAMPSHIRE ITEMS.

—The Concord Patriot informs us that the proprietor of the Democratic Standard has brought in his bill to the Mayor and Aldermen, for damages sustained when the mob destroyed his type and papers, and that the city government laid the bill on the table, declining to pay. The Patriot says:

"There is no doubt that the city is legally liable for the damage, and will have to pay it." "It will cost the city more to pay it at the end of a law suit, and it is neither honest nor creditable in the City Government to refuse action on the subject."

There is no doubt that it will cost more to pay a bill at the end of a lawsuit; but it is quite doubtful whether any jury in New Hampshire will ever agree to pay for the Standard.

The people of Concord would not approve, by a major vote, of that claim,—but if the law suit *should* go against the city, then they would pay, because they could not help it.

The Standard, as everybody knows, was a pro-slavery sheet, never finding fault with slavery's outrages on black or white,—but *always* blaming those who provoked them by truthful but cutting language. The people remember this,—and now that the poisoned chalice comes back to the Standard's own lips,—the juries will be slow to interfere.

—Recruiting not being very brisk in Conway, Hon. Joel Eastman offered $10 per man to all who would enlist, and five men for the War, were the result of this practical patriotism.

—A gentleman of Concord (says the Patriot,) who has had some military experience, when duly authorized proposes to raise a Regiment of Artillery, consisting of six hundred men, exclusive of officers, to be armed with one hundred rifled guns, of the most approved pattern, of the capacity to carry a two pound ball two and one-half miles, and with the necessary number of chambers capable of making not less than thirty discharges per minute. Each gun to be mounted on a two wheeled light carriage, carrying its own ammunition boxes, and to be drawn and managed in battle by six men each, instead of horses—the men drawing their own gun carriages by the use of bricoles instead of drag ropes.—Their extreme lightness will enable them to be readily passed over fences and ditches, or up embankments. The men would also carry side arms.

It is easy to perceive that guns of this description could be handled in battle with wonderful facility and with most deadly effect far beyond the range of rifle shot.—Used against infantry or cavalry, a regiment thus formed would be as effective as a dozen full batteries of light artillery, the equipments and outfits of which would cost ten times as much.

If permitted for this purpose a class of men would be preferred between the ages of 35 and 60 years. Able-bodied, energetic men, of this description, are better fitted for camp life than men under 25 years of age.

—The Lancaster Republican states that Gov. Berry, while recently in Washington, has been in conference with other northern Governors regarding the fortifications of our coasts; the forts are to be immediately put in thorough order. We have but one seaport, Portsmouth, but to defend it and the Navy Yard, is a matter of great moment. The old earthworks at Jaffrey's Point and on either side of the channel, when properly supplied with an armament, together with Forts Constitution and McClary, effectively protect the Yard and harbor against any ordinary force; and prudence and safety are alike consulted in this judicious movement of the loyal Governors.

—A destructive fire occurred in Concord Thursday morning. It broke out at 3 o'clock, in the harness manufactory of James R. Hill, who is a large government contractor. He had on hand $20,000 worth of government work finished, including the accoutrements for the Sixth Regiment. His entire stock was valued at $40,000, of which one-half was insured.—Several adjoining buildings were also consumed. Among them were the house and barn of Chase Hill, Mr. Damon, J. French's shoe shop, Gas Co.'s office, and W. D. Burgin, silversmith. The fire was supposed to be the work of an incendiary, as Mr. Hill had made a personal examination of the premises before leaving.

The chief losses, as far as can be ascertained, are: James R. Hill, on buildings, harnesses, and stock, $60,000 to $70,000; insured for $30,000. Chase Hill, on dwelling, stable and shoe store, $10,000; insured. Mrs. M. M. Smith, millinery, $1000; fully insured. Mr. Benj. Damon, dwelling and shop, $3000; insured $1500. Mr. Hill was filling a large army contract for harnesses; but probably through his untiring energy there will be but a brief delay in its delivery.

—The Democrats of the Third Councillor District recently had a convention at Manchester and James F. Briggs, Esq., was nominated for Councillor. Resolutions of a straight out partisan character were adopted.

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by
USING
Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.
Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 dawdm

American Women:

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.
One dollar and six postage stamps sent to any address, *post paid*, will insure a bottle, containing over 50 Pills, by return mail. my28dawdm
Sold by W. R. PRESTON and all druggists.

COW FOR SALE.

A first rate COW, 6 years old, of the Durham and Ayrshire breeds, will be sold at a bargain. Inquire at the Chronicle Office.

Local.

CAPT. ANDREW HUSSEY, whose death in his 78th year was mentioned in the Daily Chronicle of Thursday, was one of our eldest and most respectable shipmasters. He rose from a common sailor boy to be a master mariner, and having by successful industry and enterprise secured a moderate amount of property, he left the sea about five and twenty years ago, and became the owner and cultivator of one of the largest farms in Portsmouth. The Eastern Rail Road very soon cut his farm in two, close to his house; and he sold out, left his farm, and became a resident of the mansion in Islington street, where for several years past he has gradually declined, and where he has just closed a long and well spent life.

Previous to his confinement, his tall and noble form and pleasant countenance were familiar to all the people in our daily resorts, at the Atheneum, the streets and squares; to the congregation every Sunday in his favorite church, the universalist; and to the attendants on the lyceum lectures, and city assemblages generally for moral and benevolent objects.

His honesty, kindness and good temper won him many friends,—and he was honored with a seat in the legislature, and some civil trusts in town affairs: but he loved home best, and he lived there the kindest of husbands and fondest of parents,—enjoying all the comforts with a thankful heart,—and suffering repeated bereavements and afflictions, which no one felt more keenly or endured with a more patient and contrite spirit, till death closed the scene here, and opened a brighter paradise in the higher skies.

His memory is most precious to those who knew him best: and his example is worthy of imitation by the young men who come upon the stage to fill the places vacated by worthy predecessors.

☞ A Mare's Nest—Story for the Horse Marines.—The report that the Maine Cavalry Regiment was *en route* for Washington, had encamped at York Wednesday night, and were to dine in Portsmouth on Thursday. They are yet at Augusta.

☞ That beats all—those Cantilena beets in front of the provision store of G.V. Rowe, on Congress street.

☞ The barracks built by the State of Vermont, for the 6th regiment, on the fair ground at Montpelier, were destroyed by an incendiary fire on Thursday, of last week, together with one hundred tents and the house and barn of Edwin Gilman. A recruit, named Jordan, for the 6th regiment, from Isle la Motte, but who was ejected from the ground by Mr. Gilman since the regiment left, has been arrested as the incendiary.

☞ The Canadian steamship line has been peculiarly unfortunate, having lost during the past few years at least one steamer in each year. The Indian, the Hungarian, and the two Canadians have been lost on this line, and now the North Briton has followed their fate, although the wreck of the latter has proved a less serious disaster, as no lives are known to have been lost.

☞ The Maine 11th Regiment, Col. Caldwell, passed through Boston, Wednesday evening, en route for Annapolis, Md., to join the Brigade of Col. Burnside. A company of sharpshooters, under command of Capt. James D. Fessenden, a son of Senator Fessenden, accompany this regiment as far as Philadelphia, and will probably be attached to some brigade near Washington. Senator Fessenden has three sons in the ranks of the Union army.

☞ Thirty-seven released rebel prisoners, captured at Bull Run, are to be sent home by a flag of truce.

Somebody asked Voltaire the difference between the good and the beautiful. He replied, "the good requires proof, the beautiful does not."

NOTICE.

THE REPUBLICANS OF PORTSMOUTH, qualified to vote at the coming Municipal Election, are requested to meet at the COURT HOUSE on MONDAY Evening, Nov. 18th, at 7½ o'clock, for the purpose of nominating City and Ward officers, and for the transaction of such other business as may properly come before the meeting.

ALFRED STAVERS.

THE PRESIDENT'S INVESTMENTS.—The inquisitive newspaper reporters at the Capital have found out that the President on Wednesday took to Treasurer Spinner, $8300 of his unexpended salary, and invested it in 7.30 Treasury Notes. As the President can only have received six month's salary, this fact shows he is living on about one third of his income, which will do very well, and proves that he is neither meanly economical, nor profusely extravagant.

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

SPECIAL NOTICES.

Subscribers to the old N. H. Gazettes, who wish the paper continued to them, *will please notify us* at the Chronicle Counting Room. Those who had paid in advance, may receive our paper for the amount due them, by leaving their order with us, or with the late publisher. While we never wish to send a Daily or Weekly paper which we print, where it is not wanted or will not be paid for, we are very desirous to send them where they *are* wanted and paid for.

The Advertisements for which yearly contracts were made in the old Gazette, have been continued in our paper, and we shall be pleased to retain them at the same rates, and shall do so until requested to discontinue the same. We shall also send a copy of our Weekly paper regularly to those who have advertisements in it—for which there will be no extra charge to those who also take the Daily; and although the Gazette may not be especially interesting to those who read the Daily Chronicle, yet the Weekly will be found of much value to send to friends abroad.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction ly

Book, Job and Card Printing,

as heretofore, and solicits their orders.

All indebted are requested to settle at once.

SAMUEL GRAY.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,

NEURALGIC RHEUMATISM,

SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as RHEUMATISM in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Gout, rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a most painful affection, involving, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus making it precludes all prospect of a restoration to health.

The almost exclusive and indiscriminate use of external remedies, such as domestic liniments, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved the sole agents, transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an internal remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be carefully and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the incestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,

N. E. cor. Fine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Scrofula, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Humors would break out in ulcers on my hands and arms; sometimes it turned inward and disturbed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla) for I knew from your reputation that any thing you made must be good. I went to Connersville and got and used it till it cured me. I think it, as you advise, in small doses of a teaspoonful one a month, and used almost three bottles. New and healthy skin was formed to form under the scab, which after, while fell off. My skin is now as clear as I know by my feelings that the disease has gone from my system. You can well imagine that I feel what I am saying when I tell you, that I hold you to be one of the greatest of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has used Ayer's Sarsaparilla in cases of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by the same medicine; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured my wife of a disease—a goitrous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Scrofulous Diseases* of the Mesenteric glands. I have cured many incipient cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous cancerous tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but cutting off this could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have used with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients had syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. A lady friend was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and of course without further disfigurement to his face. A young man who had been treated for the same disorder by mercury was suffering from this poison in his bones. They had become so sensitive to the weather that on a damp day the confined exciting pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent has shown me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M.D.

Rheumatism, Gout, Liver Complaint.

DONGEGREEK, Proctor Co., Va., 5th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful Rheumatism for three years, during which time I tried the skill of physicians, and took so much of your medicines as I could find, until I tried your Sarsaparilla. One bottle cured me by restoring my digestion, and my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Julius V. Gotschall, of St. Louis, writes: "I have been afflicted for years with a complication of the Liver, which destroyed my health. Tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from my other cause than disorganization of the *Liver*. My beloved pastor, the Rev. Mr. Kopp, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough.

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where severe and formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus removes the causes which would be supposed beyond its reach. Such a remedy has long been required by the members of the people, and we are confident that this will be to them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other in healing powers of the breast and lung complaints, that it is unnecessary to publish the evidence of its virtues. Its wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some lung tragedy in their midst of its victory over the dark shadow of the throat and lungs. As we know the wonderful fidelity of these disorders, and do know how, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues for cures that it did have when making those cures which have so strongly upon the confidence of mankind.

Prepared by DR. J. C. AYER & CO., Lowell, Mass

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,

For Wood or Coal,

IMPROVED IN 1859.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *glow*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a Tin Closet, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the aid of the Top Cover, a coal fire may be kept up through the night, and *steak fast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a Dutch Oven prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to warming the bottom of the oven, with no increase of combustion.

But we cannot, and need not, enumerate in detail the excellencies of THE STEWART STOVE. It is the experiment, of not-to-be-doubted notion got up to gull the public, to which we invite your attention; but,

THE STANDARD COOK STOVE,

Now in use, which has been widely tested FOR TWENTY YEARS, and now found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Rush Scythe.

HAS NOT BEEN EXCELLED, yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

Uriah Blaisdell,

All of which will be sold at prices to suit the times.

JONES & BOLLES, 61 Market St.

E. A. STEVENS' HOUSE FURNISHING ESTABLISHMENT, No. 48 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

The *novel*—the *regular* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

6th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and all jackets are provided for the back and hot in plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves,

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

Reference is made to Messrs. J. Trundy, J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Dennett, John Barrett, Phineas Nichols, Thomas E. Call, Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Robert F. Gerrish, Kittery; Nath'l E. Berry, Gosport, and many others who are using the Stove.

Also, James P. Bartlett, Thos. Murphy, George Rice, Benj. F. Canney, Jos. R. Upham, John Sevier, Wm. C. Newton, Cyrus Plummer, Wm. Bell, Capt. James Salter, Capt Wm. Lambert, Horton D. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Fernald, Benj. Chesver, John Marden, John H. Slater, of Portsmouth; H. L. Pollard, of Raymond, &c., &c.

The cut above shows the two Ovens, and illustrates the plan for ventilating the Roasting Oven, which is both simple and effective. It also shows the manner of connecting the oven. The cold air is admitted through the opening A, in the side, into a chamber formed by a double plate front of the fire. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and finds egress through two holes in the top of the oven, into the heated chamber over the fire, thus insuring at all times, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

EZRA A. STEVENS,

No. 46 Market Street.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the MOST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** which would satisfy our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many instances, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no traveling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

SPECIAL NOTICE.

Our terms for Subscription, Advertising and Job Work, except where accounts are open, are invariably and exclusively, *cash in advance* of doing the work.

$5 Reward,

We will pay, for evidence to convict any person of taking a copy of the Chronicle from the door of a subscriber. No one has any right (legal or moral) to take papers from such situation, *even for an instant;* and we are determined to stop this trouble to ourselves and our patrons, if possible.

FRANK W. MILLER.

Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and as excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, pecuiiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

Houses and Lands.

FOR SALE,

At a price to suit the times, the two-story DWELLING HOUSE and BARN, together with about 2½ acres of good land, on which the buildings now stand, and occupied by Capt. JOSEPH G. CHAMBERS, situated in Kittery, Me., on the road leading from Kittery Point to Portsmouth, N. H., about one-quarter of a mile from Pepperell Cove, and about two miles from the Navy Yard. The buildings have been erected within a few years, and are in good condition. For further particulars enquire of

GEORGE LITTLEFIELD,
nov7 Ogunquit, York, Me.

Desirable Residence for Sale.

The subscriber offers for sale his convenient and pleasantly located estate on Middle Road, formerly owned by the late Abel Hurd, Esq.

The HOUSE contains Parlors, Dining Room, with ample sleeping apartments, and kitchen with water conveniently introduced. A well cemented Cellar extends under the whole house. The stable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.

In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a very high state of cultivation, upon which are the choicest fruit trees of all kinds.

On the west side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY BARN, fronting on Park place, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.

Terms liberal. Apply at 19 MARKET ST.

NEW ENGLAND
Single Stitch Family Sewing Machine,

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,

IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of a family than any other machine now offered to the public.

Price only $12,

Table $6.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, NOVEMBER 16, 1861.

CONSERVATISM AND SLAVERY—OPINION IN NEW YORK.—The meeting at New York, to furnish aid for the loyal sufferers in North Carolina, is described as interesting and enthusiastic. George Bancroft presided, and was supported by Wm. B. Astor, Robt. B. Minturn, Wm. H. Aspinwall, Royal Phelps and Moses Taylor.

In the course of his remarks, Mr. Bancroft read a letter from General Jackson to Edward Livingston, enclosing to him the draft of his South Carolina proclamation. This letter concludes with the declaration, —"The Union must be preserved at all hazards and at any price." Mr. Bancroft was very emphatic in denouncing the return of fugitive slaves by officers in our army. He said:—

'Tis not a part of our duty to keep peace in the rebel camps, nor is it the part of manhood and of honor to return fugitives flying from oppression. At least the people will not expect such conduct from the officers who serve in their armies.

After Gen. Burnside, Professor Lieber was called on, who said "he knew no period in history in which any fanaticism has shown itself more vindicative than slavery at the present moment—slavery, that great anachronism, out of time and out of place, in the 19th century. Slavery, however, we are told, existed at the time of the Declaration of Independence. As to that, gentlemen powdered their heads with flour at that time."

These remarks show the spirit of the meeting, and also of the old conservative and democratic element in New York.—After raising funds for the North Carolina loyalists, the audience separated, singing the Star Spangled Banner.

☞ One of the effects of the war may be noticed in the difference of our imports. The last British steamer that left for Europe, like many before her, took no specie, while one that arrived this week brought over sixty thousand dollars in specie into the country. John Bull suffers largely by reason of Uncle Sam's not buying the thousand and one luxuries he formerly persisted in buying for his children, and paying for in hard money, and now he sells the staff of life for cash, and uses the money in the country. The ladies of New York are entitled to great credit for daring to set the fashion of appearing in water proofs and last year's cloaks, and thus causing the country ladies to follow suit and do without the fashionable luxuries of the season. Doubtless many dealers in dry goods will suffer in consequence, but the country at large gains an incredible amount by the fair sex "keeping step with the music of the times."

☞ Col. John Goddard, a son of Portsmouth, is colonel of the Maine Regiment of Cavalry. This regiment is to march or ride from Maine to Harrisburg, Penn. Mr. Cowdin, editor of the Biddeford Union, and Post Master of Biddeford, is captain of a company in this regiment, and is to go out with it, leaving his paper and post office in other hands. He has been active in enlisting volunteers, having raised three companies, and now goes with his third. This is the York County Company; the men will ride black horses, and the Company will be known as Company I.

☞ The Southern accounts of the battle of Port Royal Bay, and the capture of Beaufort, do not differ materially from those received from Union sources. It is admitted that the expedition will obtain possession of a large quantity of cotton. The correspondents writing from the fleet, report that large quantities of unginned cotton are at hand, and immense fields are still ungathered.

☞ A letter from Bermuda states that the Confederate steamer Nashville, arrived at the islands on the 31st ult., in want of coal and some repairs. She proceeded to the dock-yard, hoping to obtain a supply there; but being refused, she proceeded to St. George, at which port there was a stock in private hands, and would probably obtain her requirements there. The U. S. Consul, F. B. Wells, Esq., used his best exertions to prevent supplies being furnished the vessel; but without success, except as to government stores.

☞ The expedition under Col. Oglesby, which left Cairo ten days ago, was intended to operate against the rebel force under Jeff. Thompson, at Bloomfield, Mo. On reaching that place, however, it was found that Thompson and his forces had left the town 24 hours before. Col. Oglesby and his command were then ordered back to Cairo. The report received by telegraph, that Thompson had been defeated and 300 of his men killed, was of course untrue.

A young recruit came very near being shot while looking into a window in this city, a few nights since. A young lady pointed a pistol, but was afraid she would break the glass if she fired.—*Augusta Journal.*

LETTER FROM PORT ROYAL.

Correspondence of the Chronicle.

FORT WALKER, Hilton Head, S. C. } Nov. 8, 1861, 12 o'clock M. }

The Navy gave the batteries a most tremendous shelling for over 4 hours, yesterday, which resulted in the rebels scampering out of the forts and a Southern edition of Bull Run. The rebel garrison was 1000 infantry, and 500 artillery. Their loss is not known;—nor is ours yet, but it is small.

We disembarked yesterday P. M.,—the 4th N. H., being the second regiment landed. This fort mounts 20 rifled guns of heavy calibre, and the earth works are the best finished and most artistic piece of work on the Southern coast.

The haste in which the enemy left was most laughable. The sailors, who landed first, made a rich haul of plunder. Our men did a good deal in that line. The Adjutant's quarters and Post Office, in which I am now writing, was a scene of great confusion. Letters and papers of all kinds strewed the floor,—trunks were broken open, wearing apparel was scattered about,—bottles and a thousand different articles all mingled in the direst confusion. Some of the letters were just received at the Post Office. Others, just written, spoke of our arrival and their intention to whip us. We also found Charleston papers of Nov. 6, which contained the first notice of our attack on this battery. Papers of earlier date spoke of our sailing and gave full and correct details concerning the expedition.

The battery on the other point of the harbor was evacuated by the rebels in the night. They blew up their magazine last evening.—The 3d N. H. landed over there this forenoon. The order now is for all persons to give up captured property, which will interfere with some of the little arrangements of our soldiers.

We have taken a large amount of property,—hundreds of thousands of dollars in value.

An antiquated contraband says the enemy numbered 2300,—that they were crossing at the ferry all night, had only one boat, and were in great fear lest they should be cut off. Darkness and our ignorance of the country alone saved them. They succeeded in carrying off a battery, but 200 cases of ammunition, dropped on the road, were taken.

The guns on the fort show that the rebels must have been completely panic-stricken. Some were completely loaded, others half-loaded, and none spiked.—There is one large building full of flour, bacon and all the necessaries of life. Hundreds of acres of sweet potatoes are within cannon shot of the fort. Our men are industriously engaged in digging them—each for himself. The numerous porkers, that roam the island in a semi-domestic state, are continually being shot down in cold blood. The nineteen days of our men on ship-board have well prepared them for this sort of thing. Hard bread may be, as the general order said, "the true and healthy diet of the soldier;" but it can't be denied that potatoes and fresh beef are an acceptable addition. G. F. T.

[We take the following extracts from a letter from Mr. L. G. Spalding, jr., Capt's Clerk on board the gun-boat Augusta. It gives, in a few words, a very graphic account of the way in which the attack was conducted:]

I will try to give you some idea of the fight: the attacking fleet consisted of eighteen vessels: there were two forts, one on each side of the harbor. The Commodore first sailed up to the fort on the right, and peppered them most vigorously; following in succession were the rest of the vessels, which also gave them a good dose. The Commodore then circled around and twice repeated the dose: the last time the gunboats went close in, and after a while the rebel flags were hauled down.

The sailors then all manned the yards, and gave three tremendous cheers—cheers such as never were heard before in Southern waters.

When the fleet first went into action, I was rather nervous; but soon I didn't care whether I was shot or not. Indeed, it became a beautiful sight to see the shells explode right over the rebel batteries. The enemy's shots flew thickly around us, but we were hit only once, and that did little damage.

To-day it is very fine weather, and the troops have landed. To-morrow we sail on a cruise, and may pick up a prize. I saw a button of the C. S. A., with the motto,—*Animis opibusque parati.*

☞ A meeting house erected by the Calvinistic and Free Will Baptists, and the Universalists, was dedicated in North Linneus, Aroostook County, Me., Oct. 25th. The Sermon was preached by Rev. Mr. Stickney, Universalist, and the other services were performed by clergymen of the other denominations.

—— Of New Hampshire Sharp Shooters, there are already 93 men enlisted in Capt. Caldwell's Company and over seventy in Capt. McPherson's. In a few days both companies will be full and ready to march to the seat of war.

THE REBELLION.

In Massachusetts, a correspondent of the Clinton Courant says there are about eighteen citizens of old Boylston who have declared themselves in favor of the South and secession, and have in their possession a cannon and other fire-arms.

[The arms should be confiscated, and the men sent down to the Dry Tortugas.]

In Maine, Hon. Robert Elliott, of Freedom, Me., one of the prisoners of State released from Fort Warren last week, arrived home on Friday afternoon, where, it is said, he was greeted with the most lively demonstrations of rejoicing on the part of the citizens. On Saturday the Freedom and Albion companies of military paid him a complimentary visit, on which occasion he made a brief address to them. [The compliment is in bad taste, and his release is a blunder.—He would look better wheeling chips on the Navy Yard, with a ball and chain on his leg.]

At Washington, by Gen. McClellan's command, Adjt. Gen. Thomas orders Fremont's staff and other officers of his appointment discharged from the services, excepting officers of companies and regiments.

Secretary Chase intends appointing a collector for Port Beaufort, as the government will make it a port of entry.

Senator Simmons of R. I., will send a ship to Beaufort with an assorted cargo to exchange for cotton.

Secretary Cameron has declared that soldiers shall not be used as slave catchers, and army officers will not be permitted to engage in the business, or order subordinates to catch and return fugitives.

At Port Royal, S. C., says a letter from the fleet:

After the flight of the rebel garrison, one bold fellow returned to the largest gun in the fort and discharged it at us. The enormous rifle ball flew with a tremendous scream over the deck of the Bienville and struck the afterpart of the Augusta, without, however, killing any one. That shot was its last, for as it left the piece the gun burst, killing the man who fired it, and scattering missiles all around. It was a magnificent cannon, and could not have weighed less than 10,000 pounds.

Several of the rifled cannon taken at Port Royal, were lately imported from England.

The Engineer of the Mohican, who was killed during the recent engagement at Port Royal, was Mr. John Murray Whittemore, son of the late Rev. Dr. Thomas Whittemore of Cambridge. He was about twenty-six years of age, and was married last year. He entered the navy four months ago, and sailed from Boston in the Mohican.

William Thompson, reported wounded seriously, was Senior Quartermaster of the Mohican, 48 years of age, and a resident of Philadelphia.

A strong U. S. military force has been sent into the two Virginia counties on the eastern shore of Chesapeake Bay, for the purpose of fostering the Union sentiment existing there, and of repressing overt exhibitions of disloyalty. In Accomac the loyal sentiment is said to be very strong, notwithstanding it is the home of Henry A. Wise, and the people have only been awaiting the arrival of Government troops among them to show their loyalty. The entrance of the troops was hailed with delight by the inhabitants. In Northampton county, however, the secession sentiment is in the ascendency, and it is reported there are a thousand men in arms, and they have built fortifications at Pungoteague and are strengthening other positions.

Our spies and scouts report great disturbance in the rebel ranks in Virginia, and the rapid moving of troops. There is also great activity in the Union army on the Potomac.

It is reported that Gen. Sherman seized two million dollars worth of cotton in the vicinity of Beaufort, S. C., and that numbers of citizens there have professed loyalty to the government, and were soliciting arms with which to protect themselves against the rebels.

Reinforcements will be rapidly sent to the troops at Port Royal. Two steamers, one from Annapolis and one from Fortress Monroe, have already sailed. Others will soon follow.

Little of interest has transpired in Missouri, Price and his rebel army, 27,000 men with 25 cannon, on Saturday moved toward Pineville, McDonald Co., in the extreme south-west corner of Missouri. Ben. McCulloch broke up his camp on Friday night, and next day marched toward Perryville, Carroll Co.

Gens. Siegel's and Asboth's divisions are to go to St. Louis in a few days. Springfield will be entirely evacuated, large numbers of Union going with our army. Gen. Hunter's, Pope's, and Sturgis' divisions left Warsaw for St. Louis last Saturday.

The steamer reported to have been captured and taken into Key West, loaded with contraband of war, is supposed to be the Fingal, which left the Clyde Oct. 17, with a general understanding that she would attempt to run the blockade. The Fingal's cargo was said to comprise 11,341 rifles, 400,000 cartridges, 500 sabres, a quantity of belts, 7 tons of shell and 4 pieces of ordnance.

Recollections of Old Acquaintance.

BY UNCLE TONY.

MORE RECOLLECTIONS OF TOPPIN MAXWELL.—Toppin was a broad-shouldered, big-fisted, powerful man, with iron will, unchecked appetites and unsubdued passions. It was said, when he came here, over half a century ago, that he had been concerned in some rebellious plot or act, in his native Ireland; and that when a sheriff or constable, with two deputies, sought to arrest him, they found him in the evening at the ale house of the village; but just as they were about to lay hands on their prisoner, he lifted a chair, and with three sturdy blows knocked down the three men, leaving them prostrate and helpless on the floor.

Toppin made the most excellent time to the sea-shore, took a boat, reached a vessel, and after various adventures landed in this country.

Residing at Exeter a while, he was said to have broken up a family by vicious means, and to have been driven from that town by well-founded fears of a mob.

Coming here, he broke up another family by similar means, but lived here unmolested, and so far as human laws were concerned, he went unpunished. He was, however, anything but a happy man,—indulging in cruelty to animals, often revolting; in profanity, terrific to the ear and painful to the heart; in boisterous, indecent talk, surprising to the genteel and decent; in ruinous intemperance and debauchery.

Yet there was in him a mixture of Irish wit, blunder and drollery, which caused him to be noted and remembered. About the time he made his windmill, he made a cellar also, frost-proof, in the tan and in harvest time a neighbor observed him laying in an extraordinary quantity of potatoes. The neighbor ventured to ask what he meant to do with so many,—was he to sell them?

"O, no, faith," was the answer; they are very cheap, and I am putting in enough to last two years!" It is hardly necessary to say he had some *sprouts* the next year, but not many eatable potatoes.

In his regular business he was a good workman, and quite successful. But his outside schemes were wild, and his obstinate will made him deaf to advice. Peace to his ashes.

CAMPING WITHOUT TENTS.—A Washington correspondent of the Baltimore Sun says:—

"Most of the regiments that were recently detailed for service in Maryland have returned. Some of them had no tents, and it was therefore a subject of interesting inquiry to learn how the men stood exposure to cold and rain without shelter.—The response is so favorable as to warrant the suggestion that the health of troops is better preserved by bivouacing than by reposing under canvas. That indispensible requisite to full physical vigor, i. e., fresh pure air, cannot possibly be had within tents. Bonaparte spoke of this point at St. Helena, saying that tents impeded the march of an army and exposed their numbers and positions to the enemy. He therefore required his soldiers to sleep with their feet to the fire, covering themselves, if practicable by rude structures of boards, logs, boughs of trees, &c."

THE WAR!—HOW TO END IT.

A. T. FOSS, of Manchester, N. H.,

Will speak upon

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand; and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 daw3m

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

Sold by W. R. PRESTON and all druggists.

COW FOR SALE.

A first rate COW, 6 years old, of the Durham and Ayrshire breeds, will be sold at a bargain. Inquire at the Chronicle Office.

Local.

SUNDAY SERVICES.—Rev. Mr. Lovering, of Boston, will preach at the Unitarian Church to morrow.

Rev. G. H. Gould, of Worcester, Mass. will preach at the North Church.

It will be seen by the advertisement that A. T. Foss of Manchester, will speak upon the Cause and the Cure of the War, at the Temple in the evening.

Rev. Jona. Hall is expected to spend the Sabbath in this city, and to preach to his old friends at the Brodhead Chapel on Court street.

☞ The U. S. steamer Ossipee will be launched from the Navy Yard this morning at about 11 o'clock.

☞ A correspondent informs us that "on Thursday last, Charles W. Brewster, Esq., of this city, presented the Girls' High School a copy of 'Colton's General Atlas,' for the use of the school. Such presents have a value beyond computation. May the example of this generous friend to public schools, find many imitators."

☞ The population of New Castle is about seven hundred, and it has now in the army and Navy, forty two.

☞ "It sounds very strangely to Portsmouth ears," says the Boston Saturday Evening Gazette, "to hear the name of Margaret Scott associated with slavery and slave-trading, and yet the old ship, bearing the name of one of the most beautiful daughters of that green city, has been degraded by the suspicion that she was designed for a slaver. If it is the same ship that we know thirty years ago, we should about as soon think of fitting out a 'mash-tub.'"

Mr. J. H. HEAD, of Portsmouth, N. H., a gentleman known favorably to our young readers as the author of a book of "Home Pastimes," which for two or three years has added much to the cheerfulness of home on the long evenings, is about issuing a book for the Holidays, from the press of Messrs. Crosby, Nichols, Lee & Co., that will add to his fame and we hope to his profit. It is a compilation of poetry from the best of authors, bound in blue and gold, and beautifully embellished. He has likewise prepared a work on Ornamental and Floral Architecture, which the Appleton's will publish at an early day.—*Boston Sat. Eve. Gazette.*

NEW HAMPSHIRE ITEMS.

—— The Democratic State Committee have called a State Convention to be held at the City Hall, in Concord, on the 8th of January.

—— Hon. Samuel Tilton, a prominent citizen of Belknap County, died at his residence at Sanbornton Bridge, on Tuesday morning, aged 72.—He has been a mechanic, an hotel keeper, and was U. S. Marshal under Pres. Pierce.

—— An Agricultural Society has lately been formed in Lee, of real farmers. Jonathan Cartland is president, Israel R. Chesley and Daniel Emerson, vice presidents; A. G. Comings, secretary; N. D. Meserve, treasurer. It seems to be a kind of farmers' lyceum. A discussion on Indian Corn, which is reported in the Journal of Agriculture, occupied one evening. Fine specimens of this year's product were exhibited, of the Bear's foot and other varieties.

PRENTICEANA.—Kings are overthrown in wars waged for their own aggrandizement. King Cotton will be a memorable example.

A Mobile paper speaks of a Northern man's being tarred and feathered in Alabama for lying. If an attempt were made to tar and feather all the liars in the Southern Confederacy, there wouldn't be enough geese and pine-trees to yield the necessary materials.

A considerable number of secessionists, after a long and desperate search after their rights, have fortunately found them in Fort Lafayette. Others will probably be soon looking for theirs in the same quarter.

We still hear the cry of "peace." Under the circumstances that now exist, it is a cry of infamy. The argument of peace in the presence of embattled hosts, when the invaders are approaching upon us, means, as a distinguished statesman says, nothing but baseness, the end of the Republic, the beginning of the scorn and contempt of the world; the setting of the last hope of the oppressed people of the earth.—*Louisville Journal.*

SPECIAL NOTICES.

Subscribers to the old N. H. GAZETTE, who wish the paper continued to them, *will please notify us* at the Chronicle Counting Room. Those who had paid in advance, may receive our paper for the amount due them, by leaving their order with us, or with the late publisher. While we never wish to send a Daily or Weekly paper which we print, where it is not wanted or will not be paid for, we are very destrous to send them where they *are* wanted and paid for.

The Advertisements for which yearly contracts were made in the old Gazette, have been continued in our paper, and we shall be pleased to retain them at the same rates, and shall do so until requested to discontinue the same. We shall also send a copy of our Weekly paper regularly to those who have advertisements in it—for which there will be no extra charge to those who also take the Daily; and although the Gazette may not be especially interesting to those who read the Daily Chronicle, yet the Weekly will be found of much value to send to friends abroad.

CAUTION.

Understanding that certain persons, *pretending* to be sent from our office, and carrying with them a copy of the NEW ENGLAND BUSINESS DIRECTORY, published by us, are canvassing some of the New England cities, and taking pay in advance for the promised insertion of names or advertisements in that work, we hereby caution the public against all such persons, as being in no way connected with us.

We do not take pay in ADVANCE *for the insertion of Names or Advertisements in* ANY *of our publications.*

ADAMS, SAMPSON & CO.,
Directory Publishers,
nov7 91 Washington St., Boston.

THE SPOILS OF WAR.—Lieut. G. F. Towle has sent us, from Hilton's Head, S. C., a copy of the Savannah Republican, Nov. 2, and of the Charleston Courier, Oct. 13, picked up by him in the rebel Adjutant's office. The papers were enclosed in a copy of "Special Order, No. 165," dated at Richmond, Sept. 28, and directing "Brig. Gen. T. F. Drayton, Provisional Army, to report to Brig. Gen. R. S. Ripley, commanding at Charleston, South Carolina." The Republican contains a brief notice of a new book —"the Southern School Dictionary," which "has been approved by many good teachers to whom the manuscript has been submitted." It might interest a Northerner to see the "approved" definitions.

We publish this morning, extracts from a letter received from Lieut. Towle, written upon some blanks which also came from the Adjutant's office. He gives an account of the success of the expedition and one experiences a peculiar emotion on reading at the bottom of the sheet the words "Approved, Col. W. C. Hayward, S. C. Inf."

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction 1y

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

DEATHS.

In Rye, ABBY A. LOCKE, aged 10 years, youngest daughter of Mr. Elwyn Locke.

☞ The funeral of Capt. Andrew Hussey will take place this, Saturday, afternoon, at 2 o'clock from his late residence on Islington Street.

All indebted are requested to settle at once.

SAMUEL GRAY.

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which manifestes so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficacious, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and unremittingly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have prevented the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,
N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

JAMES F. SHORES, JR.,
No. 1 Congress Block,
Agent for the State of N. H.
PORTSMOUTH, N. H., Sept. 17.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co.: Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to try in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I bought two bottles of it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now and healthy skin would begin to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You may well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED H. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert H. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the perseverance of your Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Solomon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over 18 years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I must add, in justice to the merits of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by alceration of the cervix. The relief effected itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward B. Marrow, of Newbury, Ala., writes, "A dangerous *cancerous tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, La., 20th Jan., 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have used it with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Syphilis and Mercurial disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla made a wonderful change in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and of course without any detection to his face. A woman who had been treated for the same disorder by mercury was suffering from disease so far advanced that her bones were affective to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its effects, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

Dr. J. C. AYER: Sir, I have suffered from a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find out. I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think its a wonderful medicine. J. FRAM.

Jules Y. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a laborious man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Lapy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to confer a new term of life. I feel young again. The best that can be said of you is not half good enough."

Scirrhous Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Many of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus expunges disorders which would be supposed beyond its reach. Such a remedy has long been required by the physicians of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is needless here to publish the evidence of its virtues. Its unrivalled reputation for every kind of disease, and its wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. You can ask the pulmonary sufferer, and find from those who have not some personal experience of its effects—some trophy in their midst of its victory over the direfulest and dangerous disorders of the throat and lungs. As it has the dreadful fidelity of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

The Best COOK STOVE in the Market, after all said, is

STEWART'S

NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER

COOKING STOVES,

For Wood or Coal,

IMPROVED IN 1860.

The peculiarities of the

STEWART COOK STOVE,

Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c

4. Also, by the aid of the Top Cover, a cool fire may be kept through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of consumption.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, which has been widely tested.

FOR TWENTY YEARS,

and NOT found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

HAS NOT BEEN EXCELLED, yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!

MAGEE'S

PATENT COOKING STOVE

For Wood or Coal,

Operating on the same principle as the celebrated

MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE AND ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

This Stove is warranted to give ENTIRE SATISFACTION in every particular.

Magee Parlor Stove.

Jones & Bolles, No. 61 MARKET ST., Portsmouth.

E. A. STEVENS' HOUSE FURNISHING ESTABLISHMENT,
No. 46 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.

MADE BY

THE BARSTOW STOVE COMPANY,

Of Providence, R. I.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately (for a roaster, for by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3ft. long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, at the same time, the stove occupies no more room on the floor.

6th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and jackets are provided for the back and both plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a lifetime, and we know it to be the perfect in its operation!!

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

Reference is made to Messrs. J. Trandy, J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Meadum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Bennett, John Harrett, Phineas Mitchell, Jas. P. Bartlett, Thos. Murphy, George Rice, Benj. F. Cauney, Jos. P. Upham, John Senter, Wm. C. Newton, Cyrus Plummer, Wm. Bell, Capt. James Salter, Capt Wm. Lambert, Horton D. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Fernald, Benj. Chesver, John Marden, Thomas E. Call, John H. Slater, of Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; H. L. Pollard, Raymond; Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The cut above shows the two Ovens, and illustrates the plan for ventilating the Roasting Oven, which is both simple and effective. It also shows the manner of connecting the ovens. The cold air is admitted through the opening A, in the side, into a chamber formed by a double plate front of the fire. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and finds egress through two holes in the top of the oven, into the heated chamber over the fire, thus roasting at a time, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range,

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, BRUISES, SORE THROAT, CHILBLAINS, HEADACHE, SORES, PILES, PAIN IN BACK, SIDE, LIMBS & CHEST

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT"

has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to be what the proprietor claims.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than 10 YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquor or Wine* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:
"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."
Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

SPECIAL NOTICE.

Our terms for Subscription, Advertising and Job-Work, except where accounts are open, are, invariably and exclusively, *cash in advance* of doing the work.

$5 Reward,

We will pay, for evidence to convict any person of taking a copy of the Chronicle from the door of a subscriber. No one has any right (legal or moral) to take papers from such situation, *even for an instant*; and we are determined to stop this trouble to ourselves and our patrons, if possible. FRANK W. MILLER.
Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.
Gen. W. Scott, U.S.A. Dr. Ward, Newark,
Gov. Morgan, N.Y. State Dr. Wilson, 11th St., N.Y.
Dr. Parker, N.Y. City Dr. Dougherty, Newark
Dr. J. B. Chilton, " Dr. Parish, Phila.

Houses and Lands.

FOR SALE,
At a price to suit the times, the two-story DWELLING HOUSE and BARN, together with about 2½ acres of good land, on which the buildings now stand, and occupied by Capt. JOSEPH G. CHAMBERS, situated in Kittery, Me., on the road leading from Kittery Point to Portsmouth, N. H., about one-quarter of a mile from Pepperell Cove, and about two miles from the Navy Yard. The buildings have been erected within a few years, and are in good condition. For further particulars enquire of
GEORGE LITTLEFIELD.
nov7 Ogunquit, York, Me.

Desirable Residence for Sale.
The subscriber offers for sale his convenient and pleasantly located estate on Middle Road, formerly owned by the late Abel Harris, Esq.
The HOUSE contains Parlors, Dining Room, with ample sleeping apartments, and kitchen with water conveniently introduced. A well cemented Cellar extends under the whole house. The stable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.
In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a high state of cultivation, upon which are the choicest fruit trees of all kinds.
On the east side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY-BARN, fronting on Park place, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.
Terms liberal. Apply at 91 MARKET ST.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, NOVEMBER 18, 1861.

THE REBELLION.

Missouri.—By a dispatch from St. Louis we learn that Gen. Hunter and staff arrived in that city Friday. Sedalia and Rolla, it is said, will be strongly garrisoned, and sufficient provisions, stores and munitions will be sent to each point for an army of 15,000 men, should necessity require at any time the presence of such a force. The bulk of the army will come to St. Louis and be held in readiness for movements to Kentucky, southeast Missouri, or down the Mississippi river.

Kentucky.—A Maysville dispatch of Nov. 15, says:—Reports from Headquarters were received this evening from gentlemen who were at Piketown. They say that our forces attacked the rebels who were 1000 strong, and posted on a hill, killing from 80 to 90 and taking some 50 prisoners. The rest scattered. Col. Williams was the first man to run. Six of Col. Marshall's men were killed and 15 wounded. His horse was shot under him. Fifteen of Col. Fyffe's men were wounded and nine killed.

A letter to the Louisville Journal from Crab Orchard says Zollicoffer retreated on Wednesday, blockading the road from Cumberland Ford to Cumberland Gap, by blasting immense rocks from the hills into the road.

South Carolina.—The Charleston papers of the 12th, state that Gen. Lee was making extensive preparations to defend Beaufort; that the place has not been occupied by Gen. Sherman; that the negroes are engaged in removing cotton and other property; and that two Yankee gunboats are aground near the village.

The Courier states that there is little cotton stored at or near Beaufort.

Messrs. Pope and Bayard, who reside on Hilton Point, set fire to every building on their premises, and their crops, leaving a mass of ruins behind.

The guns of the Lady Davis and Huntress had been placed in a battery at Port Royal ferry, under command of Col. Donavan, where a stand will be made.

A large number of families had left Savannah for the up country.

The number of marines lost in passing from the wrecked steamer Governor to the frigate Savannah has been variously stated. Major Reynolds, the commander of the battalion, reports that one man was crushed to death between the frigate and the steamer, in attempting to gain a foothold upon the steamer; one corporal and six privates were also drowned, or killed by the crush or contact of the vessels. Those drowned were lost by their disobedience of orders, leaving their ranks or abandoning their posts.

A letter from Hilton Head of the 11th, states that the entire Fresnel lighting apparatus formerly used on Hunting Island and Martin's Industry lighthouses was discovered in excellent condition in the arsenal at Beaufort. It was taken to the Wabash, and the lights will be placed in their old positions.

Special dispatches from *Washington* state that the rebels admit the loss of immense quantities of cotton stored at Beaufort.

The Naval Department will recommend a large increase of the naval force for future operations on the Southern Coast.

A Washington dispatch says, "For the information of applicants to the Government, who are too numerous to be answered individually, there is authority for saying that so far no decision has been made in regard to permitting trade in Beaufort or its vicinity."

Important from Fort Monroe.—A dispatch from Fortress Monroe, Nov. 15, says: The U. S. steamer San Jacinto has arrived from the coast of Africa, via West Indies, where she has been cruising six weeks. Old Point was electrified by the tidings that she has now on board Messrs. Mason and Slidell, who were going abroad as Ministers of the Southern Confederacy to England and France. They were taken from an English vessel in the channel of Bahamas. Lieut. Fairfax and 35 armed men went aboard and picked out the Commissioners. They made a feeble resistance. The San Jacinto will proceed to New York with her distinguished visitors. Com. Wilkes reported the news at headquarters.

Savannah,—dispatches of the 14th say, the Federal fleet is reported to have passed Fernandina yesterday, bound South. Great activity prevails in strengthening the defences, and a general feeling of security prevails. It is said the Fingal has arrived in Savannah with a cargo of war munitions.

The panic is so great at Savannah, that even the men are moving away.

In Western Virginia the rebels on the 10th were driven back 23 miles by some of Gen. Rosecranz' division.

A recent letter to the Charleston Mercury says the iron sheathing made for the Merrimac has proved worthless under trial with columbiads.

NEW HAMPSHIRE ITEMS.

—— The Governor and Council on Wednesday authorized the raising of 2 more Companies of Cavalry, of 79 men each, in addition to the two companies already raised, for Gov. Sprague's Regiment. Gov. Sprague, who is a hero in this as in everything he undertakes, guarantees to a battalion the payment of every bill that the State does not adopt, and orders that the companies here have everything needed. This State is to purchase the horses for her four companies, and the United States furnish arms, equipments and uniforms, through Gov. Sprague. Dr. Nelson's company is 16 men more than full. Captain Swett's company, of Andover, is more than full. Hon. J. Prentiss of Claremont, formerly Speaker of the House of Representatives, has been appointed Captain of the third Co., and Wm. P. Ainsworth of Nashua, of the Nashua and Lowell R. R., Captain of the Fourth. It is thought that the Battalion will be ready in a month. It will probably encamp at Concord.

—— The hotel in Winchester, kept by George Smith, was burned Nov. 8. The furniture was mostly saved. No insurance. The hotel is supposed to have been the oldest landmark in Winchester village, the main part of it having been built more than one hundred years.

—— The first anniversary of the Manchester Division of Sons of Temperance was celebrated on Wednesday evening at their Hall in Merchants' Exchange. The exercises were opened by the reading of a selection from the Scripture and prayer by the Chaplain, Mr. J. N. Childs. Remarks were then made by different members, of the rise and growth of the Society, its present flourishing condition, and the object and aim of the Order. There are 175 members 13 of whom have gone to the war. The exercises were interspersed by singing from a choir, which was good and impressive. A social interview of half an hour was enjoyed by the members and the ladies, many of whom graced the auditory.

—— The Leicester and Cotswold flock of sheep of George Fox, of New Ipswich, has attracted much attention the past few years at our Fairs. He gives a statement of the profit on the whole flock:—

"I wintered 26 ewes, 2 bucks and 5 lambs, total 33. I kept them on meadow hay and straw till April 1st; after March 1st they had a peck of meal per day. I raised 35 lambs, besides giving away 3.—My yearlings did not have lambs. The income is as follows:—

27 Lambs sold,	$95.63
8 Full blood Leicester and Cotswold now on hand,	40.00
35	$135.63
Sold 144 lbs. wool,	50.40
Received for use of bucks,	32.00
	$218.03

This dividing by 33 gives $6.60 per head.

—— Charles Forbes was the name of the fellow arrested for passing counterfeit money in Nashua last week. The bills were fives on the Cambridge City and Danvers Banks. Judge Pearson sent him to jail in default of bail for $4400.

—— A box was sent a few days since to the Sanitary Commission at Washington, for the sick and wounded of our army, by some of the ladies of Gilsum, containing eight quilts, eighteen pairs of woolen socks, one woolen blanket, three pairs of drawers, one sheet, rolls of bandages, paper of corn starch, magazines, &c.

—— In the Supreme Judicial Court at Keene, the case of Boyce of Troy v. the Cheshire Railroad Company, to recover damages for the burning of his barn and other buildings, by the engines of said company,—resulted in a verdict for the pltf.;—damages $884.78, which is $130 more than the damages found at the previous trial.

——During the storm on Saturday night, Nov. 2, a son of Moses Whipple of Croydon, aged 15 years, while returning to his home from the post-office, walked off a bridge into the river and was drowned.—The body was recovered on Sunday.

—— A dramatic and musical Levee at Littleton, last week, yielded, net, $31.49,—which sum was paid to the Treasurer of the Soldiers' Aid Society at that place, to be used for the benefit of the soldiers. Twenty infantry volunteers and five sharpshooters have recently enlisted at Littleton.

—— A private letter received in Lebanon from a member of the Grafton County Rifles, says the 5th Regiment remained but two days at Bladensburg, when they were ordered to march into the interior of Maryland, to protect the polls. The second day they marched 36 miles without rations, the chief cook having sold the rations and pocketed the money. The suffering of the men was very great, and many fainted by the way.

—— Just before leaving for Manchester on Thursday, Lieut. House was presented with an elegant sword, costing $18, by a few of the citizens of Lebanon.

FIRST IMPORTATION OF COTTON.—The New York Post has seen a small quantity of the first importation of Sea Island cotton for the season. It was picked by free labor from the plantation of General Drayton. It staple is an long and its texture as fine as any picked by slaves.

☞ John E. Udry, of North Carolina, a British subject, now in New York, obtained a pass at Richmond from the British consul, and reached Mathias Point from Fredericksburg. He represents the citizens of Richmond as in great fright at the success of our navy at Beaufort. He was sent to New York by Governor Reid of North Carolina to obtain two sons by the first marriage of the late Judge Douglas, and carry them South to prevent their property, valued at half a million dollars, from being confiscated.

A BLUNDER.—The Boston Journal says:—

"It seems that the absurd story about Thurlow Weed's mission to Europe, published in the Independent, was slipped in after the paper was made up, without the knowledge of the editors. It was one of the accidents which will happen in the best regulated newspaper offices. In this case the cessation of that vigilance which is imperatively required in conducting a newspaper, was more than usually annoying and mischievous.

All well for the *editors*:—but now the readers of the Independent have the right to ask, *Who was* the blockhead or traitor that wrote and inserted the piece?

☞ The Bermuda Royal Gazette of Oct. 29, states that Admiral Milne was expected at the island from Halifax, with a large fleet of war vessels; and that, after the receipt of the next West India mail from England there, he would sail for the Gulf of Mexico, with the squadrons of France and Spain. The Gazette states that at the above date there were ten English and four French war vessels—the English mounting three hundred and seventy-nine guns—off Halifax.

SAXE'S LAST.—John G. Saxe in making a speech at a flag raising at Albany, N. Y., proposed three cheers for the young gentlemen of East Albany, through whose liberality the flag had been procured. As the cheers were about to be given, the chairman of the occasion amended the proposition of Mr. Saxe, so as to include the *young ladies* as well as the young gentlemen of East Albany. When the cheers became silent, Saxe arose and gave as an apology for omitting to speak of the *young ladies*, that he thought the young gentlemen always *embraced* the young ladies!

☞ One of the Maine Sharp Shooters, belonging to Capt. Fessenden's Company, came to the camp in Augusta, Me., a few days since, from the interior of the State.—He had never seen a railroad, a locomotive or a steamboat before the day of his arrival, but he said he could shoot some, and all he wanted was a fair chance. He had killed many a bear, and he could bear anything but the destruction of this free government.

☞ To-morrow (Tuesday) evening H. W. Fenno, the popular Treasurer, is to have a benefit at the Boston Academy of Music—the first in two years, though he ought to have two every year. We trust the public will manifest their appreciation of his unremitting labors to gratify and satisfy them, by giving him a rousing house. The performances, of course, will be varied and excellent.

☞ Robert Lee and William Haskett, two well-known Cincinnatians, were cruelly and brutally murdered by the rebels at the last battle at Springfield, Mo. They were members of Fremont's Body Guard, and were reported missing; but a few days since they were found in a corn field, some distance from the scene of the fight. Their hands were tied behind their backs and their brains beaten out, evidently with muskets.

☞ The Norfolk Day Book of Monday last is printed on brown wrapping paper.—It is the only paper published in Norfolk, and as bad as the paper is, it has not enough of it to print more than one-fourth its edition.

HOT BATHS.—We would call attention to the various hot baths not usually found in Water Cures, such as the medicated chemical bath, the hot acid, alkali and salt bath, and the hot douches and sprays in use at the Round Hill Water cure in Northampton, Mass. To those is added a set of Oriental, Turkish and Russian Baths—quite a novelty in this country.

We have all read of the great suppleness of the joints and youthful grace of motion attained by the use of the Turkish bath. The benefits arising from a judicious medical use of these various baths can scarcely be overestimated in relieving the system from impurities of the blood, local congestion, and the baleful effects of mineral medicines. Alternated with the tonic use of cold water and the through invigoration of the system, which Dr. Halsted knows so well how to induce, we cease to wonder at his success.

These baths are of especial value in treating those deep-seated diseases dependent on an active virus in the blood and scrofula in the system; also, in treating liver complaint, rheumatism and gout. This Water Cure is open summer and winter.—It is crowded with visitors in the warm months, attracted not only by its superior advantages for regaining health, but by its home comforts, pure mountain air, and the fame of its beautiful scenery. The quickest recoveries however, are made in the cool months.—*Springfield Republican.*

Terms reduced. See advertisement. 1td 1to

PERHAM'S
THIRD
GRAND EXCURSION
—TO—
Baltimore, Washington, Fort Monroe.

To $7 and $10 per week,
—AT THE—
ROUND HILL WATER CURE,
NORTHAMPTON, MASS.
OPEN SUMMER AND WINTER.

DR. HALSTED'S success in the cure of Woman's Diseases is well known. Those brought on beds, even, are soon enabled to walk. Over 600 cases of Spinal Diseases, Paralysis, and loss of use of limbs, have been restored and numerous cures made of various stubborn difficulties which had lingered without help for years. For his success in more ordinary cases, and the great favor given the Turkish, Chemical and other Baths, see Circular, sent gratis.

☞ Needing a little change, and desirous to confer as well as receive benefits, DR. H. will make a few professional visits, travelling expenses being paid, without charge. no18 1wd1mo

LADIES:

Are you desirous of securing the services of a good SEAMSTRESS or DRESSMAKER in your family, either by day or week? If so,

MRS. C. F. FAIRFIELD

Would be happy to accommodate you in that capacity.

Having had ten years' experience in Dress making, MRS. F. feels confident of giving you satisfaction, both as regards her fits and manner of doing her work, and she hopes, by being punctual to her agreements, and moderate in price, to gain a liberal share of your patronage.

Special Notices.

SPECIAL NOTICES.

Subscribers to the old N. H. GAZETTE, who wish the paper continued to them, *will please notify us* at the Chronicle Counting Room. Those who had paid in advance, may receive any paper for the amount due them, by leaving their order with us, or with the late publisher. While we never wish to send a Daily or Weekly paper which we print, where it is not wanted or will not be paid for, we are very desirous to send them where they *are* wanted and paid for.

The Advertisements for which yearly contracts were made in the old Gazette, have been continued in our paper, and we shall be pleased to retain them at the same rates, and shall do so until requested to discontinue the same. We shall also send a copy of our Weekly paper regularly to those who have advertisements in it—for which there will be no extra charge to those who also take the Daily; and although the Gazette may not be especially interesting to those who read the Daily Chronicle, yet the Weekly will be found of much value to send to friends abroad.

CAUTION.

Understanding that certain persons, *pretending* to be sent from our office, and carrying with them a copy of the NEW ENGLAND BUSINESS DIRECTORY, published by us, are canvassing some of the New England cities, and taking out in advance for the promised insertion of names or advertisements in that work, we hereby caution the public against all such persons, as being in no way connected with us.

We do not take pay in ADVANCE *for the insertion of Names or Advertisements in ANY of our publications.*

Bryan's Pulmonic Wafers!
References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.
Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 dawsm

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loneness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.
One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m
Sold by W. R. PRESTON and all druggists.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction 1y

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

COW FOR SALE.

A first rate COW, 6 years old, of the Durham and Ayrshire breeds, will be sold at a bargain. Inquire at the Chronicle Office.

Local.

PORTSMOUTH NAVY YARD.—Commander Charles W. Pickering has been ordered to the command of the gunboat Kearsarge. Capt. Pickering is a native of New Hampshire, and a very efficient officer. He has for some time past been stationed at Key West, under direction of the Light House Board.

The sloop-of-war Portsmouth is nearly ready for sea. Her officers have reported for duty. She is to be under the command of Commander Samuel Swartwout, late of the New York rendezvous.

LAUNCH OF THE "OSSIPEE."—The U. S. steamer Ossipee was launched at Portsmouth Navy Yard, on Saturday, just before 11 o'clock. It was a beautiful sight to see her glide from her ways in the shiphouse, to the deep blue water—daintily moving, hesitatingly at first, as if shrinking from the cold embrace of the Piscataqua—and then with a rush and a plunge, as if reconciled to her fate, and ready to meet destiny. Mrs. McFarland, of Concord—who, we understand, first selected the name Ossipee for the vessel;—and Mrs. Sawyer, of California, jointly christened the vessel with its smoothly-flowing appellation, and amid the booming of cannon, the launching was completed.

Thus much for the launch—which was expected, as a matter of course, to be successful—and was, eminently, scientifically, so; but thereafter hangs a tale of merriment and festivities; of socialities unbounded, and music, and dancing, and hospitalities without stint. Constructor Hanscom had invited his friends, to the number of two or three hundred, to an entertainment in honor of the occasion; and right heartily did all respond, from far and near, making up a brilliant company of "fair women and brave men,"—including that "bevy of beauty" to whose recollection we were impressed by our fair friend of the liquid initials.

The spacious model-loft was cleared for the occasion, and tastefully decorated with the flags of all nations, evincing the good taste of Messrs. Hanscom, Cole, Hamlin, and other gentlemen interested in the occasion. Thither, after the launch, the large party who had been on board, and other guests, proceeded. The Portsmouth Cornet and Quadrille Band were present, and stirring notes soon caused light and graceful forms to glide through the mazes of the dance, in company with others, more stalwart, but perhaps, scarcely less graceful.

After a while, when by the pleasing exercise the life-current had gained new fervor, and sparkled in brightly beaming eyes or glowed in rosy cheeks, the party passed into the adjoining apartment. There the bountiful table, with its long array of things good and tempting to those whose appetites had been sharpened by the cool, morning air, invited and received a large share of attention.

Among the distinguished gentlemen present we noticed Ex-Gov. Goodwin; Hon. Allen Tenny, Sec. of State; Hon. Daniel Clark, Hon. E. H. Rollins, Wm. L. Hanscom, Esq.; representatives of the Boston and Concord press, and a large delegation of other gentlemen and ladies from each of those cities, and elsewhere. The officers of the Yard were also present, and spared no pains to make the occasion interesting—and the unanimous verdict of the lady visitors is, that "they had a splendid time." Capt. Pearson, the Commandant at the Yard, with his family, kept open house for their friends and visitors, throughout the day, and were untiring in their courtesies.

TREES.—*Messrs. Editors:*—The last Journal has two articles on trees. In one it justly and generously compliments the gentlemen who were the principal means of having Auburn street lined with shade trees; and well may the passers by feel grateful to the generous and persevering benefactors, for their praiseworthy exertions; but how unbounded would have been the gratitude of the juvenile portion of the community, if they had been *chestnut trees!*

In another article the Journal says, and it is also said on the street, that the chestnut will not mature near the salt water. Be this as it may, I am no stickler for any particular kind of fruit or nut trees; but let those that are the most wholesome, and thrive best, take the place of barren trees, or the house-rotting, poisonous horse-chestnut, which has so long and uselessly "encumbered the ground;" and if the hazel nut would grow well here, it would be a valuable addition to the shrubbery of the place.

B.

[We do not know or believe that the horse-chestnut is poisonous; and in blossom the tree is very beautiful. It would be a good thing, however, *very good*, if we could have our streets bordered with trees which bore walnuts and apples, plums and pears.]

☞ Several snow squalls, on Saturday morning, reminded us of the approach of winter.

☞ We see it stated that after the rebels run from Beaufort they would make a stand at *Bluff*-town—they have never stood anywhere else.

SPANISH SHEEP.—J. H. Peters of Bradford, Vt., is a great shepherd. He says,

"I deal now in full-blood Atwood sheep, originally imported from Spain, as their record will show, where they have been bred pure for over 800 years. My flock now numbers about 60 of the full-bloods.—My sheep, at the last shearing, averaged between 9 and 10 pounds of wool each. I cut from one two-year-old buck 21 1-2 pounds—think he will cut 25 pounds next season. I have a few ewes that cut 12 pounds."

☞ Josey Gougenheim, a well-known actress, has refused to play at a San Francisco theatre on Sunday nights. She publishes a card, in which she says:—

"I would rather be, as I am, deprived of my engagement, which was averaging seven hundred and seventy-one dollars a night, (gross receipts!)—than to act in violation of the law and my own convictions of right.'

☞ There has been a remarkable increase of the paper manufacture in England. In 1830 the amount made was 62,000,000 lbs.; in 1840 it had roached 97,000,000 lbs.; in 1850, 141,000,000 lbs.; and in 1860, 223,000,000 lbs., having increased nearly fourfold in thirty years. There will be a very great additional consumption in consequence of the removal of the duty on paper.

☞ A. Williams & Co., of Boston, have just published a good lithographic map of Port Royal Entrance, St. Helena Sound, and all the coast between Charleston and Savannah;—very convenient and very interesting at the present time.

MONEY PLENTIFUL.—Secretary Chase, who is now in New York, had an interview with the Committee of the Associated Banks on Friday, and arrangements were made for taking another fifty million loan.

☞ Chas. Vaughan, Esq., of Boston, formerly of Hallowell, Me., has presented the proprietors of the Hallowell Social Library with a deed of a brick store in that city as a free gift, and without incumbrance.

☞ The Collector of Boston has received instructions from Washington not to clear saltpetre or gunpowder for any foreign port.

☞ Ripe strawberries were picked by Mr. Richard Carrique of Pawtucket, from his garden, on Wednesday last. In the same vicinity there is an apple tree with several blossoms on it.

☞ Why is the Beaufort Port called Port *Royal?* Because it was foreseen that it would become the capital of *King* Cotton.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done

DEATHS.

In Salem, Mass., MR. JOHN GRANT, in his 71st year. Mr. Grant was formerly a resident in Portsmouth, married a daughter of Mr. William Vaughan, and in 1825 succeeded him for five years as keeper of our Alms House.

All indebted are requested to settle at once.
SAMUEL GRAY.

ZOLLICKOFFER'S
ANTI-RHEUMATIC CORDIAL
A PREPARATION FOR THE CURE OF
INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.
Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as RHEUMATISM in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.
Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.
Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, pervading every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus conspiring to preclude all prospect of a restoration to health.
The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.
It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.
It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.
The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,
N. E. cor. Pine and Sixth sts., Philadelphia.
This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by
JAMES F. SHORES, JR.,
No. 1 Congress Block,
Agent for the State of N. H.
PORTSMOUTH, N. H., Sept. 17.

14 MARKET SQUA

From the Journal

TO THE LADIES OF PORTSMOUTH.

The funds raised by the workmen at the Navy Yard have in part been invested in the purchase of 3000 yards of flannel. On Wednesday evening last the tailors of Portsmouth had a meeting at the all over Mr. B. Cheever's store, and gratuitously cut the whole quantity into Shirts and Drawers for soldiers.

These garments are fitted and put up in bundles ready for being made up—and a general invitation is hereby extended to the Ladies of Portsmouth and the neighboring towns, who are desirous to provide for the comfort of those who have gone abroad to defend their country, to send to Mr. Cheever's store for the work. It is desirable to forward the articles to the army at an early day.

HONOR TO WHOM HONOR.—For several years past those who have taken a walk to the Cemetery been favored with witnessing the promising growth of two long lines of carefully selected and neatly arranged young elm trees which will in a few years cast a grateful shade upon that thoroughfare, the walk by far the most pleasant in the suburbs of Portsmouth. The rambler four score years hence may wonder who were the generous benefactors to the public and posterity, that set out the trees which will then have gained a glorious maturity. Some old man who now steps lightly along the road may be at hand to give to the philanthropic deed the names of the worthy men who have thus raised an enduring monument to their own memory—*Richards* and *Treadwell*.—It is well to speak of an act performed in such a spirit, for it deserves to be more highly commended than many a deed which will meet with far greater applause. The trees have been kept in order by the persevering exertions especially of Mr. Henry L. Richards and Dr. Robert O. Treadwell. Withered be the arm that may ever be wantonly raised against them.

Mr. Richards has recently enlisted in the volunteer service, as a sharpshooter in Col. Bedan's regiment. He will be a valuable accession, particularly as he has had extensive experience in frontier life, has had much real practice with the rifle, and enters into the service with an unblemished character, and with all the patriotism of our revolutionary forefathers. He walked from this city to Concord one day last week, passed a successful examination, entered his name and returned on foot. It will be remembered that a year or more since he returned home, about a thousand miles a pedestrian, from a sojourn in the far West No wonder the Southrons are unable to show themselves such as good as three Northern men, if our army is largely composed of such material.

THE HIGH TIDE.—In the storm of Sunday, Nov. 3d, Wood Island, at the mouth of our harbor, was completely submerged. Nothing of it could be seen. The tide was up to the walk around Whale's Back Light House.

The tide rose higher in the North mill pond than for many years. It came into the kitchen of Capt. Robert Shillaber, and surrounded the cooking stove to the depth of nine inches, when it was just completing its duties towards the Sunday dinner. By the aid of India rubber boots, the baked beans were secured in good condition, and the meal enjoyed above stairs, while the uninvited visitor as quietly and slowly retired as it had entered.

WOOLEN MITTENS.—An officer from West Point who commands one of the finest regiments in the service, suggests that woolen mittens for the soldiers will be greatly needed when the cold weather begins. Will not all who can employ themselves in this way, help to furnish five hundred thousand pairs? They should be knit with one finger, to allow a free use of the first finger and thumb. It is said there were more soldiers disabled in the Crimean war from frost-bitten fingers than from any other cause. All newspapers please copy this.

A correspondent asks—"Where is the Ninth Regiment, for which the Governor and Council promised to appoint field officers several weeks since?" He goes on to say, that this inaction is attributed to a wish to fill up the regiments which had been previously authorized. He further suggests, that as the 9th Regiment is purposed to be made up of a different material and for a different ground of action, it might be well to give it a start at once. We know little of the merits of the case, but have no doubt that the Executive will perform its duties in what they deem for the best interests of the country and of the State.

CITY COUNCIL.—In the Board of Aldermen, Thursday evening, the committee on Burying Grounds reported, recommending a stone wall on the south side of the North Burying Ground. The subject was again referred to the committee, the Mayor being added, with power to act.

Beaufort, S. C., is the Newport of the South. The Government ought to make it the *Saratoga* of the South.

TIME FOR SNOW.—In 1856, the ground was first covered by snow Nov. 30. In 1857, on Dec. 26th. In 1858, on Nov. 14th. In 1859 and 1860, on Dec. 4th. This shows about the average time on which we may expect it.

CAN'T BE BEAT.—Mr. A. K. Warren of this city, on whom nature smiles kindly in the regulable world, exhibits a common or rather uncommon blood beet, weighing 33 pounds. It is two feet long, girts 26 inches near the top, and 18 inches a foot lower down.

Mr. John Adams of Newington, has left at our office a red potatoe, lacking but one ounce of three pounds in weight.

THANKSGIVING SUPPLIES.—Now that the cause of our country is assuming so cheering an aspect, a Thanksgiving dinner will be the better relished. We have only to refer to the advertisements of our grocers for the places to find good articles, and for genuine *flavoring* EXTRACTS, Mr. Preston presents a good variety.

THE CHESTNUT.—The only Chestnut tree in Portsmouth, of which we have any knowledge, has been for many years in the garden of J. M. Carr, Esq. It has been in a thrifty state, but the nut would not mature. It has been cut down this week. It is said that the Chestnut cannot be raised in the vicinity of salt water. The nuts brought to our market come at least twenty miles to the seaboard.

Jeremiah Johnson, Esq. hands us a handsome bunch of olive shaped radishes, taken up on the 12th of Nov. in good order for the table.

HUTCHINS' HAIR DYE,
THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.
The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.
A liberal allowance to the trade, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr23

The Best COOK STOVE in the Market, after all said, is
STEWART'S
NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER
COOKING STOVES,
For Wood or Coal,
IMPROVED IN 1859.

The peculiarities of the
STEWART COOK STOVE,
Embracing the Latest Improvements, briefly stated, are:
1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.
2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and retaining the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.
3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c
4. Also, by the aid of the TOP COVER, a coal fire may be kept up through the night, and *breakfast and dinner prepared the next day with no addition of fuel.*
5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.
6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but
THE STANDARD COOK STOVE,
Now in use, which has been widely tested
FOR TWENTY YEARS,
and now found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.
HAS NOT BEEN EXCELLED, yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

STOVES.

THE MAGEE PARLOR
VENTILATING AND GAS-CONSUMING
STOVE.
We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made round or oval, and a very ingeniously constructed and ventilated OVEN attached.
We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are
THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,
For Wood or Coal.
We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of
HOUSE-KEEPING ARTICLES,
All of which will be sold at prices to suit the times.
JONES & BOLLES, 61 Market St.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE!
MAGEE'S
PATENT COOKING STOVE
For Wood or Coal,
Operating on the same principle as the celebrated MAGEE PARLOR STOVE.
This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.
"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."
Jones & Bolles, No. 61 MARKET ST., Portsmouth.

E. A. STEVENS' HOUSE FURNISHING ESTABLISHMENT,
No. 46 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.
MADE BY
THE BARSTOW STOVE COMPANY,
Of Providence, R. I.
The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 ft. long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:
1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.
2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking over.
3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.
4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.
5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.
6th. The stove is made in the most thorough manner: the doors and roasting ovens are lined with tin, and air jackets are provided for the back and but in plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation".
We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves,.
The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.
References is made to Messrs. J. Trundy, J. M Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Bennett, John Harrett, Phinehas Nichols, Jas. F. Bartlett, Thos. Murphy, Geo. Rice, Benj. F. Cauney, Jos. B. Upham, John Senter, Wm. C. Newton, Cyrus Plummer, Wm. Bell, Capt. James Salter, Capt Wm Lambert, Horton D. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Fernald, Benj. Cheever, John Marden, Thomas E. Call, John H. Slater, of Portsmouth; Stephen M. Weeks, Geo. W Davis, Greenland; John Smart, Stratham; H. L. Pollard, Raymond, Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The cut above shows the two Ovens, and illustrates the plan for ventilating the Roasting Oven; which is both simple and effective. It also shows the manner of connecting the ovens. The cold air is admitted through the opening A, in the side, into a chamber formed by a double plate front of the fire. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and finds egress through two holes in the top of the oven, into the heated chamber over the fire, thus insuring at all times, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.
This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.
☞ We have also a very beautiful new pattern COOK STOVE, called the
Modal Range;
Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by a Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

SPECIAL NOTICE.

Our terms for Subscription, Advertising and Job Work except where accounts are open, are invariably and exclusively, *cash in advance* of doing the work.

$5 Reward,

We will pay, for evidence to convict any person of taking a copy of the Chronicle from the door of a subscriber. No one has any right (legal or moral) to take papers from such a situation, *even for an instant*; and we are determined to stop this trouble to ourselves and our patrons, if possible. FRANK W. MILLER.

Portsmouth, Sept. 14, 1861.

SPERR'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Phy-sicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affection, Rheumatism, Chronic Complaints.

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

—SPERR'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADI S' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have used the Wine:
Gov. W. Scott, U.S.A. Dr. Ward, Newark,
Gov. Morgan, N.Y. State Dr. Wilson, 11th St., N.Y
Dr. Parker, N.Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " Dr. Parish, Phila.
Drs. Darey and Nicholl, Dr. Davis, Chicago, Ill.
Newark, N. J.

☞ None genuine unless the signature of "ALFRED SPERR, Passaic, N. J." is over the cork of each bottle.

Make One Trial of this Wine.
For Sale by W. R. PRESTON, Portsmouth.

Houses and Lands.

FOR SALE,

At a price to suit the times, the two-story DWELLING HOUSE and BARN, together with about 2½ acres of good land, on which the buildings now stand, and occupied by Capt. JOSEPH G. CHAMBERS, situated in Kittery, Me., on the road leading from Kittery Point to Portsmouth, N. H., about one-quarter of a mile from Pepperell Cove, and about two miles from the Navy Yard. The buildings have been erected within a few years, and are in good condition. For further particulars enquire of
GEORGE LITTLEFIELD,
nov7 Ogunquit, York, Me.

Desirable Residence for Sale.

The subscriber offers for sale his convenient and pleasantly located estate on Middle Road, formerly owned by the late Abel Harris, Esq.

The HOUSE contains Parlors, Dining Room, with ample sleeping apartments, and kitchen with water conveniently introduced. A well cemented Cellar extends under the whole house. The stable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.

In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a very high state of cultivation, upon which are the choicest fruit trees of all kinds.

On the east side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY BARN, fronting on Park place, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.

Terms liberal. Apply at 91 MARKET ST.
A. W. SIMPSON.

NEW ENGLAND
Single Stitch Family Sewing Machine.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every family than any other machine now offered to the public.

Price only $12,

Table $6.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, NOVEMBER 19, 1861.

TRAITORS IN MAINE.

According to a correspondent of the Bangor Whig—the late U. S. prisoner, Robert Elliot, on his return home to Freedom on Friday last, from Fort Warren, was received in a manner which demands the attention of the civil powers. The houses of all who, up to the time of his arrest, had openly avowed their hostility to the government, were illuminated. A crowd of about fifty ruffians collected, armed with guns and revolvers, who began a course of tumult, insolence and outrage, towards the Union men of the village, which lasted until morning.

A Union man named Wing, from Thorndike, on his way home from Belfast, in a wagon, was brutally assaulted. Three shots from a revolver were fired at him, two of which passed through his hat, the third taking effect above his forehead, baring the scalp for about two inches, and rendering him insensible for a time.—When he recovered consciousness, he found himself surrounded by his pursuers, and he took refuge in a public house kept by Mr. Murray. The crowd amused themselves by hurling stones at the house, yelling and firing guns until long past midnight. Finally Mr. Wing escaped and reached his home, where he is still suffering from the effects of his wound.

A correspondent of the Boston Journal corroborates this statement,—and says:

"Elliot's coming had been foretold to his friends in Freedom, and arrangements on a large scale had been made to give him a characteristic welcome. From the time of his arrival guns were fired, bells rung, tar burned and houses illuminated all night.—The houses of Union men were stoned, and hisses and groans uttered under their windows, and every effort was put forth to make the night as hideous as possible.

About midnight a citizen from the neighboring town of Thorndike arrived in Freedom, returning home on a long journey, and called at one of the taverns and asked if he could be put up there. There was a large crowd around the tavern, by whom he was insultingly asked, 'What is your politics—are you black or white?'

His answer was, simply, 'I am a Union man.'

'Then you can't stop here; we have had enough of you d—d Black Republicans,' was their reply.

Numerous frantic yells were uttered, when several shots were made at him.—One ball took effect over his left eye and glanced upward across his forehead, laying his scull bare by a wound of two inches in length. The man was felled to the earth, but he soon recovered, and getting into his wagon drove away amid a volley of bullets to the other tavern, where he knocked hurriedly, and almost exhausted. He soon discovered that the rebels had pursued him and stolen his team. He finally found it and drove back again; but they soon discovered his retreat and went in pursuit of him, yelling like demons. He knocked again for admission, but the crowd had become so numerous and frantic that the landlord (a Union man) did not deem it safe for himself and family to open the door. And as this man stood there pleading for admission and protection, his face and clothes dripping with blood from his wounds, four or five pistol balls were fired at him and two passed through his hat. At length, finding that death was certain if he remained there, he got into his wagon and drove away into the darkness as his only protection.

The outrage was committed upon a peaceable man, whose only offense was his declaration of his loyalty to his government, by members of Elliot's military company, who were celebrating his release from prison, where he had been placed on a charge of treason for getting up this organization. We leave the public to make its own comments."

The Portland Advertiser remarks:

"It may be necessary for the Government to exert its power again in that locality. We fear the release of Mr. Elliot was an act of misplaced mercy."

A Friend who has read the above account, wishes most respectfully to ask the question, Whether these *Freedom* men,—who armed themselves as a chosen band of Dana men, before election, who now worship slavery, serenade Elliot, get half drunk, and shout a 'good citizen,—are *Peace* Democrats?—And one question more,—Whether peace democrats, being very peaceable toward the slave power, are expected to be very fierce, warlike, and abusive toward everything and everybody else?

The Portland Argus of Monday, discredits the story, but says, if true, the "assailants should be arrested and be visited with the severest penalties of the law." If we remember rightly, some papers in Maine deemed these Freedom traitors, including Elliot, very loyal men, and considered their arming a very harmless matter.

NEW HAMPSHIRE ITEMS.

—— The Epping Ladies' Festival, in aid of the soldiers' comforts, produced about $120 net.

—— Woodbury Berry of Exeter, and Charles A. Dearborn of Chester, are among the wrecked of the Port Royal fleet, and are prisoners in Charleston.

PERHAM'S THIRD GRAND EXCURSION, advertised in our columns to-day, will naturally attract public attention. It is only necessary to refer to his liberal announcement.

THE REBELLION.

Fortress Monroe dispatches of Saturday say "a flag of truce went to Norfolk to-day, but brings no news or papers.

The gunboats Cambridge, Mount Vernon and Lockwood have gone to Newport News to-night. The rebels have assembled in considerable force at Great Bethel, and an attack on Newport News is by no means improbable.

The gunboat Young Rover has been sent to York River.

The recent fire in Norfolk consumed a large quantity of valuable stores, including nearly the entire supply of oil.

The S. R. Spalding leaves for Hatteras Inlet to-night, having in tow two schooners loaded with frame houses for the troops and stores.

The Belvidere leaves for Port Royal to-night."

The soldiers who saved the schooner which was fired by the rebels from Cockpit Point, were 35 men under Capt. Wilde, of the 1st Mass. regiment, who boarded her while under a heavy cannonade from the rebels, and brought her in safely out of the range of their guns. The rebel boat's crew which set fire to the schooner were most of them wounded by the sharpshooters of the same regiment.

Washington dispatches of Sunday mention that a foraging party of 30 men belonging to the New York 30th Regt. near Falls Church, were surprised by some rebel cavalry on Saturday, their arms and corn taken, and some men made prisoners: all by their own carelessness. 10 men have got back.

The original story of the Piketown battle, turns out to be little less than a hoax. Instead of a great battle, in which 400 of the rebel army were killed and 2000 taken prisoners, it now appears there was a small fight, in which a few of the enemy were killed, a few captured—the rest, they ran away.

The amount of the Federal loan taken by the citizens of Baltimore thus far is one million of dollars.

Gov. Hicks of Maryland has issued a proclamation calling a special session of the Legislature of that State, at Annapolis, on the 27th inst. His object is to re-establish Maryland in her old position as the heart of the Union, and to undo the legislation of the members now residing at Fort Warren.

Com. Chas. Wilkes, of the San Jacinto, who has taken the responsibility of capturing the rebel Ministers, even from the deck of a British steamer, was appointed to command the San Jacinto a few months since. He was sent to the Coast of Africa to relieve Com. Downing, who recently returned to Portsmouth in the Constellation. Com. Wilkes is best known from his connection with the Southern Exploring Expedition, of which he was commander, and which bears his name. His age is about fifty-five years.

☞ The Charleston Mercury concludes a despairing appeal to South Carolinians in these words:—

"Let us all, with one heart, repeat the noble sentiment of one of our dead sons:—'It is better for South Carolina to be the cemetery of freemen than the home of slaves.'"

South Carolina, says Uncle Toby, has been the "*home of slaves*" these hundred years; aye, and the *home of slavery* too;—the home of toryism in the revolution; the State that furnished a few officers in that war, but said she could not send any soldiers because she needed all her whites to take care of the negroes!

She has also been the home of Nullification; the mother of Secession; the hot bed of treason, rebellion and civil war.

She will doubtless be the cemetery of some freemen, perhaps of many, who land there in defence of Liberty, Union and Government,—all of which her negro driving aristocracy have assailed, and against which they are now fighting.

And it is a consummation devoutly to be wished, that she may become the cemetery of Slavery, tyranny and treachery—and may become and remain the happy home of virtuous and contented freemen, white, black and colored: the Barbadoes of the United States.

☞ The ship ashore, which was at first believed to be the Great Republic of the Naval expedition, proved to be the French man-of-war Prony. The Confederate steamer Winslow (formerly the Coffee) went to her relief, struck on a sunken vessel in the channel, and became a total wreck. The account states that the guns of both French and rebel vessels were lost.

☞ The steamship Manchester brings Liverpool dates of Nov. 6. The London papers are discussing the correspondence between Mr. Seward and Lyons; also the prospects of the rebellion and the goodness of U. S. funds. Their speculations are of no great consequence, certainly not worth copying here, especially as they are divided and contradictory.

"Now, then, my hearties," said a gallant captain, "you have a tough battle before you. Fight like heroes till your powder's gone; then—run! I'm a little lame, and *I'll start now.*"

UP THE HUDSON.

(Continued.)

NOVEMBER, 1861.

Dear Chronicle:—Resuming our letter and ramble, leaving the cottage and sun-lit lawns of Sunnyside, and wandering along the winding course of the brook, past the neat vine-clad cottage of the gardener, designed by Mr. Irving, and from thence through the principal streets of Tarrytown, we come at last to the "Andre Monument," bearing the following appropriate inscription:

"On this spot, the 23d of Sept., 1780, the spy, Major Andre, Adjutant General in the British army, was captured by James Paulding, David Williams and I. Van Wart, all natives of this county. History tells the rest.

"The people of Westchester county have erected this monument, as well to commemorate that great event, as to testify their high estimation of that integrity and patriotism, which, rejecting every temptation, rescued the United States from most imminent peril, by baffling the arts of a spy and the plots of a traitor. Dedicated Oct. 7, 1853."

The shaft is of granite, fifteen feet high, resting on a base of the same material, at an elevation of about six feet from the ground.

Farther on, nestling between the golden-crowned hills, lies that romantic spot of legendary fame, "Sleepy Hollow;" and down the moutain sides, a hundred streams were leaping from rock to rock, swollen by the recent rains, and forming miniature cataracts in every direction, all finding an outlet in the Pocantico, which, in summer time a mere stream, trickling slowly along between the hills, was on our visit a foaming torrent, rushing madly round the wooded points, dashing fiercely over the rocks, twisting and twirling and snapping the overhanging branches of the trees, and whirling them off, to be tossed on the white-tipped waves to the calm blue waters of the Hudson.

In one of the most beautifully secluded glens along its course, the river has a fall of about twenty feet, and when full forms a roaring cataract, presenting a spectacle of the grandest sublimity. On one side lies Carl's mill, 'round which the noble author has twined many a poetic garland,—now going to decay, its wheel silent, while the river, which was once its motive power, rushes by unheedingly.

Clipping a piece of the old wheel, whose mysterious and regular revolutions were doubtless the infantile wonder of Irving, as in the "long ago" he played along the banks, made whistles of the overhanging willow boughs, or threw pebbles in the water and watched the bubbles glisten in the sunlight and then fade away forever,—we strolled onward across the bridge, the scene of another of the historic incidents of this eloquent writer,—the chase by the ghostly Hessian,—and then up the hill which here rises abruptly, crowned with woods in great variety, with honeysuckle, roses and ivy twined around the trunks, and hanging in graceful festoons from the drooping branches.

Over the hill stands the old church, where Irving attended, and where the good old Knickerbockers of a former age used to sit, as Mr. Irving facetiously tells us, "with a handkerchief thrown over their eyes, ostensibly to keep off the flies, but really to conceal the profound slumber into which they had sunk, lulled by the sultry notes of the locusts from the neighboring trees."

In the hollow just below the church the brook again crosses the road and branches out into a good sized lake at the head of which stands "Philipsen's Castle," another of those old mills, the noisy clank of whose wheel, in the days of yore disturbed the stillness of the shady woodland.

So, readers we have seen "Sunnyside" and its surroundings, but have lingered so long on the way that we have missed the boat, and a stay at the hotel becomes necessary, the early morning train taking us to the toiling city, and then my letter is finished. Your old friend "Is" says that, though it is a singular facial and geographical fact, it always gives him *Rye* faces to read Newington! Perhaps you will agree with him and be able to see the joke; I expect to in a few days!

NEWINGTON.

CHARLESTOWN NAVY YARD.—The gunboat Sagamore is nearly ready for sea and will sail in the course of fifteen days. All her officers but one have reported. The receiving ship is filling up fast, averaging forty recruits a day. The sloop-of-war Housatonic will be launched on Wednesday next at 12 o'clock. She is of the same model and size as the gunboat Wachusett, viz., 224 feet in length and about 1000 tons burthen. A mail for the naval fleet at Beaufort is now being made up at the Library rooms. A salute of twenty-one guns was fired at noon on Saturday, in honor of the victory achieved by the navy at Port Royal.

☞ The Journal of Commerce says that another large naval expedition is quietly preparing—the men mustering—and that it will probably be off in some ten days for some destination unknown to outsiders.—That is right. The navy is the power to use in this war.

Shut not up a brood of evil passions in your bosom; like enraged serpents, they will bite their cage.

☞ Some writers in the newspapers and elsewhere, are amusing themselves and distressing their timid readers, with the idea that Johnny Bull will bellow, because Com. Wilkes took the traitors Mason and Slidell out of a British vessel. Well: perhaps he may bellow; but he will never push with his horns, about that.

He always claimed the Right of Search for himself. Brother Jonathan, in 1812, declared war against John, because, among other things, the said Jonathan asserted that the said John searched Yankee vessels, to find contraband English and Irish men.

In 1814, there was a meeting of Yankees and Britons, to patch up a peace.—The Yankees wished to put in a clause, denying and disclaiming the Right of Search; but John Bull shook his head, and the point was *waived*. It (that is the *p. int.*) has been *waving* ever since—but Great Britain has often exercised the *Power of Search*.

We have now followed her example, not only searching for, but finding and bagging two first class state prisoners,—all ready for hanging, when South Carolina gives no quarter.

If Johnny should bellow, we will get Secretary Seward to write a volume of apologies—exactly as the English Secretaries do; but we must hold the prisoners.

☞ A letter from Billy Wilson, describing the Santa Rosa Island affair, says:

"They are exhibiting my hair and head in Pensacola. The reward is already claimed. Also an old flag which I nailed to a flag staff on the Fourth of July, which has been hanging there ever since; nothing left, however, but th stars. The ladies have cut it up in pieces, and have it pinned on their bosoms as a trophy.

"Every one in Pansacola has my sword and uniform. I must have had a large quantity of hair, plenty of swords and uniforms. They say if I was to be taken alive I was to be put in a cage and exhibited." But Billy has no idea of being taken.

The house, outbuildings, and two barns with twenty tons of hay, farming utensils, two cows, with other animals, of Capt. Isaac N. Harriman, of Searsport, were burned on Tuesday night about 10 o'clock. Loss some $3,500; $1,400 insured. The fire occurred by a lad going into the barn with a fluid lamp and falling over a pumpkin and breaking the lamp.—*Portland Adv.*

☞ The Chicago Journal says Col. Mulligan has determined to form a new brigade and to return to the field at an early day.

NOTICE.

The ANNUAL MEETING of the ROCKINGHAM COUNTY AGRICULTURAL SOCIETY, for the choice of officers will be held at Jefferson Hall, Portsmouth, on Monday, Dec. 2d, 1861, at 11 o'clock A. M. Per order of Trustees.

J. C. HILLIARD, Sec. pro tem.

PORTSMOUTH NAVY YARD.—It will be seen by the following acknowledgement, that the contributions of the workmen at the Navy Yard to the fund raised to supply some of the immediate wants of the Volunteers from Maine and New Hampshire, amounted to the magnificent sum of $3,441.59. The large amount contributed, and the cheerful unanimity with which the workmen have united in raising it, are worthy of the highest commendation, and of emulation by those engaged in other pursuits.

NAVY YARD, Portsmouth, N. H., Nov. 16th, 1861.

To Gov. Nath'l S. Berry; John E. Salter, Esq.; Chas. W. Stinson, Esq.; Gowen Wilson, Esq.; Samuel Rowell, Esq.; Ephraim Otis, Esq.; Francis Bacon, Esq.:—

Gentlemen:—I send you herewith the sum of 3441.59, it being the amount subscribed, (in aid of the Volunteers of New Hampshire and Maine,) by the Officers, Writers, Master Workmen, Mechanics, Laborers and Watchmen employed at the Navy Yard, Portsmouth, N. H., an accurate list of the names and sums subscribed being also enclosed.

These amounts have, at my request, been carefully compared with the Rolls, and thoroughly audited by John Christie, Esq., Commodore's Secretary, and Howard Cutts, Esq., Clerk of the Yard, so that their correctness will be, I trust, vouched for to your entire satisfaction.

It gives me great pleasure to bear testimony to the cheerfulness and unanimity of the subscribers, many of the Workmen giving no small proportion of wages due them on the Roll.

With every hope that this donation may afford good aid to the noble cause to which it is devoted,

I remain your obedient servant,
JOHN V. B. BLEECKER,
Paymaster, U. S. Navy.

POLICE COURT.—Charles Gray and Fifield Cook, on the night of October 30th, broke into the shoe store of Mr. John Kelly, on Penhallow street, and stole goods therefrom to the amount of about one hundred and sixty dollars, which they disposed of subsequently to persons in Rye, at a very low price. A portion of the goods were recovered by our Police.

Last Friday night Gray was arrested and placed in the lock-up. During the night, however, he managed to make his escape from durance vile, by removing an iron bar. He was re-arrested at Dover, by police officers Bailey and Dresser, on Sunday.

Cook went to the Charlestown, Mass., Navy Yard and shipped as a landsman on board the U. S. receiving ship Ohio, where he was arrested by officer Bailey on Saturday last, and brought to this city. The accused were brought before the Police Court on Monday, and bound over in the sum of $300 for their appearance at the April term of the S. J. Court; in default of which they were committed to jail. Cook subsequently obtained bonds-men and was released.

The officers deserve the thanks of the community for the energy and perseverance displayed by them in the pursuit of these criminals.

☞ Hon. William Simes was re-nominated at the Republican caucus on Monday evening, as their candidate for Mayor at the ensuing municipal election.

☞ A little child, about fifteen months old, of Mr. Nehemiah Pickering, of Greenland, was scalded to death a few days since, by hauling a dipper of hot water from a stove into its bosom.

☞ Prof. Gardner, the great New England Soap Man, is in town for a few days.

☞ Mr. Henry C. Webster, of this city, recently appointed Master's Mate, U. S. N., and ordered to the steamer Lockwood, at Washington, is now executive officer of the ship, with the rank of First Lieutenant. The vessel is ordered to Stone Creek, on the Maryland side of the Potomac.

☞ The ever-popular and warmly-welcomed Hutchinson family are to visit this city and to give one of their admirable concerts at the Temple on Thursday evening next. The fame of the performers, the attractions offered, and the low price of admission ought to be sufficient to give them a full house, and that, we believe, they usually have had, when they have visited this city

MME. DEMOREST'S Quarterly Mirror of Fashions for the Winter of 1861 is published and received by Mr. J. H. Foster. It is well-filled with valuable matters for the ladies, and contains rare and well-executed Fashion Plates, and useful, full-sized Patterns.

The Leipziger Zeitung makes a very curious statement, which is interesting even as a *canard*. It says that a physician of the name of Pottsdoll has discovered a method by which he can artificially produce in any body's throat any desired quality or register of voice. He creates at pleasure bass, baritone, tenor or soprano voice in the human larynx by means of a slight and simple operation, quickly performed without pain or danger; and in a week or fortnight at farthest, those who have submitted to it acquire great musical powers, however inharmonious the voice may have been previously.

Washington items of Monday represent the Government alert in Mexican affairs; ships of war are to be sent to look after our interests in Mexico, rebel commerce via that country is to be prevented, and no foreign aggression is to be permitted on this Continent.

The Times' dispatch says it has reliable information that three South Carolina regiments, when they heard of the capture of Port Royal, declared their intention to return at once to protect their own State.—Orders were issued from headquarters to prevent their departure at all hazards.

Our naval force at Newport News has been increased, to check the rebel expedition fitting out on James river, of which three formidable fire-ships are said to form a part.

Mason and Slidell have probably arrived at Fort Warren in Boston harbor,—they were to be there Monday afternoon.

1500 rebels were recently discovered by the Union patrol some 20 miles from Fort Pickens, on Santa Rosa Island. The commander of the fleet sent a force who shelled the rebels off the Island with great loss.

It is not believed at headquarters that any considerable number of troops are withdrawn from the rebel army before Washington. Beauregard has not gone to Charleston.

A Charleston dispatch to the Richmond Enquirer, 14th, states that Gen. Sherman had taken possession of Finckney Islands, seized all the able-bodied negro men, and sent them to the fleet. No attempt has been made to land on the main land.

Another expedition is to leave Boston this week, under command of Gen. Butler. The new ocean steamship Constitution, just completed for the Pacific Mail Steamship Co., has been hired to convey the troops, at an expense of $3000 per day. She arrived at Boston on Monday, and after taking on board the Massachusetts troops, will proceed to Portland and receive Col. Shepley's regiment and battery. She will thence sail for some point South, as yet unknown to the public.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

TO NEW SUBSCRIBERS.
To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction ly

MOTHERS, OR YOU THAT HAVE THE CARE OF CHILDREN, know the difficulty of getting them to take medicine, and it is almost as painful to the parent to administer the doses, as to see the child suffer by disease, and you will hail with joy any discovery that will alleviate this difficulty, and at the same time be a more efficient agent to restore health. DOCTOR GIFFORD'S HOMEOPATHIC CURATIVES do this. Being as they are, simple medicated sugar pills, they can be administered to a child even when asleep without disturbing it, and the action of the medicines will in all cases be satisfactory. Children troubled with worms, colic, diarrhea, or teething babies, have a remedy here that is perfectly harmless, and at the same time can be given without trouble, and are good in their results.

Sold by J. H. THACHER, 12 Market Sq., and corner State and Pleasant streets, Portsmouth; M. S. BURR & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere on receipt of price, 25 cts. per box, by PHILIP LEE, 136 William St.,
nov19 1wd New York.

Volunteers for the War
Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired, to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

DEATHS.

In Portland, 17th inst., Mrs. ESTHER A SAWYER, aged 60 years 6 mos., wife of Isaac Sawyer.

FORECLOSURE OF MORTGAGE.

Notice is hereby given that the undersigned, as Attorney for Hannah S. Kenney, of Eliot, Me., on the twenty-ninth of May, A. D. 1861, made peaceable entry into and took possession of a certain lot of land and wharf situate in Portsmouth, in the County of Rockingham and State of New Hampshire, bounded westerly by Market street, thirty one feet eight inches; northerly by wharf and land formerly of Thomas Haven, now owned by the heirs of the late Samuel Pray; easterly by Piscataqua River, and southerly by land formerly owned by the late Joseph W. Leighton, and now occupied by Thomas S. Gammon,—together with the buildings thereon, conveyed to said Hannah S. Kenney in mortgage by Elisha Tripp, of said Portsmouth, by his deed dated July 1, 1856, recorded in Rockingham registry of deeds, Lib. 366, Fol. 306, for condition broken, and for the purpose of foreclosing the right in equity of said Elisha Tripp, or of John M. Davis, or of Samuel Jacquith, D. F. Hall and Samuel Andrews, or any, or all, or either of them, or of any other person or persons whomsoever, to redeem said mortgaged real estate, and at the same time publicly declare the purpose and object of said entry and possession. WILLIAM H. HACKETT,
Att'y for HANNAH S. KENNEY, Mortgagee.
Portsmouth, N. H., July 25, 1861. M

ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL
A PREPARATION FOR THE CURE OF
INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND LUMBAGO.
Of all the diseases incident to the human family, there is none, perhaps, which on such occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the nature of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.
Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.
Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.
The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever.
It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discernible, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.
It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole systems invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.
The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,
N. E. cor. Pine and Sixth sts., Philadelphia.
This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

Is a powerful extract of the following compounds: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Tetter, and all Skin Diseases.

OAKLAND, Ind., 8th June, 1854.

J. C. AYER & Co. Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. My daughter, affected a Scrofulous infection, I have suffered greatly, and tried many things for your relief. Nothing in local use, in Ulcers on my hands and arms; sometimes it spread inward and distressed me at the stomach. You wrote me to keep out on my hand and continue the use, and sure will one sore, which was painful and inclined to spread dangerous. I tried many medicines and medical advice, but without much relief from any thing. In fact the disorder grew worse. At length I was advised and tried to try Gospel Messenger that you had prepared for Sarsaparilla (Sarsaparilla) for I knew that you proposed to do what you made must be good. I went to Indianapolis and bought and used it till it cured me. I took it, as you directed, in small doses of a teaspoonful every 2 months, and used almost three bottles. Now and healthy skin was begun to form under the sores, which after a short time healed. My daughter is now about well. I know by experience that the disease has gone from my system. You may believe that I feel what I am saying when I tell you I think you are the author of the Sarsaparilla and remain ever gratefully, Yours,
ALFRED P. TALLEY.

St Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Troy, N. Y., 1855: "Know that he has cured an inveterate case of Erysipelas, which threatened his termination, including the use of our Sarsaparilla, and seen a number of other cases of Erysipelas by large doses of the Sarsaparilla, and recommend Prepared Sarsaparilla in such cases."

Bronchocele, Goitre or Swelled Neck.

Gideon Gleason of Prospect, Texas, writes: "Some time ago I used your Sarsaparilla and was much benefited, and I was swelling in the neck, which I had suffered from several years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. Cheney, of New York City, writes: "I most cheerfully comply with the request of your agent to certify how I found your Sarsaparilla a most valuable adjunct in the treatment of Ovarian Tumor, for which we employ such a remedy, but especially in female diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhoea by it, and also by it the disease produced by the abortion of the ovum. The disease itself was soon cured. Nothing seems so well to agree with it for these female derangements."

Edward S. Marrow, of Sesloy, Ga., writes: "I have given your Sarsaparilla to one of the feebles in my family, which had defied all the medical and other treatment, and it finally been completely cured by your Extract of Sarsaparilla. Our physician thought with me, that it was the best alterative medicine he had ever tried. We use Sarsaparilla as the best resort before resorting to a physical extract. After taking two bottles of it seemed to be a change of the disease entirely."

Syphilis and Mercurial Disease.

NEW ORLEANS, 24th August, 1855.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you the result of the use of the 1 bottle of Sarsaparilla.

I have used with it, in my practice, most of the popular preparations of Sarsaparilla, and have found your preparation to be the most efficacious. I have seen wonderful in the cure of the Syphilitic disease. One of my patients had Syphilitic ulcers on his throat, which were so bad that he was confined to his bed for the month. Your Sarsaparilla, in conjunction with Iodide of Potassium, cured him in five weeks. Another case was a young man of 18 years, who had a Syphilitic eruption on his face, and he is well again, and of course will now enjoy his life. A woman who had been suffering from pains in her bones. They had been under treatment for a year, but one bottle of your Sarsaparilla cured her. I have been in the practice of medicine for 15 years, and have never seen any thing so powerful to cure Syphilitic diseases as your Sarsaparilla, in a few weeks. I have been so frequently asked where I get my good medicine, that I have concluded to write you, and let you know that I am a constant user of your Sarsaparilla, and shall continue to use it, and recommend it to my patients.

Respectfully, G. V. LESSIER, M.D.

Rheumatism, Gout, Liver Complaint.

[illegible] Sir: I feel bound to let you know what I know of your Sarsaparilla. I have been a sufferer from rheumatism for a long time, which finally fastened itself upon my liver, and I was for a long time [illegible] and unfitted for business. I tried your Sarsaparilla, and have now been for two weeks, and rejoice in a thorough change for the better. I believe it is the best alterative medicine I know of. J. HEAD.

Office N. Gerhardt, of St. Louis, writes: "I have been for years with an affection of the Liver, which [illegible] Sarsaparilla. I have been a broken down man for years, and have taken more than a dozen of your Sarsaparilla, but I find your Sarsaparilla, that has done me more good than any other. I feel young again. The [illegible] to all others to use but good sarsaparilla."

Tumors, Cancer Tumors, Enlargement, Rheumatism, Costive and Exfoliation of the Bones.

[illegible] of cases have been reported to us where Ayer's Sarsaparilla completely has cured Scrofula [illegible] formerly, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

[illegible] of these affections have been [illegible] Sarsaparilla. It often [illegible] functions into vigorous action, and thus [illegible] which would be supposed to yield to [illegible] Sarsaparilla, because it could be known [illegible] and we are confident that this will [illegible] that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in Advanced Stages of the Disease.

This is a compound so universally known to surpass any other preparation that we need only remind the public of its virtues. It is adapted to all the affections of the throat, lungs, and pulmonary organs, such as Coughs, Colds, Influenza, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in Advanced Stages of the Disease. Its extensive employment by all classes, and its long continued success in curing similar complaints, have made it a household word in every family throughout the country. Its superior excellence, its decisive effects in the cure of the most dangerous pulmonary complaints, and its invaluable qualities as a family medicine, are fully established by the experience of its thousands of friends. Its virtues are known to our neighbors, and the people everywhere. Its reputation and the confidence of the community in its efficacy are such that we need only say we offer the best medicine we can make of the kind, and that we can prove its superiority by the testimony of those who have tried it. Its effects are so decisive and so well known to the people of this and other countries, that we do not hesitate to promise to cure all who put their trust in it, and we feel assured that those who have once tried it will not be disappointed in its effects.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its very simplicity, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the Proprietor, Wholesale and Retail, by HILDRETH BUTCHINGS, 4 Market street. apr24

The Best COOK STOVE
in the Market,
after all said,
is
STEWART'S
NEW, LARGE OVEN, AIR TIGHT,
SUMMER AND WINTER
COOKING STOVES,
For Wood or Coal,
IMPROVED IN 1859.

The peculiarities of the
STEWART COOK STOVE,
Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and smoulder and burn, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it be removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN OVEN, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c.

4. Also, by the aid of the TOP COVER, a coal fire may be kept up through the night, and breakfast and dinner prepared the next day with no addition of fuel.

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to support the heat upon the bottom of the fire, with no sacrifice of combustion.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE. It is to experiment, or non-tangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE,

Now in use, and has been widely tested
FOR TWENTY YEARS,

and not found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the STEWART STOVE of 1861, is as superior to that of 1841, as the Mowing Machine is to a Bush Scythe.

E. A. STEVENS' HOUSE FURNISHING ESTABLISHMENT,
No. 40 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.

MADE BY
THE BARSTOW STOVE COMPANY,
Of Providence, R. I.

The novel and peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3ft. long; or large enough to take six large plates on the bottom, every part of which will bake evenly, at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

6th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and ... jackets are provided for the back and bot ... plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves,

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

Reference is made to Messrs. J. Trundy, J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph E. Cate, Nathaniel Bennett, John Harrett, Phineas Nichols, Jas. P. Bartlett, Thos. Murphy, Geo. Rice, Benj. F. Cauney, Jos. B. Upham, John Senter, Wm. C. Newton, Cyrus Plummer, Wm. Bell, Capt. James Salter, Capt Wm. Lambert, Horton H. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Forgald, Benj. Chever, John Marden, Thomas E. Call, John H. Slater, of Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; H. L. Pollard, Raymond, Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The cut above shows the Two Ovens, and illustrates the plan for ventilating the Roasting Oven, which is both simple and effective. It also shows the manner of connecting the ovens. The cold air is admitted through the opening A, in the side, into a chamber formed by a double plate front of the fire. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and flues agree through two holes in the top of the oven, to the heated chamber over the fire, thus insuring at all times, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.

This stove was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

We have also a very beautiful new pattern COOK STOVE, called the

Modal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

PURE LIQUORS AND WINES
FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS in the business, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of Liquors and Wines for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require Pure Liquors or Wines in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and delicate females, children, the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Houses and Lands.

FOR SALE,
At a price to suit the times, the two-story DWELLING HOUSE and BARN, together with about 2½ acres of good land, on which the buildings now stand, and occupied by Capt. JOSEPH G. CHAMBERS, situated in Kittery, Me., on the road leading from Kittery Point to Portsmouth, N. H., about one-quarter of a mile from Pepperell Cove, and about two miles from the Navy Yard. The buildings have been erected within a few years, and are in good condition. For further particulars inquire of
GEORGE LITTLEFIELD,
nov7 Ogunquit, York, Me.

Desirable Residence for Sale.
The subscriber offers for sale his convenient and pleasantly located estate on Middle Road, formerly owned by the late Abel Harris, Esq.
The HOUSE contains Parlors, Dining Room, with ample sleeping apartments, and kitchen with water conveniently introduced. A well cemented Cellar extends until under the whole house. The stable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.
In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a very high state of cultivation, upon which are the choicest fruit trees of all kinds.
On the east side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY BARN, fronting on Park place, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.
Terms liberal. Apply at 91 MARKET ST.

NEW ENGLAND
Single Stitch Family Sewing Machine.
This little Machine stands confessedly at the head of everything now offered to the public.
In Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!
There is no complicated machinery to get out of order or perplex the operator.
It is made with special reference to the wants of a family; simple in its construction, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every FAMILY than any other machine now offered to the public.
Price only $12.
Table $6.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOVEMBER 20, 1861.

DON'T BE FRIGHTENED.—Some papers seem ready to go into fits or fidgets, if anything is done in the war way, which hits slavery a knock. One of them holds this brilliant language:—

"Put down the rebellion at any cost; but touch not the sacred temple of our liberties. Compromise our free institutions with tyranny but one hair's breadth—change one paragraph of our glorious Constitution—blot out a line of a freeman's prerogative wrung from oppression by the blood of liberty, and we will have no farther lot or part in the matter."

The reader would hardly suspect this to come out of the middle of a pro-slavery editorial, were it not for the single word *prerogative*—by which the writer evidently means the freeman's prerogative to hold slaves!

Notwithstanding all the fidgets, the peculiar institution is likely to get more knocks and harder ones than any it has had yet,—and the more its northern friends whimper about it, and the more they hang back, the longer the war will last, and the more the slave power will be damaged.

It made the rebellion and the war—and it must take its chance in getting out of the *melee generale*.

☞ The destruction of the long and costly bridge over the Cumberland river, just north of Nashville, will make it no longer possible to rush troops through at railroad speed from Manassas to Bowling Green. They must stop at Nashville, change cars, and be ferried across a deep river, with very inadequate means of transportation. Supplies, wagon trains, artillery, will have to be sent across in the same way.—But the moral effect is far greater than the material, inasmuch as it has created feelings of insecurity and alarm among the rebels. There are enemies in their midst, and they do not know whom to trust.

☞ It is rumored that Gen. McClellan had planned a grand flank movement a few days ago, but an ascension by Lowe in his balloon revealed the fact that the rebels had anticipated the flank movement—probably through the treachery of some one connected with the army. It is also said that Gen. McClellan asserts that the treachery must be astonishing in some quarter, for every one of his designs or proposed movements are very soon discovered by the enemy.

☞ Fifteen of the citizens of Freedom, over their own signatures in the Bangor Whig, deny that any outrages occurred on the occasion of the reception of Robert Elliot. "True," say they, "Mr. Elliot's friends were overjoyed to see him, but *no one was assailed*, not a pane of glass in the village was broken, nor a clapboard was scarred, nor a missile thrown against any dwelling."

☞ Mr. Edwin Forrest has commenced an action for libel against Mr. H. G. Parker, of the Boston Courier, basing it upon certain criticisms which have appeared in the columns of that journal. The Herald states that Messrs. Nixon, Mudge, and the Farwells, against whom Mr. Parker had previously brought suits for libel, have retained the Count Johannes as counsel.

☞ Miss Yonge, the popular English authoress, it is stated, has given $10,000, the profits of her "Daisy Chain," for the building of a missionary college at Auckland, New Zealand; and has devoted a great portion of the proceeds of the "Heir of Redclyffe" to fitting out the missionary schooner Southern Cross, for the use of Bishop Selwyn.

At Calais, recently, a boy about 8 years old, while playing near the railway track, stumbled and fell directly in front of a truck car attached to a train moving slowly. The car, weighing about a ton, passed over the boy's body, without doing him serious damage. In a day or two he was out as usual.—*Argus.*

DIVORCE.—The Supreme Court on Saturday decreed the divorce of Mary E. Vale Smith from her husband, Dr. M. G. Smith of Newburyport. The Court is doing a large business in this line, it not taking so long to go through a case as it does to marry a couple according to the church formula. *Newburyport Herald.*

In Norfolk, England, a woman was recently appointed parish clerk, because, in a population of six hundred souls, no man could be found able to read and write.

☞ D'Israeli, the English statesman and writer, is completely broken down in mind and body by the use of opium, and is nearly imbecile, with no prospect of recovery.

☞ The Supreme Court of New York has rendered a decision sustaining the old or Mayor Wool's police's claim to office and pay.

☞ The Memphis Appeal said after the battle of Belmont, that "Memphis to-day is like Rachel mourning for her children.—Business is generally suspended."

NEW HAMPSHIRE ITEMS.

—— The one hundredth birthday of Samuel Downing, a native of New Hampshire and an old revolutionary soldier, now residing at Edinburg, N. Y., is to be celebrated the last day of the present month by the citizens of the place, in a public manner, and the old veteran is to show his smartness by felling a large tree with his own hand. He was mustered into the continental service at Exeter, and served in the war of the Revolution three years and three months.

—— The Granite State News, published at Wolfborough, this State, is about commencing a history of that town.

—— Our New Hampshire men have not bowed respectfully enough to the reporters of the Boston Journal and the N. Y. Tribune. The reporter of the former, who was unfortunately on the ship with the Fourth, blows them up generally and particularly, and the reporter of the latter gives the Third particular fits on swearing.

—— A correspondent of the Manchester Mirror asserts that a man of wealth, in Antrim, recently compelled a stranger to leave his house, where he was passing the night, because that stranger wouldn't coincide with him in the "hope that Jeff. Davis would conquer the federal forces, and that our soldiers would find bloody graves on southern ground."

—— On Saturday, a teamster, John Duffey, of Derry, while on a load of timber, accidentally dropped a rein, and leaning forward to secure it, fell beneath the wheels, and was run over, breaking his right arm, right thigh and left leg.

—— Mr. Luke Hutchinson, a freight conductor on the B. & M. R. R. was run over at Plaistow, on Monday forenoon, by a brick train, and killed instantly. He was in the act of disconnecting the engine and tender from the main train, when it is supposed he fell under the cars. Mr. Hutchinson has been employed at the depot in Lawrence, Mass., for some time. He was about 25 years old, and leaves a wife to whom he was married about a year ago.

NAVAL. — Commander John Colhoun, late of the sloop-of-war Portsmouth, recently returned from the coast of Africa to the Portsmouth Navy Yard, has been ordered to the command of the receiving ship Ohio, at Charlestown, and reported for duty Monday morning.

The recent care and anxiety has so affected the health of Capt. Pope, of the steam sloop-of-war Richmond, that his physician urges his immediate return to the States.

The San Jacinto's officers are as follows: Captain, Charles Wilkes of N. Y.; Lieutenants, D. McN. Fairfax of Va., K. R. Breese of R. I., L. A. Beardslee of N. Y.; Assistant Surgeon, James W. Herty of Ga.; Paymaster, J. L. Brown of N. C.; 1st Lieut. of Marines, J. R. F. Tattnal of Ga.; Chief Engineer, J. Faron of N. J.; Boatswain, H. P. Grace of Mass.; Gunner, J. D. Boorom; Carpenter, W. F. Laighton of this city; Sailmaker, J. C. Boerum.

A lady suggests that those benevolent individuals who are knitting socks for the soldiers, would be greatly enhancing the value of their useful charity by placing in the toe of each pair a small ball of yarn and a darning needle.

Yes, but what if he didn't happen to detect the presence of the darning needle in the stocking, until he put his foot into it?

FATAL ACCIDENT.—A girl named Mary Dolan, 18 years of age, fell through the scuttle of a storehouse in Boston, Monday evening, from the fifth to the first story, and was instantly killed. Her father and mother were dependent upon her for support.

☞ C. F. Little, 1st Lieut. in the 12th Maine Regiment, is the fifth volunteer from the same family, which originated on Turkey hill, in Newburyport. Two of them are Massachusetts volunteers, and three from Maine.

☞ Henry P. Munsell of Wilbraham, Mass., a man 45 years of age, while gathering walnuts recently, fell from a tree a distance of 71 feet, injuring him so severely that he died the next day. He leaves a wife, who has been insane for some years, and four children.

☞ If the rebels should be wicked enough to hang Colonel Corcoran, the N. Y. Post says to them, that there are Irishmen enough in New York city alone, able and disposed to leave nothing of Charleston but the turkey buzzards.

MORE TROOPS.—It is reported in Washington that the President will soon issue a proclamation calling upon the Governors of the several States for 200,000 more troops, to be ready by the first of January next.

☞ The N. Y. World, speaking by authority, says: He who quarrels with the terms of Gen. Sherman's proclamation, quarrels with the declared policy of the Administration.

☞ The extra session of the Legislature of South Carolina, after sitting three days, adjourned *sine die* on the 6th inst., after choosing Presidential electors and ordering the banks to loan the State $300,000.

THE REBELLION.

The thirteen hostages to await the result of the trial of privateers at the North, are Cols. Corcoran, Lee, Cogswell, Wilcox, Woodbury and Neff; Majors Potter, Revere and Vodges; Captains Rockwood, Bowman and Zeffer.

The cargo of the steamer, said to have arrived at Savannah, is reported to be 10 rifled cannon, 28,000 stand of arms and a large assorted cargo of medicines, clothing, blankets, &c., The vessel cost $38,000, and is regarded as unsurpassed in speed. The commander is J. D. Bullock, formerly of the U. S. Navy.

A Washington dispatch announces that the War Department will soon issue a circular, addressed to the Governors of the loyal States, requesting the withdrawal of their agents for the purchase of arms, both at home and abroad, as a sufficiency of arms will be secured through its own agency to meet the demands which may from time to time arise.

About four thousand troops, including Nims' Boston battery, were to march from Snow Hill, Maryland, into Accomac and Northampton counties, Virginia, on the 17th. Accomac is prepared to array itself for the Union, but Northampton shows fight. Gen. Dix has issued a proclamation stating that the object of the advance of his troops is to maintain the authority of the Government; to protect the people and restore commerce to its original channels; that no one held to service under the laws of the State shall be interfered with, and that unless resistance is offered no fireside will be molested. The expedition is commanded by Brig. Gen. Lockwood of Delaware.

The Memphis papers express great alarm at our preparations for an expedition down the Mississippi, and demand that the entire reserves of the country shall be brought to bear against it.

Five hundred seamen, under command of Capt. Wainwright, left Washington Monday for Cairo, to join Com. Foot's flotilla.

The Atlantic arrived at New York, Tuesday, from Port Royal, 16th. The troo and nearly all the stores and ordinance had been landed: Beaufort had not been occupied, and continued deserted. The dispatch relative to the fleet being seen off Fernandina, bound South, is undoubtedly an error, as the Federal fleet remained at Port Royal on the 16th.

The surgeons of the Army of the Potomac are ordered to report to headquarters the number of soldiers in their respective regiments fit for duty.

The Times' dispatch says "there is an increasing confidence in the entire correctness of Capt. Wilkes' act. I am informed that Sec. Chase expressed the regret that he did not seize the Trent."

The statement that the President intends to call for 200,000 more volunteers is unfounded. When the half million called for by act of Congress have been recruited none will be received except in the regular service.

The New York Board of Aldermen have ordered a national salute to be fired to-day (Wednesday) in honor of the capture of Port Royal.

W. H. F. Walker, a rebel Brigadier General, it is stated, has indignantly resigned because Mansfield Lovell, a New York office-holder, was appointed over him. Benjamin, Sec. of War, in accepting his resignation, rebuked him for insulting language towards Jeff Davis.

Tenders of troops continue to be made to the War Department, and, probably before Congress meets, the half million authorized will be made up. Additional regiments of cavalry are declined, there being a sufficiency of that branch.

The guards have been withdrawn from the residence of Judge Merrick, who has resumed his seat in the Circuit Court Bench.

☞ In Holliston, Mass., on Monday, in broad daylight, a man by the name of Alvin Finch brutelly murdered Mrs. Reeves and her daughter, one in advanced years and the other in the prime of life, and burned the house in which they lived to the ground. The mother and daughter were occupied a small house of three rooms, and have sustained themselves principally by the needle. Two or three years since Finch came to this house, and since then has boarded quietly with them. But on this morning he made an assault on the women, striking them to the ground with two flat irons, one of which he held in each hand.—It was at first thought he was insane, but doubts of it are now expressed. He was brought before a magistrate on Tuesday, and pleaded guilty to the charge of wilful murder.

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 daw8m

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw8m

Local.

POLICE COURT.—One day last week, Mr. Ephraim Pickering, of Newington, entered a complaint before the Police Court, against Albert C. Pickering and Gilman Pickering for committing an assault upon him, and they were sentenced severally to pay a fine of $3, and one-half the costs,—taxed at $2.95. The circumstances of the case, as we understand them are, that the complainant was riding in a wagon, on his way to his home, when he found the way obstructed by the defts.—they being on horseback and stopping in the road to converse. He ordered them away, and on their refusing, endeavored to compel them to allow him to pass, by driving against them; whereupon they dismounted and pelted him with stones. He accordingly entered a complaint against them, and they were arrested and fined.

On Tuesday, Robert C. Smith, for being drunk on Pleasant street, was sentenced to pay a fine and costs—the whole amounting to $5.72.

John McDonnell was brought before the Court on Tuesday, after repeated warnings and cautions, and pleaded guilty to the charge of selling liquor. He was accordingly fined $50, and costs, $3.86,—which he paid.

Michael Demody, was charged with the larceny of a gold ring, valued at $8, but the evidence being deemed insufficient to hold him, he was discharged.

☞ The Fall term of the Eliot Academy and Normal School was closed last week by an examination highly satisfactory to the Trustees of the Institution, and others who were present.

On Thursday evening the scholars held a closing Festival in the Academy Hall, which was beautifully decorated with evergreens, flags, mottoes, &c., and well filled with the scholars, and their parents and friends. A table bountifully loaded with eatables, tastefully arranged, was spread through the centre of the hall, and the good things it contained partaken of with seeming good relish, in due season, after prayer by Rev. Mr. Holmes. The Saco Democrat says:—"remarks were made by Mr. Moore, Principal of the school, Rev. Otis Holmes, Chairman of the Trustees, Dr. C. H. Guptill, of Eliot, and John E. Rider, Esq., of Portsmouth, N. H. Mr. R. is a young man much interested in the cause of education and is at the present time an active member of the High School Committee at Portsmouth. In the course of his remarks he traced the progress of schools from the landing of the Pilgrims down to the present time. His remarks were able and attentively listened to.

A trio of singers were present from Portsmouth, N. H., viz: Messrs. J. W. P. Carter, L. S. Butler, and Dr. E. D. Goodall.—Their singing, which was interspersed between the speeches and other exercises of the evening, was of a high character, and added much to the enjoyment of all present. The audience felt grateful to them for their attendance."

☞ To-morrow, Thursday, having been appointed by Gov. Washburn as Thanksgiving in the neighboring State of Maine, all work, we understand, will be suspended on the Portsmouth Navy Yard during that day. This arrangement will be gratifying to many of the workmen employed there, who reside in that State.

The machinery of the new Steamer Kearsarge is nearly all put in, and a trial of it will be made at the Navy Yard on Saturday next.

☞ Preparations for winter have commenced at the Navy Yard, in the way of clearing up, housing timber, &c. A large number of carpenters are soon to be discharged, and there will probably be but one vessel built this winter, the keel of which is already being laid in the ship-house from which the Ossipee was launched. Upwards of two thousand names are upon the pay-roll of November next. We learn that hereafter payments are to be made monthly, in obedience to an order from Washington.

☞ Mr. Meinerth has recently taken quite a large series of views, for the stereoscope, of our principal streets, public buildings, private residences, &c., and has been eminently successful. They are admirably executed and our citizens would only consult their own interests, should they obtain of him pictures of places and scenes endeared to them by long acquaintance and hallowed by many pleasing remembrances, before they make selections from other collections, not better executed, and not more worthy of their attention, however strongly Fashion demands that they should purchase "foreign views."

☞ That Lebanon Cheese advertised by Messrs. Moulton & Blaisdell is as much better than your common brands, as the cedar of Lebanon is more beautiful and stately than a scrub pine. Try it.

☞ Capt. Andrew A. Harwood, Chief of the Bureau of Ordnance and Hydrography, visited the Portsmouth Navy Yard on Tuesday on his annual tour of inspection, and was received with the customary salute.

☞ Mr. Nathan Jones has removed his livery stock to his new and elegant stable on Vaughn street. Maj. Goodwin, of the City Hotel, we understand is to conduct the Stone Stable, for baiting and boarding.

☞ A rare opportunity to purchase an Oyster Saloon, or nice marble tables and other furniture and fixtures,—will be found among our Auction notices this morning.

☞ The workmen at the Navy Yard will to-day receive payment for the last half of the month of October.

☞ Miss Swain, the artist, of Newburyport, has taken passage in the steamer of this week for California.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction 1y

MOTHERS, OR YOU THAT HAVE THE CARE OF CHILDREN, know the difficulty of getting them to take medicine, and it is almost as painful to the parent to administer the doses, as to see the child suffer by disease, and you will hail with joy any discovery that will alleviate this difficulty, and at the same time be a more efficient agent to restore health. DOCTOR GIFFORD'S HOMEOPATHIC CURATIVES do this. Being as they are, simple medicated sugar pills, they can be administered to a child even when asleep without disturbing it, and the action of the medicines will in all cases be satisfactory. Children troubled with worms, colic, diarrhea, or teething babies, have a remedy here that is perfectly harmless and at the same time can be given without trouble, and are good in their results.

Sold by J. H. THACHER, 12 Market Sq., and corner State and Pleasant streets, Portsmouth; M. S. BURR & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me; or sent anywhere on receipt of price, 25 cts. per box. by

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT,
NEURALGIC RHEUMATISM,
SCIATICA AND
LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c., and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of the disorder.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory nature, and then attacks become a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather; thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he cheerfully recommends it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every reputed case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discoverable, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a return of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the inestimable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in ZOLLICKOFFER'S ANTI RHEUMATIC CORDIAL. Prepared only by THEODORE DILKS, Chemist.

N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

JAMES F. SHORES, JR.,
No. 1 Congress Block,
Agent for the State of N. H.
PORTSMOUTH, N. H., Sept. 17.

Morning Chronicle.

AN INVITATION ACCEPTED.—After the bombardment of Fort Sumter, the South Carolinians passed resolutions inviting the "mudsills" of Massachusetts to visit the classic shores of that State. The invitation has been accepted, and the Old Bay State takes the subjects of the rattlesnake flag at their word, by sending three regiments of her sons as guests for the winter.—*Albany Journal.*

Words are nice things, but they strike hard. We wield them so easily that we are apt to forget their hidden power. Fitly spoken, they fall like the sunshine, the dew, and the summer rain—but when unfitly, like *the frost*, the hail, and the desolating tempest.

Tom Hood says nothing spoils a holiday like a Sunday coat or a pair of new boots. To have time set easy, your garments must set the example. We always prefer our old "pants," in fact they are all we've got

ALLEGHANIANS AND SWISS BELL RINGERS.—Mr. D. G. Waldron, the agent of this troupe, is in Boston, on business connected with that popular company.

GENTLEMEN, YOU are hereby notified to meet at the Vestry of the South Meeting House, in said Ward, on the Fourth TUESDAY of Nov. inst. at ten o'clock in the forenoon, for the following purposes:

To bring in your votes for Mayor.

To choose by ballot two Aldermen, six Members of the Common Council, two Assessors of Taxes and one Overseer of the Poor.

To choose by ballot a Moderator, three Selectmen, and a Clerk of said Ward for the ensuing year, and any other officer required to be chosen.

Given under our hands and seals this 5th day of Nov. A. D. 1861.

RICHARD WALDEN,
STEPHEN SCRIGGINS,
JOSEPH G. CATE,
Selectmen of Ward No. Three in the City of Portsmouth.

A true copy.—Attest,
RICHARD WALDEN,
STEPHEN SCRIGGINS,
JOSEPH G. CATE,
Selectmen of Ward No. Three in the City of Portsmouth.

CHECK LIST NOTICE.

THE Selectmen of Ward No. Three, of the City of Portsmouth, give notice that they will meet at the Vestry of the South Meeting-House at 7 o'clock in the evening of Saturday preceding Tuesday, the 26th day of Nov. inst. (the day of Election,) and on the morning of the day of Election, from 8 to 10 o'clock, for the purpose of receiving evidence of the qualification of Voters, and of correcting the List of Voters by adding thereto such names as may have been omitted, and by erasing therefrom the names of those who have not a right to vote.

The List of Voters, as corrected, will be left with the Town Clerk of said ward, and at the store of Thacher Emery, (Pleasant street,) also at the office of the Clerk of the City of Portsmouth, for the inspection of the inhabitants, until the day of Election.

RICHARD WALDEN,
STEPHEN SCRIGGINS,
JOSEPH G. CATE,
Portsmouth, Nov. 6th, 1861. Selectmen of Ward 3.

HUTCHINS' HAIR DYE,
THE VERY BEST NOW IN USE, as many thousands who have tried it well testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It does not contain twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

The Best COOK STOVE in the Market, after all said, is
STEWART'S
NEW, LARGE OVEN, AIR TIGHT, SUMMER AND WINTER
COOKING STOVES,
For Wood or Coal,
IMPROVED IN 1859.

The peculiarities of the
STEWART COOK STOVE,
Embracing the Latest Improvements, briefly stated, are:

1. It is what it purports to be—AN AIR TIGHT COOKING STOVE. That is, when the draft is properly adjusted, wood will lie and *smoulder* and *char*, upon the grate, after the manner of a coal pit. Or, if the fire be of Anthracite Coal, by simply closing the draft, it will be effectually put out.

2. Combined with this, are the peculiar position of the fire-chamber, the general internal structure, and the outward movable coverings, by which means the heat of the stove may be confined within, or thrown off to warm the apartment, thus relieving females of the discomfort usually attendant upon carrying on cooking operations in summer, and securing the qualities of the brick oven so fully that the baking process may be carried through successfully without any one going near the stove, from the time the article is set in until it is removed from the oven.

3. The stove is accommodated to the reception of a permanent RESERVOIR, (of copper, with a tin casing,) containing from 10 to 20 gallons, by which the waste heat, in passing off, is made available to keep on hand a constant supply of hot water. The space beneath the reservoir is occupied with a TIN CLOSET, where articles ready for the table are placed to keep warm, bread set to rise, fruit dried, &c

4. Also, by the aid of the TOP COVER, a cool fire may be kept up through the night, and *break fast and dinner prepared the next day with no addition of fuel.*

5. Roasting is performed in the most perfect manner in front of the stove, with a DUTCH OVEN prepared for the purpose—the heat being communicated to it from both sides of the fire box; and the fumes, the meanwhile, passing into the draft.

6. A NOVEL PLAN OF VENTILATION is adopted, by which two kinds of meat may be roasted in the oven at the same time, without imparting the peculiar flavor of one to the other; and the current instituted for this purpose made subservient to augment the heat upon the bottom of the oven, with no increase of combustion.

But we cannot, and need not, enumerate in detail, the excellencies of THE STEWART STOVE It is no experiment, or new-fangled notion got up to gull the public, to which we invite your attention; but

THE STANDARD COOK STOVE.

Now in use, which has been widely tested
FOR SEVENTEEN YEARS,
and now found wanting in any particular. Yes, the Stewart Stove has been manufactured and used for a score of years; but the inventor has kept pace with the times, and repeatedly made improvements—so that the Stewart Stove of 1861, is as superior to that of 1844, as the Mowing Machine is to a Bush Scythe.

HAS NOT BEEN EXCELLED, yet, as a Family Stove. For further particulars, and to see the best Stove in the market, please call on

Uriah Blaisdell,

STOVES.

THE MAGEE PARLOR
VENTILATING AND GAS-CONSUMING
STOVE.

We deem it unnecessary to enlarge upon the good qualities of this Stove, believing it to be too well known to need any recommendation from us, further than to say that it has been greatly improved in its appearance and thoroughness of operation, being made more durable, and of more ingeniously constructed and ventilated OVEN attached

We have on hand many other kinds of COOK STOVES, which are well known in this vicinity, among which are

THE GOOD SAMARITAN,
BOSTON AND MAINE,
TRIUMPH, CLIPPER,
EMPIRE STATE,
KITCHEN QUEEN,
DAYLIGHT,
WHITE MOUNTAIN, &c.,
For Wood or Coal.

We also offer for sale, the COUNT, SPARTAN, CORAL, FAVORITE, TRIUMPH, LEADER, &c., with a variety of SHEET IRON STOVES, with or without ovens; CYLINDER AND BOX STOVES, of all sizes and prices, and a general assortment of

HOUSE-KEEPING ARTICLES,

All of which will be sold at prices to suit the times.

JONES & BOLLES, 61 Market St.

1861. MAGEE'S PATENT COOKING STOVE. 1861.

THE GREATEST INVENTION OF THE AGE.

MAGEE'S
PATENT COOKING STOVE
For Wood or Coal,
Operating on the same principle as the celebrated
MAGEE PARLOR STOVE.

This beautiful COOK STOVE is now offered to the public with entire confidence in its being the BEST OPERATING, MOST DURABLE and ECONOMICAL Stove ever invented, requiring **one-third less Fuel** than any other Stove in the market, to do the same amount of cooking; and *the fire may be kept in it the entire season, without going out.* The public are invited to call and examine this Stove, which is all that is necessary to convince any person that it has no superior, and cannot be beat. And we predict for it that popularity and immense sale which has attended the MAGEE PARLOR STOVE since its introduction into this market.

"Every Stove is warranted to give ENTIRE SATISFACTION in every particular."

Jones & Bolles, No. 61 MARKET ST., Portsmouth.

E. A. STEVENS'
HOUSE FURNISHING ESTABLISHMENT,
No. 16 Market Street, Portsmouth.

THE MODEL COOK STOVE, FOR WOOD OR COAL.

MADE BY
THE BARSTOW STOVE COMPANY,
Of Providence, R. I.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster, or (by the removal of a simple plate) in connection with the larger oven, for baking, giving an oven nearly 3ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is more durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking over.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other conveniences are placed on the top of the stove, while, at the same time, the stove occupies no more room on the floor.

6th. The stove is made in the most thorough manner; the doors and roasting oven are lined with tin, and the jackets are provided for the back and both side plates. A hot closet and tank can be added if required. With any reasonable care, the stove will last a life-time, and we know it to be "perfect in its operation."

We might make extended notice of some other things peculiar to this stove, as compared with other high priced Air Tight Cook Stoves,

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be the stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

Reference is made to Messrs. J. Trundy, J. M. Mathes, N. K. Walker, C. C. Jackson, C. H. Mendum, James F. Shores, Geo. Whitehouse, Joseph K. Cate, Nathaniel Dennett, John Harrett, Phineas Nicholds, Jas. P. Bartlett, Thos. Murphy, Geo. Rice, Benj. F. Cauney, Jos. B. Upham, John Senter, Wm. C. Newton, Cyrus Plummer, Wm. Bell, Capt. James Salter, Capt. Wm. Lambert, Horton D. Walker, Capt. James M. Hill, Albert W. Ham, Wm. D. Fernald, Benj. Chesver, John Marden, Thomas E. Call, John H. Slater, of Portsmouth; Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; R. I. Pollard, Raymond, Robert F. Gerrish, Kittery; Nath'l F. Berry, Gosport, and many others who are using the Stove.

The cut above shows the two Ovens, and illustrates the process of obtaining the Roasting Oven, which is both simple and effective. It also shows the manner of connecting the ovens. The cold air is admitted through the opening A in the side, into a chamber formed by a double plate front of the fire. The air, after being heated, is passed through the oval opening in this plate, into the oven near the top, and thus egress through two holes in the top of the oven, into the heated chamber over the fire, thus nearing in all times, by a circulation of heated air through the oven, a perfect removal of the fumes and smoke. To connect the two ovens, remove the division plate, D.

This store was thoroughly tested before being brought into the market, and we know that all that is said of it will be found true on trial.

☞ We have also a very beautiful new pattern COOK STOVE, called the

Medal Range;

Of which very many are being sold. It works well and comes cheap, and is well suited for a small family.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would ask the attention of those of more than FORTY YEARS as Importers, is not only sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for Private Use; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEEKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure fermented juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of alcohol or other liquor, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a bloom ing, soft and healthy skin and complexion.

WE REFER TO

A few well known gentlemen and physicians, who have tried the Wine.

NEW ENGLAND
Single Stitch Family Sewing Machine.

This little Machine stands confessedly at the head of everything now offered to the public.

Its Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of EVERY FAMILY than any other machine now offered to the public.

Price only $12.

Table $6.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, NOVEMBER 21, 1861.

SERFDOM AND EMANCIPATION IN RUSSIA.—There are among the Russian Nobility some who possess from 70,000 to upwards of 100,000 serfs. Count Schermetyeff is considered the richest nobleman in Russia. He possesses 120,000 serfs, amongst whom are several whose wealth amounts to millions. His annual income amounts to a million and a half of silver rubles (£250,000). Every serf pays to his master from 10 to 15 rubles annually, so that the annual income of a possessor of 100,000 serfs cannot be less than £40,000, independent of the income he derives from forests, mills, fabrics, &c. The total number of serfs now in Russia is upwards of 23,000,000, and taking the value of each serf at only 300 rubles (£50) the loss sustained by the emancipation is certainly not less than £1,150,000,000, or half as much again as the National Debt of this country. Taking the interest at 5 per cent., the loss of annual income to the nobility cannot be less than £67,000,000, or nearly double the interest we pay for the National Debt.—*Once a Week.*

Uncle Toby remarked, as he read the above, that while the nobility or serf holding aristocracy *lose* all this great income, the democracy *gain it*, in the privilege or power, to spend their earnings on themselves, instead of their masters. If the serf was worth 50 pounds sterling or $250, to his master,—perhaps he may be worth $300 to himself,—and so the *country* will not suffer, though the aristocracy may come down a peg.

The same considerations may be applied to this country, to comfort those troubled people who think the nation would be ruined by the downfall of slavery.

We remember, perfectly well, that in the British parliament, and in many books and papers, all sorts of horrible things were predicted, in case West India slavery should be abolished. Nevertheless, the deed was done,—and not one of the horribles has occurred. Some planters were impoverished, and some incomes cut short: but the world has gone on quite as well with a million of freemen, as it did with 800,000 slaves,—and on the whole, somewhat better.

Cause and effect, freedom and bondage, right and wrong, are nearly the same in Russia, Jamaica and Carolina. And we don't see, when Jamaica and Russia go ahead, why Carolina should go astern.

☞ We are informed that Mr. William Adams, Jr., Shipping Master, of Boston, has taken rooms in connection with the U. S. Naval rendezvous in this city, and is desirous to enlist 1000 landsmen and ordinary seamen. Minors must bring certificates of their parents' consent to their enlistment.—Mr. Adams is prepared to furnish outfits immediately to all, and will thus save those who ship at his office, from much inconvenience and discomfort incident upon the former mode of enlistment,—as the outfit was not then furnished until the recruit was on board the receiving ship at Charlestown, Mass. The recent brilliant achievement of our naval force at Port Royal, has awakened a renewed interest in this branch of the service; as the location of the office is now on this side of the river and, the reputation of the officers who have the matter in charge has been won by an experience of many years, we doubt not large accessions of recruits will be made in this city and vicinity.

☞ Does any body remember the bluster which the old rebel Mason made in the U. S. Senate, about the John Brown affair? and the fact that Dr. Samuel G. Howe was sent for, but did not come, being in Canada. Dr. Howe is now one of the Sanitary Commission. When he was lately in Washington, he observed to the War Department, that the Hospitals there, being dwelling of the ordinary structure,—did not have proper means of escape, for sick and wounded men, in case of fire—recommended the immediate construction of escapes—and the thing was done. Very recently, the principal hospital was burnt, but the people were *all saved*, by means of the new escape: without it, few would have been got out.

☞ At a recent Freemasons' dinner in Leicestershire, England, Earl Howe, who was in the chair, contradicted in the most authoritative manner, all the rumors touching domestic disagreements between the Princess Royal of England and her husband, Prince Frederick William of Prussia.

☞ Grace Greenwood's Little Pilgrim, for December, contains a fine story The Conscript, written by herself. The Little Pilgrim is "the best child's paper or magazine in the country;" it is eminently patriotic.

As the North has shared in the "glory and shame" of establishing, and in the profit of employing slavery, so will the North share in the disasters consequent upon its violent end.—*Courier.*

Throw a piece of meat among bears and a purse of money among men, and which will behave most outrageously—the men or the beasts?

NAVAL.—Mr. Frederick L. Miller, of Salem, 3d Assistant Engineer, has been ordered to the Kearsarge.

NEW HAMPSHIRE ITEMS.

—— The tent of Capt. Freschel, of the 7th Regiment, was burnt on Monday, at Manchester, producing quite a sensation temporarily. No damage was done beyond the loss of the tent.

—— William Sherrer, of Capt. Bagley's Company, 4th Regiment, died of fever on the passage and was buried in the sea. He belonged in Manchester, and formerly lived in Derry and Goffstown. He leaves a wife and five children in needy circumstances.

—— Capt. A. B. Jones, of our first company of Sharpsooters, has been appointed Major of one of the Regiments of his Brigade. Lieut. Charles Holmes of the Goodwin Rifles, 2d Regiment, has been promoted to a captaincy in the Seventeenth U. S. Regular Infantry, for gallant conduct at the battle of Bull Run, where he was wounded in the shoulder.

—— Gov. Berry has issued a General Order stating that "a bounty of five dollars will be paid for the arrest of each deserter, and all recruiting officers will endeavor to secure any enlisted man who deserts his Regiment, making a report at once to the Adjutant General. No bounty, for enlisting, will be paid by the State after the Regiments and Companies now forming are complete."

—— Appleton Academy, at New Ipswich, is said to be in good condition.—Whole number of scholars for the year, 296.

—— It is stated that the Sixth Regiment, Col. Converse, in camp at Keene, is nearly full, and that they are to be armed with Sharp's rifles, and to be attached to Berdan's brigade of sharp-shooters. The 7th Regiment, Col. Putnam, in camp at Manchester, is said to be full. This regiment is equipped by the U. S. Government, having been raised under its direct authority. The 8th Regiment, Col. Fearing, in camp at Manchester, has over 700 men enlisted.

PROF. GARDNER.—The city is on the *qui vive* in regard to the Lecture to be delivered in the Temple by this gentleman.—He will undoubtedly have a great audience, as the admission is to be free. He created a great sensation at the Court House on Monday evening, when our citizens were assembled to nominate a Mayor. The Professor was called upon for a speech, and responded in a happy address, which brought down the house in thunders of applause,—and at the conclusion of his remarks was greeted with three rousing cheers.

COL. MILES, who commanded the reserve which ought to have reinforced our little army at Bull Run, and so covered the retreat and prevented the panic, has come out of the court of inquiry as he went in,—a man on whose maudlin head must rest a dreadful burden of guilt.

The court find—1st, that Col. Richardson was *justified* in applying the term *drunkenness* to Miles' condition on the 21st of July; 2d, that Miles had been ill, and was then; and that the surgeon, on the day of battle, prescribed for him small quantities of brandy—though the court considers his illness as a *very slight extenuation of the guilt attached to his condition* about 7 P. M., on the 21st of July; and 3d, as evidence cannot now be found sufficient to convict Col. Miles of drunkenness before a court martial, and as a court martial cannot be convened for this trial without great inconvenience to the service, further proceedings had better not be had.

Why could not a court martial convict him? One reason is, because many officers are drinkers themselves.

But let every officer and every soldier consider that there is more real danger in the bottle than in the rifle of the enemy—and let young men in civil life avoid that which unfits men for any important duty or trust.

☞ Don't forget the Hutchinsons' Concert to-night. John is one of the originals, and has a new and excellent "family" of singers of his own—which we believe has never appeared here, but which is cordially received all about. Tickets only 15 cts., at which rate our people ought to fill the Temple.

TO OPIUM EATERS, ARSENIC TAKERS, &c.—These unhappy sufferers are informed that such habits are "broken up" with comparative ease, under the vitalizing health-sustaining effects of Motorpathy, mountain air and hot and cold baths. The low-spirited, dyspeptic, nervous and organically weak, also find in this treatment the invigoration so much needed. In the cure of sleeplessness, debilitating dreams, loss of memory, and oppression of the head, its success is unparallelled. A circular, sent free on application, giving information of this system, and of the Oriental Turkish and Russian Baths, in use at the Round Hill Water Cure in Northampton, Mass., is particularly commended to the notice of the profession. Those acquainted with this practice recommended it to persons beyond the reach of home prescription, and have kindly given their names as reference in individual cases.

Terms reduced to $7 and $10 per week.

POLICE COURT, Wednesday.—R——M——, for selling liquor was bound over to the April term in the sum of $200.

THE REBELLION.

Kentucky and Tennessee.—Letters published in the Cincinnati papers and written by those engaged in the fight of Piketon show that the rebels had 740 men—615 infantry and 125 cavalry. The National forces, under Gen. Nelson, came upon them as they lay in ambuscade, and in the brisk encounter which followed, thirty-two rebels were killed and nine taken prisoners, while the Union troops lost four killed and had twenty-four wounded, two of whom died.—The fighting lasted one hour and twenty minutes, and ended in the complete rout of the rebels. On the succeeding day the National forces occupied Piketon without further opposition.

The Memphis Appeal of the 13th acknowledges a rebel loss at Belmont of 625 killed, wounded and missing, and reports the Federal loss at 1000.

The Memphis Appeal says the journey from Richmond to Memphis occupies four days, owing to the destruction of bridges in East Tennessee. Two of these bridges were costly, and cannot be speedily built. The railroad managers keep up communication by ferries and temporary bridges.—There is great excitement along the road, especially at Knoxville. Parson Brownlow had left for parts unknown. Five hundred Unionists were reported at Uniontown when the bridge was burnt. Gen. Josiah Anderson, a prominent East Tennessee rebel politician, was killed at the polls on election day. Several skirmishes between Unionists and secessionists are reported.

The rebel Zollicoffer is said to be at Cumberland Gap with 5000 troops, and a brigade of Tennesseeans under Gen. Carrol had orders to reinforce him.

The explosion of the large gun at Columbus killed eight men including three officers. Gen. Polk was laid up several days by its concussion.

Gov. Harris of Tennessee, in a proclamation on the 12th, urgently appeals for private arms to arm five regiments now in camp, and threatens peremptorily to disband them if no arms are furnished. The Legislature on the 13th passed a law authorizing the Governor to seize all private arms and to call 10,000 men into service.

Missouri.—A Kansas City dispatch of the 18th, says a party of Jennison's men left there on Saturday for Pleasant Hill, and succeeded in recapturing 22 wagons and 200 oxen belonging to a Government train, reported to have been burnt by the rebels of that place.

Virginia.—Troops continue to pass through Richmond Northward. The 4th Texas and 21st Georgia left on the 28th ult., for the Potomac.

All the Federal prisoners are being sent to North Carolina.

The rumor that Gen. Lee had left Southwestern Virginia for South Carolina is confirmed.

Gen. Floyd again commands the rebel force opposed to Gen. Rosecrans.

Gen. Wise is convalescent.

The Richmond Enquirer publishes for the first time the official proceedings of last spring's Virginia Convention. It is full of interesting developments.

Dispatches from Gen. Dix state that the rebels have dispersed in Accomac county, Va., and though they may rally in Northampton county they can make no successful stand. The Union men were buying and preparing National flags to throw out as soon as the troops arrived.

Everything in the shape of locomotives, machinery, &c., belonging to the Baltimore and Ohio Railroad have been removed by the rebels and taken in the direction of Winchester. Even the double track for twenty miles has been torn up.

Washington.—By direction of the Government the oath not to bear arms against it has been administered to 29 rebel prisoners at the old capitol. Another has signified his desire to take the oath of allegiance.—These proceedings are preliminary to their release for an equal number who have been released by the rebel authorities.

General Fremont is expected in a few days.

The household effects of the late Senator Douglas sold at a good price.

South Carolina.—A letter from Charleston, dated Oct. 3, to a gentleman in England, represents the condition of affairs as deplorable; business prostrate; provisions at starvation prices, and no prospect of a change for the better.

The position of our troops is considered safe. Extensive works are rapidly progressing, guns are being mounted, and the entrenchments extend to Seville, five miles from the fort on Hilton Head.

A Port Royal letter of the 16th states that Gen. Sherman on 14th sent his aid, Lieut. Wagner, under a flag of truce to carry his proclamation to the people of South Carolina. He was accompanied by Dr. Bacon. He proceeded within two miles of Gardner's Corner, a place opposite Port Royal Ferry, said to be occupied by the rebel troops. There he had an interview with two rebel officers. They admit that the depredations on Beaufort were the work of the blacks, and exculpated our forces from any complicity. On his return he met a squad of secession cavalry, who gave him fodder for the horses of himself and Dr. Bacon.

Advices from *Fort Pickens*, Nov. 7, say no new prizes had been taken.

The attempted attack on Wilson' Zouaves is confirmed. The rebels were shelled by the Colorado, and retreated to Pensacola. The health of Wilson's Zouaves was excellent.

Washington dispatches of Wednesday represent Lord Lyons rather belligerent in his private talk over the seizure of Slidell and Mason,—and that he says the United States must yield them. [We think not.]

It was rumored in Gen. Porter's division that the rebels had moved down toward our lines, two miles this side of Vienna, and that the purpose of their movement was to seize all the forage beyond our lines in the vicinity.

The Times' Port Royal correspondent says the fleet is to be divided, and transports are to convey six thousand men to open another port. The Wabash and Susquehanna and the other men of war, accompany the expedition, leaving only two gunboats there. The transports are now taking in water for fifteen days. There is sufficient cotton there and on Pope Island, unginned, to make three thousand bales, and the corn houses are filled to the top, say ten thousand bushels in the ear.

The cotton fields remain as they were found after the battle. The names of the negroes employed by Gen. Sherman have been duly enrolled, and they are to be paid for their sevices. The majority of the contrabands, however, are at Beaufort, apparently delighted with the riot and pillage which it has placed in their reach. A "contraband" from Roanoke Island reported that the rebels had destroyed their fort and were about to withdraw to the main land.

The rebels have a powder mill at Mississippi city that turns out 1800 pounds of powder a day, and are also casting large rifled cannon at the foundry in New Orleans.

The arrest of Mason and Slidell has greatly excited the rebels, who rejoice in the hope that England will retaliate.

The rebel Congress met in Richmond on the 18th, without a quorum.

The Provost Marshal sent a large police force to Miller's Hotel in Baltimore, and seized the whole establishment, horses, contents of the bar-room, etc. It was done to prostrate the mail arrangements of rebel sympathisers, there being a regular communication kept between this house and Virginia.

QUEEN VICTORIA'S PROCLAMATION OF NEUTRALITY.—It would seem that the captain of the British steamer Trent had not properly studied his Queen's proclamation of neutrality when he took the rebel agents and their dispatches on board. The document, issued May 18, 1861, contains the following language:—

"And we do hereby warn all our loving subjects, and all persons whatsoever entitled to our protection, that if any of them shall presume, in contempt of this our royal proclamation and of our high displeasure, to do any acts in derogation of their duty as subjects of a neutral sovereign in the said contest, or in violation or contravention of the law of nations in that behalf, as for example and more especially by entering into the military service of either of the said contending parties, * * * *or by carrying officers*, soldiers, *dispatches*, arms, military stores or materials, *or any articles considered and deemed to be contraband of war, according to the law or modern usages of nations*, for the use or service of either of the said contending parties—all persons so offending will incur, and be liable to the several penalties and penal consequences by the said statute, or by the law of nations in that behalf imposed or denounced. And we do hereby declare that all our subjects and persons entitled to our protection who may misconduct themselves in the premises *will do so at their peril*, and of their own wrong, and that *they will in no wise obtain any protection from us against any liabilities or penal consequences, but will, on the contrary, incur our high displeasure by such misconduct.*"

☞ A daughter-in-law and a daughter of the late British novelist, G. P. R. James, will open a select school in Detroit, Mich., on the first of January.

☞ Ship-building on the Western lakes is remarkably brisk. At Cleveland more than a dozen vessels are progressing, ten of them barks.

THE DEPARTURE.

A PAIR of women stood around,
They wept, with cloths a drying,
"Fair ladies," said I, "don't I pray,
Inflame your eyes with crying."

"O yes!" said one, "if you were I,
You'd not feel so elated,
If you had lost the Adjutant,
You would be agitated."

"Oh, dear, Oh, dear!" another sobbed,
"Don't speak of perturbation.
My love's a commissariat,
I want commissaration."

"You wretch"—another said—"to smile
At other folks' disaster,
How can I master these my tears,
Who love the Quartermaster?"

"O cruel man"—the fourth one said—
"May your heart upraid you;
For I, since my majesty,
Have loved the Sergeant Major."

"It's you, is it," another gulped—
"That talks so fine and vaunty;
If your love a Sergeant was,
You wouldn't be Sir, jaunty."

The rest with sobs and sighs did tell
Of all their sad relation;
And it was love of privates made
The sum of their privation.

The world is full of groans and sighs,
And tears all eyes will rim in,
As long as one half's made up of men,
The other half of women.

A HOUSE WARMING.—Fort McClary has for the past two months been undergoing a thorough renovation. The Block House or Castle has been painted, inside and out; large and elegant rooms have been arranged for the officers, and new furniture furnished for their convenience and comfort. The time-worn Barracks, which for years have been inhabited only by bats and rats, have been remodeled and now present a fine suite of rooms for the privates, consisting of sleeping rooms, dress room, parlor and kitchen. The alterations have been made under the direction of C. W. Pendexter, Esq., of this city, and are well carried out.

The company at the Fort is under the command of Capt. Ira Andrews of Biddeford. They have lately been mustered into the United States service, and are soon to don the new U. S. Regulation uniform.

The completion of the work was appropriately celebrated on Monday night, by an old-fashioned house-warming. A number of our citizens, both civic and military were in attendance to enjoy the hospitalities of the Commander, together with the lads and lasses of the neighboring village. The guests were agreeably entertained during the first part of the evening by the privates of the company, who had very creditably arranged an impromptu concert in their quarters, which was listened to with marked attention by all. After taking a survey of the new rooms, the company adjourned to the dining-room, partook of a bountiful and elegantly served supper, after which, toasts and speeches by the company, appertaining to the spot and times, closed up the festivities of the evening. REPORTER.

☞ The Atlantic Monthly for December, contains a full table of fresh and readable articles, fit for the times. Among them "England and Emancipation," and "Self-possession *vs.* Pre-possession," deserve special commendation.

☞ The Philadelphia Press estimates that seven hundred slaves have reached that city, within a few months, from Virginia, Maryland and Delaware. On Tuesday last thirty-seven arrived.

L. LAIGHTON.

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

MOTHERS, OR YOU THAT HAVE THE CARE OF CHILDREN, know the difficulty of getting them to take medicine, and it is almost as painful to the parent to administer the dose, as to see the child suffer by disease, and you will hail with joy any discovery that will alleviate this difficulty, and at the same time be a more efficient agent to restore health. DOCTOR GIFFORD'S HOMEOPATHIC CURATIVES do this. Being as they are, simple medicated sugar pills, they can be administered to a child even when asleep without disturbing it, and the action of the medicines will in all cases be satisfactory. Children troubled with worms, colic, diarrhea, or teething babies, have a remedy here that is perfectly harmless and at the same time can be given without trouble, and are good in their results.

Sold by J. H. THACHER, 12 Market Sq., and corner State and Pleasant streets, Portsmouth; M. S. BURR & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland. Me; or sent anywhere on receipt of price, 25 cts. per box, by PHILLIP LEE, 130 William St.,

ZOLLICKOFFER'S

ANTI-RHEUMATIC CORDIAL

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, AND RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA AND LUMBAGO.

Of all the diseases incident to the human family, there is none, perhaps, which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as **RHEUMATISM** in its various modifications. Medical writers, and the faculty in general, have entertained different views as to the cause of this painful malady, and hence the variety of compounds of one kind or other which have been presented to the public as curatives.

Rheumatism, as well as Gout (which latter is but a more aggravated form of what is commonly understood as Rheumatism), would seem to result from a peculiar diathesis or inflammatory condition of the system, originating in a diseased state of the blood. It usually affects the larger joints, as the ankle, knee, elbow, shoulders, &c, and manifests itself in Neuralgic pains, Sciatica, Lumbago, and other forms of this character.

Sometimes, through negligence, or the inadequacy of the remedies applied, it assumes a decided inflammatory feature, and then often becomes a constitutional affection, permeating every muscle, and exposing the surface to a most painful sensitiveness to every change in the weather, thus seeming to preclude all prospect of a restoration to health.

The almost exclusive and indiscriminate use of *external* applications, such as fomentations, stimulating embrocations, blistering and warming plasters, bleeding, cupping, and leeching, have in most cases proved ineffectual, merely transmuting the disease from one part of the system to another. The ANTI-RHEUMATIC CORDIAL, on the contrary, is altogether an *internal* remedy, and is intended to strike at the root of the disease. It is a new and original preparation, invented by the subscriber, and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever

It is not pretended, however, that this Cordial will cure every case of Rheumatism that may be presented, although the results have hitherto been such as would justify every one afflicted by it in making the trial; and where even the most remote benefit is discernible, it may then be fairly inferred that a cure will be effected, providing the directions be steadily and perseveringly adhered to, both as to the time of taking it, and the quantity used.

It is a singular fact, that advanced age appears to be equally as susceptible to the benefits derivable from its use as youth, or those in the meridian of life. We have a number of instances of persons ranging from sixty to upwards of eighty, who, having been many years the subjects of Rheumatism, in one or other of its varied forms, have by using a few bottles been completely restored—their whole system invigorated, and, as a matter of course, their general health greatly improved. We have rarely known a case of the disease after it has been subdued by the use of this Cordial, even though the patient may have been exposed to the vicissitudes of wet weather; when, however, there have been any slight indications of "the old complaint," a few doses have produced the most happy effect.

The subscriber can furnish a long array of names of the most prominent and influential citizens, who can testify to the incontestable efficacy of this invaluable compound, and who are willing that their names should be placed before the public, in order to inform those who are afflicted with RHEUMATISM in its various phases, that there is a sovereign remedy in "ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL." Prepared only by THEODORE DILKS, Chemist,
N. E. cor. Pine and Sixth sts., Philadelphia.

This article has been used in this city and vicinity during the past year, by many persons; and with results that fully justify the above recommendation of the manufacturer. A fresh supply just received by

JAMES F. SHORES, JR.,
No. 1 Congress Block,
Agent for the State of N. H.
PORTSMOUTH, N. H., Sept. 17.

MILLER.

Portsmouth, Sept. 14, 1861.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm; improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, is invaluable as a tonic, when spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
A few well known gentlemen and physicians, who have tried the Wine.

Desirable Residence for Sale.

The subscriber offers for sale his convenient and pleasantly located estate on Middle Road, formerly owned by the late Abel Harris, Esq.

The HOUSE contains Parlors, Dining Room, with ample sleeping apartments, and kitchen with water conveniently introduced. A well cemented cellar extends under the whole house. A suitable and carriage house, upon which a liberal outlay has just been made, are conveniently arranged.

In the rear, and on the western side of the house, are attached ten acres of excellent LAND in a very high state of cultivation, upon which are the choicest fruit trees of all kinds.

On the east side of the house is a FIELD of nine acres, well adapted for raising hay or for building purposes, on which is a HAY BARN, fronting on Park place, capable of containing twenty-five tons of hay. The premises are all in excellent order, and can now be examined.

Terms liberal. Apply at 91 MARKET ST.

NEW ENGLAND
Single Stitch Family Sewing Machine.
This little Machine stands confessedly at the head of everything now offered to the public.
In Cheapness, Simplicity, Compactness, Durability & Beauty,
IT HAS NO RIVAL!
There is no complicated machinery to get out of order or perplex the operator.
It is made with special reference to the wants of a family, simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every family than any other machine now offered to the public.
Price only $12,
Table $8.....Hemmer $1

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, NOVEMBER 22, 1861.

SEIZING AMBASSADORS.—There need be no doubt that Com. Wilkes acted legally in taking Mason and Slidell from the Trent. The Caroline, reported in Vl. Robinson 461, is the case of an American ship which was captured, having on board dispatches from the Minister and Consul of France, in the United States to the Government of France. Ship and cargo restored on payment of the captor's expense. Sir William Scott says:—"Persons discharging the functions of ambassador, are, in a peculiar manner, objects of the protection and favor of the law of nations.—The limits assigned to the operations of war against *them*, by Vattel and other writers upon those subjects, are, that you may exercise your right of *war against them*, wherever the character of hostility exists; *you may stop the ambassador of your enemy on his passage;* but when he has arrived, and has taken upon himself the functions of his office, and has been admitted in his representative character, he becomes a sort of *middle*-man, entitled to peculiar privileges, as set apart for the protection of the relations of amity and peace, in maintaining which all the nations are, in some degree, interested."

A STRONG PRECEDENT.—In 1837, when the Canadian rebellion was at its height, the British Col. McNab, sent an armed force to Fort Schlosser, on the American side, and captured the American steamer Caroline, which had been suspected of carrying warlike stores to the rebels. In the capture they killed Amos Durpee, one of the crew, set the vessel on fire, and sent her down over Niagara Falls.

Our Secretary of State protested, but Mr. Fox the British Minister, justified it,—said the Caroline, by helping the rebels, was a *pirate*, and as the United States did not prevent it, Great Britain was compelled to do it, in self-defence. The matter was reported to Lord Palmerston, in London, and he fully sustained Mr. Fox's view of the case.

The British Government went further, and gave Col. McNab an order of knighthood, for this very exploit. Not only so.—When the U. S. Government had arrested Alexander McLeod in 1840, for arson and murder, committed in the capture and burning of the Caroline, the British Government interfered and said if McLeod was one of those who captured and burnt the Caroline, he *must be released*, because he acted under the orders of the British Government, and was therefore not personably liable, but the nation took the responsibility!

By some leak in the trial, McLean was not convicted. But we got no redress, no apology,—on the contrary the Britons, by Lord Palmerston, said *they did right*, and would do it again, when it should be called for.

With this precedent, if these were no other. Com. Wilkes is right, and might have gone further:—and Lord Palmerston, who is now in the British Cabinet, will surely be bound by his own rule.

CHAOS COME AGAIN.—In Missouri, as we learn by a dispatch from Jefferson City, Nov. 20, the withdrawal of our army, (late Fremont's) has been attended with bad consequences. The dispatch says:

"The old terrors have settled down on the counties of the Southwest, since the retrograde movement of our army, and refugees are beginning to arrive again, driven to this course for fear of being taken prisoners by the rebels, who are reported to be again advancing.

"Mr. Granelly, a member of the State Convention, has arrived from Springfield, which place he left on Friday last. He says a body of 3000 of Gen. Price's cavalry have made their appearance at Sarcoxie, and foraging parties follow up the track of our receding army, plundering Union citizens, and renewing with impunity every species of outrage. Mr. G. passed a train of emigrant wagons, a mile long, containing Union refugees. Another train of fifty wagons has arrived in Jefferson City."

We do not undertake to say that this evil is the fruit of Fremont's removal,—but it will be so construed; and it may not be easy to explain it away.

That mythical character—the unknown author of "Rutledge"—whose mask no one has yet succeeded in peeping behind, and whose personality is as mysterious as that of Junius, the *Stat Nominis Umbra* of all time—has, we learn, a new novel, ready for the press, entitled "The Sutherlands," which will be published by Messrs. Rudd & Carleton, of New York. If the success of an author's first book be a criterion for a second, "The Sutherlands" will reach a circulation of more than twenty thousand copies, and still fall far short of that attained by "Rutledge."

Charles Reade's new work—"the Cloister and the Hearth," published by Messrs. Rudd & Carleton is having a large sale even in these times. It is marked by Reade's eccentricities and excellencies, and is decidedly popular.

What the South cannot do for this country.— Conquer a piece.

FROM THE SECOND REGIMENT.

BUDD'S POINT, Md., Nov. 17.

Messrs. Editors: — Last Wednesday morning we struck our tents, and about 12 o'clock we pitched them again. Probably we shall remain here for two or three months. We are nearer the shores of the Potomac, and nearer the batteries on the Virginia side, and of course it is a little more lively, as whenever a vessel comes up or goes down the river, the rebels commence their firing. They do little damage. Every day since we have been here, they have made a target of some of our vessels, but as yet they have not struck one.

Their batteries being situated on high ground, it is difficult for them to fire into a vessel:—their shell either fall short or go clear over on the Maryland shore. A great many of their shells do not burst, and some are filled with sand, showing that there is something wrong on their side.

By walking a quarter of a mile from camp we have a good view of the river and the batteries, (or where the batteries are, for all that can be seen is the smoke of their cannon) on the other side. If a crowd of men get together, the rebels sometimes fire upon them.

On the afternoon we arrived at camp a schooner loaded with lumber got becalmed, opposite one of the batteries, and as they thought it would be an easy prize they put off in boats; but just as they got on board, seven companies of the Massachusetts 1st arrived on the shore, and immediately started for the schooner. The rebels, as soon as they found they were to meet any opposition, set her on fire and started for Virginia. But our men got on board in time to put the fire out, and to give them a military salute with their rifles. I don't know how many were killed, but one boat that started from Virginia with twelve men returned with only six.

At one place on the shore the river is so narrow that on a fair day our picket guards can converse with theirs, and sometimes the conversation is amusing. A few days since, one of our pickets asked them where their Black Horse Cavalry was! The answer was, "gone to h—l with your Fire Zouaves." I think they have some idea of a traitor's doom.

We have a few fortifications thrown up, and are still at work; and we are waiting for some large guns to throw a few shells across to them. I think we can send them something besides sand.

I don't think the rebels have got a great many cannon: most of their firing is done by a battery of Flying Artillery, for with a glass they can be seen galloping from one battery to another.

We have a very good camping ground; it is situated in a hard wood growth which protects us from the wind. The boys are building huts and making every preparation for winter. It looks like home to sit down in front of a good fire. If we stay long enough to pay for our labor we will be willing to build a small village for the benefit of the State, and small as it will be, it will be larger than any I have seen either in Virginia or Maryland, for the houses are from one to three miles apart, with nothing but woods on both sides of the road, and the mud six inches deep. The principal products of Maryland are tobacco, wood, and a kind of sticky mud (which is a grand thing for making huts, as after you once get them stuck together you can't get them apart,) and a large lot of wild hogs running in the woods. But if we stay here much longer I think the race will become extinct, in this part of the State at any rate. It is a very common sight to see two or three hogs hanging to the trees. As long as they last we shall fare well, but then we must come down to our regular salt junk. C. E. P.

For the Chronicle.

COWARDLY. — Some sophomores at Brown University did a "big thing," no doubt they deemed it, a few nights since. They drove a cow up three flights of stairs, imprisoned it in an empty room of "Hope College," and then besmeared the animal with a complete coat of paint. Brindle, who had never before been to college, and was not aware of the poisonous nature of certain pigments, quietly and very naturally essayed to lick it off. Bovine stomach was in a lamentable condition for a day and night. Then the poor creature slept the sleep of the dead. As the animal belonged to one who could ill afford it, the loss in species was promptly made good in specie by the students of the University. We pity the fellows whose intellects conceived the joke.

☞ Mr. Elliott, of Freedom, Me., lately a prisoner at Fort Warren, publishes a letter in the Bangor Whig, which he closes as follows:

"I take this occasion to tender my thanks to the patriotic gentlemen of both political parties, who have generously interested themselves in my behalf, and to assure them that their confidence in my loyalty has not been misplaced. I have never followed, and hope I never may follow, any flag but that of our country, which I am ready to defend against all foes, at whatever cost or sacrifice."

Face cards.—Card photographs.

THE REBELLION.

There was a grand review of about 70,000 of the Federal troops on the other side of the Potomac, Wednesday.

The rebels are strengthening the battery on Sewall's Point, in anticipation of an attack.

A correspondent of the Louisville Journal denies emphatically that Zollicoffer had blockaded Cumberland Gap by blasting rocks, &c.

Floyd, with his entire force, has abandoned his position near Gauley Bridge, and has gone towards Wythville, where it is understood he intends to make a stand.—Gen. Rosecrans was still at Gauley Bridge, with his entire command. He contemplates making a forward movement as soon as the necessary arrangements can be completed.

A body of 3000 of Gen. Price's cavalry have made their appearance at Sarcoxie, Mo., and foraging parties follow up the track of our receding army, plundering Union citizens, &c.

The gunboats, which for two or three days lay near Beaufort, have been withdrawn, Gen. Sherman having decided that the place had no importance in a military point of view. At Hilton Head the fort has been repaired, its ditch enlarged and deepened to guard against a land attack, and a number of guns mounted on the land front, covering every avenue of approach; new magazines have been constructed, and other new works have been laid out and are in process of construction. Other works, constituting an impregnable chain, will be constructed from one side of the island to the other, and armed with heavy guns, with ditches, &c.

Sam Houston still lives—but (the Galveston Civilian says) in very precarious health.

EASTERN VIRGINIA.

The counties of Virginia, viz. Accomac and Northampton, are cut off from the rest of the State, by the Chesapeake Bay. Accomac County joins Maryland, and is a narrow piece of land, between the Chesapeake and the Atlantic. It contains about 10,000 whites, 3,000 free negroes, and 5,000 slaves. Northampton County joins Accomac, and the extreme south end or point, of it, is Cape Charles. This County contains about 3,500 whites, 800 free negroes, and 4,000 slaves.

Gen. Dix has lately sent a small force into this part of Virginia, from Baltimore, and information received at headquarters, from Accomac County, Va., announces the disbanding of about 3000 rebel troops, who had been in camp near Drummondtown.—As the expedition advanced, the rebel flags disappeared, and the Union citizens hoisted their flags which had hitherto been concealed.

The proclamation of General Dix was scattered through the country, and, when received in the camp where the Union men had been drafted and forced into the rebel service, they rebelled, and the commanding officers were compelled to disband their whole forces.

The Secessionists stated that the Union force coming against them was so great that they thought it folly to resist, and the Union men met them with cheers and great enthusiasm. As far as the expedition had progressed there was every evidence that a large majority of the people were opposed to Secession, and the troops were hailed as their deliverers from tyranny and oppression. The people are suffering for many of the necessaries of life, and were rejoicing at the prospect of an early restoration of their trade and commerce with Philadelphia, on which they depended for their livelihood.

Information received from Northampton county warrants the belief that the rebels will also disband. They have destroyed bridges and felled trees across the roads, but the proclamation has given boldness to the Union men and satisfaction to the people generally. All who are not loyal will be dismissed. Union men who had fled into Maryland to prevent being forced into the militia, were returning to their homes.

☞ Beauregard's Bull Run report has made no end of disturbances in the South. From what is printed on both sides in the rebel newspapers, it is evident that the Louisiana General not only reports the battle, but also what he calls the "imbecility" of Davis and his Cabinet. It seems that "anterior to the battle of Bull Run, General Beauregard submitted to Davis a plan for a junction of the armies of the Shenandoah and the Potomac, and an advance upon Washington, and that the plan was rejected by Davis." This, of course, inflames the suspicion of the chivalry; and one writer declares that Davis is the victim of petty jealousies and prejudices of which the South could never have entertained a suspicion when he was elected President. And another, speaking of the election says:—"It is disagreeable to be at points with one who is head of the Government and generally profitless. But were the election to be determined now by Congress, Mr. Davis would be flung as high as a kite."

The oldest season.—Adam's fall.

For the Chronicle.

BEFORE THE BATTLE.

BY ALBERT LAIGHTON.

Tramp, tramp, tramp,—
The sturdy Northmen come;
With a steady beat their falling feet
Keep time to the rolling drum.

Tramp, tramp, tramp,—
As the serried columns near,
The martial throb of a nation's heart
In their measured tread I hear.

Shout, shout, shout,
Let Freedom's war-cry ring,
Till a million swords that now are sheathed,
Out of their scabbards spring!

Strike, strike, strike,
For our Country and the Slave:
For the starry flag baptized anew
In the blood of the fallen brave.

Woe, woe, woe,
When the battle-thunder roars,
When the rising storm o'er the foemen breaks,
And the fiery deluge pours.

☞ The Louisville Democrat is disgusted with the chivalry. It thinks "they made a poor fight and a tall run at Beaufort. It's nothing for a vulgar fellow to run; but think of the chivalry making the rate of 2.40, with hair and coat-tail straining in parallel lines, and his dignified legs contending which shall get before t'other.—And the white people all running away, leaving the negroes behind. Only one of the chivalry left to drink up all the Whiskey. Too much freight to get away. We are ashamed of the whole concern. They don't belong to the chivalry at all."

☞ The first ship of the British Navy was the "Great Harry," built by Henry the Seventh, at a cost of only fourteen thousand pounds, in the early part of the sixteenth century. Prior to that time England had neither arsenals nor dockyards, her permanent naval force then consisting of fifty-seven vessels, each carrying twenty-one men and a boy.

☞ There is a report from Halifax, that H. R. H. Prince Alfred has recently had his royal ears slapped by a British middy. A complaint was made to the officer in command, which resulted in H. R. H. being told that it was necessary to keep a civil tongue in his head.

☞ Col. Mulligan, the hero of Lexington, is lecturing in Chicago on the "Chivalry of the Republic." The proceeds of the lectures are to be devoted to the relief of the widows and orphans of those who fell during that memorable siege.

☞ A Saxon Princess, who refused the hand of the first Napoleon, is now living at Dresden. She has two sisters over sixty years old, who have also refused offers from Dukes innumerable, and are still leading lives of nun-like celibacy.

☞ The Harpers rarely, if ever, issued a better number of their Magazine than that for December. Boston: A. Williams & Co. Portsmouth: J. H. Foster.

A private letter from a gentleman in Chicago to his relative in Bath, says the tide sets strong against Fremont in that region. And that those who were his warmest friends are now against him. The letter was written by a zealous Republican.—*Bath Times.*

☞ O. H. Saxton was convicted of twenty three illegal sales of liquor at Burlington Vt., last week, and fined $430 and costs. He appealed.

A lame proceeding.—What madness it was for the rebels to try to set on foot a rebellion that really never had a leg to stand on.

☞ Baron Ricasoli states that the national flag of Italy floats over 800,000 tons of shipping, manned by 100,000 sailors.

A BLACK CURRANT.—A fugitive slave. *New Bedford Mercury.*

Yes, massa, *berry* black.—*Prov. Post.*

☞ Appleton Oaksmith, the reported owner of the slaver Augusta, has been sent to Fort Lafayette.

The best that government can do with traitors.—Give them full swing.

Portsmouth, N. H., Nov 19, 1861.

Special Notices.

MOTHERS, OR YOU THAT HAVE THE CARE OF CHILDREN, know the difficulty of getting them to take medicine, and it is almost as painful to the parent to administer the doses, as to see the child suffer by disease, and you will hail with joy any discovery that will alleviate this difficulty, and at the same time be a more efficient agent to restore health. DOCTOR GIFFORD'S HOMEOPATHIC CURATIVES do this. Being as they are, simple medicated sugar pills, they can be administered to a child even when asleep without disturbing it, and the action of the medicines will in all cases be satisfactory. Children troubled with worms, colic, diarrhea, or teething babies, have a remedy here that is perfectly harmless and at the same time can be given without trouble, and are good in their results.

Sold by J. H. THACHER, 12 Market Sq., and corner State and Pleasant streets, Portsmouth; M. S. BURR & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere on receipt of price, 25 cts. per box, by

TREES.

Messrs. Editors:—Now that it is a good (and by some considered the best) time to set trees, it may be a good time to discuss their merits.

I do not *know* but *believe*, (if what is told me is true,) that the horse chestnut is poisonous; the medical books say that "if the fruit is dried and pulverized it is a good errhine, and will answer the purpose of snuff"; so without going further into the subject, is it not fair to conclude that as tobacco is well known to be poisonous, and the horse chestnut used and prepared in the same way, has the same effect is also poisonous? but admitting the argument not conclusive (as there are other things to make one sneeze) is there any thing that the tree, or its fruit is good for that there is not a better; and is not both the tree and its fruit considered a common nuisance. In beauty its blossoms are far exceeded by the poisonous dog wood, and are not to be compared either in fragrance or beauty to numerous fruit, or other trees, among which are the pear, apple, peach, scotch laburnum, (called golden chain) and the mild and beautifully fragrant linden tree.

We read that man was cast out, or driven from paradise; but there is no recorded law that he should not plant another.—By some it may be considered radical and utopian in these localities to advocate having our streets and public places bordered with growing and beautiful shrubbery, and fruit trees; but after a city or town has enjoyed such a necessary luxury, for ten or twenty years, I think it would be thought *more* radical to exterminate them, and whoever should presume to do it would be likely to meet with summary justice, and the execrations of mankind. It would be a relief and protection to many of the crowded gardens in this place to have some of their trees, shrubbery and flowers, set on the streets. B.

☞ We understand that Rev. Mr. Foote of Salem, Mass., has declined the call from the Unitarian Society in this city, tendered him some few months since.

☞ We are told that a *portion* of the Schools in this city are to have next week for Thanksgiving holiday time. We say let them *all* have it.

☞ We endeavored in vain to obtain dispatches from Boston, Thursday afternoon and evening. Our correspondents, including the agent of the Associated Press, were absent from the city, or busily engaged in keeping Thanksgiving, as they ought to be. No afternoon Boston papers were published yesterday, and there will be none this morning, so that our citizens will be unable to obtain the news from thence until five o'clock to-day. We shall therefore probably publish a Chronicle Extra about noon, giving the latest news received in Boston up to that time—for the satisfaction and benefit of the public, and not for our own.

☞ The Concert by the Hutchinson Family, last evening, was—as every one knew it would be—eminently successful and satisfactory. John maintained admirably the reputation he has acquired by so many years' experience, and his new and excellent "family" proved that there was still far more left of the original troupe than the mere name;—much of the old spirit yet remains.

They will give another concert at the Temple this evening, with a change of programme.

—— During the recent passage of the 5th New Hampshire regiment across the Sound, a fellow named Lord Harris of Norwich, was discovered selling liquor to the soldiers. He was immediately arrested, handcuffed, and kept under close guard until the regiment reached a barren tract of country, twelve miles south of New Brunswick in Jersey, where the offender was taken from the train, marched into a thick forest to the music of the "rogue's march," and there set at liberty as far as his feet were concerned but with the shackles left upon his hands. He pleaded hard to have the manacles taken off, but without avail.

ENGLAND'S EXPERIENCE IN WAR.—"And why was all this striving in blood against insurmountable difficulties? Why were men sent thus to slaughter, when the application of a justcience would have rendered the operation comparatively easy?—Because the English ministers were quite ignorant of the exigencies of war; because the English people are warlike without being military, and under the pretence of maintaining a liberty, oppose in peace all useful martial establishments. Expatiating in their schools and colleges upon Roman discipline and Roman valor, they are heedless of Roman institutions; they desire, like that ancient republic, to be free at home and conquerors abroad, but start at perfecting their military system, as a thing incompatible with a constitution, which they yet suffer to be violated by every minister who trembles at the exposure of corruption.—In the beginning of each war England has to seek in blood for the knowledge necessary to insure success, and, like the fiend's progress towards Eden, her conquering course is through chaos followed by death."—[*Napier's Peninsular War; vol. 4, p. 474.*

☞ We are informed that Mr. William Adams, Jr., Shipping Master, of Boston, has taken rooms in connection with the U. S. Naval rendezvous in Portsmouth, N.H., and is desirous to enlist 1000 landsmen and ordinary seamen. He is prepared to furnish outfits immediately to all, and will thus save those who ship at his office, from much inconvenience and discomfort incident upon the former mode of enlistment.

☞ The New-Hampshire Gazette and Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room. Price 3 cents. $1 per year, in advance.

BILL HEADS and Cards are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ See a woman, in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

TO NEW SUBSCRIBERS.

To all who shall pay $4 for the Daily Chronicle, or $1 for the Weekly, for the year 1862, we will furnish the paper without charge to Jan. 1.

MARRIAGES.

In this city, Nov. 19th, by Rev. Jona. Hall, Capt. ORLANDO G. ROBINSON of Tiebury, Mass., to Miss MARY J. LAUGHTON of Portsmouth, daughter of the late Mr. E. O. Laughton.

—Nov. 20th, by the same, Mr. BENJAMIN J. REMICK to Miss CARRIE M. MARDEN, daughter of Mr. Robert M. Marden, all of Portsmouth.

DEATHS.

In Philadelphia, 18th inst, JULIA D. MOORE, widow of the late James S. Moore, and mother of Rev. Henry D. Moore, of Portland.

☞ The funeral services of the child of W. R. Preston will take place at half-past 2 o'clock, this (Friday) afternoon.
